MERCHANT SHIPPING LOAD-LINE.

THE MERCHANT SHIPPING (GERMAN LOAD-LINE CERTIFICATES) ORDER, 1935.

At the Court at Buckingham Palace, the 13th day of August, 1935.

Present :

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by section 445 of the Merchant Shipping Act, 1894 (57 & 58 Vict., c. 60) (hereinafter called "the principal Act"), it was enacted that where the Board of Trade certify that the laws and regulations for the time being in force in any foreign country and relating to overloading and improper loading are equally effective with the provisions of the principal Act relating thereto His Majesty in Council may direct that on proof of a ship of that country having complied with those

laws and regulations she shall not when in a port of the United Kingdom be liable to detention for non-compliance with the said provisions of the principal Act nor shall there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions :

And whereas by an Order in Council dated the 21st day of November, 1908 (S.R. & O. 1908 (No. 1143), p. 646), after reciting that the Board of Trade had certified that certain statutory regulations which had been approved by the German Government relating to overloading so far as regards the assignment of load-lines to German ships were equally effective with the corresponding regulations in force in the United Kingdom respecting the assignment of load-lines to British merchant ships it was directed that on proof that German ships had complied with the aforesaid German regulations such ships should not, when in ports of the United Kingdom, be liable to detention for non-compliance with the provisions of the Merchant Shipping Acts relating to overloading, nor should there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions :

And whereas by subsection (2) of section 67 of the Merchant Shipping (Safety and Load-line Conventions) Act, 1932 (hereinafter called "the Act"), it was amongst other things enacted that section 445 of the principal Act should be repealed as from the appointed day subject to a proviso that any Order in Council in force immediately before the appointed day under section 444 or section 445 of the principal Act should, until revoked, continue to have effect as if for references in the Order to Part V of the principal Act or to the provisions of the principal Act relating to overloading or improper loading, as the case might be, there were substituted references to Part II of the Act so however that no such Order should continue to have effect with respect to Load-line Convention ships plying on international voyages :

And whereas by subsection (3) of section 67 of the Act it was enacted that for the purpose of the section the expression "the appointed day" meant such day as His Majesty in Council might appoint :

And whereas by an Order in Council dated the 10th day of November, 1932 (S.R. & O. 1932 (No. 917), p. 929) His Majesty appointed the 1st day of January, 1933, as the date on which Part II of the Act should come into operation :

And whereas by section 738 of the principal Act it is amongst other things provided that where His Majesty has power under that Act to make an Order in Council His Majesty may from time to time by Order in Council revoke any Order so made :

And whereas it is expedient that the said recited Order in Council of the 21st day of November, 1908, should be revoked :

And whereas by subsection (2) of section 59 of the Merchant Shipping (Safety and Load-line Conventions) Act, 1932, it is amongst other things enacted subject to the proviso that no Order in Council made under the subsection shall apply to Load-line Convention ships plying on international voyages, that where the Board of Trade certify that provision has been made for the fixing, marking, and certifying of load-lines by the law in force in any foreign country with respect to ships (or any class or description of ships) of that country and has also been so made (or has been agreed to be so made) for recognizing United Kingdom load-line certificates as having the same effect in ports of that country as certificates issued under the said provision ; and that the said provision for the fixing, marking, and certifying of load-lines is based on the same principles as the corresponding provisions of Part II of the Act and is equally effective, His Majesty may by Order in Council direct that load-line certificates issued in pursuance of the said provision in respect of ships (or that class or description of ships) of that foreign country shall have the same effect for the purpose of Part II of the Act as United Kingdom load-line certificates :

And whereas the Board of Trade have certified that provision has been made by the law in force in Germany for the fixing, marking, and certifying of load-lines on German ships of the class or description specified in the Schedule hereto, and that it has been agreed that provision shall be so made for recognizing United Kingdom load-line certificates as having the same effect in German ports as certificates issued under the said first-mentioned provision, and, further, that the said first-mentioned provision is based on the same principles as the corresponding provisions of Part II of the Act and is equally effective :

Now, therefore, His Majesty, in pursuance of the powers vested in him by section 59 of the Act and of all other powers enabling him in that behalf, by and with the advice of His Privy Council, is pleased to direct, and doth hereby direct as follows :—

1. The aforesaid Order in Council dated the 21st November, 1908, is hereby revoked.

2. Load-line certificates issued in respect of German ships of the class or description specified in the Schedule hereto in pursuance of the aforesaid provision for the fixing, marking, and certifying of load-lines shall have the same effect for the purpose of Part II of the Act as United Kingdom load-line certificates.

3. The Interpretation Act, 1889 (52 & 53 Vict., c. 63) shall apply to the interpretation of this Order as it applies to the interpretation of an Act of Parliament.

4. This Order may be cited as the Merchant Shipping (German Load-line Certificates) Order, 1935.

F. V.—Government Research Grants.

RULES FOR ADMINISTERING THE GOVERNMENT RESEARCH GRANTS.

All grants shall be subject to the following rules, and each grantee shall be duly informed of that condition:—

1. Every application for a grant shall be made in the first case to a member body and forwarded with the recommendation and comment of that body to the Society, provided that the Council may from time to time on its own initiative suggest subjects for research the investigation of which it deems is desirable, and ask such investigators as it thinks fit to undertake such researches, the Society voting from its fund for research grants provision to defray the cost of apparatus, material, and working-expenses, including assistance. (Gazetted 28/5/25.)

2. All instruments, specimens, objects, or materials of permanent value whether purchased or obtained out of or by means of the grant or supplied from among those already at the disposal of the Society are to be regarded, unless the Research Grants Committee decide otherwise, as the property of the Society, and are to be returned by the grantee for disposal according to the orders of the committee at the conclusion of his research or at such times as the committee may determine.

3. Every grantee shall furnish to the Research Grants Committee on or before the 31st March following upon the allotment of the grant a report (or, if the object of the grant be not attained, an interim report to be renewed at the same date in each subsequent year until a final report can be furnished or the committee dispense with further reports) containing—(a) A brief statement showing the results arrived at or the stage which the inquiry has reached; (b) a general statement of the expenditure incurred, accompanied as far as possible with vouchers; (c) a list of the instruments, specimens, objects, or materials purchased or obtained out of the grant or supplied by the committee which are at present in his possession; and (d) reference to any Transactions, journals, or other publications in which results of the research have been printed. In the event of a grantee failing to send in within three months of the said 31st March a report satisfactory to the committee he may be required on resolution of the Council to return the whole of the sum allotted to him.

4. Where a grant is made to two or more persons acting as a committee for the purpose of carrying out some research, one member of the said committee shall assume the responsibility of furnishing the report and receiving and disbursing the money.

5. Papers in which results are published that have been obtained through aid furnished by the Government grant shall contain an acknowledgment of that fact.

6. Every grantee shall before any of the grant is paid to him be required to sign an engagement that he is prepared to carry out the general conditions applicable to all grants, as well as any conditions which may be attached to his particular grant.

7. In cases where specimens or preparations of permanent value are obtained through a grant, the committee shall as far as possible direct that such specimens shall be deposited in a museum or University college within the province where the specimens or material were obtained or in which the grantee has worked. The acknowledgment of the receipt of the specimens by such institution shall fully satisfy the claims of the Society.

8. In cases where after completion of a research the committee directs that any instrument or apparatus obtained by means of the grant shall be deposited in an institution of higher learning, such deposit shall be subject to an annual

report from the institution in question as to the condition of the instrument or apparatus and as to the use that has been made of it.

9. Grants shall be given preferentially to investigations which appear to have an economic bearing; purely scientific investigations to be by no means excluded. When the research is one that leads to a direct economic advance, the Government shall reserve to itself the right of patenting the discovery and of rewarding the discoverer, but it is to be understood that grants from the research-grant vote are not in the nature of a reward or a prize but for out-of-pocket expenses incurred by the research worker, including salary or endowment of assistant, but not salary for the grantee himself. Plants, books, apparatus, chemicals, &c., purchased for applicants are to remain the property of the Society and eventually to form a loan collection in the manner now practised by the Royal Society of London. (Gazetted 28/5/25.)

10. In the case of a refusal to recommend a grant the Standing Committee shall not give any reason for its refusal unless such reason is stated in the minutes of the Standing Committee's meeting. (Gazetted 28/5/25.)
