(1) When any building-work is being carried on it shall be the duty of the owner or person in charge to make provision to the satisfaction of the Inspector for the protection of workmen and others within such building or in the vicinity thereof by boarding over the joists of such building and keeping them so boarded over for so long as any risk of accident would be incurred by the removal of such protection.

(2) Where the work abuts on any thoroughfare it shall be the duty of the owner or person in charge to provide protection for passers-by to the satisfaction of the Inspector.

(3) All runs, gangways, or similar means of communication between different portions of scaffolding or buildings shall be not less than three planks wide, and all such planks shall be fastened together in such a manner as to prevent unequal sagging, and if the Inspector so directs shall be protected with guard-rails.

(4) Ladder-brackets shall be used only on ladders approved by the Inspector, and shall not be used above the height of 12 ft.

(5) Every working-platform at a greater height than 10 ft. from the ground shall be at least 18 in. wide, and, unless otherwise authorized by the Inspector, shall have a guard-rail 3 ft. from the floor of the platform. Such guard-rail shall be of timber not less than 3 in. by 2 in.

Provided that working-platforms used by painters up to a height of 16 ft. shall be considered to be sufficiently wide if constructed of one 12 in. by 1½ in. plank.

(6) No person except the dog-man shall be lifted by a crane or ride in a barrow-hoist or adopt other unsafe means of moving from place to place about a building; every other person shall use the ladders, staircases, or gangways provided for the purpose. No owner or person in charge shall permit any person except the dog-man to be lifted by a crane or ride in a barrow-hoist: Provided that it shall be permissible for a person to ride in a suitable receptacle of sufficient depth to ensure safety if effective means are taken to prevent spinning and ensure an efficient system of signalling.

(7) Every box used for hoisting bricks or other material shall be closed in except on one side. One or more of the sides may be hinged or securely slotted.

(8) All wellholes and openings in floors, whether on scaffolding or buildings, shall be properly fenced with a substantial guard-rail at the height of 3 ft.

(10) No person shall work upon any scaffolding in course of erection without the permission of the employer or the person in charge of such scaffolding.

(2) All material used for sheeting and poling-boards shall be in good condition, and all timbers shall be sound, straight, free from cracks, shakes, and large or loose knots, and of the required dimensions throughout.

(3) When deemed necessary by an Inspector, the sides of all trenches which are 5 ft. or more in depth and over 8 ft. in length, shall be securely held by poling-boards and struts.

(4) All trenches of over 8 ft. in length and 5 ft. or more in depth in hard compact material shall be braced at intervals not exceeding 8 ft. with 6 in. by 2 in. poling-boards or heavier material, placed vertically in the trench opposite each other against the walls. The poling-boards shall, if possible, extend to the bottom of the trench, otherwise as low as possible to clear the top of the pipe, sewer, conduit, or other material to be placed in the bottom of the trench.

(5) The poling-boards shall be supported by walings placed horizontally, and held in position by screw-jacks or by struts.

The number of walings shall be as follows:—

Depth of Trench.	Number of Walings.	Depth of Trench.	Number of Walings.
5 ft. to 8 ft. ..	2	12 ft. to 16 ft. ..	4
8 ft. ,, 12 ft. ..	3	16 ft. ,, 20 ft. ..	5

The struts shall be not less than the size given in the following table. Struts and screw-jacks shall be spaced not more than 6 ft. apart, except at the joints of the walings, where they must be closer.

Width of Trench.	Size of Strut.
1 ft. to 3 ft. .. ..	4 in. by 3 in.
3 ft. ,, 6 ft. .. ..	6 in. ,, 3 in.
6 ft. ,, 8 ft. .. ..	6 in. ,, 6 in.

(6) The timbering of trenches shall be carried along with the excavation, and shall in no case be omitted, except that where a mechanical digger is used the timbering shall be placed within 10 ft. of the lower end of the jib.

(7) Trenches in saturated, filled, or unstable material (not running material) shall be close timbered. Poling-boards shall be not less than 6 in. by 2 in., and held by walings not less than 6 in. by 3 in. Struts shall be of the same size and number as defined by paragraph (5).

(8) Where running material is encountered, poling-boards or runners shall be tongued and grooved. Walings and struts shall be of the size and number required by paragraph (5).

(9) An Inspector may order either lighter or heavier timbering should he deem it necessary.

(10) Excavated material shall not be placed nearer than 1 ft. to the edge of the trench. In running material, provided circumstances permit, no material shall be placed nearer than 3 ft. to the edge of the trench.

(11) All trenches 5 ft. or more in depth shall be supplied with one ladder for each 200 ft. of trench or fraction thereof, which ladder shall extend from the bottom of the trench to at least 3 ft. 6 in. above the top.

GALWAY, Governor-General.

ORDER IN COUNCIL.

At the Government Buildings at Wellington, this 11th day of November, 1935.

Present:

THE RIGHT HON. G. W. FORBES PRESIDING IN COUNCIL.

At the Court at Buckingham Palace, the 20th day of December, 1934.

Present :

THE KING'S MOST EXCELLENT MAJESTY.  
LORD PRESIDENT.  
LORD CHAMBERLAIN.  
SECRETARY SIR JOHN SIMON.  
SIR PHILIP SASSOON.

WHEREAS by the Extradition Acts, 1870 (33 & 34 Vict., c. 52) to 1932 (22 & 23 Geo. V, c. 39) it was, amongst other things, enacted that, where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, His Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State; and that His Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of His Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient:

And whereas under the provisions of Article 19 of the Treaty signed on the 11th day of January, 1932, between His Majesty and the President of the Republic of Poland for the mutual extradition of fugitive criminals, the terms whereof were recited in the Poland (Extradition) Order in Council, 1934, and are as follows:—

His Majesty the King of Great Britain, Ireland, and the British Dominions beyond the Seas, Emperor of India,

And the President of the Republic of Poland,  
Desiring to make provision for the reciprocal extradition of criminals,

The President of the Republic of Poland:

  29. Dealing in slaves in such manner as to constitute a crime or offence against the laws of both States.
- Extradition is also to be granted for participation in any of the aforesaid crimes or offences, before, during, or after the crime is committed: provided that such participation is punishable by the laws of both the High Contracting Parties (that is to say, in Poland, in accordance with the laws of at least one of the Provinces).

Article 4.

Each party reserves the right to refuse or grant the surrender of its own subjects or citizens to the other party.

Article 5.

The extradition shall not take place if the person claimed has already been tried and discharged or punished, or is still under trial in the State applied to, for the crime or offence for which his extradition is demanded: provided that the discharge of the accused on the ground that the crime or offence was committed abroad shall constitute no hindrance to his subsequent extradition.

If the person claimed should be under examination or under punishment in the State applied to for any other crime or offence, his extradition shall be deferred until the conclusion of the trial and the full execution of any punishment awarded to him.

Article 6.

Extradition shall not be granted if the accused has by lapse of time, in accordance with the laws of that part of the territories of the High Contracting Parties in which he is found, acquired exemption from prosecution or punishment with respect to the crime or offence for which his surrender is claimed.

Article 7.

A fugitive criminal shall not be surrendered if the crime or offence in respect of which his surrender is demanded is one of a political character, or if he proves that the requisition for his surrender has, in fact, been made with a view to try or punish him for a crime or offence of a political character.

Article 8.

A person surrendered can in no case be kept in custody or be brought to trial in the State to which the surrender has been made for any other crime or offence, or on account of any other matters, than those for which the extradition shall have taken place, until he has been restored, or has had an opportunity of returning to the State by which he has been surrendered (whether he has made use of this opportunity or not) or else until having returned there he reappears in the country to which he has been previously surrendered.

This stipulation does not apply to crimes or offences committed after the extradition.

Article 9.

Subject to the provisions of Articles 19 and 20, the requisition for extradition shall be presented by the diplomatic agent of the High Contracting Party requiring the extradition to the Secretary of State or Minister for Foreign Affairs of the High Contracting Party applied to.

The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime or offence had been committed there.

If the requisition relates to a person already convicted, it must be accompanied by the sentence of condemnation passed against the convicted person by the competent court of the State that makes the requisition for extradition.

A sentence passed *in contumaciam* is not to be deemed a conviction, but a person so sentenced may be dealt with as an accused person.

Article 10.

If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

Article 11.

In urgent cases a criminal fugitive may be apprehended under a warrant issued by any Police Magistrate, Justice of the Peace, or other competent authority in either State, on such information or complaint, and such evidence, or after such proceedings, as would, in the opinion of the authority issuing the warrant, justify the issue of a warrant if the crime or offence had been committed or the person convicted in that part of the dominions of the two Contracting Parties in which the Magistrate, Justice of the Peace, or other competent authority exercises jurisdiction. He shall, in accordance with this Article, be discharged if within the terms of thirty days a requisition for extradition shall not have been made by the diplomatic agent of the other State in accordance with the stipulations of this Treaty.

Article 12.

Extradition shall take place only if the evidence be found sufficient, according to the laws of the State applied to (a) either to justify the committal of the prisoner for trial, in case the crime or offence had been committed in the territory of the same State, or (b) to prove that the prisoner is the identical person convicted by the courts of the State which makes the requisition, and that the crime or offence of which he has been convicted is one in respect of which extradition could, at the time of such conviction, have been granted by the State applied to.

No criminal shall be surrendered until after the expiration of fifteen days from the date of his committal to prison to await the warrant for his surrender.

*Article 13.*

In the examinations which they have to make in accordance with the foregoing stipulations, the authorities of the State applied to shall admit as valid evidence the sworn depositions or the affirmations of witnesses taken in the other State, or copies thereof, and likewise the warrants and sentences issued therein, or copies thereof, and certificates of, or judicial documents stating the fact of a conviction, provided the same are authenticated as follows:—

1. A warrant, or copy thereof, must purport to be signed by a Judge, Magistrate, or officer of the other State, or purport to be certified under the hand of a Judge, Magistrate, or officer of the other State to be a true copy thereof, as the case may require.

2. Depositions or affirmations, or the copies thereof, must purport to be certified, under the hand of a Judge, Magistrate, or officer of the other State, to be the original depositions or affirmations, or to be true copies thereof, as the case may require.

3. A certificate of, or judicial document stating the fact of a conviction must purport to be certified by a Judge, Magistrate, or officer of the other State.

In every case such warrant, deposition, affirmation, copy, certificate, or judicial document must be authenticated, either by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some other Minister of the other State, or by any other mode of authentication for the time being permitted by the law of the State to which the application for extradition is made.

*Article 14.*

If the extradition of an individual is claimed by one of the High Contracting Parties in pursuance of the present Treaty and his extradition is also claimed by one or more other States, the State applied to shall in its absolute discretion determine to which State the extradition shall be granted.

*Article 15.*

If sufficient evidence for the extradition be not produced within two months from the date of the apprehension of the fugitive, or within such further time as the State applied to, or the proper tribunal thereof, shall direct, the fugitive shall be set at liberty.

*Article 16.*

All articles seized which were in the possession of the person to be surrendered at the time of his apprehension, and any articles that may serve as a proof of the crime or offence shall be given up when the extradition takes place, in so far as this may be permitted by the law of the State granting the extradition.

*Article 17.*

Each of the High Contracting Parties shall defray the expenses occasioned by the arrest within its territories, the detention, and the conveyance to its frontier, of the persons whom it may have consented to surrender in pursuance of the present Treaty.

*Article 18.*

The Government of the Republic of Poland, in virtue of Article 104 of the Treaty of Peace, signed at Versailles on the 28th June, 1919, and of Articles 2 and 6 of the Convention concluded between Poland and Danzig on the 9th November, 1920, reserves the right of subsequently declaring that the provisions of the present Treaty are applicable also to the territory of the Free City of Danzig.

*Article 19.*

His Britannic Majesty may accede to the present Treaty on behalf of any of his dominions hereafter named—that is to say, the Dominion of Canada, the Commonwealth of Australia (including for this purpose Papua and Norfolk Island), the Dominion of New Zealand, the Union of South Africa, the Irish Free State, and Newfoundland—and India. Such accession shall be effected by a notice to that effect given by His Britannic Majesty's representative at Warsaw, which shall specify the authority to which the requisition for the surrender of a fugitive criminal who has taken refuge in the Dominion concerned, or India as the case may be, shall be addressed. From the date when such notice comes into effect, which date shall be specified in the notice, the territory of the Dominion concerned or of India shall be deemed to be territory of His Britannic Majesty for the purposes of the present Treaty.

The requisition for the surrender of a fugitive criminal who has taken refuge in any of the above-mentioned dominions or India, on behalf of which His Britannic Majesty has acceded, shall be made by the appropriate consular officer of the Republic of Poland.

Either High Contracting Party may terminate this Treaty separately in respect of any of the above-mentioned dominions or India. Such termination shall be effected by a notice given in accordance with the provisions of Article 23.

Any notice given under the first paragraph of this Article in respect of one of His Britannic Majesty's dominions may include any territory in respect of which a mandate on behalf of the League of Nations has been accepted by His Britannic Majesty, and which is being administered by the Government of the dominion concerned; such territory shall, if so included, be deemed to be territory of His Britannic Majesty for the purpose of the present Treaty. Any notice given under the third paragraph of this Article shall be applicable to such mandated territory.

*Article 20.*

The requisition for the surrender of a fugitive criminal who has taken refuge in any territory of His Britannic Majesty other than Great Britain and Northern Ireland, the Channel Islands, or Isle of Man, or the dominions or India mentioned in Article 19, shall be made to the Governor, or chief authority, of such territory by the appropriate consular officer of the Republic of Poland.

Such requisition shall be dealt with by the competent authorities of such territory: provided, nevertheless, that if an order for the committal of the fugitive criminal to prison to await surrender shall be made, the said Governor or chief authority may, instead of issuing a warrant for the surrender of such fugitive, refer the matter to His Majesty's Government in the United Kingdom.

*Article 21.*

This Treaty shall apply in the same manner as if they were Possessions of His Britannic Majesty to the following British Protectorates—that is to say, the Bechuanaland Protectorate, Gambia Protectorate, Kenya Protectorate, Nigeria Protectorate, Northern Rhodesia, Northern Territories of the Gold Coast, Nyasaland, Sierra Leone Protectorate, Solomon Islands Protectorate, Somaliland Protectorate, Swaziland, Uganda Protectorate, and Zanzibar—and to the following territories in respect of which a mandate on behalf of the League of Nations has been accepted by His Britannic Majesty—that is to say, Cameroons under British mandate, Togoland under British mandate, and the Tanganyika Territory.

*Article 22.*

If after the signature of the present Treaty it is considered advisable to extend its provisions to any British Protectorates other than those mentioned in the preceding Article or to any British-protected State, or to any territory in respect of which a mandate on behalf of the League of Nations has been accepted by His Britannic Majesty, other than those mandated territories mentioned in Articles 19 and 21, the stipulations of Articles 19 and 20 shall be deemed to apply to such Protectorates or States or mandated territories from the date and in the manner prescribed in the notes to be exchanged for the purpose of effecting such extension.

*Article 23.*

The present Treaty shall come into force ten days after its publication, in conformity with the forms prescribed by the laws of the High Contracting Parties. It may be terminated by either of the High Contracting Parties by a notice not exceeding one year and not less than six months.

In the absence of an express provision to that effect, a notice given under the first paragraph of this Article shall not affect the operation of the Treaty as between the Republic of Poland and any territory in respect of which notice of accession has been given under Article 19.

The present Treaty shall be ratified, and the ratifications shall be exchanged at Warsaw as soon as possible.

In faith whereof the above-named plenipotentiaries have signed the present Treaty and have affixed thereto their seals.

Done in duplicate in English and Polish at Warsaw this 11th day of January, in the year 1932.

WILLIAM ERSKINE.  
AUGUST ZALESKI.  
STEFAN SIECZKOWSKI.

His Majesty has acceded to the said Treaty in respect of the following dominions, to wit—the Commonwealth of Australia (including Papua and Norfolk Island) and New Zealand:

And whereas His Majesty has been advised by his Ministers in the aforesaid dominions to take the necessary steps to cause the said-recited Acts to be applied in the case of Poland in respect of the aforementioned dominions, in accordance with the said Treaty:

Office of the Registrar-General,

Wellington, 20th November, 1935.

THE attention of the persons or person within the Dominion of New Zealand in whom is vested ecclesiastical authority over any of the religious bodies enumerated in the Third Schedule annexed to an Act of the General Assembly of New Zealand intitled the Marriage Act, 1908, and of all other persons concerned, is directed to the 11th section of the above-mentioned Act, requiring the several ecclesiastical authorities as aforesaid to send in to the Registrar-General, in the month of December in every year, a correct list of their Officiating Ministers within the meaning of the Marriage Act, 1908, of each of the said religious bodies.

The following are the religious bodies above referred to:—

- The Methodist Church of New Zealand.
- All Congregational Independents.

A minister of religion not connected with any of the aforesaid bodies must send to the Registrar-General in the month of December in each year a certificate signed—

(a) By the recognized head in New Zealand of the religious body to which he belongs; or

(b) By two duly recognized ministers of such religious body; or

(c) By ten adult members thereof, who append to their signatures their description as being such members, declaring that such minister is their Officiating Minister, the said signatures and descriptions being attested by some person who shall verify the signatures to the certificate as the genuine signatures of the persons whose they purport to be, by a statutory declaration signed by such person and appended to the certificate.

In each case enumerated under paragraphs (a), (b), and (c) above, the Minister of Justice must be satisfied that the body of persons named in the certificate is a religious body, and that the applicant is a minister of religion and is a person of good character and otherwise qualified to act as an Officiating Minister. In order to obviate the necessity for further inquiry, it is also requested that the reason for omitting the name of any minister be stated (such as on account of death, absence from New Zealand, or as the case may be).

NOTE.—A windy and wet month, particularly the last ten days. Approximate mean temperature slightly below normal. Total bright sunshine amounted to only 39 per cent. of the possible, and there were four sunless days. Rainfall was 46 per cent. above normal, most of which fell after the 18th. October was the wettest month so far experienced this year. There was a strong north-west gale on the night of 28th-29th, when gusts of 68 and 70 miles per hour were registered. Mean dew-point at 9 a.m., 48.6°; mean vapour pressure, 0.342 in.

NOTES ON THE WEATHER FOR OCTOBER, 1935.

General.—October can be regarded as having been a favourable spring month, the main features of which were the generally mild temperatures and a plentiful rainfall, especially in the last ten days. The rain in South Canterbury relieved the fear of severe loss through the prolonged dry weather, and, by the close of the month, crops and pastures had made a good recovery in that district. Over the greater part of the Dominion there was a vigorous growth of vegetation and consequently stock are in splendid condition, and there has been a remarkable increase in dairy production.

Rainfall.—The total rainfall was above the average over most of the North Island but below in the northern part of the Auckland Peninsula and at a few isolated places in the Gisborne, Hawke's Bay, and Taranaki districts. In the South Island an excess was recorded north of Greymouth and Akaroa, while further south there was a deficiency. The greatest percentage above normal in the North Island occurred at Napier, where it was 88 per cent., and in the South Island at Waiau with 93 per cent. above. In South Canterbury the aggregate was only slightly below or just about the average.

Temperature.—Temperatures were nearly everywhere above the average, although the departure was nowhere a great one. Napier had 2.6 degrees above, Auckland 2.2, and places in South Canterbury and Otago had over 1 degree above. In the coastal area between Wellington City and New Plymouth and at Invercargill it was very slightly below, while in North Canterbury it did not vary much from the average. Christchurch experienced a frost of 9 degrees on the morning of the 20th and one of 8 degrees on the 16th, but otherwise there were no severe frosts during the month, many districts reporting none at all.

Sunshine.—Owing to a considerable amount of dull weather during the latter part of the month sunshine was less than the average in most districts, the only excess being experienced in North Auckland, the East Coast district south from Christchurch, and in Southland. The largest total amount recorded was 215 hours at Napier. Tauranga had 211, Masterton 198, Nelson 191, and Christchurch 186 hours.

Pressure Systems.—Up till the 13th, although pressure was often high over the North Island, frequent depressions of the westerly type moved across the South Island. Consequently, although temporary changes to south-westerly occurred in places, the winds were mainly north-westerly or westerly and invariably strong about and south of Cook Strait. What little rain fell during this period was confined mostly to the western and far southern parts of the South Island, the weather remaining fair and warm in all eastern areas.

During the night of the 13th a rather deep depression of the above type crossed the Dominion, and by the morning of the 14th winds had become south-westerly or southerly generally, rain accompanying the change in most districts, with a drop in temperature. The rainfall was only light and scattered in most of the eastern districts. A slight secondary which developed off Cape Egmont during the night of the 15th and crossed the central portion of the North Island on the 16th was responsible for thunder and hail at places between Taranaki and the East Coast district of the North Island. A heavy hail-storm occurred in Wanganui on the afternoon of the 16th, the storm in the up-river district being a particularly severe one. During the next two days, while an anticyclone was crossing the Dominion, fine weather prevailed generally.
