(a) Extra fancy grade.—Pears of this grade shall be mature, sound, but not overripe, moderately clear-skinned, well-formed, carefully hand-picked from the tree, true to name, free from disease, skin puncture, skin broken at stem and other defects which cause fruit to decay or which are likely to make the fruit unattractive to the consumer.

(b) Fancy grade.—Pears of this grade shall be mature, but not overripe, sound, well-formed, carefully hand-picked from the tree, true to name, free from disease, skin puncture, skin broken at stem and other defects which cause fruit to decay or which are likely to make the fruit unattractive to the consumer.

(c) Good grade.—Pears of this grade shall be mature, but not overripe, sound, carefully hand-picked from the tree, true to name, free from disease, skin puncture, skin broken at stem and other defects which cause fruit to decay or which are likely to make the fruit unattractive to the consumer.

(2) Pears for inclusion in any grade shall, in respect of all varieties, be of a size not less than the size, and shall carry not less than the respective degree of appearance, and not more than the respective percentages of blemish and of spray injury set forth in the Third Schedule hereto with respect to each respective grade mentioned in the said Schedule.

8. GRADING STANDARDS FOR LEMONS.

(1) The following are the standards by which the grade of lemons shall be determined:—

(a) Extra fancy grade.—Lemons of this grade shall include fruit ranging in size from 150 to 252 counts (both inclusive) to the standard case. The lemons shall be of a bright uniform yellow colour, well-grown, of normal form, carefully hand-picked from the tree, with stalk trimmed level with the button, sound, thin-skinned, of good texture, even in size, clean, free from disease, spray injury, frost injury, skin puncture, and other defects which cause fruit to decay or which are likely to make the fruit unattractive to the consumer. Very slightly blemished lemons may be included in this grade, provided that no individual lemon shall have more than 5 per cent. of its surface affected thereby.

(b) Fancy grade.—Lemons of this grade shall include fruit ranging in size from 150 to 252 counts (both inclusive) to the standard case. The lemons shall be of good fairly uniform yellow colour, well-grown, of normal form, carefully hand-picked from the tree with stalks trimmed level with the button, sound, fairly thin-skinned, of fair texture, even in size, free from disease, spray injury, frost injury, skin puncture, and other defects which cause fruit to decay or which are likely to make the fruit unattractive to the consumer. Slightly blemished lemons may be included in this grade, provided that no individual lemon shall have more than 10 per cent. of its surface affected thereby.

(c) Small grade.—Lemons of this grade shall include fruit ranging in size from 270 to 350 counts (both inclusive) to the standard case, but no lemons shall be included in this grade which in any other respect than size is of a lower standard than the standard hereinbefore prescribed for "Fancy" grade.

(d) Good grade.—Lemons of this grade shall include fruit ranging in size from 125 to 252 counts (both inclusive) to the standard case. The lemons shall be of good fairly uniform yellow colour, well-grown, of normal form, carefully hand-picked from the tree, with stalks trimmed level with the button, sound, of fair texture, even in size, clean, free from disease, severe spray injury, frost injury, skin puncture, and other defects which cause fruit to decay or which are likely to make the fruit unattractive to the consumer. Blemished lemons may be included in this grade, provided that no individual lemon shall have more than 15 per cent. of its surface affected thereby.

(e) "X" grade.—Lemons of this grade shall include fruit ranging in size to not more than 368 counts to the standard case. The lemons shall be of a yellow colour in appearance, well-grown, of fair form, carefully hand-picked from the tree, with stalks trimmed level with the button, sound, even in size, moderately clean, free from disease, frost injury, severe spray injury, skin puncture, and other defects which cause fruit to decay or which are likely to make the fruit unattractive to the consumer. Blemished lemons may be included in this grade, provided that no individual lemon shall have more than 20 per cent. of its surface affected thereby.

(2) Lemons for inclusion in any grade shall have a minimum juice content of not less than 25 per cent. by volume. For the purposes of this clause the juice content of lemons by volume shall be determined as follows:—

The fruit volume of a representative sample of not less than twelve lemons shall be measured by water displacement. The quantity of juice contained in the fruit shall then be extracted by reaming or by other approved means; then screened by pressing through cheese-cloth, and its volume measured. The percentage of juice by volume shall be ascertained by dividing the measure of the juice volume by the measure of the fruit volume and multiplying the result by 100.

(3) For the purposes of this regulation lemons of the following respective descriptions shall not be deemed to be of the respective standards prescribed for the several official grades:—

(a) In the case of "Extra fancy," "Fancy," and "Small" grades, lemons from lots showing heavy decay out of storage, lemons with abnormally long necks, rough, coarse, or misshapen lemons, lemons more than slightly sunburned or more than slightly spongy or with more than slightly hollow core, lemons affected with internal decline, lemons which cut dry for any reason, immature lemons, and shrivelled or aged lemons for their class or colour.

(b) In the case of "Good" grade, lemons from lots showing heavy decay out of storage, lemons with abnormally long necks, rough, coarse lemons, lemons badly sunburned, lemons more than slightly spongy or with more than slightly hollow core, lemons affected with internal decline, lemons which cut dry for any reason, immature lemons, and shrivelled or aged lemons for their class or colour.

(c) In the case of "X" grade, lemons badly sunburned or very poor in colour, very rough, very coarse, badly scarred, very spongy or badly hollow core lemons, lemons affected with internal decline, lemons which cut dry for any reason, very dirty lemons, very immature lemons, and shrivelled or aged lemons for their class or colour.

9. PACKING OF GRADED FRUIT.

(1) In this regulation the term "fruit" means apples, pears, or lemons.

(2) Prior to being placed in packages all fruit of the same kind shall be sized, and only fruit of the same kind and of as nearly as possible the same size shall be packed together in a package.

(3) In sizing fruit of the same kind in any particular size for the purposes of packing, a variation of not more than $\frac{1}{4}$ in. above the size in question will be allowed, but no fruit of the same kind shall be included in a package which is of less size than that represented by the count hereinafter required to be branded on such package.

(4) Fruit of the same kind and of one grade only shall be packed in each package:

Provided that fruit of the same kind but of different grades may be contained in the same package if the official grade-mark to be placed on the package as hereinafter prescribed is that of the lowest grade of the fruit contained in such package.

(5) Nothing in this regulation in so far as it relates to apples or pears shall be construed to authorize the packing together in the one package of different varieties of the same kind of such fruit.

(6) Notwithstanding anything to the contrary contained in Regulation 6 or Regulation 7 hereof, apples or pears affected by blemish by way of insignificant healed-over insect stings or bites may be included in any package bearing the grade of "Fancy" or "Good," provided that no individual fruit included in any such package shall contain more than two such blemishes nor shall the number of such blemishes exceed twenty in respect of the total number of fruit contained in the package.

(7) Any fruit which has been graded may be wrapped, but if wrapped, new paper having one or both surfaces glazed or some other paper approved by the Director shall be used.

(8) The size of the wrapping-paper to be used for apples and lemons shall be of the size set opposite the respective sizes of apples and lemons set forth in the Fourth Schedule hereto.

(9) Nothing in the last preceding clause of this regulation shall be deemed to prohibit the use of wrapping-paper the size of which is less than the size prescribed for any particular size of fruit, provided that such fruit is double-wrapped by overlapping two papers.

(ii) The words "New-Zealand-grown lemons."

(c) The grade of the fruit as determined by the standards hereinbefore prescribed.

(d) The size of the fruit represented by the count thereof in the package.

(3) The particulars set out in clause (2) of this regulation shall be branded on the same end of the package as the owner's registered mark hereinbefore required by these regulations to be placed on one end of packages of fruit, and no other particulars shall be placed on that end except a design or mark used in conjunction with the registered mark as hereinbefore authorized.

(4) The particulars required by this regulation to be branded on packages of fruit shall accurately describe the contents of such packages, provided that a variation of not more than five per cent. per package shall be allowed in the number of fruit stated to be in such package.

(5) If the contents of such packages are noticeably and to the detriment of a purchaser at variance with the particulars branded on such packages, the owner of such fruit shall be deemed to have committed a breach of these regulations.

(6) No owner, auctioneer, or other selling agent shall sell any fruit in a package not branded in accordance with the requirements of this regulation.

11. GENERAL PROVISIONS RELATING TO GRADED FRUIT.

(1) In this regulation the term "fruit" means apples, pears, or lemons.

(2) An Inspector may at any time examine any package of fruit bearing an official grade-mark for the purpose of checking the grading of the contents thereof as indicated by the grade-mark on the package, and the correctness of the other particulars branded on the packages in accordance with the requirements of Regulation 10 hereof.

(3) If on examination the Inspector is of opinion that the contents of any package of fruit are of a lower grade than that indicated by the grade-mark thereon, he shall erase such grade-mark, and shall place on the package a grade-mark indicating the grade which he allots to the contents of the package.

(4) If such package is one of a line of fruit of the same variety and grade and belonging to the same owner, the grade allotted by the Inspector to the contents of such package shall be allotted to the whole line, and the grade-mark on the remaining packages of the line shall be altered accordingly:

Provided that before altering the grade of any line of fruit as aforesaid the Inspector shall examine the contents of at least 5 per cent. of the packages in the line.

(6) If on examination the Inspector is of opinion that the contents of any package of lemons are of a standard lower than that prescribed for "X" grade, he shall erase the grade-mark branded on the package, and no grade-mark shall be allowed thereon.

(7) If the grade is altered by an Inspector as aforesaid, all work in connection with the examination of the packages of fruit for the purpose of determining the grade, and with the remarking of packages, shall be done at the expense in all things of the owner of such fruit.

“(viii) For the second and each subsequent day of absence: 2s. 3d. per day.

“(b) An employee in Division I, while absent from his headquarters on relief duty, shall, subject to paragraph (c) of this regulation, be paid relieving-allowance for personal expenses* at the following rates in each case:—

“(i) An employee whose salary does not exceed £149 12s. per annum: Actual reasonable expenses.

“(ii) An employee whose salary exceeds £149 12s. per annum but does not exceed £269 15s. per annum, if absent for not more than six days, shall be entitled to 11s. 3d. per day. If the absence exceeds six days but the employee is not more than six days in any one locality he shall be entitled to the allowance of 11s. 3d. throughout the whole of the period of absence. If, however, while so absent, the employee remains in any one locality for more than six days he shall only be entitled to 9s. per day while in such locality: Provided that the total allowance payable in respect of the employee's stay in such locality shall not be less than £3 7s. 6d.

“(iii) An employee whose salary exceeds £269 15s. per annum but does not exceed £429 15s. per annum shall be entitled to 11s. 3d. per day.

“(iv) Employees whose salaries exceed £429 15s. per annum: At the rate prescribed for travelling-allowance in each case.

“(c) If any employee in Division I, while travelling on relief or other duty, is provided with a berth in a sleeping-car, or sleeping-accommodation on sea journeys which do not occupy more than twenty-four hours, the claim for travelling or relieving allowance, as the case may be, shall be reduced by an amount equal to one-quarter of the prescribed daily rate for each occasion on which a berth or other sleeping-accommodation as aforesaid is provided.

“(d) ‘Day,’ for the purposes of this regulation, means a period of twenty-four hours, and no distinction between Sunday and any other day is recognized in such period. The period for which travelling or relieving allowance shall be payable shall in each case be calculated from the time of departure of the employee concerned from his headquarters in pursuance of the duty on which he is required to travel until his return thereto. For any portion of a day the rate shall be one twenty-fourth of the prescribed daily rate for each hour's absence from headquarters. In computing the period of such absence a fraction of an hour, if less than half an hour, shall not be taken into account, but half an hour or more shall be reckoned as one hour.

“(e) No employee who is entitled to be paid lodging-allowance shall be entitled to claim such allowance concurrently with travelling or relieving allowance for any continuous period exceeding one week. When any such employee becomes entitled to payment of travelling or relieving allowance for any continuous period exceeding one week, the amount paid or payable to him as lodging-allowance for such period shall be deducted from the amount payable to him by way of travelling or relieving allowance for the same period.

“(f) No employee who is entitled to be paid relieving-allowance shall also be paid travelling-allowance in respect of the same absence from headquarters: Provided, however, that when an employee performs relieving duty, and in the course thereof is absent from his headquarters for not more than three days at the same place, he may be paid travelling-allowance instead of relieving-allowance in respect of the time during which he is relieving at such place: Provided, further, that, if an employee is occupied for not less than six hours in travelling to or from his headquarters on relieving duty, he may be paid travelling-allowance instead of relieving-allowance in respect of each day on which he is so occupied.

"94. Every employee in the Lake Wakatipu steamer service shall, while actually on duty on board ship, be supplied with his meals free of charge to such employee, and every such employee shall, for every day on which he is laid off duty as compensation for overtime worked by him or for the purpose of adjusting his hours of duty so as to prevent his working overtime, and for every Sunday, be paid an allowance of 4s. 1d.: Provided, however, that such allowance shall not be paid in respect of any day on which any such employee is on leave of absence or is off duty on his own account, or on which he is supplied with meals in pursuance of this regulation.

"101. (1) Time worked by any employee in Division I between midnight on any Saturday and midnight on the first following Sunday (hereinafter called 'Sunday time') in pursuance of authority given in that behalf by the General Manager shall, subject to the provisions of the regulations, be paid for at the rate set out in paragraph (2) hereof in each case.

"(2) Payment will be made to employees in Division I for Sunday time at the following rates respectively: To employees in receipt of over £246 18s. per annum, 3s. 8d. per hour; to employees in receipt of over £193 1s. and not more than £246 18s. per annum, 3s. 7d. per hour; to employees in receipt of over £159 6s. and not more than £193 1s. per annum, 2s. 11d. per hour; to employees in receipt of not more than £159 6s. per annum 2s. 2d. per hour.

"(3) If and whenever an employee in Division I is specially brought on duty on Sunday other than to

commence a shift forming part of his ordinary week's work he shall be deemed to have worked not less than four hours.

"(4) In the case of any employee in Division I who is specially booked on duty on Sunday there shall not be more than one break in the continuity of such employee's time on any Sunday between the times of his being first booked on duty and his being finally booked off duty for the day: Provided, however, that when any such employee is booked off duty on any Sunday to enable him to obtain meals for a period not exceeding one hour for each meal such booking-off shall be deemed not to be a break in the continuity of such employee's time on such Sunday."

The rates of salary mentioned in Regulations 64 and 101 refer to the rates payable after the reductions prescribed by the Finance Act, 1931, and the National Expenditure Adjustment Act, 1932, also the increases prescribed by the Finance Act (No. 2), 1934, and the Finance Act, 1935, have been made therein. The allowances prescribed in the said regulations, and in Regulation 94, shall be deemed to be the appropriate allowances as adjusted under the provisions of the said Acts, and the same shall be payable without reduction on and after 1st August, 1935.

Dated this 11th day of December, 1935.

The official seal of the Government Railways Board was hereunto affixed in the presence of—

JAMES H. GUNSON, Acting-Chairman.

NOTE.—A remarkably cold spring month. Approximate mean temperature was 2.7° below normal, while the mean minimum temperature was the lowest ever experienced at Wellington. Total bright sunshine amounted to 43 per cent. of the possible. Rainfall was 5 per cent. below normal, but there were eighteen wet days compared with an average of thirteen for November. During an exceptionally cold snap from the 25th to the 27th hail showers were frequent, and snow fell to low levels on the surrounding ranges. A brilliant display of lightning occurred on the night of the 24th, and a fog during the early hours of the 23rd. Mean dew-point at 9 a.m., 45.7°; mean vapour pressure, 0.306 in.

NOTES ON THE WEATHER FOR NOVEMBER, 1935.

General.—As a spring month November proved very disappointing, the outstanding meteorological features being its coldness, a deficiency of sunshine, and, in most districts, an excess of rainfall. Although there was fairly abundant growth, pastures were somewhat lacking in nourishing qualities, and lambs, therefore, did not fatten as well as might have been expected at this season of the year. In dairying districts the milk yield was below normal. The constant showery conditions also interfered considerably with shearing operations. On the whole, however, stock kept in good condition, and the summer prospects for the farming community appear to be in every way propitious.

Rainfall.—The general rainfall exceeded the average over the greater part of the North Island, slight deficiencies being experienced in parts of the Auckland district and the Taranaki Bight only. The rainfall was above normal also over the eastern half of the South Island but below in the western half. The largest excesses occurred in Hawke's Bay and Canterbury. Napier had 65 per cent. above, while in Canterbury the percentages averaged about 80 per cent. above normal.

Temperatures.—Temperatures were below the average over the whole Dominion, and, in fact, the November just passed proved, in many parts, to be one of the coldest on record. In the North Island the average departure below normal was 1.9 and in the South Island 3.3 degrees. Timaru recorded as much as 4.9 and Christchurch 4.7 degrees below. Fortunately there were very few frosts during the month and none of a damaging nature.

Sunshine.—Over the greater part of the Dominion sunshine was less than the average, the only meteorological stations recording an excess being Waipoua, Auckland, Blenheim, and Hokitika. With the exception of Hokitika the excesses were very slight ones. Hawke's Bay and Canterbury had particularly low aggregates. Blenheim recorded the largest amount with 240 hours, Nelson coming next with 223.7 hours.

Pressure Systems.—In November most of the anticyclones passed in northern latitudes, and consequently depressions were more numerous than usual. Indeed, there were very few days on which some part of the Dominion was not being affected by one of them.

During the first week a series of depressions of the westerly type crossed the Dominion, and moderate to strong winds between north-west and south-west prevailed. The weather was rather changeable, and what rain fell was chiefly of a showery and scattered nature. On the night of the 6th, however, a rather intense secondary depression passed eastwards and a strong southerly wind set in generally, accompanied by fairly widespread rain and a decided drop in temperature. A few high-level stations in the South Island at this time experienced falls of snow, while there were hail showers on parts of the eastern and southern coastal areas. Cold, squally conditions continued throughout the 7th and 8th, and on the night of the 7th a severe hailstorm in the Feilding district did considerable damage to fruit-trees and vegetables. Hail showers also occurred about this time at various other places in both the North and South Islands.

On the 9th fine weather was experienced in most districts except in North Auckland, where strong westerly winds with showery conditions continued to prevail. By the 10th, however, a cyclonic depression was approaching the Dominion, its centre next morning being off the west coast of the South Island. The weather again became dull and threatening with scattered rain, and during the night of the 11th widespread rain accompanied a southerly change as the cyclone crossed to the east side of the Dominion. Cold, wintry-like conditions continued until the morning of the 14th, but an improvement was then setting in over most of the country, and, under the influence of a slight anticyclone, beautifully fine and warm weather prevailed on the 15th and 16th.

An extensive and complex depression then approached New Zealand, and on the 17th dull misty weather prevailed generally, rain developing in most districts with fresh to strong north-easterly to northerly winds.

By the night of the 23rd the front of a westerly depression had moved on to the Dominion bringing scattered rain to western areas, and during the night of the 24th rain became more widespread, the wind turning to southerly in the South Island.

From the 27th to the close of the month the weather was generally fine while an anticyclone moved slowly over the Dominion, but on the 30th dull, misty conditions prevailed in the Cook Strait area and on the west coast of the South Island.
