REGULATION 2.—ADDITIONAL POWERS OF COMMITTEE.

(1) The Committee shall have power to buy, sell, deal in, and act as agent for the sale and purchase of flour as herein defined.

(2) The Committee may out of the moneys coming into its hands in exercise of the powers conferred by these regulations establish a fund or funds for the equalization of returns to millers, and may from time to time make thereout payments to millers under any scheme of apportionment that may to the Committee appear fair and equitable.

(3) The Committee may out of the moneys coming into its hands in exercise of the powers conferred by these regulations establish a fund for the purchase of freehold and leasehold lands and machinery and other assets comprising mills which in its opinion are not required for the best conduct of the flour-milling industry in New Zealand, and may from time to time accordingly purchase and acquire on such terms as it thinks fit any such lands, machinery, or other assets as aforesaid, and may hold and maintain and at any time sell and dispose of any property so acquired.

(4) The Committee may invest the moneys of any fund established for the respective purposes aforesaid but not immediately required for any such respective purpose, and the accumulation of any such moneys in any investment permitted to trustees by the law for the time being in force.

(5) The Committee may from time to time for the purposes of these regulations appoint agents or establish branches at any places it thinks fit and from time to time determine such appointments and close such branches.

(6) The Committee may from time to time establish at any branch of a bank in New Zealand accounts to facilitate payments in respect of the sale and purchase of flour and the general exercise of the powers conferred by these regulations.

(7) Any account for the time being established under the last preceding clause of this regulation shall be operated on as the Committee may direct, but so that every cheque or other negotiable instrument drawn upon such account or accepted or endorsed for the Committee and passed through such account shall be signed on behalf of the Committee by at least three persons of whom one at least shall be a member of the Committee and of whom any one who is not a member of the Committee shall be an employee or regularly appointed agent of the Committee:

Provided that any negotiable instrument may be endorsed for collection to such bank as aforesaid by a single one of the three persons aforesaid acting for the Committee.

(8) The Committee shall have power to sue for, recover, enforce, and receive all debts, damages, claims, contracts, and moneys due, owing, or claimable from any person for or on account of any flour sold by, through, or at the direction of the Committee, or in respect of any contract entered into by the Committee, or arising out of the exercise by the Committee of any of the powers conferred on the Committee by these regulations.

(9) The Committee may, with the written approval of the Minister, establish a fund to be vested either in the Committee or in trustees for the purpose of affording for its officers or any of them or any class of officers any such benefits as pensions, superannuation allowances, sick-pay, accident compensation, and similar benefits, and may make arrangements with the National Provident Fund or the Government Insurance Commissioner for the provision of any such benefits, and may for the purposes aforesaid establish schemes, enter into contracts, make by-laws, and make payments into a fund or to trustees, or to the National Provident Fund, or the Government Insurance Commissioner, as the case may require.

(10) The Committee may exercise any of its powers within New Zealand or elsewhere.

REGULATION 3.—MILLOWNERS TO DEAL THROUGH THE COMMITTEE.

(1) Except through the agency of the Committee no miller shall (whether as principal, agent, or otherwise, and whether in New Zealand or elsewhere) sell, or offer or agree to sell, or purchase or offer or agree to purchase, any flour, or be concerned in the making or fulfilment or completion of any sale or purchase of flour, or of any offering or agreement for the sale or purchase of flour, whether such fulfilment or completion relates to an offer or agreement made before or after the enactment of these regulations:

Provided that any stock of imported flour or of flour manufactured in New Zealand from imported wheat if such stock be held by any miller or contracted for overseas prior to the 10th day of February, 1936, and any flour manufactured after the 10th day of February, 1936, from wheat imported or contracted for overseas prior to that date may, with the consent of the Committee, be sold otherwise than through the agency of the Committee.

(2) Every miller shall employ the Committee as his agent to sell and dispose of all flour which he has available for sale for delivery in New Zealand and elsewhere, and the Committee shall act as his agent for that purpose upon the terms comprised in these regulations and such additional terms not inconsistent therewith as the Committee may from time to time think fit to impose.

(3) Nevertheless, any miller may grist wheat and effect retail sales for cash at the mill-door up to a total quantity of five tons of flour in any secular month:

Provided that—

(i) Every miller so gristing wheat or selling flour in any week shall not later than the Tuesday of the next week supply to the Committee particulars of all such gristings and sales:

(ii) In computing sales of flour for purposes of the monthly quota hereinafter provided for such gristings and sales shall be taken into account as if they had been sales of flour effected by the Committee as part of such monthly quota but so that gristings and sales effected during a week that falls into two calendar months shall, if the first day of the second month is a Thursday or later day of the week, be assigned to the first of such months, otherwise to the second month.

(4) Nevertheless, also, any miller whose annual output does not exceed fifty tons of flour may with the consent of the Committee grist wheat and sell flour up to the annual output aforesaid otherwise than through the agency of the Committee, and the Committee may under special circumstances extend

the benefit of this clause to any other miller to such extent (including extent of annual output exceeding fifty tons) upon such terms and conditions as the Committee may impose:

Provided that—

(i) Every miller so gristing wheat or selling flour shall not later than the third day of every month supply to the Committee particulars of all wheat so gristed and all sales of flour so made during the preceding month:

(ii) In computing sales of flour for purposes of the monthly quota hereinafter provided for such gristings and sales shall be taken into account as if they had been sales of flour effected by the Committee as part of such monthly quota:

(iii) Any consent of the Committee or extension as aforesaid may at any time be revoked by notice to the miller concerned.

(5) Every miller desiring to purchase any flour whether in New Zealand or elsewhere shall, if the Committee thinks fit so to require, employ the Committee as his agent to effect such purchase, and the Committee shall act as his agent for that purpose upon the terms comprised in these regulations and such additional terms not inconsistent therewith as the Committee may from time to time think fit to impose.

REGULATION 4.—PRICES AND QUOTAS.

(1) The Committee shall from time to time fix and notify current sale prices for flour of fair average quality, and may, if it thinks fit, fix and notify varying current sale prices according to nature of product, or by-product character of wheat gristed, locality of milling, or any other factor which in the opinion of the Committee affects the value of the flour or product.

(2) Such prices may be fixed in respect of any future period or until further notice, and may in respect of any period or portion of a period not yet elapsed be from time to time revoked and replaced by other prices so fixed and notified.

(3) The Committee shall in respect of every month fix in respect of every mill a monthly quota of flour.

(4) The Committee may in fixing any monthly quota of flour fix separately the amounts of white flour, wheatmeal, bran, pollard, and any other product of the milling of wheat.

(5) The Committee shall as far as possible fix each monthly quota so as to bear the same proportion to the aggregate of monthly quotas as the usual output of the mill as estimated by the Committee for any determined period bears to the total usual output of all mills in New Zealand as so estimated for that period.

REGULATION 5.—SALES OF FLOUR.

(1) The Committee shall in every month endeavour to sell on behalf of every miller at the appropriate current sale price the monthly quota of flour fixed as aforesaid for that month in respect of each mill belonging to such miller.

(2) The sales effected on behalf of every miller shall be apportioned as far as possible according to the ratio that the monthly quota for mills belonging to such miller bears to the aggregate of monthly quotas, and in respect of quantities undersold or oversold in any month on behalf of any miller the Committee shall make an adjustment as far as may be in the sales of a subsequent month.

(3) All flour disposed of by the Committee shall be disposed of upon such terms of payment, including the giving of credit with or without security and such other terms and conditions as to place of delivery and otherwise, as the Committee may from time to time decide upon.

(4) Every miller shall on receiving notice from the Committee deliver all flour sold by the Committee at such places of delivery to such persons at such times in such quantities and generally in such manner in every respect as the Committee shall reasonably require.

REGULATION 6.—LIABILITIES ARISING ON SALE OF FLOUR.

(1) The Committee shall subject to clause (2) of this regulation be liable for sales actually effected in each month.

(2) Nevertheless the Committee shall not be liable for failure to effect a sale if such failure is due to inferior quality of the flour or the sacks in which it is contained or failure by the miller to comply with any provision contained in a contract of sale.

(3) The Committee shall indemnify the miller against loss incurred on any sale effected through the agency of the Committee and arising from default in payment on the part of the purchaser or from any breach, non-observance, or non-performance of any contract in respect of the sale of flour entered into by the Committee.

(4) Any legal proceedings taken by the Committee under the powers conferred by clause (8) of Regulation 2 hereof upon any contract made by the Committee may be taken in the

name of the miller on whose behalf the contract was made, but in such case shall be taken at the risk and the expense in all things of the Committee, and the miller shall be entitled to be indemnified by the Committee against all costs and expenses arising out of the proceedings.

(5) If in any case the Committee elects not to institute or defend legal proceedings arising out of any contract, the miller on whose behalf the contract was made shall be entitled to institute or defend such proceedings but on his own behalf and at his own expense.

(6) If any miller fails after a sale has been effected by the Committee to make delivery as required under clause (4) of Regulation 5 hereof of any flour comprised in his monthly quota, then, and in any such case—

- (a) The Committee may substitute flour of any other miller, and may by agreement with the purchaser vary as it thinks fit in respect of place of delivery or in any other respect the contract of sale pursuant to which such delivery was required.
- (b) The miller in default shall be liable to pay to the Committee all claims, losses, and expenses arising out of such default or the variation of such contract of sale.
- (c) Any substituted flour shall be deemed to be monthly quota flour of any miller on whose account such substituted flour is sold.
- (d) If and so far as the flour in delivery of which default is made is part of the monthly quota of the miller in default, the Committee shall reduce his monthly quotas for the remainder of the secular year then current by equal amounts that shall aggregate the quantity of quota flour in delivery of which the default was made.

REGULATION 7.—ACCOUNTS AND PAYMENTS.

(1) Not later in every month than a day to be fixed and notified from time to time by the Committee, the Committee shall despatch to every miller an account of all sales of flour and other transactions effected by the Committee as the agent of such miller and of all moneys received by the Committee on behalf of such miller and of all sums chargeable against such miller under the authority of these regulations, together with all particulars and statements reasonably necessary to enable the miller to check the correctness of such accounts.

(2) Not later in every month than a day or days to be fixed and notified from time to time by the Committee, the Committee shall pay to every miller the sum appearing to be due to him according to such accounts as aforesaid.

(3) Any error in any such account or payment may be subsequently adjusted according to the custom of merchants, and any charge which the Committee may be entitled to make against a miller but which has not been made in any account may be made at any subsequent time, and deductions may be made accordingly from any subsequent payment, and any balance of moneys due and payable to the Committee upon such accounts may be sued for and recovered from the miller by the Committee in any Court of competent jurisdiction.

(4) The Committee shall be entitled to charge against any miller such sums as the Committee may from time to time determine and notify to cover the costs of the administration by the Committee of these regulations and the expenses incurred in exercising the powers hereby conferred on the Committee (including such sums as the Committee may think equitable, representing an apportionment of overhead charges incurred in the administration both of the principal regulations and these regulations and in exercising the powers thereby and hereby conferred), and to provide for the establishment of the funds authorized by clauses (2) and (3) of Regulation 2 hereof, and to contribute towards any fund authorized by clause (9) of Regulation 2 hereof.

(5) The sums to be so deducted shall for the sake of equitable imposition be so determined as to be proportionate to the quantity of the flour sold by each miller.

REGULATION 8.—BOOKS AND RECORDS.

(1) Every miller shall keep at the mill or at some other convenient place to be notified by him to the Committee such books of account, invoices, and other documents and records of his flourmilling business as the Committee may notify or may in any case by notice to the miller require.

(2) Such books and records shall at all reasonable times be open to the inspection of any officer of the Committee appointed by the Committee to make inspection thereof.

(3) Every miller shall whenever requested supply to the Committee such information as it may require in relation to wheat purchases and flour manufactured and flour delivered by the miller with all relevant particulars of dates, quantities, and other details.

REGULATION 9.—MILLING OF IMPORTED AND SURPLUS WHEAT.

(1) The Committee may arrange with any miller to manufacture flour from imported wheat upon such terms as the Committee thinks fit.

(2) Flour manufactured from imported wheat shall be taken into account in monthly quotas and for all other purposes of these regulations.

(3) If at any time the Committee has at its disposal under the principal regulations any wheat which is in the opinion of the Committee in excess of present and prospective New Zealand requirements the Committee may arrange with any miller to manufacture flour from such wheat upon such terms as the Committee thinks fit, and the flour so manufactured shall be carried over or exported by the Committee as it may from time to time think fit:

Provided that all expenses incurred and any profits derived by the Committee in exercising the powers conferred by this clause shall be borne by and deemed to belong to the Committee in exercise of its functions under the principal regulations, and shall be included in the accounts referred to in Regulation 15 of the principal regulations and shall not be included in the accounts referred to in Regulation 13 hereof.

REGULATION 10.—QUALITY OF FLOUR.

(1) Every miller shall permit the officers of the Committee and any expert appointed under this regulation at all reasonable times to take samples of flour whether in mill or in store, and whether before or after delivery has been given by the miller, and whether or not the Committee has cause to believe that the flour produced at any mill is either generally or in respect of any specific parcel of flour below fair average quality.

(2) If the Committee has cause to believe that the flour produced at any mill is generally below fair average quality in accordance with the standard determined from time to time by the Committee, the Committee may, after notifying the miller of its intention, appoint an independent expert to report on the quality of such flour. A copy of the expert's report shall be supplied to the miller.

(3) If according to such report the flour so produced is below fair average quality the Committee may cancel the monthly quota fixed in respect of the mill or part thereof until such time as the Committee is satisfied by the report of an independent expert that the flour being produced in such mill is of fair average quality and may increase proportionately the monthly quotas fixed in respect of all other mills.

(4) If the Committee has cause to believe that any specific parcel of flour is below fair average quality the Committee may, after notifying the miller of its intention, appoint an independent expert to report on the quality of such flour. A copy of the expert's report shall be supplied to the miller.

(5) If according to such report the flour in question is below fair average quality, then—

- (a) The Committee may reject the flour; or
- (b) The Committee may sell the flour at a price lower than the current sale price; or
- (c) If the flour has already been sold, the Committee may agree with the purchaser for such abatement of the purchase price as in the Committee's discretion seems just:

Provided that—

(i) The powers conferred by this clause may be exercised by any officer of the Committee authorized by the Committee in that behalf:

(ii) That the powers conferred by this clause shall not be exercised unless notice of objection to quality and (if the flour has been sold) of the name of the buyer raising the objection has been given to the miller within fourteen days after delivery of the flour has been given to the buyer.

(6) No flour rejected by the Committee under this regulation shall be offered by the miller or by any other person for sale for human consumption unless by permission of the Committee such flour is reconditioned by the miller and the Committee is satisfied that it is then of fair average quality.

(7) Every independent expert to be appointed for the purposes of this regulation shall, where conveniently possible, be a person engaged under the direction of the Wheat Research Institute and nominated by that Institute on the application of the Committee and otherwise shall be a person appointed by the Committee.

(8) The fees of the expert shall be borne by the Committee, but if he reports that any flour is below fair average quality such fees shall be repaid to the Committee by the miller.

REGULATION 11.—INTERRUPTION OF SUPPLY.

(1) If the manufacture of flour in any mill is seriously interfered with owing to the destruction or damage of the mill by fire, earthquake, tempest, flood, or physical cause (not attributable to want of care on the part of the miller or non-compliance by the miller with the laws or requirements of any authority), or owing to any labour strike, lock-out, civil commotion, or act of superior force or the King's enemies, then and in any such case the miller shall immediately give notice thereof to the Committee.

(2) Thenceforth and for so long as such serious interference continues but no longer the miller shall be excused from compliance with the provisions of clause (4) of Regulation 5 hereof and the consequential provisions of clause (6) of Regulation 6 hereof, and it shall not be necessary for the Committee during such period to fix a monthly quota in respect of such mill, and the Committee may arrange for such monthly quota to be supplied by any other mill or may increase proportionately the monthly quotas fixed in respect of all other mills.

REGULATION 12.—NOTICES.

(1) Any notice to be given by the Committee to a miller shall be in writing and shall be sufficient if sent by a letter or telegram addressed to the miller at his usual place of business and signed (or, in the case of a telegram, purporting to be signed) by the Chairman or Deputy Chairman of the Committee by any authorized officer purporting to act on behalf of the Committee.

(2) Any notice to be given to the Committee shall be in writing and may be delivered at the office of the Committee in Christchurch or sent by post or telegram addressed to the Committee at its office in Christchurch and signed (or, in the case of a telegram, purporting to be signed) by the person by whom the notice is given.

(3) Any notice sent by post or telegraph shall be deemed to be given at the time when it would be delivered at its address in the ordinary course of post or of telegraphic delivery as the case may be.

REGULATION 13.—AUDIT AND ACCOUNTS.

(1) Separate accounts shall be kept by the Committee of all moneys received and expended and liabilities incurred and discharged and assets acquired and disposed of in the exercise of its powers under these regulations.

(2) The provisions of Regulation 15 of the principal regulations shall apply to such accounts.

REGULATION 14.—MISCELLANEOUS PROVISIONS.

(1) It shall not be lawful for any miller to part with the possession or control of his mill without the approval of the Committee, and any sale or other disposition of a mill by miller shall be subject to such terms and conditions as the Committee may reasonably impose.

(2) The Committee shall not fix any monthly quota in respect of a mill unless that mill was erected and operating as a flour-mill before the 1st day of February, 1936, or unless the Committee is satisfied that there is to be adopted at such mill some new and revolutionary process which will increase the efficiency of the flour-milling industry in New Zealand and which has not been and is not proposed to be adopted at any existing mill.

(3) It shall be lawful for the Committee to purchase any assets required in connection with the carrying out of all or any of the functions authorized under these regulations either at a price to be agreed upon by the Committee or at a price to be fixed by arbitration or valuation in manner agreed upon by the Committee and subject to such terms of payment, delivery, and other terms as the Committee may think fit, and the Committee may make provision for payment of such price under the provisions of clause (4) of Regulation 7 hereof.

(4) Every miller shall within thirty days after the enactment of these regulations furnish to the Committee full particulars of every brand in use in connection with flour manufactured by him on the 8th day of February, 1936, and, except so far as the Committee may from time to time permit any such brand to be altered, every miller shall at all times continue to use in the same manner and to the same extent as theretofore the brand or respective brands in use as aforesaid.
