MERCHANT SHIPPING LOAD-LINE.

THE MERCHANT SHIPPING (NETHERLANDS LOAD-LINE CERTIFICATES) ORDER, 1936.

At the Court at Buckingham Palace, the 24th day of March, 1936.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by section 445 of the Merchant Shipping Act, 1894 (57 & 58 Vict., c. 60), (hereinafter called "the principal Act"), it was enacted that where the Board of Trade certify that the laws and regulations for the time being in force in any foreign country and relating to overloading and improper loading are equally effective with the provisions of the principal Act relating thereto, His Majesty in Council may direct that on proof of a ship of that country having complied with those laws and regulations she shall not when in a port of the United Kingdom be liable to detention for non-compliance with the said provisions of the principal Act, nor shall there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions:

And whereas by an Order in Council dated the 11th day of June, 1910 (S.R. & O. 1910 (No. 671), p. 475), after reciting that the Board of Trade had certified that certain statutory regulations which had been approved by the Netherlands Government relating to overloading so far as regards the assignment of load-lines to Netherlands ships were equally effective with the corresponding regulations in force in the United Kingdom respecting the assignment of load-lines to British merchant ships, it was directed that on proof that Netherlands ships had complied with the aforesaid Netherlands regulations such ships should not, when in ports of the United Kingdom, be liable to detention for non-compliance with the provisions of the Merchant Shipping Acts relating to overloading, nor should there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions:

And whereas by subsection (2) of section 67 of the Merchant Shipping (Safety and Load-line Conventions) Act, 1932 (22 & 23 Geo. V, c. 9), (hereinafter called "the Act"), it was amongst other things enacted that section 445 of the principal Act should be repealed as from the appointed day subject to a proviso that any Order in Council in force immediately before the appointed day under section 444 or section 445 of the principal Act should, until revoked, continue to have effect as if for references in the Order to Part V of the principal Act relating to overloading or improper loading as the case might be there were substituted references to Part II of the Act, so, however, that no such Order should continue to have effect with respect to Load-line Convention ships plying on international voyages:

And whereas by subsection (3) of section 67 of the Act it was enacted that for the purpose of the section the expression "the appointed day" meant such day as His Majesty in Council might appoint:

And whereas by an Order in Council dated the 10th day of November, 1932 (S.R. & O., 1932 (No. 917), p. 929), His Majesty appointed the 1st day of January, 1933, as the date on which Part II of the Act should come into operation:

And whereas by section 738 of the principal Act it is amongst other things provided that where His Majesty has power under that Act to make an Order in Council His Majesty may from time to time by Order in Council revoke any Order so made:

And whereas it is expedient that the said recited Order in Council of the 11th day of June, 1910, should be revoked:

And whereas by subsection (2) of section 59 of the Merchant Shipping (Safety and Load-line Conventions) Act, 1932, it is amongst other things enacted subject to the proviso that no Order in Council made under the subsection shall apply to Load-line Convention ships plying on international voyages, that where the Board of Trade certify that provision has been made for the fixing, marking, and certifying of load-lines by the law in force in any foreign country with respect to ships (or any class or description of ships) of that country, and has also been so made (or has been agreed to be so made) for recognizing United Kingdom load-line certificates as having the same effect in ports of that country as certificates issued under the said provision; and that the said provision for the fixing, marking, and certifying of load-lines is based on the same principles as the corresponding provisions of Part II of the Act and is equally effective, His Majesty may by Order in Council direct that load-line certificates issued in pursuance of the said provision in respect of ships (or that class or description of ships) of that foreign country shall have the same effect for the purpose of Part II of the Act as United Kingdom load-line certificates:

And whereas the Board of Trade have certified that provision has been made by the law in force in the Netherlands for the fixing, marking, and certifying of load-lines on Netherlands ships of the class or description specified in the Schedule hereto, and that it has been agreed that provision shall be so made for recognizing United Kingdom load-line certificates as having the same effect in Netherlands ports as certificates issued under the said first-mentioned provision, and, further, that the said first-mentioned provision is based on the same principles as the corresponding provisions of Part II of the Act and is equally effective:

Now, therefore, His Majesty, in pursuance of the powers vested in him by section 59 of the Act, and of all other powers enabling him in that behalf, by and with the advice of his Privy Council, is pleased to direct, and doth hereby direct, as follows:—

1. The aforesaid Order in Council dated the 11th June, 1910, is hereby revoked.

2. Load-line certificates issued in respect of Netherlands ships of the class or description specified in the Schedule hereto in pursuance of the aforesaid provision for the fixing, marking, and certifying of load-lines shall have the same effect for the purpose of Part II of the Act as United Kingdom load-line certificates.

3. The Interpretation Act, 1889 (52 & 53 Vict., c. 63), shall apply to the interpretation of this Order as it applies to the interpretation of an Act of Parliament.

4. This Order may be cited as the Merchant Shipping (Netherlands Load-line Certificates) Order, 1936.

**BRITISH OFFICIAL WIRELESS MESSAGES TO
MERCHANT SHIPS.**

Former Notice : No. 28 of 1935 is hereby cancelled.

This organization provides for the transmission of important messages to British merchantmen in any part of the world on occasions when such messages may be of vital importance to their safety and welfare.

From the details given below it will be seen that arrangements have been made for such messages to be transmitted at certain scheduled times by Rugby and other selected British W/T stations in various parts of the world.

Tests of the organization, lasting for one week, are held at irregular intervals. British merchant ships are earnestly requested to listen for the messages broadcast during these tests and forward particulars of those received. These reports, together with copies of messages received, should be rendered by operators to the Masters of their ships, and transmitted by the latter to the shipowners, who will forward them to the Board of Trade, London. Reports from ships registered in Canada should be forwarded to the Canadian Department of Marine. Reports from ships in Area II, proceeding to New Zealand ports at the time of the broadcast, should be forwarded to the Navy Office and Marine Department, Wellington. Reports from ships registered in Australia should be forwarded to the Secretary, Naval Board, Navy Office, Melbourne. It is particularly desired that ships listening for, but failing to receive, the test messages, either wholly or in part, should render returns, giving their position, areas, &c., and, if possible, any reasons for non-reception. Ships unable to listen for test messages should render blank returns, giving their positions, areas, &c., together with reasons for their inability to listen.

Ships which miss messages, in part or whole, transmitted by shore stations and subsequently obtain repetitions from other ships should indicate the fact in the remarks column of the return, stating the transmitting ship and time of receipt. Ships which transmit repetitions should also indicate the fact in their returns.

The attainment of an organization of maximum efficiency is largely dependent upon the information obtained from these reports, and the co-operation of individual ships of the British Mercantile Marine will, therefore, be of the utmost assistance.

The arrangements made for broadcasting messages by W/T on these occasions are as follows :—

2. The world has been divided into certain areas (*vide* chart appended) and collective call signs have been introduced for (i) all British merchant ships, and (ii) British merchant ships in a particular area. These call signs are as shown in the following table :—

500 kc/s (600 metres)—at any time.

4. A list of the stations included in the organization showing the areas for which they will transmit and the waves on which messages will be broadcast is shown in the Schedule. As far as possible the times 0400 and 1600 G.M.T. have been fixed for transmissions from stations under paragraph 3 (c) above, since, in all areas of the world, one or other of these times will fall within a period when ships with one operator are keeping watch. Times at which messages will be broadcast from 500 kc/s (600 metres) stations are not included in the Schedule, since merchant ships keep normal watch on this wave, and messages may, therefore, be broadcast from these stations at any time. Messages broadcast outside single-operator periods will, for the benefit of ships with one operator, be repeated *at the commencement* of the next following single-operator period.

5. Messages containing information affecting British merchant ships will be broadcast—

(a) By Admiralty to all British merchant ships in all areas ;

(b) By Admiralty to British merchant ships in any particular area or areas ;

(c) By Naval Authorities abroad to British merchant ships in the areas for which they are responsible.

Messages under (a) will be broadcast from Rugby and Falklands with the call sign GBMS, and will also be broadcast with the same call sign by the W/T stations concerned shown in column 3 of the Schedule. (Messages under (a), during "test" periods, will be broadcast from Rugby and Falklands only.)

Messages under (b) will be broadcast from Rugby and, if necessary, from Falklands, with the call sign or call signs for merchant ships in the particular area or areas concerned. They will also be broadcast by the W/T stations of the area or areas concerned, using the appropriate call sign.

Messages under (c) will be broadcast by the W/T stations shown in column 3 of the Schedule, using the call sign for merchant ships in that area (*vide* paragraph 2 above). Such messages may also be broadcast from Rugby and/or Falklands with the same call sign.

6. The W/T stations broadcasting messages will use their own call signs and will indicate the Naval Authority originating the message at the beginning of the text. For example, a message broadcast by Aden W/T station from Commander-in-Chief, East Indies, for merchant ships in Area 3 : \overline{CT} GBMS 3 GBMS 3 GBMS 3 DE GZQ GZQ GZQ \overline{BT} from Commander-in-Chief, East Indies, \overline{BT} . During the period 1st March to 30th April, 1926, H.M. ships engaged in the prevention of smuggling arms will be operating without lights in the Persian Gulf \overline{BT} 1030 (*) \overline{BT} Repetition \overline{BT} from Commander-in-Chief, &c., &c., \overline{BT} 1030 (*) \overline{AR} \overline{VA} .

NOTE.—(*) This is G.M.T. at which the message was ordered to be sent. It may be followed by the date, thus : "1030 \overline{NR} 15 \overline{NR} 2."

7. The procedure outlined in this organization is not intended to interfere with or replace existing arrangements for broadcasting to merchant ships messages concerning navigational dangers, weather reports, or gale warnings. Where routine arrangements exist for broadcasting such messages, those arrangements will continue in force.
