HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

WHEREAS there being no Harbour Board empowered to grant the license hereinafter mentioned under the Harbours Act, 1923 (hereinafter called "the said Act"), Australian Glass Manufacturers Company, Limited, of Auckland (hereinafter called "the company," in which term it is to be construed, unless the context requires a different construction, its successors or assigns), has applied to the Governor-General in Council for a license under the said Act to occupy a part of the foreshore and land below low-water mark of Parengarenga Harbour in order to construct a wharf thereon, and, in accordance with the one-hundred-and-seventy-first section of the said Act, has deposited a plan in the office of the Marine Department at Wellington, marked M.D. 7499, showing the area of foreshore intended to be occupied:

And whereas it has been made to appear that the said wharf will not be or tend to the injury of navigation; and it is expedient that a license should be granted to the company under the said Act for the purpose aforesaid:

Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the power and authority vested in him by the said Act, and of all other powers and authorities enabling him in that behalf, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby approve of the purpose or object for which the said license is required by the company as aforesaid; and, in further pursuance and exercise of the said power and authority, and with the like advice and consent as aforesaid, doth hereby license and permit the company to use and occupy that part of the foreshore and land below low-water mark immediately contiguous thereto, which is particularly shown and delineated on the plan so deposited as aforesaid, for the purpose of using the wharf aforesaid in connection therewith, such license to be held and enjoyed by the company upon and subject to the terms and conditions set forth in the Schedule hereto.

14. In the event of this Order in Council being revoked for any reason whatsoever, or upon the expiry of the period for which the license is granted, the company shall, if required by the Minister so to do, remove the said wharf entirely from the site and restore the site to its original condition within three months from the date of revocation or expiry, as the case may be; and, if the company fails so to do, the Minister may cause the said wharf to be removed and the site so restored, and may recover from the company the cost incurred by the said removal and restoration.

15. The erection of the said wharf shall be sufficient evidence of the acceptance by the company of the terms and conditions of this Order in Council.

NOTE.—There were a few light flakes of snow on 4th. Fresh snow fell on the ranges on 1st, 3rd, 13th, and 28th; that of the 3rd was as heavy as the August fall. Hail was recorded three times, gales four times, thunder and lightning once, and one frost was registered.

NOTES ON THE WEATHER FOR SEPTEMBER, 1936.

General.—Spring characteristics were very strongly developed in the weather for September. Pressure was almost continually low in the South and there was consequently a persistence of westerly winds, which were frequently strong and squally. The weather changed rapidly, and there were few days on which western and southern districts failed to experience a certain amount of rain. East of the ranges conditions were finer and more sunny. Until the 19th temperatures were generally low, and although the last ten days were milder they did not quite make up for the earlier cold. The wet and cold weather retarded growth of vegetation in western and southern districts of the South Island and over most of the North Island, where frosts were rather numerous. In Hawke's Bay, about Wellington, in Nelson and the Marlborough Sounds, there was rapid growth, and the season is well advanced. There is no shortage of feed for stock anywhere, although in some places it is rather soft. Stock are reported to be in good condition, and the lambing-season, in spite of some losses due to cold and strong wind, appears to be progressing satisfactorily. In eastern districts of the North Island a good, warm rain would be beneficial, while in western districts and the high country generally a spell of dry, sunny weather is desired.

Rainfall.—Though there were no very heavy general falls rain was frequent throughout the month in all districts with a westerly aspect and most of Otago and Southland. In eastern districts from Canterbury northwards, and also in the Bay of Plenty area and Nelson, the totals were generally below average. Elsewhere they were above, the month being very wet in western Otago and Southland.

Temperatures were everywhere below normal, though the departures were not large. In western districts they were generally about 1.5° F., but elsewhere seldom as much as 1° F.

Sunshine.—The persistent westerly weather caused a lack of sunshine on the west coast of the South Island and in Southland, while, according to the New Plymouth record, Taranaki recorded about the average amount. Elsewhere totals were above average, and eastern districts experienced a very sunny month. Blenheim had 225.5 hours and Napier 210.6.

Pressure Systems.—The sequences of pressure change experienced throughout the month were remarkably constant in character and typical of spring. The anticyclones all passed well to the north of New Zealand, and a series of westerly depressions, each followed by several secondaries, moved rapidly from the west across the South Island. Winds blew almost continuously from some westerly quarter, and gales were frequent in some part or other of the Dominion. During the first few days cold south-westerlies prevailed. Conditions were especially boisterous on the 3rd to the 4th, when there were widespread falls of snow in both islands.

There was some variation in the type of weather from the 21st to the 25th. An intense anticyclone was centred near Chatham Islands from the 22nd to the 24th. This brought northerly winds and warmer weather over New Zealand.

A shallow cyclone developed just to the north-west of the Dominion and moved in an east-south-easterly direction across the Bay of Plenty. By the 26th, however, the westerly type of weather was again fully restored.

Thunder and hailstorms were rather numerous during the month, especially in western districts, and a tornado occurred near Tauranga on the 10th. In addition to that mentioned in reference to the 3rd and 4th, snow fell on the high country on the 6th, 18th, 26th, and 27th. At the end of the month the ranges were well coated.

Estimated Areas under Wheat, Oats, Barley, and Potatoes (Season 1936-37).

Census and Statistics Office,
Wellington, 22nd October, 1936.

AS in previous years, cards were sent out by post to grain-growers and to potato-growers throughout the Dominion asking them to state what areas they had sown or planted, or intended to sow or plant, in wheat, oats, barley, and potatoes this season. It may be well to note that only holdings of 1 acre and over outside borough boundaries are covered by the figures appearing below. In the case of potatoes a fair amount is undoubtedly grown on the smaller holdings and on holdings situated within boroughs.
