B

and shall have free access to the courts of justice for the prosecution or defence of the rights under the same conditions (including taxes and fees payable) as subjects or citizens of the latter High Contracting Party.

II.—SERVICE OF JUDICIAL AND EXTRA-JUDICIAL DOCUMENTS.

Article 3.

(a) When judicial or extra-judicial documents drawn up in the territory of one of the High Contracting Parties are required by judicial authority situated therein to be served on persons in the territory of the other High Contracting Party, such documents may be served on the recipient by any of the methods provided in Articles 4 or 5 in cases where these articles are applicable.

(b) In Part II of this Convention the expression "country of origin" means the country from which the documents to be served emanate, and the expression "country of execution" means the country in which service of documents is to be effected.

Article 4.

(a) A request for service shall be addressed and sent by a Diplomatic or Consular Officer acting for the country of origin to the competent authority of the country of execution, requesting such authority to cause the document in question to be served.

(g) In every instance where a request for service is not executed by the authority to whom it has been sent, the latter will at once inform the Diplomatic or Consular Officer by whom the request was sent, stating the ground on which the execution of the request has been refused or the competent authority to whom it has been forwarded.

(c) It is understood that the question of the validity of any service effected by the use of any of the methods referred to in paragraph (b) of this Article will remain a matter for the free determination of the respective Courts of the High Contracting Parties in accordance with their laws.

Article 6.

(a) In any case where documents have been served in accordance with the provisions of Article 4, the High Contracting Party, by whose Diplomatic or Consular Officer the request for service was addressed, shall repay to the other High Contracting Party any charges and expenses which are payable under the law of the country of execution to the persons employed to effect service, and any charges and expenses incurred in effecting service in a special manner. These charges and expenses shall not exceed such as are usually allowed in the Courts of that country.

(b) Repayment of these charges and expenses shall be claimed by the competent authority by whom the service has been effected from the Diplomatic or Consular Officer by whom the request was addressed when sending to him the certificate provided for in Article 4 (h).

The Letter of Request shall state the nature of the proceedings for which the evidence is required, giving all necessary information in regard thereto, the names of the parties thereto, and the names, descriptions, and addresses of the witnesses. They shall also either (1) be accompanied by a list of interrogatories to be put to the witness or witnesses, or, as the case may be, by a description of the documents, samples, or other objects to be produced, identified, or examined, and a translation thereof, certified as correct in the manner heretofore provided; or (2) shall request the competent authority to allow such questions to be asked *viva voce* as the parties or their representatives shall desire to ask,

In England, by a Hungarian Diplomatic or Consular Officer to the Senior Master of the Supreme Court of Judicature.

In Hungary, by a British Diplomatic or Consular Officer to the Royal Hungarian Ministry of Justice.

In case the authority to whom any Letter of Request is transmitted is not competent to execute it, such authority shall (except in cases where execution is refused in accordance with paragraph (f) of this Article) of his own motion forward the Letter of Request to the competent authority of the country of execution.

(d) The competent authority of the country of execution shall give effect to the Letter of Request and obtain the evidence required by the use of the same compulsory measures and the same procedure as are employed in the execution of a commission or order emanating from the authorities of his own country, except that if a wish that some special procedure should be followed is expressed in the Letter of Request such special procedure shall be followed in so far as it is not incompatible with the law of the country of execution.

(e) The Diplomatic or Consular Officer, by whom the Letter of Request is transmitted, shall, if he so desires, be informed of the date when and the place where the proceedings will take place, in order that he may inform the interested party or parties, who shall be permitted to be present in person or to be represented, if they so desire, by any legal representatives who are competent to appear before the Courts of the country of execution.

(f) The execution of a Letter of Request which complies with the preceding provisions of this Article can only be refused—

- (1) If the authenticity of the Letter of Request is not established;
- (2) If, in the country of execution, the execution of the Letter of Request in question does not fall within the functions of the judiciary;
- (3) If the High Contracting Party in whose territory it is to be executed considers that his sovereignty or safety would be compromised thereby.

(g) In every instance where a Letter of Request is not executed by the authority to whom it is addressed, the latter will at once inform the Diplomatic or Consular Officer by whom it was transmitted, stating the grounds on which the execution of the Letter of Request has been refused, or the competent authority to whom it has been forwarded.

(h) When a Letter of Request has been executed the competent authority to whom it was transmitted or forwarded shall send to the Diplomatic or Consular Officer by whom it was transmitted the necessary documents establishing its execution.

Article 9.

(a) The evidence may also be taken without any request or the intervention of the authorities of the country of execution by a Diplomatic or Consular Officer acting for the country of origin.

(b) The Diplomatic or Consular Officer may request the individuals named by the Court of the country of origin to appear before him and to give evidence. He may take all kinds of evidence which are not contrary to the law of the country of execution. The attendance and giving of evidence before such officer shall be entirely voluntary and no measures of compulsion shall be employed.

(c) The evidence may be taken in accordance with the procedure recognized by the law of the country of origin, and the parties will have the right to be present in person or to be represented by any legal representatives who are competent to appear before the Courts either of the country of origin or of the country of execution.

(d) Unless and until a notification is given through the diplomatic channel by the Hungarian Government, the provisions of this article will not apply to the taking of evidence from persons who are subjects or citizens of the High Contracting Party in whose territory the evidence is to be taken. (See note at end.)

Article 10.

The fact that an attempt to take evidence by the method laid down in Article 9 has failed owing to the refusal of any witness to appear or to give evidence does not preclude a request being subsequently made in accordance with Article 8.

Article 11.

(a) Where evidence is taken in the manner provided in Article 8 the High Contracting Party, by whose judicial authority the Letter of Request was addressed, shall repay to the other High Contracting Party any expenses incurred by the competent authority of the latter in the execution of the request in respect of any charges and expenses payable to witnesses, experts, interpreters, or translators, the costs of obtaining the attendance of witnesses who have not appeared voluntarily, and the charges and expenses payable to any person whom such authority may have deputed to act, in cases where the law of the country of execution permits this to be done, and any charges and expenses incurred by reason of a special procedure being requested and followed. These expenses shall be such as are usually allowed in similar cases in the Courts of the country of execution.

(b) The repayment of these expenses shall be claimed by the competent authority by whom the Letter of Request has been executed from the Diplomatic or Consular Officer by whom it was transmitted when sending to him the documents establishing its execution as provided in Article 8 (h).

(c) Except as above provided no fees of any description shall be payable by one High Contracting Party to the other in respect of the taking of evidence.

IV.—JUDICIAL ASSISTANCE FOR POOR PERSONS, SECURITY FOR COSTS, AND IMPRISONMENT FOR DEBT.

Article 12.

(a) The subjects or citizens of one High Contracting Party, resident in the territory of the other High Contracting Party where the proceedings are brought, shall not be compelled to give security for costs or court fees in any case where a subject or citizen of such other High Contracting Party would not be so compelled.

(b) The subjects or citizens of one High Contracting Party, resident outside the territory of the other where the proceedings are brought, shall not be obliged to give security for costs or court fees in any case where they possess in that territory immovable property, or other property of such a nature as not to be readily transferable, sufficient to cover the said costs or fees. It is understood that the expressions "immovable property" and "property not readily transferable" must be interpreted by the respective Courts of the High Contracting Parties in accordance with their own laws.

Article 13.

The subjects or citizens of one High Contracting Party shall enjoy in the territory of the other High Contracting Party a perfect equality of treatment with subjects or citizens of the latter High Contracting Party as regards free legal assistance for poor persons.

Article 14.

The subjects or citizens of one High Contracting Party shall not, in the territory of the other, be liable to imprisonment as a means of execution for debt or as a conservatory measure, in any case where the subjects or citizens of the latter High Contracting Party would not be so liable.

V.—GENERAL PROVISIONS.

Article 15.

Any difficulties which may arise in connection with the operation of this Convention shall be settled through the diplomatic channel.

Article 16.

The present Convention, of which the English and Hungarian texts are equally authentic, shall be subject to ratification. Ratifications shall be exchanged in London. The Convention shall come into force one month after the date on which ratifications are exchanged and shall remain in force for three years after the date of its coming into force. If neither of the High Contracting Parties shall have given notice through the diplomatic channel to the other not less than six months before the expiration of the said period of three years of his intention to terminate the Convention, it shall remain in force until the expiration of six months from the day on which either of the High Contracting Parties shall have given notice to terminate it.

Article 17.

(a) This Convention shall not apply *ipso facto* to Scotland, Northern Ireland, the Channel Islands, and the Isle of Man, nor to any of the colonies, overseas territories, or protectorates of His Majesty the King of Great Britain, Ireland, and the British Dominions beyond the Seas, Emperor of India, nor to any territories under His suzerainty, nor to any mandated territories in respect of which the mandate is exercised by His Government in the United Kingdom, but His Majesty may at any time, while this Convention is in force, under Article 16, by a notification given through His Minister at Budapest, extend the operation of the Convention to any of the above-mentioned territories.

(b) Such notification shall state the authorities in the territory concerned to whom requests for service under Article 4 or Letters of Request under Article 8 are to be transmitted, and the language in which communications and translations are to be made. The date of the coming into force of any such extension shall be one month from the date of such notification.

(c) Either of the High Contracting Parties may, at any time after the expiry of three years from the coming into force of an extension of this Convention to any of the territories referred to in paragraph (a) of this Article, terminate such extension on giving six months' notice of termination through the diplomatic channel.

(d) The termination of the Convention under Article 16 shall, unless otherwise expressly agreed to by both High Contracting Parties, *ipso facto* terminate it in respect of any territories to which it has been extended under paragraph (a) of this Article.

Article 18.

(a) The High Contracting Parties agree that His Majesty the King of Great Britain, Ireland, and the British Dominions beyond the Seas, Emperor of India, may at any time, while this Convention is in force, either under Article 16 or by virtue of any accession under this Article, by a notification given through the diplomatic channel, accede to this Convention in respect of any other Member of the British Commonwealth of Nations whose Government may desire that such accession should be effected, provided that no notification of accession may be given at any time when His Serene Highness the Regent of the Kingdom of Hungary has given notice of termination in respect of all the territories of His Majesty to which the Convention applies. The provisions of Article 17 (b) shall be applicable to such notification. Any such accession shall take effect one month after the date of its notification.

(b) After the expiry of three years from the date of the coming into force of any accession under paragraph (a) of this Article, either of the High Contracting Parties may, by giving six months' notice of termination through the diplomatic channel, terminate the application of the Convention to any country in respect of which a notification of accession has been given. The termination of the Convention under Article 16 shall not affect its application to any such country.

(c) Any notification of accession under paragraph (a) of this Article may include any dependency or mandated territory administered by the Government of the country in respect of which such notification of accession is given; and any notice of termination in respect of any such country under paragraph (b) shall apply to any dependency or mandated territory which was included in the notification of accession in respect of that country.

In witness whereof the undersigned have signed this Convention, in English and Hungarian texts, and have affixed thereto their seals.

NOTE.—On the 8th and 9th there were severe gales from the north-west, and on the latter date several persons were blown over and injured. There was a light hail shower on the 14th, and fresh snow fell on the ranges. Fogs were experienced on the 23rd and 24th.

NOTES ON THE WEATHER FOR OCTOBER, 1936.

General.—The first ten or eleven days of October were very windy and rather cool, but otherwise the month was a very mild one. Except in parts of the Wairarapa and southern Hawke's Bay there has been a vigorous growth of vegetation, and there is ample feed for stock, which are reported to be in very good condition. The milk-yield improved rapidly and is now high. The lambing-season appears to have been a good one, with relatively few losses owing to adverse weather. As regards fattening, the condition of lambs at the end of the month, though on the whole good, was somewhat variable. In some places the grass was still rather soft. In this respect, however, conditions should soon improve. Crops have made good growth, but the wet condition of the soil has reduced the sowing of spring wheat in Canterbury.

Rainfall.—The rainfall exceeded the average over most of the west coast of the South Island and the Nelson and Marlborough Provinces, but elsewhere it was below. Large parts of the North Island and also of Canterbury had only half the normal fall.

Temperatures were everywhere above normal. In eastern districts and the interior the departures were generally somewhat over 2°, and elsewhere mainly between 1° and 1.5°. The lowest was at Hokitika, where the mean was only 0.5° above normal. The relatively low value there was due to the frequent rains and its exposure to the westerly, and south-westerly winds. Frosts were infrequent and not, in general, severe. A rather sharp one occurred, however, on the morning of the 15th. In the Hastings district, following immediately on a cold rain with snow on the high levels, it caused very serious damage to fruit and tomato crops. A few days later considerable damage was done in orchards in parts of Central Otago. There were several very warm days.

Sunshine.—The duration of bright sunshine was generally below average, and especially so in western districts from Taranaki southwards. A few places in the interior and the southern parts of the South Island had more than usual. Lake Tekapo recorded 227.6, Blenheim 218.1, and Napier 213.0 hours.

Pressure Systems.—During the first eleven days a series of vigorous westerly depressions crossed the Dominion, and north-westerly or westerly gales were blowing in some part or other almost throughout. The gale of the night of the 8th to morning of the 9th was particularly severe and some damage was done, especially in the Wellington, Westland, and Canterbury Provinces. The gale was accompanied by general rains, which were very heavy on the West Coast and in the high country of the South Island. Floods occurred on the West Coast, that at Greymouth being reported as the highest for twenty-two years. The Waimakariri River, also, was in high flood, the highest level exceeding anything during the preceding sixty years. Many severe thunderstorms were experienced during the 8th and 9th.

On the 11th to the 12th the weather changed, the winds turning to southerlies, which were strong about Cook Strait. Some snow fell on the ranges and in the high levels of the South Island. South-westerly weather predominated until the 16th; gales were recorded at times in many places. On the 14th there was again snow on the ranges, and on the following morning severe frosts were experienced in the central part of the North Island.

From the 19th to the 27th the pressure systems were much more slowly-moving and irregular in form. They culminated in a rather shallow cyclone which crossed North Auckland on the 25th. Useful rains fell, especially in the northern half of the North Island. Temperatures were unusually warm for the time of year.

During the last three days the westerly type of weather again became established. The persistent westerlies were responsible for frequent rains throughout the month in western districts of the South Island, but to the northward the amounts fell off rapidly, and eastern districts were, of course, to a large extent shielded from the rains.
