BRITISH OFFICIAL WIRELESS MESSAGES TO MERCHANT SHIPS.

Former Notices Nos. 33 and 34 of 1936 are hereby cancelled.

This organization provides for the transmission of important messages to British merchantmen in any part of the world on occasions when such messages may be of vital importance to their safety and welfare.

From the details given below it will be seen that arrangements have been made for such messages to be transmitted at certain scheduled times by Rugby and other selected British W/T stations in various parts of the world.

Tests of the organization, lasting for one week, are held at irregular intervals. British merchant ships are earnestly requested to listen for the messages broadcast during these tests and forward particulars of those received. These reports, together with copies of messages received, should be rendered by operators to the Masters of their ships, and transmitted by the latter to the shipowners, who will forward them to the Board of Trade, London. Reports from ships registered in Canada should be forwarded to the Canadian Department of Marine. Reports from ships in Area 11, proceeding to New Zealand ports at the time of the broadcast, should be forwarded to the Navy Office and Marine Department, Wellington. Reports from ships registered in Australia should be forwarded to the Secretary, Naval Board, Navy Office, Melbourne. It is particularly desired that ships listening for, but failing to receive, the test messages, either wholly or in part, should render returns, giving their position, areas, &c., and, if possible, any reasons for non-reception. Ships unable to listen for test messages should render blank returns, giving their positions, areas, &c., together with reasons for their inability to listen.

Ships which miss messages, in part or whole, transmitted by shore stations and subsequently obtain repetitions from other ships should indicate the fact in the remarks column of the return, stating the transmitting ship and time of receipt. Ships which transmit repetitions should also indicate the fact in their returns.

The attainment of an organization of maximum efficiency is largely dependent upon the information obtained from these reports, and the co-operation of individual ships of the British Merchant Navy will, therefore, be of the utmost assistance.

The arrangements made for broadcasting messages by W/T on these occasions are as follows:—

2. The world has been divided into certain areas (*vide* chart appended) and collective call signs have been introduced for (i) all British merchant ships, and (ii) British merchant ships in a particular area. These call signs are as shown in the following table:—

| Messages for | Area on Chart. | Call Sign. |
|--|----------------|------------|
| All British merchant ships | | GBMS |
| British merchant ships in— | | |
| Home Area | 1 | GBMS 1 |
| Mediterranean Area | 2 | GBMS 2 |
| East Indies Area | 3 (A and B) | GBMS 3 |
| China Area | 4 (A and B) | GBMS 4 |
| Australia Area | 5 (A and B) | GBMS 5 |
| Africa Area | 6 (A and B) | GBMS 6 |
| America and West Indies, East Coast, Northern Area | 7 | GBMS 7 |
| America and West Indies, West Coast, Northern Area | 8 | GBMS 8 |
| America and West Indies, East Coast, Southern Area | 9 | GBMS 9 |
| America and West Indies, West Coast, Southern Area | 10 | GBMS 10 |
| New Zealand Area | 11 | GBMS 11 |

3. Messages will be broadcast as follows:—

(a) From Rugby and Oxford—

| Time. | Call Sign. | Wave. | Remarks. |
|--------------|------------|----------------------------|--|
| *0000 G.M.T. | GBR .. | 16 kc/s (18,750 metres) | During transmission of British Official Wireless News. |

| | GIM .. | 12,975 kc/s (23.12 metres) | |
| 1200 G.M.T. | GBR .. | 16 kc/s (18,750 metres) | Immediately preceding British Official Wireless News. |
| | GIM .. | 12,975 kc/s (23.12 metres) | |

| | GIC .. | 8,640 kc/s (34.72 metres) | |
| | GIM .. | 12,975 kc/s (23.12 metres) | |

(b) From Falklands—

8,450 kc/s (35.5 metres)—at 0410 and 1610 G.M.T.

(c) From certain medium and high power W/T stations abroad—

Between 150 kc/s (2,000 metres) and 90.9 kc/s (3,300 metres), and in certain cases on higher frequencies—at the times shown in column 6 of the Schedule.

(d) From certain W/T stations—

500 kc/s (600 metres)—at any time.

4. A list of the stations included in the organization showing the areas for which they will transmit and the waves on which messages will be broadcast is shown in the Schedule. As far as possible the times 0400 and 1600 G.M.T. have been fixed for transmissions from stations under paragraph 3 (c) above, since, in all areas of the world, one or other of these times will fall within a period when ships with one operator are keeping watch. Times at which messages will be broadcast from 500 kc/s (600 metres) stations are not included in the Schedule, since merchant ships keep normal watch on this wave, and messages may, therefore, be broadcast from these stations at any time. If messages are broadcast by stations shown in paragraphs 3 (c) and (d) above outside the single operator periods of their areas, steps will be taken to ensure that these messages are received by ships only keeping watch during single operator periods. Such messages, therefore, in the case of the medium and high power stations which have two or more broadcast periods a day will be retransmitted at the next routine broadcast. In the case of the 500 kc/s stations such messages will be retransmitted at the commencement of the next following single operator period for their area or areas concerned. This organisation results in four special 500 kc/s periods a day being available in any area, when broadcast messages may be received, in addition to such messages being made on receipt by the stations concerned.

5. Messages containing information affecting British merchant ships will be broadcast—

- (a) By Admiralty to all British merchant ships in all areas;
- (b) By Admiralty to British merchant ships in any particular area or areas;
- (c) By Naval Authorities abroad to British merchant ships in the areas for which they are responsible.

Messages under (a) will be broadcast from Rugby, Oxford, and Falklands with the call sign GBMS, and will also be broadcast with the same call sign by the W/T stations concerned shown in column 3 of the Schedule. (Messages under (a), during "test" periods, will be broadcast from Rugby, Oxford, and Falklands only.)

Messages under (b) will be broadcast from Rugby, Oxford, and, if necessary, from Falklands, with the call sign or call signs for merchant ships in the particular area or areas concerned. They will also be broadcast by the W/T stations of the area or areas concerned, using the appropriate call sign.

Messages under (c) will be broadcast by the W/T stations shown in column 3 of the Schedule, using the call sign for merchant ships in that area (*vide* paragraph 2 above). Such messages may also be broadcast from Rugby, Oxford, and/or Falklands with the same call sign.

* For the 0000 G.M.T. transmission Oxford (GIJ), on 6,985 kc/s (42.95 m), will replace (GIM) during the months of November, December, and January.

6. The W/T stations broadcasting messages will use their own call signs and will indicate the Naval Authority originating the message at the beginning of the text. For example, a message broadcast by Aden W/T station from Commander-in-Chief, East Indies, for merchant ships in Area 3 B : \overline{CT} GBMS 3 GBMS 3 GBMS 3 DE GZQ GZQ GZQ \overline{BT} from Commander-in-Chief, East Indies, \overline{BT} . During the period 1st March to 30th April, 1926, H.M. ships engaged in the prevention of smuggling arms will be operating without lights in the Persian Gulf \overline{BT} 1030 (*) \overline{BT} Repetition \overline{BT} from Commander-in-Chief, &c., &c., \overline{BT} 1030 (*) \overline{AR} \overline{VA} .

NOTE.—(*) This is G.M.T. at which the message was ordered to be sent. It may be followed by the date, thus :—“ 1030 \overline{NR} 15 \overline{NR} 2.”

7. The procedure outlined in this organization is not intended to interfere with or replace existing arrangements for broadcasting to merchant ships messages concerning navigational dangers, weather reports, or gale warnings. Where routine arrangements exist for broadcasting such messages, those arrangements will continue in force.

8. Normally, the organization promulgated herein is not in operation, but, to test its efficiency, it is introduced at irregular intervals for trial purposes for one week.

During these periods, “ test ” messages will be issued by the Admiralty to all British merchant ships, and by the Naval Authorities responsible for the respective areas shown in the Schedule to British merchant ships in those areas. Rugby and Oxford will not, however, broadcast on Sundays, while Falklands will do so only on 125 kc/s (2,400 metres).

Further, these “ test ” messages will not be broadcast by the 500 kc/s (600 metres) stations shown in the Schedule, but, instead, brief “ warning ” messages will be broadcast daily from all these stations (except in Area 1, where only four stations will broadcast—viz., Malin Head, Land’s End, North Foreland, and Cullercoats), stating that the test period is in force. These broadcasts will take place twice daily during the single-operator periods, and will be in the form “ GBMS in force for test until. ” The warning message may also be transmitted from Rugby and Oxford at the commencement of the tests, during the transmission of the traffic lists at 0048 and 1248. No prior notice will be given of the dates of the “ test ” periods which will commence with the promulgation of the first “ test ” message.

9. The organization may be brought into force at any time, should occasion arise to transmit messages of special importance to British merchant ships.

The messages from the Admiralty to all areas at a time of national emergency will be issued in alphabetical sequence, thus :—“ Admiralty Message A ”, “ Admiralty Message B ”, &c. This is to enable merchant ships to check that they have not missed any messages in the series.

Any messages which have been missed should on no account be asked for by W/T. They should be obtained by V/S from H.M. Ships or other British merchant vessels or by personal application to the British Naval Representative or Consular authorities at the next port of call.

10. If and when such occasion arises to bring the organization into force, either generally or in any particular area, messages notifying its introduction will be issued by the Admiralty and/or by the Naval Authority responsible for the area or areas concerned. When such messages are necessary every available means of reaching merchant ships will be employed—i.e., the messages will be broadcast not only by Rugby and Oxford and the other stations at the times shown in the Schedule, but also where stations included in the organization transmit navigational warnings, weather reports, &c., at routine periods, messages notifying its introduction will be broadcast during those periods. Such messages will bear the address “ All British merchant ships ” or “ British merchant ships in area,” in full ; the use of the call signs mentioned in paragraph 2 above will commence when the organization is brought into force.

SCHEDULE.

NOTE.—The transmission from Rugby on 16 kc/s (18,750 metres) at 2000 G.M.T. is intended primarily for ships in Area 5, and that on 8,640 kc/s (34.72 metres) at 2000 G.M.T. for ships in Areas 3, 4, 5, and 6.
