The existing pasture is very poor and weedy and 20 acres have entirely reverted to fern, &c. Ragwort and blackberry are also in evidence. The property is well watered and is subdivided into eleven paddocks, but the fencing is in the very worst condition. Generally the buildings are poor and a new dwelling will shortly be required. THIRD-CLASS LAND.

Waimarino County.—Manganui Survey District.

(Exempt from payment of rent for two years.)

in poor pasture, 509 acres have reverted to fern and scrub, and 200 acres are in the natural state. The property is free from rabbits but has some foxglove and ragwort.

The western portion of Section 3 is steep and broken, the balance consisting of easy hills with some good flats and terraces. This section is subdivided into six paddocks and is suitable for grazing and a small dairy herd.

Section 9 is mostly medium to steep broken country with some easy to flat areas along the Ohura Road and on the southern end on Makino Road. The Ruatiti and Makino Streams form gorges, which make it difficult to handle stock. This section is subdivided into four paddocks and is suitable for grazing only.
