NOTE.—The month was more typical of spring than winter, with a prevalence of north-westerly winds and mild weather. A thunderstorm on the morning of the 30th was accompanied by torrential rain in the Hutt Valley. Frosts were recorded on three occasions.

NOTES ON THE WEATHER FOR AUGUST, 1939.

General.—August was rather a wet month. In many districts where there has been little sunshine conditions have been poor for stock and pasture alike. The warmer rains in the latter part of the month have, however, resulted in a spring flush and crops are beginning to make good growth. In the sunnier districts there was a continual growth throughout the month. The milder conditions prevailing at the close of the month are promising for a successful spring to the man on the land.

Rainfall.—Rain fell frequently throughout the month. Most of the South Island received more than the average rain. The figures for the central portions of the North Island were well above normal, but east of the ranges south of East Cape falls were light and were under half the average in many cases. Heavy rain on the 16th and 17th resulted in serious flooding in the Manawatu.

Temperature.—Over the North Island, except in Taranaki, temperatures reached the normal figure and were one or two degrees above it in eastern areas. Except for Marlborough, the South Island temperatures were on the average two degrees below normal. Frosts were fairly severe in the first-half of the month. Some snow fell, chiefly in the period 11th to 13th, in the South Island and in the Taupo-Rotorua region.

Sunshine.—It was a poor month for sunshine in the South Island, again excepting Marlborough, with records more than twenty hours below average. Taranaki was also under average, but the rest of the North Island was not far off the standard figure.

Thunderstorms.—A number of these occurred throughout the month, particularly during the 30th. Apart from blown fuses the damage was negligible.

Pressure Systems.—At first, showery conditions prevailed on the east coast of the North Island, but an anticyclone gradually extended from the South Island over the whole Dominion, giving mainly fair to fine weather with southerly winds and cool temperatures. As a complex depression approached, the anticyclone began to move away on the 7th, resulting in moderate to strong northerly winds and rising temperatures. This and a succession of shallow depressions kept the weather unsettled, with heavy rain at times, chiefly in western districts.

With south-easterly winds south of Christchurch on the 10th and 11th there was dull, cold weather followed by snow. Between the Australian anticyclone and the very low-pressure centre to the south-east there was a strong south-westerly gradient. Conditions improved rapidly in the east, but were cold, changeable, and showery in the west. In this period snow fell in the centre of the North Island and down to low levels in many parts of the South Island. Hail was also widespread.

From the 15th to the 17th the situation was more of the westerly type with strong, squally winds, especially over the Auckland Peninsula. The weather was mainly fair east of the ranges, but very changeable and cool elsewhere with many thunderstorms and heavy rain. The Manawatu district experienced serious flooding. On the 18th and 19th the weather was unsettled with light falls, chiefly in central provinces. After the 20th, north-easterlies predominated for several days, with relatively high pressure persisting to the south-east. Rain fell at times, mainly in the upper-half of the North Island.

From the 22nd a number of shallow depressions arrived, bringing rain to western areas. On the 25th one of these merged into the weakened remains of a deep depression which had travelled very slowly from Tasmania. Heavy rain fell in central provinces, the wet weather travelling southwards and then returning to Cook Strait. On the 26th and 27th flooding occurred in the Kaikoura district. Although north-easterlies blew for a spell on the east coast westerlies gradually extended from the north. Until the end of the month there were fair intervals between the series of westerly depressions, with winds between north-west and south-west. On the 30th, thunderstorms were widespread and, in many cases, were accompanied by heavy hail-showers.

## SECOND SCHEDULE.

1. Tenders must be written in the form provided for the purpose, and be forwarded in a sealed envelope marked "Tender for Lease" so as to be received at the office of the Aotea District Maori Land Board, Wanganui, not later than 3 p.m. on Wednesday, the 25th day of October, 1939.

2. Each lot must be tendered for separately, and each tender must be accompanied by a deposit equal to six months' rent at the rate tendered. Two or more sections in the said township may be included in one lease.

3. Each successful tenderer will be entitled to possession on receipt of a notification of the acceptance of his tender.

4. Deposits with tenders which are not accepted will be returned to the respective tenderers.

5. The highest or any tender for any lot will not necessarily be accepted and the Board reserves the right to accept or reject any tender.

6. If from any cause whatever the Board shall be unable to grant a lease of any lot tendered for, the successful tenderer shall be entitled to a refund of his deposit but shall have no claim for damages, compensation, or interest on the deposit.

7. Each successful tenderer shall be required, within thirty days from the date on which the lease shall be tendered to him, to sign same in triplicate. In the event of his failure to do so, the Board may forfeit the rent paid by him and again offer the land for lease, freed from any obligation to the defaulting tenderer.

8. The lease will be issued subject to the provisions of the Native Townships Act, 1910, and the Public Bodies' Leases Act, 1908, and will contain, *inter alia*, the following provisions:—

(a) The term of the lease will be twenty-one years from the 1st day of January, 1940, at the rent tendered, with a perpetual right of renewal, each renewed lease to be for a term of twenty-one years at a rental assessed on the unimproved valuation of the section at the time of renewal.

(b) Rent will be payable half-yearly in advance. Lessee will pay rates, and will not assign or sublet without the Board's consent. Lessee will keep the land clear of noxious weeds.

(c) Lessee will fence the boundaries without any resort to the Board for contribution as owner of adjacent land; but this provision shall not deprive the lessee of any rights he may have against any subsequent occupier, other than the Board, of such adjacent land.

(d) Lessee to keep premises in repair.

(e) Lessee not to carry on any offensive trade without the consent of any local authority.

9. The leases will be prepared by the Board at the cost of the lessee. The cost is £1 ls., together with cost of stamping and registering same.
