NOTE.—The month was uneventful until the 30th, when a southerly gale freshened towards evening and blew with much violence until the early hours of the 31st. It was accompanied by heavy rain, hail, and heavy seas. Snow fell on the Tararuas on the 26th and 30th.

NOTES ON THE WEATHER FOR OCTOBER, 1939.

General.—On the whole October has been a pleasant and sunny month. It has been rather cool, however, especially at night, and much drier than usual, but fortunately with the absence of drying winds. Conditions have favoured grass growth, but pastures are still rather backward. The lambing season has been satisfactory and the weather, except for the gale at the end of the month, has enabled a good start to be made with shearing. Cattle are healthy with an increasing milk yield, which has not yet reached the rate of production of last year. Crops and cultivation are well ahead, and orchards are making good progress.

Rainfall.—The earlier part of the month was very dry, particularly in the south, but afterwards most districts had beneficial falls. Except in some northern and eastern areas of the Auckland Province, rainfall totals have been below average, and indeed below 50 per cent. of the average over almost half the country. The rains have barely sufficed for present requirements, so that there is a need in most farming districts for early warm rains.

Temperatures.—On the average, mean temperatures have been about a degree below the normal for October. The greatest departures have occurred in eastern districts where sea breezes have helped to keep the temperatures down. Nights have been cool generally and frosts have been fairly frequent, some of the sharpest following the cold south-westerly at the close of the month. The hail accompanying this wind was severest in Hawke's Bay where, however, the damage to fruit crops was fairly localized.

Sunshine.—Sunshine averages were well exceeded in Otago, Southland, and in most western districts, while some slight deficits were recorded at several stations on the east coast.

Thunderstorm.—A severe thunderstorm, accompanied by heavy rain and hail, affected the Hawke's Bay Province on the 12th. Fortunately the worst hail showers did not extend to a very wide area of orchards.

On the same day a small tornado was reported at Thornton, near Whakatane.

Pressure Systems.—For the first week anticyclonic conditions prevailed, the weather being fine and mild, but an almost stationary disturbance in the far north brought cloudy weather to the Auckland Peninsula and, finally, stormy easterly wind and rain to the entire province. During the 7th a rapidly moving depression came across the South Tasman Sea and resulted in a southerly change on the 8th and 9th. At this time rain was fairly general, with some good falls on the east coast. As shallow depressions passed between the 11th and 13th, the weather remained rather unsettled and central provinces had heavy rain and some thunderstorms, the rain extending later to the north. Thereafter, there was a general fine spell, but a more extensive disturbance, with one of its centres to the south, caused freshening northerlies with rain in Westland and the far south and later generally, except in Canterbury and Marlborough. Then the northern centre crossed the North Island and brought heavy rain to the Auckland Province. By the 19th the situation was of the westerly type but the depressions associated with it were not very active, and only moderate falls were experienced in the west.

On the 20th and 21st a weak trough, gradually moving southwards, brought behind it fresh southerlies with scattered rains and snow on the ranges, but pressure rose rapidly and good anticyclonic weather soon followed. During the clear night some hard frosts were recorded.

A new disturbance commencing its passage across the Dominion on the 24th gave rain in the west and south of the South Island and, on the 26th, caused freshening south-westerlies which were accompanied by colder temperatures, scattered rain showers, and isolated hail. An anticyclone was moving across the Tasman but the depression to the south-east deepened considerably, keeping the winds south-westerly, and on the 30th these increased to squally gales, sweeping the country with cold showers and hail. However, as barometers rose, conditions made a rapid improvement and temperatures moderated on the closing day of the month.

Office of the Registrar-General,
Wellington, 16th November, 1939.

THE attention of the persons or person within the Dominion of New Zealand in whom is vested ecclesiastical authority over any of the religious bodies enumerated in the Third Schedule annexed to an Act of the General Assembly of New Zealand intitled the Marriage Act, 1908, and of all other persons concerned, is directed to the 11th section of the above-mentioned Act, requiring the several ecclesiastical authorities as aforesaid to send in to the Registrar-General, in the month of December in every year, a correct list of their Officiating Ministers within the meaning of the Marriage Act, 1908, of each of the said religious bodies.

The following are the religious bodies above referred to:—

- The Church of the Province of New Zealand, commonly called the Church of England.
- The Presbyterian Church of New Zealand.
- The Roman Catholic Church.
- The Methodist Church of New Zealand.
- All Congregational Independents.
- Baptists.
- The Lutheran Church.
- All Hebrew Congregations.
- The Society of Friends.
- The Salvation Army.

In default of any person having ecclesiastical authority over any of the religious bodies named above, the name of the Officiating Minister of any congregation of such religious body may be certified to by two recognized office-bearers thereof.

A minister of religion not connected with any of the aforesaid bodies must send to the Registrar-General in the month of December in each year a certificate signed—

- (a) By the recognized head in New Zealand of the religious body to which he belongs; or
- (b) By two duly recognized ministers of such religious body; or
- (c) By ten adult members thereof, who append to their signatures their description as being such members, declaring that such minister is their Officiating Minister, the said signatures and descriptions being attested by some person who shall verify the signatures to the certificate as the genuine signatures of the persons whose they purport to be, by a statutory declaration signed by such person and appended to the certificate.

In each case enumerated under paragraphs (a), (b), and (c) above, the Minister of Justice must be satisfied that the body of persons named in the certificate is a religious body, and that the applicant is a minister of religion and is a person of good character and otherwise qualified to act as an Officiating Minister. In the case of the religious body known as "Brethren" a special form of certificate will be supplied on application.

Neglect in sending the certificate will deprive the minister of his status as an Officiating Minister under the Marriage Act.

A woman shall not be disqualified by reason of her sex from being an Officiating Minister within the meaning of the Marriage Act, or from having her name entered upon the List of Officiating Ministers compiled for the purposes of that Act.

(N.B.—It is requested that the *Christian names* and the addresses of the several ministers may be specified in the lists sent in to the Registrar-General.)

In order to obviate the necessity for further inquiry, it is also requested that the reason for omitting the name of any minister be stated (such as on account of death, absence from New Zealand, or as the case may be).

AUCKLAND LAND DISTRICT.—SECOND-CLASS LAND.

Waitomo County.—Maungamangero Survey District.

PART Section 1, Block XI: Area, 687 acres.* Capital value, £500. Deposit on deferred payments, £20. Half-yearly instalment on deferred payments, £15 12s. Renewable lease: half-yearly rent, £10.

*Area being offered is under survey and the acreage is subject to alteration.

This sum is payable in cash, or, after payment of a deposit of £205, the balance, £1,740, may be secured on mortgage to the State Advances Corporation of New Zealand, payable over a period of thirty-years by quarterly instalments of principal and interest combined with interest at the rate ruling at the date of selection, subject to a rebate of $\frac{1}{4}$ per cent. for prompt payment of the instalments. The mortgage will contain covenants to provide for the satisfactory top-dressing of the section, and for the control and gradual eradication of noxious weeds. Costs of preparation and registration of the mortgage amount to £7 11s., and this amount is payable by the selector.

This is a grazing proposition situated in the Mangaotaki Road, nine miles from Pio Pio Post-office, Dairy Factory, and Saleyards, two miles and a half from Haku School, and twenty-five miles from Te Kuiti Railway-station, access being by metalled road from Pio Pio. The property is mainly of easy contour being divided by a limestone bluff with the front portion somewhat broken by gullies running from this bluff to the Mangaotaki Stream. With the exception of approximately 38 acres waste land, the whole area is generally in fair pasture. Soil is light loam resting on limestone formation; permanently watered by streams and springs. Blackberry has a strong hold and requires immediate attention, while ragwort is in evidence and will require to be kept under control.

Any further particulars required may be obtained from the undersigned.

Commissioner of Crown Lands.

Settlement Land in Wellington Land District for Selection on Renewable Lease.

SCHEDULE.

WELLINGTON LAND DISTRICT.—SETTLEMENT LAND.

Patea County.—Block II, Wairoa Survey District.—Soland Settlement.

SECTION 1s: Area, 75 acres 2 roods. Capital value, £230*; half-yearly rent, £5 15s.

*Capital value includes the sum of £150 for Crown's improvements, consisting of 30 acres felled, burned, and grassed, and 25 acres cleared and stumped.

Weighted with £270 for improvements, comprising dwelling, 18 chains of boundary fencing, 30 chains subdivisional fencing, 22 chains of road fencing, and power-line to shed. This sum is payable in cash, or, after payment of a deposit of £20, the balance may be paid over a period of fifteen years by half-yearly instalments of £7 3s. 5d., interest being at the rate of 5 per cent. per annum.

This property is situated on the Karahaki Road, eight miles from Waverley by good metalled road. The soil is light sandy loam resting on a clay formation and is watered by stream and dam. Approximately 30 acres consist of good flat land whilst the balance consists of gullies, most of which have easy slopes and although the gullies are infested with gorse the plough could be used well down in the process of reclamation. The property needs reploughing and sowing and if worked in conjunction with another property it would be a desirable proposition, but as separate holding, the property would require a man with sufficient capital to replough, resow and stock with sheep for a few years.

The section is subdivided into 7 paddocks and although there is some ragwort it has been kept under control. At the present time some 15 acres are in good pasture, 14 acres worn out, and 20 acres are in heavy gorse.

Any further particulars required may be obtained from the undersigned.

H. W. C. MACKINTOSH,
Commissioner of Crown Lands.
