Note on Change in Method of Publication.

AS a measure of economy in paper it has been decided, after January, 1941, to publish in the *Gazette* the first two pages only of the monthly meteorological statistics and to eliminate the detailed rainfall records. An exception will be the inclusion of the 1940 rainfall data in the *Gazette* in March, 1941.

The monthly rainfall records for January, 1941, onwards will be included in an annual publication of the Meteorological Office, and anyone who desires to have detailed information on rainfall more promptly than by the medium of this annual publication should communicate with the Director, Meteorological Office, P.O. Box 722, Wellington C. 1.

NOTES ON THE WEATHER FOR DECEMBER, 1940.

General Notes.—December was warm, dry and sunny, with conditions ideal for shearing and haymaking. Most cereal and fodder crops have been growing rapidly as also the linen-flax and, in the Auckland Province, the paspalum grass. Fruit is ripening very well, although the crops in some cases are not heavy. There is still plenty of grass, and dairy production continues at a high level, while pastures which are now drying are most favourable for fat lambs.

Rainfall.—Rainfall was well below average in most places, frequently by deficits of 50 per cent. or more. The average was reached, however, in South Westland and exceeded in parts of central Hawke's Bay and in a region embracing Taupo, Rotorua, and Tauranga. These North Island excesses were due to the torrential rains during the 14th, for which day Katikati recorded 9.10 in.

Temperatures.—Mean temperatures were everywhere above normal. The cold changes were of very brief duration, and towards the end of the month there were several particularly hot days, especially in Westland.

Sunshine.—Apart from Taranaki and Westland, where sunshine was slightly under average, it was in excess, with substantial surpluses occurring in the South Island.

Weather Sequence.—An extensive anticyclone was responsible for fair weather over most of the country, but on the 5th a disturbance extended across the South Island bringing a moderate southerly change with intermittent rain in the west and south and, on the following days, some drizzle in the Central Provinces. However, the anticyclonic centre remained in the north-east so that, except for scattered rain at times in Westland and Southland, fair weather prevailed.

A trough arriving on the 10th caused a westerly change, but the scattered rain affected little more than Westland. A weak westerly depression on the 12th was followed by cool south-west winds, scattered showers later extending to eastern districts. Some remarkable downpours occurred at isolated parts of the Hawke's Bay and south Auckland Provinces on the 14th, in some cases with thunderstorms and heavy hail. Conditions which had cleared in the south then improved generally as an anticyclone covered the whole Dominion. As this system moved eastward on the 17th north-westerly winds became strong in the Cook Strait region, while some rain fell in the west and south of the South Island as a new disturbance approached. The advancing southerlies gave only scattered precipitation, and by the 19th anticyclonic conditions prevailed again over the whole area. Some intermittent rain developed in western districts from Taranaki southwards, and a moderate south-westerly change gave showers on the east coast of the South Island. North-west or west winds continued over the North Island and on the 21st reached gale force about the South Taranaki Bight.

On the 23rd one depression passed rapidly to the south of the Dominion and another reached the South Island from the Central Tasman Sea. The weather deteriorated generally, and the advance of fresh southerlies brought much cooler temperatures and widespread rain. On Christmas Day, as an anticyclone extended over New Zealand, there was a very rapid improvement. A slight disturbance gave some drizzle in Westland and another shallow depression on the 30th gave rise to local light drizzle and scattered morning fog, but otherwise fine, warm weather prevailed.

SCHEDULE.

SOUTHLAND LAND DISTRICT.—SOUTHLAND COUNTY.

Education Endowment.

SECTION 1, Block XIII, Sections 13 and part 11, Block XIV, and part Runs 193 and 254B, Wendon Survey District. Area, 5,280 acres 2 roods 20 perches. Annual rental, £140.

Weighted with £2,343 (payable in cash), for improvements comprising dwelling, sheds, yards, water-supply, &c.

Description of Run: This run is situated about eleven miles from Riversdale Township. Altitude is from 500 ft. to 1,700 ft. Approximately 4,660 acres lie west of the Wendon Stream, of which a considerable portion faces south to south-east and is rather badly overgrown with bracken and manuka. The higher portion of this area is open silver tussock land free from scrub and, although providing fair summer grazing, would carry little stock through the winter. The balance of the run is good low tussock country, of which about 132 acres have been cultivated.

Lot 1 of Run 193, Blocks VI, XIII, XV, and XVI, Wendon Survey District. Area: 3,701 acres. Annual rent, £145.

Weighted with £1,495 (payable in cash), for improvements comprising dwelling, sheds, yards, fencing, &c.

Description of Run: This run is situated about twelve miles and a half from Riversdale Township and ten miles from Freshford Railway-station. Altitude ranges from 600 ft. to 1,700 ft., and the aspect is variable but good generally. Manuka is in evidence along the foothills on the western side, but the affected area comprises only a small portion of the run. The run generally is well covered with silver tussock and native grasses.

ABSTRACT OF CONDITIONS.

1. Date of possession: 1st April, 1941.
2. Term of License: Twenty-one years from 1st March following date of selection, with contingent right of renewal over the whole run or, if it is subdivided, over one subdivision.
3. One half-year's rent, broken-period rent, license-fee (£1 1s.), amount of weighting for improvements, and statutory declaration to be lodged by the successful applicant immediately his application is declared successful. Rent commences from date of possession.

4. Applicants must be not less than twenty-one years of age.
5. Personal residence to commence within one year and to be continuous thereafter.

6. No person may hold more than one pastoral run except on the recommendation of the Land Board and with the approval of the Minister of Lands. If a husband holds a run his wife is deemed to be a runholder and *vice versa*.

7. Rent is payable half-yearly in advance on 1st March and 1st September in each year. If not paid within thirty days of due date a penalty of 10 per cent. is added.

8. Licensee to prevent destruction or burning of timber, burning of snow tussock, burning of other tussock, except in July, August, and September; to prevent growth and spread of gorse, broom, sweetbrier, or other noxious weeds or plants; to keep down rabbits; and to refrain from burning grass during such months as the Commissioner of Crown Lands shall from time to time determine.

9. With permission of the Land Board and the Minister the licensee may—

- (a) Cultivate a portion of the run and grow winter feed thereon.
- (b) Plough and sow in grass any area not exceeding 3,000 acres.
- (c) Clear off brush or scrub any portion of the run, and sow same in grass.
- (d) Surface sow in grass any portion of the run.

10. License is liable to forfeiture if conditions are violated. Any further information may be obtained from the undersigned.
