Apportionment of Representation on North Canterbury Hospital Board.

C. L. N. NEWALL, Governor-General.

ORDER IN COUNCIL.

At the Government House at Wellington, this 9th day of April, 1941.

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

PURSUANT to the Hospitals and Charitable Institutions Act, 1926, His Excellency the Governor-General, acting by and with the advice and consent of the Executive Council, do hereby order as follows:—

1. This Order may be cited as the Hospital Representation Order 1941.

2. The Order in Council made on the twenty-fifth day of March, one thousand nine hundred and thirty-five, making provision in regard to the representation of contributory districts on Hospital Boards, is amended by revoking the Second Schedule thereto so far only as it affects the representation of the contributory districts named in the Schedule hereto.

3. The respective contributory districts, the names of which are set out in the second column of the Schedule hereto and therein bracketed together, are combined into a combined district.

4. The contributory local authority, the district of which is distinguished in the second column of the Schedule hereto by the letter "(p)," is selected to be the principal contributory local authority of the combined district in which such contributory local authority is included.

5. The numbers of members to be elected to the Board of the hospital district named in the first column of the Schedule hereto as the representative or representatives of the contributory districts and combined district named and indicated in the second column thereof shall be the numbers specified in the third column thereof respectively.

6. The following provision is made for particular cases:—

- The date of the first election of an additional representative for the Christchurch City shall be the date of the next ordinary general election of members of Borough Councils.
- The first election of a representative for the Waimairi County shall take place on the date of the next ordinary general election of County Councils.
- The first election of a representative for the combined district of the Riccarton Borough, Sumner Borough, and Lyttelton Borough shall take place on the date of the next ordinary general election of members of Borough Councils.
- The present representatives of the combined district of Waimairi County and Riccarton Borough shall continue to hold office until the date of the next ordinary general election of County Councils, and the present representative of the combined district of Lyttelton Borough, New Brighton Borough, and Sumner Borough shall continue to hold office until the date of the next ordinary general election of Borough Councils.

On 500 kc/s (600 metres) or, in the case of stations in Areas 1 and 2, on their working wave—at any time.

4. A list of the stations included in the organization showing the areas for which they transmit and the waves on which messages are broadcast is shown in the Schedule. As far as possible the times 0400 and 1600 G.M.T. have been fixed for transmissions from stations under paragraph 3 (c) above, since, in all areas of the world, one or other of these times fall

within a period when ships with one operator are keeping watch. Times at which messages are broadcast from 500 kc/s (600 metres) stations are not included in the Schedule, since merchant ships keep normal watch on this wave, and messages may, therefore, be broadcast from these stations at any time. If messages are broadcast by stations shown in paragraphs 3 (c) and (d) above outside the single operator periods of their areas, steps will be taken to ensure that these messages are received by ships only keeping watch during single operator periods. Such messages, therefore, in the case of the medium and high power stations which have two or more broadcast periods a day will be retransmitted at the next routine broadcast. In the case of the 500 kc/s stations such messages will be retransmitted during the next following single operator period for their area or areas concerned. This organization results in four special 500 kc/s periods a day being available in any area, when broadcast messages may be received, in addition to such messages being made on receipt by the stations concerned.

5. Messages containing information affecting British merchant ships are broadcast—

- (a) By Admiralty to all British merchant ships in all areas ;
- (b) By Admiralty to British merchant ships in any particular area or areas ;
- (c) By Naval Authorities abroad to British merchant ships in the areas for which they are responsible.

(ii) Messages under (a) will be broadcast from Rugby, Oxford, and Falklands with the call sign GBMS, and will also be broadcast with the same call sign by the radio stations concerned shown in column 3 of the Schedule.

(iii) Messages under (b) are broadcast from Rugby, Oxford and/or Falklands, as necessary ; they are also broadcast by the radio stations of the area or areas concerned using the appropriate call sign. In some cases the message is broadcast from particular radio stations only.

(iv) Messages broadcast from the radio stations in Areas 1, 2, 7, and 8 in accordance with paragraph 3 (d) may be transmitted on the Working Wave of the station after a preliminary call on 500 kc/s (600 metres). After such call a list of messages to be broadcast will be given as shown in paragraph 6 (i), and ships will be told to change to the Working Wave. Ships are to revert to 500 kc/s (600 metres) as soon as they have received all new messages.

(v) Messages under (c) are broadcast by the radio stations shown in column 3 of the Schedule, using the call sign for Merchant Ships in that area (*vide* paragraph 2 above). Such messages may also be broadcast from Rugby and Oxford and/or Falklands with the same call sign.

(vi) Messages may also be communicated to small ships not fitted with radio by certain shore Signal Stations.

6. Messages referred to in paragraph 3 (a), (b), and (c) are broadcast as follows :—

(i) The radio station will start at routine periods by broadcasting the list of messages for transmission, together with the call signs for which they are intended, in the sequence in which they will be transmitted. The messages are normally identified by their times of origin only, but should it be considered necessary, as in the case of more than one message bearing the same time of origin from different authorities, the name of the originator will be added, for example, 0216/6 from C.-in-C. East Indies.

(ii) All new traffic for GBMS is then broadcast, each message being sent twice. On completion, traffic for GBMS which has previously been transmitted at one or more routines is broadcast, each message being sent once only.

(iii) When all traffic for GBMS has thus been broadcast, traffic for individual areas will be broadcast in the numerical sequence of areas, new traffic in each case being broadcast first and sent twice, followed by messages previously transmitted for that area, sent once only. In the case of a message for two or more areas (other than GBMS messages) this message will only be broadcast with those for the lowest numbered area concerned.

(iv) *Example.*—Rugby (GBR) has the following messages for transmission at a routine :—

For all British Merchant Vessels. Messages 0645/6, 1720/6, 0241/7.

For all British Merchant Vessels in Area 1. Messages 1131/6, 2358/6.

For all British Merchant Vessels in Areas 1 and 6. Message 1827/6.

For all British Merchant Vessels in Area 3B. Messages 1127/5, 0912/7.

For all British Merchant Vessels in Area 10. Messages 0916/6, 0436/7.

Of these, Messages 0241/7, 2358/6, 0912/7, and 0436/7 are new traffic ; remaining messages have previously been transmitted at one or more routines.

Routine will be carried out as follows :—

GBMS GBMS GBMS de GBR—QTC—GBMS—0241/7—1720/6—0645/6

—GBMS 1—2358/6—1131/6—GBMS 1 and GBMS 6—1827/6—GBMS

3B—0912/7—1127/5—GBMS 10—0436/7—0916/6.

Traffic will then be broadcast in the following sequence :—

Call Sign.	Message.	No. of Transmissions.
GBMS	0241/7	Two.
GBMS	1720/6	One.
GBMS	0645/6	One.
GBMS 1	2358/6	Two.
GBMS 1	1131/6	One.
GBMS 1—GBMS 6	1827/6	One.
GBMS 3B	0912/7	Two.
GBMS 3B	1127/5	One.
GBMS 10	0436/7	Two.
GBMS 10	0916/6	One.

(v) In the case of GBMS traffic broadcast from 500 kc/s stations during single operator periods, the messages for transmission will not be indicated at the beginning of the broadcast (except as shown in paragraph 5 (iv) for Areas 1, 2, 7, and 8), but new traffic will always be broadcast first, each message being sent twice ; repetitions of previous transmissions will follow, each message being sent once only.

(vi) In Area 1 500 kc/s stations will normally broadcast GBMS traffic approximately one hour after the times shown for traffic list in the Admiralty List of Radio Signals, Vol. I, and in Area 2, one hour after the commencement of single operator periods, since certain routine broadcasts on other frequencies occur at the beginning of these periods.

(vii) Similarly, in other areas, the times of broadcasting GBMS traffic from 500 kc/s stations during single operator periods will be so adjusted as not to coincide with routine broadcasts of GBMS traffic from other stations in these areas. Where interference between local stations is likely to occur, the times will as far as possible be staggered.

7. The messages from the Admiralty to all areas will be issued in alphabetical sequence thus : “ Admiralty Message A,” “ Admiralty Message B,” &c. After lettered message Z the sequence will be AA, AB, &c., to AZ, thereafter BA, BB to BZ, and so on. Messages to all areas not made by radio but passed to Merchant Ships via Shore Authorities will also belong to this series and be similarly lettered. For example, messages BA and BC might be made by radio and message BB passed only via Shore Authorities, in which case message BC would contain the information that BB had not been sent by radio. This is to enable merchant ships to check that they have not missed any messages in the series.

Any messages which have been missed should on no account be asked for by radio. They should be obtained by V/S from H.M. Ships or other British merchant vessels or by personal application to the British Naval Representative or Consular authorities at the next port of call.

SCHEDULE.

NOTE.—The transmission from Rugby on 16 kc/s (18,750 metres) at 2000 G.M.T. is intended primarily for ships in Area 5, and that on 8,910 kc/s (33.67 metres) at 2000 G.M.T. for ships in Areas 3, 4, 5, and 6.
