*Appointing a Commission to inquire into and report on certain Proposed Developmental Works near the Mouth of the Hutt River*

[L.S.] C. L. N. NEWALL, Governor-General

To all unto whom these presents shall come, and to The Honourable Sir Francis Vernon Frazer, Knight, of Wellington, John Wood, Esquire, C.M.G., M.Inst.C.E., of Wellington, Civil Engineer, and Drummond Holderness, Esquire, M.Inst.C.E., of Auckland, Civil Engineer: GREETING.

WHEREAS replacement of the pipe bridge over the Hutt River has become an urgent necessity:

And whereas the location and design of the necessary new bridge will affect vitally the future development of the lands and the harbour and transport facilities in the vicinity:

And whereas developmental works that have been suggested include—

- (a) The diversion of the Hutt River from a point near Gear Island to permit the construction of a harbour for overseas shipping within the present mouth of the river:
- (b) As an alternative the construction of a harbour for such shipping between Point Howard and the present mouth of the river:
- (c) In addition, the construction of a spurline of railway to serve such harbour works, as well as industries which may be established in the vicinity:

And whereas certain of these matters have previously been the subject of investigations and are referred to in a report on the Hutt Valley Development Scheme by J. W. Mawson, Esquire, Dip.C.D., F.R.I.B.A., M.T.P.I., Town-planning Officer of the Department of Internal Affairs, in the year one thousand nine hundred and forty:

And whereas it is desirable that inquiries should be made as to the necessity or desirability of the several suggested works:

And whereas legislation may be desirable to make special provision in respect of the several foregoing matters or any of them:

Now, therefore, I, Cyril Louis Norton Newall, the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the powers and authorities vested in me by the Commissions of Inquiry Act, 1908, and of all other powers and authorities enabling me in this behalf, and acting by and with the advice and consent of the Executive Council of the said Dominion, and for the purposes herein set forth, do hereby appoint you, the said

Francis Vernon Frazer,  
John Wood, and  
Drummond Holderness

to be a Commission to inquire into and report upon the following matters:—

- (1) Is the construction of a harbour at or near the mouth of the Hutt River necessary in the public interest?
- (2) If so, where should it be located? If at the mouth of the Hutt River, should the river be diverted, and, if so, where should the diversion be located?
- (3) For what classes of shipping should it provide berthage, and what depth of water at the wharves do you consider necessary for such shipping?
- (4) What would be the general nature of such a harbour? What class of construction do you recommend for the proposal and what means of obtaining and maintaining the depth of water is recommended?
- (5) What facilities, including rail and road access, should be provided for its efficient operation?
- (6) What should be the approximate cost of such a harbour?
- (7) How soon should it be constructed?
- (8) If the construction of such a harbour is recommended, but not as a scheme for early construction, what action is necessary at the present time, in case harbour facilities should be required at some later date?
- (9) If the diversion of the Hutt River is recommended, in what respects and to what extent is the diversion likely to effect the Petone foreshore?
- (10) What provision, if any, should be made in the design and construction and location of a new bridge to replace the existing pipe bridge over the Hutt River to facilitate developmental works, such as rail service to industries which may be established in the vicinity and to any harbour works which the Commission may recommend, as well as to facilitate the diversion of the river, if recommended, and, in any event, the use of it as a waterway?
- (11) If a harbour is not considered necessary in the near future, what transport facilities should be provided to enable the residential, commercial, and industrial life of the area to be carried on efficiently and economically?
- (12) What is your view of the proposals relating to harbour and transport facilities generally included in the report on the Hutt Valley Development Scheme referred to in the recitals to this Warrant?

And generally upon such other matters arising thereout as may come to your notice in the course of your inquiries and which you consider should be investigated in connection therewith, and upon any matters affecting the position which you consider should be brought to the attention of the Government:

And, with the like advice and consent, I do further appoint you, the said

Francis Vernon Frazer,

to be Chairman of the said Commission:

And you are hereby authorized to conduct any inquiry in these presents at such times and places as you deem expedient, with power to adjourn from time to time and place to place as you think fit, and to call before you and examine on oath or otherwise such persons as you think capable of affording you information as to the matters aforesaid, and to call for and examine such books, papers, writings, documents, and records as you deem likely to afford you the fullest information on any such matters:

And, using all due diligence, you are required to report to me under your hands and seals not later than the thirtieth day of June, one thousand nine hundred and forty-four:

And you are hereby strictly charged and directed that you shall not at any time publish or otherwise disclose, save to me in pursuance of these presents or by my direction, the contents or purport of any report so made or to be made by you:

And it is hereby declared that this Commission shall continue in full force and virtue although the inquiry be not regularly continued from time to time or from place to place by adjournment:

And, lastly, it is hereby further declared that these presents are issued under and subject to the provisions of the Commissions of Inquiry Act, 1908.

*Immediate Operational Awards approved by His Majesty the King*

Office of the Minister of Defence,  
Wellington, 18th April, 1944.

**H**IS Majesty the King has been graciously pleased to approve of the following Immediate Operational Awards in recognition of gallant and distinguished service during operations leading up to and during operations on Green Island in the South Pacific Area:—

*2ND NEW ZEALAND EXPEDITIONARY FORCE**The Distinguished Service Order*

Major Arthur Beecher Bullen (No. 23815), New Zealand Infantry.

At Green Island on 20th February, 1944, Major Bullen was in command of D Company of his Battalion during an attack on a position in the vicinity of Tanaheran Village.

In spite of heavy fire from machine-guns, mortars, and grenades, he led his company to within striking distance of the position and deployed his platoons in such a way that the enemy was forced into a small pocket on the coast. As there was then little daylight left Major Bullen decided to assault the position in order to prevent the enemy escaping in the darkness. Having brought his platoons to within 30 yards of the position, at a given signal he personally led the attack which succeeded in completely destroying sixty of the enemy.

Major Bullen's action in organizing and directing the attack regardless of his personal safety was an inspiration to his men and an outstanding example of splendid leadership.

*The Distinguished Conduct Medal*

No. 44892 Sergeant Gilbert Henry Reesby, New Zealand Infantry.

At Green Island on 20th February, 1944, Sergeant Reesby was in temporary command of a platoon of his Battalion which was engaged in liquidating an enemy post on the coast in the vicinity of Tanaheran Village. Under heavy fire, and with complete disregard for his personal safety, he led his platoon to within 30 yards of the enemy and killed six of them in doing so. This action enabled the remainder of the company to encircle the enemy and to approach within assaulting distance. When the signal for the assault was given Sergeant Reesby led his platoon with great dash, was the first man into the position, and killed several more of the enemy. Throughout the operation he displayed outstanding courage and set a splendid example to the whole of the company.

No. 73365 Corporal Philip Anzac Davidson, New Zealand Infantry.

At Sirot on 17th February, 1944, Corporal Davidson was a member of a Brigade Defence Platoon which was part of a force carrying out a reconnaissance of the island. While patrolling towards the north-western coast the platoon made contact with a party of sixteen of the enemy, who suddenly opened fire with grenades and a machine-gun at a range of 30 yards.

With complete disregard for his own safety, Corporal Davidson rushed the position, killed seven of the enemy, and put the gun out of action. The remainder of the force were thus enabled to go forward and destroy the remaining enemy without further loss to themselves. Corporal Davidson himself continued to assist with great gallantry in the mopping up. The conduct of Corporal Davidson throughout the operation was an inspiration to his comrades and is deserving of the highest praise.

*The Military Medal*

No. 453235 Private John Herbert Jefferis, New Zealand Infantry.

At Green Island on 31st January, 1944, Private Jefferis was a member of a barge reconnaissance party. On approaching within 30 yards of a beach south of Pokonian Plantation the barge came suddenly under heavy machine-gun fire, which killed the Platoon Commander and Coxswain.

Without hesitation and with complete disregard for his own safety, Private Jefferis immediately stood up and engaged the enemy with a Bren gun, which silenced the fire.

This prompt act enabled the barge to be cleared from the danger area, and prevented the enemy from inflicting further casualties.

The conduct of Private Jefferis throughout the action was highly commendable and a splendid example of devotion to duty.

No. 615519 Private William Thomas Augustus Aylward, New Zealand Infantry.

At Green Island on 31st January, 1944, Private Aylward was one of a party in a barge giving covering fire by rifle grenade to a platoon which was making a flank attack on an enemy position on the beach.

In spite of heavy machine-gun fire at close range, he continued bombing with such good effect that the enemy fire was silenced.

The barge was then attacked by six enemy dive-bombers, which killed the gunner and splintered the barge in several places.

Private Aylward without hesitation manned the machine-gun, and, regardless of his own safety, continued to engage the enemy aircraft till they dispersed.

His devotion to duty throughout the action was a splendid example to his comrades.

F. JONES, Minister of Defence.

*Immediate Operational Awards approved by His Majesty the King*

Office of the Minister of Defence,  
Wellington, 12th April, 1944.

**H**IS Majesty the King has been graciously pleased to approve the following Immediate Operational Awards in recognition of gallantry displayed in flying operations against the enemy in the Pacific:—

*Distinguished Flying Cross*

Flight Lieutenant (Acting Squadron Leader) Percival Guy Haig Newton (NZ 1069), Royal New Zealand Air Force, of Christchurch.

In a hotly-contested fighter sweep over Rabaul on Christmas Eve, 1943, this Squadron Commander displayed skill and personal gallantry of the highest order in shooting down two Japanese aircraft and in probably destroying a third. A few days later, when the enemy, in large numbers, endeavoured to intercept an Allied bomber force which Squadron Leader Newton's formation was escorting, he fought a gallant action and destroyed another two Japanese aircraft, bringing his score to five enemy aircraft shot down and one probably destroyed, as he had already had one success on an earlier tour. Squadron Leader Newton, though handicapped by ill-health, gave a sterling performance as a fighter pilot.

Flying Officer (Acting Flight Lieutenant) Jesse Julius de Willimoff (NZ 413038), Royal New Zealand Air Force, of Auckland.

Exemplary valour displayed by this officer in leading his section back toward enemy territory to cover a damaged Allied bomber returning from Rabaul under fierce attack on 20th January, 1944, was instrumental in the bomber's crew being saved. Learning that one bomber, on fire and under sustained attack, had fallen out of formation, Acting Flight Lieutenant de Willimoff took his section back and engaged the enemy to such purpose that the bomber was able to make a safe water landing, from which the crew was picked up. A similar incident occurred on 10th February, 1944, when an Allied torpedo bomber was covered against violent attack. After it had landed safely, Acting Flight Lieutenant de Willimoff and his section had to fight their way out against a numerically superior force of Japanese aircraft. This pilot has destroyed two enemy aircraft and damaged two others, and in service throughout the greater part of the Solomons campaign has proved an outstanding leader.

Flying Officer Donald Stanley Beauchamp (NZ 412188), Royal New Zealand Air Force, of Dannevirke.

By his skill and courage in landing a heavily-laden flying-boat in rough water in the open sea, this officer rescued five United States servicemen on 4th February, 1944. The men, who had been adrift for six days, were transferred to the aircraft, and in spite of rough water and a heavy swell, a take-off was made and the aircraft flown back to base. Flying Officer Beauchamp was captain of the New Zealand Catalina flying-boat concerned in the rescue. On sighting the rafts adrift in the Pacific he was unable to contact base for instructions, so he decided on his own initiative to attempt the rescue, well-knowing that, should he fail, there would be little prospect of rescue for himself and his crew. Although the aircraft was slightly damaged in the open-water landing and the subsequent take-off was crosswind, Flying Officer Beauchamp displayed a high degree of skill and determination, and succeeded in a difficult and hazardous enterprise.

Flying Officer Alexander Gardyne Stanley George (NZ 415758), Royal New Zealand Air Force, of Auckland.

The utmost enthusiasm in seeking out and engaging the enemy has been shown by Flying Officer George, who displayed high courage and determination while covering the withdrawal of Allied aircraft following an attack on Rabaul on 9th January, 1944. The Allied force was engaged by a vastly superior number of enemy aircraft, and in the ensuing action one of the enemy was shot down by Flying Officer George, whose conduct was in accordance with the highest traditions of the Service. This officer has also participated in many strafing missions, and has been most successful in locating and destroying Japanese landing craft and ground installations, pressing his attacks home with complete disregard of personal risk. In three tours of duty in the Pacific, Flying Officer George has completed seventy-six missions against the enemy, involving 249 hours' flying. He has destroyed two enemy aircraft, and assisted in the destruction of at least four landing-barges.

Flying Officer Geoffrey Reid Burton Hight (NZ 42402), Royal New Zealand Air Force, of Wellington.

Two enemy aircraft were destroyed, and a third probably destroyed, by this pilot in a single action over Rabaul on 24th December, 1943, in which he displayed extraordinary skill and courage against heavy odds. His coolness, ability, and disregard of his own safety have been of the highest standard, and were again proved when on 7th January, 1944, he exposed himself to attack to shoot down another enemy aircraft which was engaging one of Flying Officer Hight's formation. Flying Officer Hight has distinguished himself in aerial combat from Kahili to Rabaul, and has become a highly successful leader.

F. JONES, Minister of Defence.
