WHEREAS the Queenstown Borough Council is proceeding by way of special order to raise a loan of nine thousand five hundred pounds (£9,500), to be known as "Sewerage Redemption Loan, 1944" (hereinafter called "the said loan"):

Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the powers and authorities conferred on him by section one hundred and twenty-two of the Local Bodies' Loans Act, 1926, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby order and declare that the proceedings in connection with the said loan shall be valid to all intents and purposes as though the said public notifications had been correctly given, and that the validity of the proceedings in connection with the said loan, or of the security for the said loan, shall not be called in question by reason only of the irregularity aforesaid.

Term of Agreement: Four years, with the right to purchase biennially thereafter for a period of sixteen years a quantity of forest-produce either in the form of logs or trees.

Upon the expiry of the four-year term of the sale agreement, during which the Commissioner of State Forests (hereinafter referred to as "the Commissioner") undertakes to supply logs, the purchaser shall have the right to purchase biennially during the subsequent sixteen-year period provided herein, at such prices as the Commissioner may determine, forest-produce either in the form of logs or trees as the Commissioner may decide not less in quantity than the biennial average quantity purchased during the said four-year term.

The prices to be charged in respect of the biennial sales herein provided shall be determined as far as possible to make them conform to the then current values of sawn produce, provided always that values do not fall below the cost of logging plus the following stumpage rates per cubic foot, viz.:—

Rimu and miro	2½d.
Matai	3½d.
Kahikatea	2d.
Totara	4½d.

Deposit and Terms of Payment

As a guarantee of good faith a marked cheque to yield the sum of £1,000 (one thousand pounds) must accompany the tender, and shall be returned if the tender is not accepted. In the case of the purchaser this sum shall be held by the Conservator of Forests, Rotorua (hereinafter called "the Conservator"), and may at his option be returned to the purchaser at the conclusion of milling operations, or may be used in payment for the last month's supply of logs, any surplus being returned to the purchaser.

In addition, the purchaser shall, within 28 (twenty-eight) days of notification of the acceptance of his tender, deposit with the Conservator further sureties to the value of £2,000 (two thousand pounds), which shall be held by the Crown as security against default in payment for the logs purchased as herein provided or failure to comply with the terms and conditions of the sale agreement or any subsequent license or agreement. Should payment be made regularly, and should the terms and conditions hereinafter set out be faithfully observed, the sureties shall be returned to the purchaser at the conclusion of milling operations. The sureties may be by marked cheque, inscribed stock, Government bonds, or in other form acceptable to the Commissioner.

The deposit and the sureties (if in cash) will be invested in an approved security, and the accrued interest will be paid to the purchaser from time to time.

(NOTE.—It is estimated that the capital necessary to finance this project successfully will be not less than £40,000.)

Measurement of Logs

Logs will be measured by officers of the State Forest Service, and the quantities of timber in cubic feet will be assessed from the measurement made on each log of its girth at mid-length outside bark to the nearest complete inch, fractions being omitted, and its length to the nearest complete foot, odd inches being omitted, the volume being calculated in accordance with the New Zealand State Forest Service Log Scale. Although logs will be delivered in the longest possible lengths suitable for transporting, the maximum log length for measurement purposes will be 24 (twenty-four) ft., and longer lengths will be calculated as two or more separate logs of approximately equal length, save that no butt logs will be measured at a point less than 7 ft. from the butt end.

An allowance of 4 in. for crosscutting will be made on logs ranging from 24 (twenty-four) ft. to 32 (thirty-two) ft. in length, and on account of each complete 16 (sixteen) foot log length obtainable from logs of a length of 33 (thirty-three) ft. or over; and the Forest Officer will make such deductions for defective logs as in his opinion are reasonable, and in cases of dispute the Conservator's decision shall be final.

Terms and Conditions

1. The sale will be made in accordance with the provisions of the Forests Act, 1921-22, the regulations in force thereunder, and the terms and conditions in this notice.

2. The State Forest Service shall deliver on to the mill-skids or log-storage sites (the position of which will be notified from time to time to the purchaser) sufficient logs during each four-weekly period to average per working-day in the forest not less than 2,000 cubic feet and not more than 2,500 cubic feet, and the purchaser shall accept delivery of all logs so supplied.

3. At the end of each four-weekly period the Conservator shall notify the purchaser of the numbers and volumes of logs of each species delivered during that period and the total payment due therefor, and delivery shall be considered to be complete when the logs have been measured, marked, and placed on the mill-skids or assembled on suitable log-storage sites at or near the mill.

4. After the delivery of a log is complete, the purchaser shall be liable for full payment therefor notwithstanding that the log may subsequently be damaged by fire, insect, fungal attack, or any other cause.

5. Should the purchaser at any time make default in any of the payments due under the sale or in any manner in connection therewith, the Conservator shall have the right to cease delivery of logs until all such payments have not been met to his satisfaction.

6. The purchaser, his servants, employees, agents, or contractors shall not be permitted to enter the State Forest at other than the open area in the vicinity of the mill without the written consent of a Forest Officer and upon such conditions as he may impose.

7. The Commissioner shall lease to the purchaser an area of land upon which the purchaser shall erect a sawmill with necessary buildings and accommodation for 14 (fourteen) married employees, and the general lay-out and sites of all such buildings shall conform to a plan which may be obtained from the Office of the Conservator of Forests, Rotorua.

8. The type and design of the equipment and buildings to be erected on the site shall be subject to the approval of the Conservator, and each tenderer shall submit with his tender preliminary draft plans and specifications of the sawmill and other buildings. In addition, the purchaser shall within 8 (eight) weeks of the acceptance of his tender forward to the Conservator for approval final plans and specifications of all such buildings, and shall not proceed with the erection of any building without such approval, nor shall he after receiving such approval make any amendment to such plans or specifications without the consent of the Conservator.

9. The sawmill shall be a building of two floors, with all main drives on the ground floor. The building shall be erected on permanent concrete foundations, and each tenderer shall enclose with his tender particulars of the type of mill equipment he proposes to install, and such equipment shall not be installed without the approval of the Conservator.

(NOTE.—The type of equipment favoured is a heavy band mill or twin-saw head rig with steel frame. A Pacific type break-down carriage and a deal frame.)

If second-hand equipment is to be used it shall be sufficiently durable, in the judgment of the Conservator, to have a working-life of three-quarters of the life of new equipment.

(NOTE.—The Forest Service will assist the purchaser to locate suitable mill equipment if requested to do so by the purchaser.)

10. The purchaser shall provide a sufficient number of dry kilns to dry at least one-third of the mill production of sawn timber annually, and shall also install Dutch ovens for burning sawdust; in addition, he shall dispose of slabs, mill refuse, and other waste in such manner and on such sites as shall be approved by the Conservator.

11. The houses for the employees referred to in clause 7 hereof shall be of substantial construction and modern design and equipment, with drainage and water reticulation.

12. Apart from 14 (fourteen) key workmen whom the purchaser may employ he shall be required to give preference to local residents in selecting the other labour essential to the working of the mill.

13. The purchaser shall be required to generate and maintain sufficient electric power to light all buildings and dwellings (including those occupied by employees of the Crown) in the vicinity of the sawmill and to operate radios, jugs, irons, and washing-machines which may be used by the occupants of such dwellings, and shall be responsible for obtaining all necessary license, permits, and other authority to generate and operate such power. The charges to be made by the purchaser for supplying such power shall be fixed by mutual agreement between him and the Conservator.

14. The purchaser shall be required to provide a power-driven saw to cut slab wood into lengths suitable for domestic use, and may use all species of wood, except white pine, for this purpose; and the charges to be made by the purchaser for such firewood shall be subject to the approval of the Conservator.

15. At the termination of the agreement, or any subsequent license or agreement, the Commissioner reserves the right to purchase all machinery, buildings, fences, or other improvements at a price to be agreed upon between the Commissioner and the purchaser, and failing such agreement the price shall be determined by arbitration. If, however, the Commissioner does not wish to exercise this right of purchase the purchaser will be given six months in which to remove all the aforesaid improvements, and any improvements remaining on the ground at the end of that period shall become the property of the Crown.

16. Every duly authorized Forest Officer shall have the right of entry at reasonable times upon any premises of the successful tenderer for the purpose of inspecting the cutting of logs and examining his books or taking extracts therefrom for the purpose of verifying the contents of logs sold to him and the quantities of timber produced therefrom.

17. The attention of all tenderers is drawn to the fact that the local controlling authority may require the successful tenderer to pay any claims or charges which may be made by that body for the maintenance of the road over which the timber may be transported, and before the sale agreement is completed a letter indicating that satisfactory arrangements have been made in this connection must be produced to the Conservator.

18. Intending tenderers are expected to visit the locality and to satisfy themselves in every particular on all matters relative to the sale.

19. Each tenderer must state the price per cubic foot he is prepared to pay for each class of logs in each species. The highest or any tender will not necessarily be accepted, and the logs as described are submitted for sale subject to the final acceptance of the tender by the Commissioner.

20. The right is reserved to the Commissioner to withdraw from sale a part or all of the said quantity of logs either before or after the closing-date for receipt of tenders.

21. The purchaser shall not be permitted to transfer, assign, or in any way part with the rights and privileges granted under the sale agreement or any subsequent license or agreement without the written consent of the Commissioner, and any such transfer, assignment, or other change of ownership will be approved only providing that the consideration is on a basis of plant valuation and without any goodwill whatsoever attaching to the rights and privileges granted under the sale agreement or subsequent biennial licenses or agreements.

22. Tenders should be enclosed in envelopes addressed "Conservator of Forests, Rotorua," and endorsed "Tender for Timber." A copy of the agreement to be entered into between the purchaser and Commissioner may be seen on application to the undersigned or to the Director of Forestry, Wellington, from whom further particulars may be obtained.

23. Except as provided in clause 7 hereof nothing in the sale agreement or any subsequent license or agreement shall be construed or take effect to confer upon the purchaser the right to the possession of any land so as to create any leasehold estate or interest therein.

Acting Conservator of Forests.
