## ENGINEERS REGISTRATION BOARD OF NEW ZEALAND

INTERIM LIST OF REGISTERED ENGINEERS AS AT 8TH OCTOBER, 1945, AND EXPIRING 31ST MARCH, 1946

## Explanation

The list is in two parts as follows:—

Part A.—Giving those registered by examination or by “recognized certificate” under one of the following subsections of the 1924 Act:—

6 (i) a.—Registration by virtue of holding a “recognized certificate” in the form of a Diploma of Corporate Membership of one of the British Institutions of Civil, Electrical, or Mechanical Engineers, and also of having had not less than three years’ experience in the practice of engineering.

6 (i) c.—Registration by virtue of a pass in examinations approved by the Board (being the full associated membership examinations of one of the British Institutions of Civil, Electrical, or Mechanical Engineers, or equivalent exempting examinations), and also of having had not less than three years’ experience in the practice of engineering.

Part B.—Giving those registered under one of the following subsections, now expired, of the 1924 Act or amendments:—

6 (i) b of the 1924 Act, which provided for registration during the first period of operation of the 1924 Act of a person who had then attained the age of twenty-five years and had been engaged during a period of not less than six years before the commencement of the Act in the acquisition of professional knowledge, or in the practice of engineering in a manner satisfactory to the Board, and who made application for registration within twelve months after the commencement of the Act.

2 (i) of the 1928 amendment, which in effect re-enacted clause 6 (i) b of the 1924 Act with respect to any licensed surveyor in New Zealand who satisfied the Board that he had prior to the coming into operation of the 1924 Act substantial practical experience in engineering as part of his practice or employment whether on his own account or otherwise, and who made application for registration within six months of the passing of the amendment: *Indicated by † in Column 3.*

Section 7 of the 1944 amendment, which provided for the registration of engineers who, within the twelve years prior to the passing of the amendment, had had six years responsible engineering practice, or substantially equivalent experience, in local authority work, and who applied within six months of the passing of the amendment. Provision is made for special consideration to discharged servicemen who apply within six months of their discharge: *Indicated by \* in Column 3.*

Particulars in the lists as entered under each column are as follows:—

Column 1.—This contains the name of each engineer who at the date of the list is the holder of an Annual Practising Certificate issued under section 3 of the 1944 Amendment Act. An engineer who has been registered is required to hold a current Annual Practising Certificate in order to retain the full rights of registration.

Column 2.—This gives the postal address, either business or residential, as on the application for Annual Practising Certificate.

Column 3.—This shows the date of original registration.

Column 4.—This shows the class of engineering in which the Board has accepted the engineer’s training and experience as a qualification for registration. The three main classes are Civil, Electrical, and Mechanical Engineering, and these include any other class which is either specialized or restrictive.

It is also to be noted that corporate membership of one of the recognized British Engineering Institutions entitles the holder to be styled as a “Chartered Engineer,” but this information is omitted from the list.

Failure to comply shall render the offender liable for a first offence to a penalty not exceeding £2.

2. In every case of death, where the deceased has not been attended by a qualified practitioner or by a district health nurse, the committee shall investigate the circumstances surrounding such death with regard to the nature of illness, duration, treatment, and names of persons who treated or were in attendance on deceased, and report the result of this investigation to the Registrar of Births, Deaths, and Marriages of Maoris.

3. Human corpses shall be buried, if the death occurs between the 15th day of March and the 15th day of September (both days inclusive) in any year, within four days after death; and if the death occurs between the 16th day of September and the 14th day of March (both days inclusive), within three days after death, unless the Medical Officer of Health or any person authorized by him shall otherwise direct.

#### B.—BUILDINGS

8. No person shall erect a dwellinghouse upon any site not having natural or artificial subsoil drainage sufficient to prevent such site being damp, or upon any site having matter thereon which may prove injurious to the health of the occupants of such buildings. The ground underlying every dwellinghouse shall be so formed and graded that no water can flow or lodge thereon or under any part of such building. Where the site of an erected dwellinghouse is considered injurious to the health of the occupants, the Council may order the owner or occupier to remove such building to a more healthy site.

9. Every person who shall erect a dwellinghouse shall construct every room intended to be used as a living-room or sleeping-room so that the same shall be not less than 8 ft. 6 in.

11. Every person who shall erect a dwellinghouse must provide each sleeping-room with a boarded floor so that there shall be between the underside of every joist, plate, stringer, and bearer on which such floor may be laid or supported and the upper surface of the ground a space of 6 in. at least in each part, and he shall cause the area below such floor to be thoroughly ventilated by some effectual method.

12. In the case of houses already erected the Council may require the owner or occupier of any dwellinghouse which does not comply with Section B, clauses 10 and 11, to make such alterations or additions as may be deemed necessary.

13. The Council may, or shall if the Medical Officer of Health so directs, order the removal or destruction of any building in a dirty and unwholesome state, if in its opinion it is unsuitable for human habitation, or if the owner or occupier thereof fails after due notice to clean, renovate, or himself remove or destroy the same.

14. The chairman of the committee, or any person duly authorized by the committee in that behalf, may, by notice in writing, direct the owner or occupier of any house or other building in a dirty and unwholesome state to clean or cause the same to be cleaned within a time to be specified in such notice.

16. The committee may, in its discretion, ease or modify the application of the foregoing clauses 8, 12, 13, and 14 in the case of any old, ill, or feeble person occupying any such buildings as aforesaid, so that such clauses shall not press heavily on such person. The chairman of the committee shall report the case and all the circumstances to the chairman of the Council, whereupon the Council shall consider such case and decide whether it shall devote part of its funds towards cleaning and otherwise improving the dwellings of such sick, old, or feeble persons.

17. The owner or occupier of a dwellinghouse shall be held responsible for preventing more persons sleeping in any room thereof than are allowed by the floor-space laid down in clause 10. Failure to comply with this shall render him liable to a penalty not exceeding 5s. for a first offence and not exceeding 10s. for every subsequent offence.

#### Movable and Temporary Dwellings

18. Every person who shall own or occupy temporarily a tent, shed, whare, or similar structure shall be responsible that the same is clean, dry, weatherproof, and ventilated. Each adult and every two children under ten years of age shall be provided with 20 square feet of floor-space.

#### C.—DRAINAGE

24. The Council shall make such by-laws regarding drainage to suit the particular circumstances of their district as the Medical Officer of Health approves.

25. It shall be an offence for any person to cause any waste water from any dwellinghouse in a Maori kainga to be discharged over the ground in such a manner as to cause a nuisance, or into any dry ditch, or watercourse flowing through a Maori kainga.

26. Where any system of drainage for the disposal of waste water is installed in any dwellinghouse it shall be an offence if the owner or occupier does not keep such drainage system clean.

## D.—NUISANCES

27. No nightsoil, refuse, or offensive rubbish shall be cast or deposited or allowed to flow into any spring, stream, or watercourse that flows through or past a Maori kainga and which is used as a water-supply by the inhabitants of such kainga or other kainga on the banks of such stream or near such spring.

28. No person who is the owner or occupier of any premises within a Maori kainga shall permit or suffer any nightsoil or refuse or any offensive rubbish or matter of any kind whatever to accumulate or remain or be in or upon such premises so as to be injurious or dangerous to health or as to cause an offensive smell.

30. No person shall throw or leave any dead animal, or cast or deposit any nightsoil or refuse or any offensive rubbish or matter of any kind whatever, on any property within a Maori kainga whereby any nuisance is or is likely to be created.

31. It shall be the duty of every owner or occupier in a Maori kainga to either cause all household refuse and rubbish to be disposed of in any place set apart in such Maori kainga by the Council or committee, or in the absence of such place, then by burying or burning on his section in such a manner as to cause no nuisance.

32. Every person who commits a breach of any of the by-laws 27, 28, 29, and 30 shall be liable to a penalty not exceeding £5.

## E.—KEEPING OF ANIMALS

33. No person shall keep or allow any pigs to run loose within a Maori kainga, nor in any case to keep them so as to be a nuisance or injurious to health, nor in such a manner as to pollute any water used or likely to be used by man for drinking or domestic purposes or for use in a dairy; nor shall any person, after the coming into force of this by-law, permit to remain any pig-sty at a less distance than 150 ft. from any house or building used as a dwelling-house or school, or any buildings within which food intended for human consumption is prepared or stored, or at a less distance than 50 ft. from any road or the boundary of any occupied neighbouring property.

## F.—PRIVIES

*Regulating all Privies*

34. The owner or occupier of every dwellinghouse shall provide the same with a privy.

35. Every person who shall construct a pan or tube privy in connection with a building shall construct such privy at a distance of 10 ft. at the least from any living-room or any room where foodstuff is intended to be stored.

36. (a) It shall be an offence for any person who shall construct a privy in connection with a building to construct such privy within the distance of 40 ft. from any well, spring, or stream of water used or likely to be used by man for drinking or domestic purposes, or otherwise in such a position as to render any such water liable to pollution.

(b) Water closets may be attached to a dwelling, and every water closet shall have a sufficient and permanent supply of water for flushing purposes, and shall be connected to a sewer or septic-tank installation or other such means of disposal as the Inspector of Health may approve. All drainage-work, connections, and plumbing-work shall be constructed to the satisfaction of the Inspector.

37. Every privy shall in all respects be well and substantially erected. It shall be provided with a sufficient opening for ventilation as near the top as practicable, and communication directly with the external air. It shall be enclosed on all sides and be provided with a door.

38. The occupier of the premises on which any privy is situated shall keep such privy in a good state of repair and in a thoroughly clean and sanitary condition.

39. The owner or occupier of any premises in connection with which a privy has been erected shall use or cause to be used a sufficiency of dry earth or sawdust or ashes so that the excrement shall be so covered that no nuisance shall arise therefrom.

*Regulating Pan-privies*

40. Where a pan-privy is used, such privy shall be constructed and cleansed in the following manner:—

(a) Every person who shall construct a pan-privy in connection with a building shall construct such privy in such a manner and such a position as to afford ready means of access to such privy for the purpose of cleaning such privy and of removing filth therefrom:

(b) The seat of a pan-privy, the aperture in such seat and the space beneath such seat shall be of such dimensions as to admit of a movable receptacle for nightsoil of a capacity of not less than one cubic foot being placed and fitted beneath such seat in such a manner and in such a position as may effectually prevent the deposit upon the floor or sides of the space beneath such seat, or elsewhere than in such receptacle, of any filth which may from time to time fall or be passed through the aperture of such seat:

(c) The seat of such pan-privy shall be so constructed that the whole of such seat or a sufficient part thereof may be readily removed or adjusted in such a manner as to afford adequate access to the space beneath such seat for the purpose of cleansing such space, or removing therefrom or placing or fitting therein the appropriate receptacle:

(d) The receptacle in any pan-privy shall be constructed of such material and in such a manner as to prevent any escape by leakage or otherwise of any part of the contents of such receptacle. The aperture of the seat shall be provided with a cover, which must be kept over the aperture when the seat is not in use.

41. The occupier of every house shall cause the pans of all pan-privies used in connection with such house to be emptied and properly cleaned at least once in every week, and in any case so frequently as to prevent overflow.

42. It shall not be lawful for any person to bury night-soil otherwise than in a pit or trench in such a manner and to such a depth as to provide that it shall have a covering of earth of at least 6 in. when the pit or trench is closed.

43. No nightsoil shall be buried within 50 ft. of any dwelling or within 60 ft. of any well. A pit may be used instead of a movable receptacle, provided such pit does not communicate directly with subsoil water. The aperture of the seat shall be provided with a cover, which must be kept over the aperture when the seat is not in use. The seat and walls surrounding the space below the seat shall be made fly-proof. In no case shall the height of the excreta within the pit be allowed to rise to within 6 in. of the surface of the ground.

*Regulating Pit-privies*

44. A privy of an approved type may be provided with a pit for the reception of faecal matter in place of a pan, but such pit shall not be placed as to endanger the purity of any stream, spring, or well, and shall be at least 30 ft. from any dwelling or place in which food is stored.

45. The pit of every pit-privy shall be covered by a seat so constructed as to prevent the access of flies to such pit, and for this purpose the aperture of the seat shall be provided with a cover which must be in place when the privy is not in use.

46. The pit of every pit-privy shall be covered in with clean earth before the faecal matter therein rises to within 12 in. of the surface of the ground, and the privy shall be thereafter moved.

## G.—INFECTIOUS DISEASES

47. Where the Medical Officer of Health notifies that an infectious disease exists in a village or district, no hui, gathering, or tangi shall be held until such time as the village or district is declared clean of the disease.

48. Where an infectious disease has been notified in a village or district, the Council and the committee shall render every possible assistance to Native-school teachers, Native nurses, sanitary inspectors, medical officers, or health officers in the early tracing of cases of sickness in the village or district. The Council and the committee shall make it as widely known as possible that such an infectious disease exists. Any person, after receiving such notice, who does not notify cases of sickness existing in a house or camp owned or occupied by him shall be deemed guilty of an offence.

49. No person suffering or suspected to be suffering from an infectious disease shall travel or be removed to other dwellinghouses or camps already occupied, unless to a hospital, without the consent of a nurse, sanitary inspector, or medical officer.

50.
