The qualifications, involving University degrees and recognized certificates or approved examinations, are taken from the person's application for Practising Certificate and have not been verified or checked against the person's registered particulars.

*Column 2.*—This gives the postal address, either business or residential, as on the application for Annual Practising Certificate.

*Column 3.*—This shows the date of original registration.

*Column 4.*—This shows the class of engineering in which the Board has accepted the engineer's training and experience as a qualification for registration. Engineering is classified only in the three main branches of Civil, Electrical, and Mechanical. Where an engineer has not satisfied the Board's requirements for qualification in one of these main branches, the restrictive or specialist class in which he is accepted is shown.

It is also to be noted that corporate membership of one of the recognized British Engineering Institutions entitles the holder to be styled as a “Chartered Engineer,” but this information is omitted from the list.

F. E. HENDRIKSEN, Registrar.
