NOTE.—At stations where departures from normal are in parentheses the record has been maintained for less than ten years in the case of temperatures and for less than twenty years in the case of rainfall and the normals are partly interpolated.

NOTES ON THE WEATHER FOR JANUARY, 1949

General.—There was little settled weather in January, conditions in general being cloudy and cool. Useful rains in most districts maintained good pasture growth without seriously hindering haymaking and harvesting. Lack of sunshine has delayed the ripening of some fruits. Stock is reported to be in excellent condition, and dairy production was maintained at a high level.

Rainfall.—Rainfall was above normal in Marlborough, Canterbury (except South Canterbury), Gisborne, Hawkes Bay, South Taranaki, and Wellington (except the south-western part). There was a substantial excess in central and southern Hawkes Bay; in a few places it was the wettest January for twenty-five years.

There was a moderate deficiency in most other districts. In Otago the distribution was rather patchy, totals reaching the average on the south-east coast and in scattered places in Central Otago.

Thunderstorms were numerous, some stations recording as many as six. The majority occurred on 6th, 7th, 8th, 19th, 20th, and 26th. A hailstorm of exceptional severity broke many windows and glasshouses in Mataura on the 19th. Serious hail damage to the fruit and tobacco crops of the Riwaka district occurred on the 26th.

Temperatures.—Mean temperatures were generally below normal. The departure was greatest east of the ranges, and amounted to 4° F. in parts of Canterbury and Marlborough. At Hanmer Springs it was the coolest January for over forty years.

The South Island ranges received a good coating of snow on the 26th, and widespread frosts occurred on the following two nights.

Sunshine.—Sunshine totals were below average. The deficiency was small in western and northern districts, but in other parts of the South Island it ranged from twenty-five to fifty hours.

Weather Sequence.—For the first few days pressures remained high to the east of the South Island, while a large and complex disturbance moved slowly on to New Zealand from the Tasman Sea. Dull humid north-easterly conditions prevailed. Rail fell intermittently in all districts, with some heavy falls on the Kaikoura coast on the 3rd. Many severe convection thunderstorms were reported from the North Island on the afternoon of the 6th. Hail and thunderstorms also occurred on the following day during the passage of a very active cold front.

Except for the persistence of showers in the Gisborne district the weather cleared on the 9th with the approach of an anticyclone from the west.

Ahead of a deep depression advancing eastwards across the North Tasman Sea north-easterlies began to increase in the far north on the 12th, later reaching gale force in exposed parts of the Auckland Province. Rain spread slowly southwards as far as Nelson and Marlborough. Meanwhile, an anticyclone had extended on to the South Island behind a cold front. After passing North Cape on the morning of the 14th the storm centre turned south-eastwards. A change to strong southerly winds was followed by a marked fall in temperatures. With decreasing winds on the 15th the weather began to clear over the North Island, although in the Hawkes Bay and Gisborne areas the clearance was delayed until the 17th.

Winds turned northerly when a ridge of high pressure began to move off to the east on the 18th. Heavy showers then developed during the passage of a large disturbance, the main centre of which crossed Otago on the 19th. Hail and thunder were widespread in the South Island. Showers gradually became less frequent, but the weather did not clear generally until the arrival of an anticyclone on the 22nd. Two depressions passing in the far south gave further rain in Westland, Otago, and Southland on the 23rd and 24th.

On the 25th a depression which had formed to the east became stationary near the Chatham Islands and steadily deepened. Under its influence south-westerly winds increased and cold showery conditions became general. By the 27th showers had almost ceased except in exposed coastal positions, but further showers developed with the passage of a secondary cold front on the 28th.

An anticyclone over the Tasman Sea moved to the north of New Zealand, while a series of westerly depressions passed in the south. The first of the series passed close to Southland on the 30th; the second was much deeper, but its track lay further to the south. Rain from this series was confined to western and southern parts of the country.

PRELIMINARY

1. This Order may be cited as Price Order No. 978, and shall come into force on the 1st day of March, 1949.

2. (1) Price Orders No. 849,* 888†, and No. 940‡ are hereby revoked.

(2) The revocation of the said Price Orders shall not affect the liability of any person for any offence in relation thereto committed before the coming into force of this Order.

3. (1) In this Order, unless the context otherwise requires,—

“The said Act” means the Control of Prices Act, 1947:

“Distributor”, in relation to any lot of potatoes, means a wholesaler, as defined in the said Act, who sells those potatoes otherwise than to a retailer for purposes of retail sale:

“Grower”, in relation to potatoes, means a person engaged in the business of growing potatoes for sale:

“Grower’s station”, in relation to any grower, means the railway-station that is nearest or most convenient of access to the grower’s premises:

The expression “Good table” in reference to any lot of potatoes means potatoes of good shape according to variety, not more than 15 per cent. of which can be passed through a square the sides of which have an inside measurement of 2 in.; the lot shall be free from green potatoes, from second growth, from dry or wet rots (including late blight or frost damage); the lot shall be practically free from earth, which shall not in any case exceed 3 per cent. by weight of the lot; the weight of the lot affected by mechanical injury (including bruises and cuts) shall not exceed 2 per cent.; and the lot shall be practically free from scab or other defects not herein mentioned:

The expression “f.a.q.” in reference to any lot of potatoes means potatoes of fair average quality, being potatoes not more than 15 per cent. of which can be passed through a square the sides of which have an inside measurement of 2 in.; not more than 2 per cent. by weight of the lot shall be affected by dry or wet rots (including late blight or frost damage) or by severe mechanical injury (including severe bruises and cuts); and not more than 6 per cent. by weight of the lot shall be affected as aforesaid or by scale or by second growth or by other defect; and the lot shall be reasonably free from earth or from rough or unshapely tubers:

The expression “Under-grade” in reference to any potatoes means potatoes that are not “good table” or “f.a.q.” potatoes:

(2) Terms and expressions defined in the said Act, when used in this Order, have the meanings severally assigned thereto by that Act.

4. Subject to any general or specific directions that may be given by or on behalf of the Tribunal, any expenses that are reasonably incurred by a distributor, wholesaler, or retailer in undertaking the transport of any potatoes at his own expense may be regarded for the purposes of this Order as if they were transport charges paid by him, and the maximum price of the potatoes shall be determined accordingly.

5. The provisions of this Order shall apply notwithstanding that any potatoes to which this Order is applicable are sold otherwise than by weight.

6. The several prices, allowances, and margins of profit fixed by this Order apply with respect to sales by auction as well as to other sales.

7. (1) The several prices fixed by this Order do not include the cost of sacks or other containers.

(2) The maximum price that may be charged or received for the sacks in which any lot of potatoes to which this Order applies are packed shall be computed as follows:—

For corn sacks of a size 48 in. by 26½ in., 46 in. by 26½ in., 44 in. by 26½ in., 46 in. by 23 in., or 41 in. by 23 in.: At the rate of 32s. 6d. per ton of potatoes for sacks certified by an official grader appointed by the New Zealand Grain, Seed, and Produce Merchants’ Federation as new sacks, or at the rate of 28s. 6d. per ton of potatoes for sacks not so certified:

July, 1949, to November, 1949: Pending the issue of an amending Price Order, and subject to the provisions of any such Order, the prices as for June, 1949, shall also apply with respect to potatoes sold for delivery in the months of July to November§.

(2) Where any potatoes grown in the South Island are delivered by a grower otherwise than f.o.b.s.e. a port in the South Island the price that may be charged by the grower shall be the appropriate price in terms of the foregoing provisions of this clause, increased by the amount of the charges (if any) incurred by him in effecting delivery and then reduced by the amount of the charges that would have been incurred by him if he had delivered the potatoes f.o.b.s.e. a port in the South Island.

§ NOTE.—It is the present intention of the Price Tribunal, by an amending Price Order or by a series of amending Price Orders, to alter the growers’ prices fixed by this Order with respect to potatoes sold for delivery during the months July to November, 1949, so that (in the absence of unforeseen circumstances) the maximum prices for good table potatoes (to be reached in November, 1949) will be:—

- (a) (i) For Sutton’s Supreme, Red Dakota, and King Edward varieties grown in the South Island: £13 15s. per ton f.o.b.s.e.:
- (ii) For other varieties grown in the South Island: £13 5s. per ton f.o.b.s.e.
- (b) (i) For potatoes grown in the North Island: £15 per ton f.o.r.s.e.:

(3) Where any potatoes grown in the North Island are delivered by a grower otherwise than f.o.r.s.e. the grower's station, the price that may be charged by the grower shall be the appropriate price in terms of the foregoing provisions of this clause, increased by the amount of the charges (if any) incurred by him in effecting delivery and then reduced by the amount of the charges that would have been incurred by him if he had delivered the potatoes f.o.r.s.e. the grower's station.

(4) Notwithstanding anything in the foregoing provisions of this clause, where any extraordinary charges beyond the control of the grower are reasonably incurred by him in or in the course of delivering any potatoes at the place specified in any contract as the place of delivery, the amount of such charges may, with the approval of the Tribunal, be added to the price to be paid to the grower for those potatoes.

Distributors' Prices

12. (1) Subject to the provisions of the next succeeding clause, the maximum price that may be charged or received by any distributor for any potatoes grown in New Zealand shall not exceed the sum of the following amounts:—

(a) The price actually paid or payable to the grower by the same or any other distributor:

(b) Any disbursements actually incurred and paid by the same or any other distributor by way of brokerage (not exceeding in the aggregate 2s. 6d. a ton) together with any grading, transport, or other charges actually paid by the same or any other distributor:

(c) An amount computed at the rate of 10s. a ton.

(2) Subject to the provisions of the next succeeding clause, the maximum price that may be charged or received by any distributor for any potatoes imported into New Zealand by the distributor or any other person shall not exceed the sum of the following amounts:—

(a) The landed cost of the potatoes to the importer at the port of discharge:

(b) Any disbursements actually incurred and paid by the same or any other distributor by way of brokerage in New Zealand (not exceeding in the aggregate 2s. 6d. a ton) together with any grading, transport, or other charges incurred in New Zealand and actually paid by the same or any other distributor:

(c) An amount computed at the rate of 10s. a ton.

13. Where any wholesaler who does not normally carry on business as a distributor sells any potatoes to another wholesaler (thus becoming a distributor in respect of that transaction) the price to be charged by the vendor may exceed the maximum price determined in accordance with the last preceding clause by such amount as may be mutually agreed to by the parties to the transaction: Provided that in any such case the maximum price that may be charged by the purchasing wholesaler in accordance with the next succeeding clause shall be determined as if he had bought those potatoes at the price paid by the wholesaler from whom he bought them.

Wholesalers' Prices

14. (1) Subject to the provisions of clause 13 hereof, the maximum price that may be charged or received by any wholesaler for any potatoes grown in New Zealand and sold by him to a retailer for purposes of retail sale shall not exceed the sum of the following amounts:—

(a) The price actually paid or payable by the wholesaler to the grower or any other person:

(b) An amount (not exceeding 2s. 6d. a ton) in respect of any potatoes actually received into and delivered from the wholesaler's store, together with any grading, transport, or other charges actually paid by the wholesaler:

(c) An amount equal to 2½ per cent. of the sum of the amounts specified in paragraphs (a) and (b) hereof (to cover the estimated loss due to shrinkage and other natural causes), and, in the case of potatoes that have been actually received into the wholesaler's store, a further amount equal to 1½ per cent. of the aforesaid sum:

(d) An amount computed at the rate of £1 5s. a ton for lots of less than a half-ton, and at the rate of £1 a ton in all other cases.

(2) Subject to the provisions of clause 13 hereof, the maximum price that may be charged or received by any wholesaler for any potatoes imported into New Zealand by the wholesaler or any other person and sold by the wholesaler to a retailer for purposes of retail sale shall not exceed the sum of the following amounts:—

(a) The price actually paid or payable by the wholesaler:

(b) An amount (not exceeding 2s. 6d. a ton) in respect of any potatoes actually received into and delivered from the wholesaler's store, together with any grading, transport, or other charges incurred in New Zealand and actually paid by the wholesaler:

(c) In respect of potatoes that have been actually received into the wholesaler's store, an amount equal to 1½ per cent. of the sum of the amounts specified in paragraphs (a) and (b) hereof:

(d) An amount computed at the rate of £1 5s. a ton for lots of less than a half-ton, and at the rate of £1 a ton in all other cases.

Computation of Distributors' and Wholesalers' Prices by Reference to Average Prices

15. In computing the maximum price that may be charged by any distributor or by any wholesaler for potatoes that have been acquired by him in different lots at different prices, the appropriate maximum price may, with the general or special approval of the Tribunal, and subject to any conditions that may be imposed by the Tribunal, be computed by reference to the average of the several prices paid for such potatoes.

Distributors and Other Wholesalers to Specify Grades of Potatoes on Relevant Invoices

16. (1) Every distributor or other wholesaler who sells any potatoes to which this Order applies shall specify in the relevant invoices, with respect to each item, the grade of the potatoes comprised in the item, and shall state separately the price charged for the sacks or other containers.

(2) For the purposes of this clause the term "grade" with respect to any lot of potatoes means, as the case may require, "good table" or "f.a.q." or "under-grade."

Retailers' Prices

17. (1) Subject to the following provisions of this clause, the maximum price that may be charged or received by any retailer for potatoes, whether grown in New Zealand or imported into New Zealand, shall not exceed the sum of the following amounts:—

(a) The price actually paid or payable by the retailer for the potatoes:

(b) Any grading, transport, or other charges actually paid or payable by the retailer:

(c) An amount equal to 33½ per cent. of the sum of the amounts specified in paragraphs (a) and (b) hereof.

(2) The retail price of any potatoes, computed in accordance with the last preceding subclause, shall be calculated by reference to the prices and weights disclosed in the appropriate invoices.

(3) Notwithstanding anything to the contrary in the foregoing provisions of this clause, but subject to the provisions of subclauses (4) and (5) hereof, the retail price of potatoes to which this Order applies shall not in any case exceed:—

(a) In the case of potatoes sold at any place within the Land Districts of Canterbury, Otago, or Southland:—

If sold during the months of March to May, 1949 (inclusive) .. 2d. per lb.

If sold during the months of June to August, 1949 (inclusive) .. 2½d. per lb.

If sold during the months of September to November, 1949 (inclusive), (or thereafter while this Order is in force) .. 2½d. per lb.

(b) In the case of potatoes sold elsewhere in the South Island: The appropriate price fixed in paragraph (a) according to the month in which the potatoes are sold increased by ½d. per pound.

(c) (i) In the case of potatoes sold at any place within the Auckland Metropolitan Area, the City of Hamilton, or the Land Districts of Taranaki, Wellington, Hawkes Bay, or Gisborne (excluding the County of Opotiki and the Borough of Opotiki) during the months of March to June, 1949 (inclusive), 2½d. per pound:

(ii) In the case of potatoes sold elsewhere in the North Island during the months of March to June, 1949 (inclusive), 2½d. per pound.

(d) In the case of potatoes sold at any place within the Metropolitan Areas of Auckland or Wellington, or within the cities or boroughs of New Plymouth, Wanganui, Napier, or Gisborne during the months of July to November, 1949 (inclusive) (or thereafter while this Order is in force), 2½d. per pound.

(e) In the case of potatoes sold elsewhere in the North Island during the months of July to November, 1949 (inclusive) (or thereafter while this Order is in force), 3d. per pound.

(4) Where any potatoes to which this Order applies are sold by retail in lots of 14 lb. or 28 lb. or 56 lb. or 112 lb., the maximum retail price shall not in any case exceed:—

Where the Maximum Retail Price (as Fixed by the Last Preceding Subclause) is—	Maximum Retail Price per Lot of—			
	14 lb.	28 lb.	56 lb.	112 lb.
	s. d.	s. d.	s. d.	s. d.
2d. per lb. ..	2 2	4 4	8 8	17 3
2½d. per lb. ..	2 6	4 11	9 10	19 6
2½d. per lb. ..	2 9	5 5	10 10	21 6
2½d. per lb. ..	3 1	6 0	12 0	23 9
3d. per lb. ..	3 4	6 6	13 0	25 9

(5) Where any potatoes to which this Order applies are sold by retail in any lot exceeding 14 lb., but otherwise than in a lot of the actual weight specified in the last preceding subclause, the maximum price per pound of any surplus over 14 lb. or over any multiple of 14 lb. (being less in every case than 14 lb.) shall be the appropriate maximum price fixed by subclause (3) hereof.

(6) If in respect of any lot of potatoes sold by a retailer the maximum price, calculated in accordance with the foregoing provisions of this clause, is not an exact number of pence or half-pence (in the case of a lot less than 5 lb.) or is not an exact number of pence (in the case of a lot of 5 lb. or more), the maximum price of the lot shall be the next highest halfpenny or the next highest penny, as the case may be. The provisions of this subclause shall apply notwithstanding that in any case the retailer purports to sell any potatoes otherwise than by weight.

(7) For the purposes of this clause the price paid or payable by a retailer for any lot of potatoes and the grading, transport, and other charges paid or payable by him in respect of the same lot, shall be apportioned evenly over the whole lot, and the price and charges paid or payable by the retailer for each 1 lb. of potatoes included in the lot shall be determined accordingly.

(8) For the purposes of paragraph (d) of subclause (3) of this clause the Auckland Metropolitan Area shall be deemed to comprise the City of Auckland, the boroughs of Birkenhead, Devonport, Ellerslie, Mount Albert, Mount Eden, New Lynn, Newmarket, Northcote, Onehunga, One Tree Hill, Otahuhu, and Takapuna, and the road districts of Mount Roskill, Mount Wellington, and Panmure Township; and the Wellington Metropolitan Area shall be deemed to comprise the cities of Wellington and Lower Hutt, the boroughs of Eastbourne and Petone, and the Johnsonville Town District.

18. Notwithstanding anything in the foregoing provisions of this Order and subject to such conditions, if any, as it thinks fit, the Tribunal, on application by any retailer, may authorize special maximum retail prices in respect of any potatoes to which this Order applies where for any reason extraordinary freight charges are incurred by the retailer in obtaining delivery from the source of supply that is nearest or most convenient of access to him. Any authority given by the Tribunal under this clause may apply with respect to a specified lot or consignment of potatoes or may relate generally to all potatoes to which this Order applies sold by the retailer while the approval remains in force.

Retailers to Exhibit Prices

19. Every retailer who offers or exposes any potatoes to which this Order applies for sale in any shop shall keep in a prominent position in such proximity to the potatoes to which it relates as to be obviously descriptive thereof a ticket, placard, or label on which shall be stated in legible and prominent characters the retail price per pound of the potatoes.

BRANDING OF GOOD TABLE POTATOES

20. Every grower, distributor, or wholesaler who grades any potatoes as "good table" shall affix to every sack so graded a tag on which shall be written the words "Good Table Grade" and the name and address of the person so grading the potatoes: Provided, however, that where a grower so grading potatoes is a member of a growers' association approved by the Minister of Agriculture his registered number may be given in place of his name and address.

Dated at Wellington, this 23rd day of February, 1949.
