*Notice to Mariners No. 1 of 1954 (Repeating Admiralty Notice to Mariners No. 1 of 1954)*

CAUTION WHEN APPROACHING BRITISH AND COMMONWEALTH PORTS

PART I

*Closing of Ports; Stopping of Movement in Ports*

Former Notices 1 and 2649/53 cancelled.

(1) My Lords Commissioners of the Admiralty, in conjunction with the Commonwealth Naval Authorities, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports under their control, this is to give notice that on approaching the shores of the British Isles, or any ports or localities in the Commonwealth, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three red lights vertically disposed by night, or three red balls vertically disposed by day, will be exhibited in some conspicuous position, in or near its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination Vessel, Traffic Control Vessel, or signal station.

If movement of shipping in a port or anchorage under naval control is prohibited, three lights red—green—red vertically disposed by night, or a blue flag by day, will be exhibited. Signals affecting movement of shipping in parts of a port will be found in the Public Traffic Regulations for that port.

(3) At some ports or localities at home or abroad, searchlights are occasionally exhibited for exercise.

Instructions have been given to avoid directing movable searchlights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when searchlights are observed to be working.

Vessels are particularly warned not to enter a declared "Dangerous Area" or approach boom defences without permission, nor to anchor or remain stopped in a dangerous area or prohibited anchorage unless specially instructed so to do.

PART II

*Examination Service*

(4) In certain circumstances it is also necessary to take special measures to examine individual vessels desiring to enter ports and localities at home and abroad and to control entry generally. This is the function of the Examination Service. Where Traffic Control Vessels take the place of Examination Vessels their authority is the same.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service will probably be unknown to vessels desiring to enter the port, especial care should be taken in approaching the ports, by day and night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any port in the British Isles and the Commonwealth, serious delay and risk will be avoided if four efficient all round lanterns, two red and two white, are kept available for use.

(7) By day the distinguishing flag of the Examination Vessel or Traffic Control Vessel will be a special flag (white and red horizontal surrounded by a blue border).

Also, three red balls vertically disposed if entrance is prohibited.

Usually the Examination Vessels or Traffic Control Vessels will fly the Blue Ensign, but in certain circumstances they may fly the White Ensign and in the ports of some Commonwealth countries they may fly the national flag or an ensign authorized by that Commonwealth country.

By night the steamer will carry:

- (a) Three red lights vertically disposed if entrance is prohibited.
- (b) Three white lights vertically disposed if entrance is permitted.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Merchant vessels approaching a British or Commonwealth Port at which the Examination Service is in force must hoist their signal letters on arriving within visual signal distance of the port, and are not to wait for the signal "What is the name of your vessel?" to be made from the Examination Vessel.

(9) Masters are warned that before attempting to enter any port when the Examination Service is in force they must in their own interests strictly obey all instructions given to them by the Examination Vessel or Traffic Control Vessel.

Whilst at anchor in the Examination Anchorage, masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things without permission from the Examining Officer:

- To lower any boat.
- To communicate with the shore or with other ships.
- To move the ship.
- To work cables.
- To allow any person or thing to leave the ship.

The permission of the Home Office Immigration Officer must be obtained before any passenger or member of the crew who has embarked outside the United Kingdom is allowed to land.

(10) In the case of fog, masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III

Other Regulations in Force

Nothing in this notice is to be taken as overruling such general or local regulations as may be issued by the Public Traffic Regulations at each port, through routing authorities, by Notices to Mariners or other means, to meet new dangers or situations which may arise or to cover local conditions.

Attention is called to Notice to Mariners 13 of each year and NEMEDRI.

NOTE.—This notice is a revision of Notice 1/53.

Authority.—The Lords Commissioners of the Admiralty. (H. 6046/53.)

Wellington, N.Z., 15 December 1953.

W. C. SMITH, Secretary for Marine.

Notice to Mariners No. 4 of 1954

OFFICIAL MESSAGES TO BRITISH MERCHANT SHIPS AND FISHING VESSELS

THIS organization provides for the transmission of important messages from naval authorities to small ships, trawlers, etc., fitted with radiotelephony, on occasions when such messages may be of vital importance to their safety and welfare. Tests of the organization, lasting for one week, may be held at irregular intervals without prior notice, and all small craft fitted with R/T apparatus are earnestly requested to listen for the messages broadcast during these tests and to forward particulars of those received.

NOTE.—This notice will be issued annually as New Zealand Notice to Mariners.

2. When the organization described in this Notice to Mariners is ordered to be brought into force—

- (a) Ships are to continue to read the traffic from the coast station serving the waters in which they are sailing. Official messages will be broadcast as shown in the table below.
- (b) T.R.s are to be discontinued.
- (c) Messages are not to be acknowledged unless ships are specially directed to do so in the text of the message.
- (d) Ships are to conform to any restrictions regarding the use of radio which may be issued by the naval authorities.

New Zealand Coastal Waters

These messages are to be broadcast at definite times from the radio stations given in the following table. Normal R/T procedure to which small ships are accustomed is employed as far as possible. A preliminary call will be made on 2,182 kc/s and the messages will then be broadcast on the coast station's working frequency of 2,162 kc/s; this frequency will be referred to in the preliminary call. The text of each message indicates the Naval Authority who has originated it and contains, if necessary, details of the locality to which it refers.

Example.—The shore station calls on 2,182 kc/s "Hullo, all British merchant ships, this is Wellington Radio. I have a message from the New Zealand Naval Board. Please listen on 2,162 kc/s."

The shore station then changes frequency and proceeds: "Hullo, all British merchant ships, this is Wellington Radio. Here is a message from the New Zealand Naval Board. Begins. The organization for broadcasting official messages for ships fitted with radiotelephony given in N. to M. No. 4 is now in force for test for one week ending . . . (repetition of text) . . . (date time group) . . . ends."

All ships hearing these messages, when transmitted for test purposes only, are particularly requested to forward brief reports through their owners to the Navy Department and the Marine Department, Wellington, stating the times and their approximate position when these test messages were heard.

Notice to Mariners No. 5 of 1954

NEW ZEALAND—RADIOTELEPHONY DISTRESS FREQUENCY  
2182 Kc/s—SILENCE PERIODS

THE attention of mariners is drawn to regulation 123 of the Radio Regulations 1953, which reads as follows:

"All stations licensed to use radiotelephone installations in the authorized maritime mobile service frequency bands between 1,605 kc/s and 2,850 kc/s shall, during their hours of service, observe a listening watch on the distress frequency of 2,182 kc/s twice each hour for three minutes commencing on the hour and half hour, New Zealand time. During these periods all transmissions between the frequencies of 2,167 kc/s and 2,197 kc/s, except for distress, urgency, or safety transmissions, shall cease."

It is important that all ships refrain from transmitting between 2,167 kc/s and 2,197 kc/s during the periods indicated.

Authority: Director-General, Post and Telegraph Department, Wellington.

W. C. SMITH, Secretary for Marine.

IT IS IMPORTANT THAT MASTERS ENSURE THAT THIS NOTICE IS AVAILABLE TO AND UNDERSTOOD BY THEIR RADIO OFFICERS. AN EXTRA COPY IS SUPPLIED FOR THE USE OF THE RADIO OFFICER.

#### GENERAL

This Notice describes the organizations whereby official messages are passed to British merchant ships. Such messages will normally relate to the safety and welfare of the ships concerned, and may be addressed to one or more individual ships, or to all ships as in paragraph 10.

2. The organization described below is known as the "GBMS Organization" and will not be brought into force until so ordered by the Admiralty.

3. In peacetime when Admiralty desires to pass official messages to British Merchant Ships, such messages will be transmitted under the call sign GACQ and broadcast over the long distance organization and/or by 500 kc/s coast stations if necessary.

4. When the organization described in this Notice to Mariners is ordered to be brought into force—

- Ships are to continue to read the traffic from the area station in whose area they are sailing. Messages will be broadcast at the same routine times and on the same frequencies as in the normal Long Distance Area Scheme and no alterations will be brought into force without prior notification by GBMS message.
- T.R.s ARE TO BE DISCONTINUED.
- MESSAGES ARE NOT TO BE ACKNOWLEDGED unless ships are specially directed to do so in the text of the message.
- DAILY SERIAL NUMBERS WILL BE DISCONTINUED.
- SHIPS ARE TO CONFORM TO ANY RESTRICTIONS ON THE USE OF RADIO WHICH MAY BE ISSUED BY THE ADMIRALTY.

5. Schedules A and B, also issued in Notices to Ship Wireless Stations, are reproduced in this Notice to Mariners for convenience. The corresponding diagram of Areas is also reproduced.

It must be clearly understood, however, that corrections to these Schedules may be in arrears and that, when GBMS Organization is brought into force, Area Transmitting and Receiving Stations will continue on those frequencies in use at the time.

6. Every GBMS message will normally be broadcast at each Schedule A period for 24 hours after receipt at the Area Station, i.e., for 6 transmissions. This number of broadcasts will, in the early stages of an emergency, be exceeded in the case of Area 1 (Portishead). Messages will be broadcast once through at each transmission period and ships should make every effort to receive the complete message at the first transmission.

Operational Authorities may use their discretion regarding the number of broadcasts required for a particular ship, when the level of traffic is such that fewer transmissions are considered justified, but only if satisfied that, knowing the position of the ship, there can be no doubt of the receipt of the message.

Navigational warnings will continue to be broadcast in the last half-hour of each period.

#### Short Distance

7. In addition to the Schedule A transmissions, messages will normally be transmitted from one or more of the appropriately situated coast stations shown in paragraph 13. They will normally be broadcast on receipt and, as ordered, at subsequent routine periods (see paragraph 12 for British 500 kc/s coast stations routines). They are NOT TO BE ANSWERED OR ACKNOWLEDGED unless ships are specially directed to do so in the text.

8. After an initial call on 500 kc/s the messages will be transmitted on the appropriate working frequency, shown in paragraph 13. The naval authority responsible for arranging the transmission of GBMS messages in each area is also shown.

#### GENERAL MESSAGES

9. GBMS messages addressed to ALL British merchant ships will be lettered consecutively commencing with "A", in order that Masters can check that all such messages have been received.

10. Once the lettered series has been started it is most important that all the messages are received, and Masters should take the necessary steps to obtain at the first opportunity any that are missing.

Copies of lettered messages will be distributed to merchant ships in harbour by the Naval authorities.

11. Collective call-signs to which general messages will be addressed are as follows—

- GBMS—All British merchant ships.
- GBMS 1 to 9—All British merchant ships in the area concerned (areas are those shown in the diagram attached).  
e.g. GBMS 3—All British merchant ships in Area 3.
- GACQ—All British merchant ships in peace time.

#### SHIP-SHORE

12. Ships are to conform to any restrictions on the use of radio which may be issued by the Admiralty. Provided the use of wireless is permissible, a message may be transmitted either on H.F. to one of the stations shown in Schedule B, or on M.F. to one of the Coast Stations shown in paragraph 13, as appropriate. Certain changes to Schedule B answering frequencies will be promulgated by GBMS message at a later stage.

## Notice to Mariners No. 3 of 1954

(This notice repeats parts of Admiralty Notice to Mariners No. 3B of 1954)

## 3B. OFFICIAL RADIO MESSAGES TO MERCHANT SHIPS—THE MERCAST SYSTEM

Former Notice 3B/53 cancelled.

NOTE.—The substance of this Notice will not be reproduced in Admiralty Lists of Radio Signals or in Notices to Ship Wireless Stations.

Amendments will be published weekly in Section VI of Weekly Complete Editions, Admiralty Notices to Mariners (Corrections to Admiralty Lists of Radio Signals and Notices to Mariners 3, 3A, and 3B).

IT IS IMPORTANT THAT MASTERS ENSURE THAT THIS NOTICE IS AVAILABLE TO AND UNDERSTOOD BY THEIR RADIO OFFICERS. AN EXTRA COPY IS SUPPLIED FOR THE USE OF RADIO OFFICERS.

## GENERAL

1. This Notice describes an alternative organization to that described in N.Z. Notice to Mariners 2 whereby official messages can be passed to Merchant ships.

2. This organization is known as the MERCAST System and will not be brought into force until so ordered by the Admiralty. It is an expansion of the GBMS organization which it would supersede, and provides for fuller world-wide coverage.

3. Each Area is covered by one High-powered shore Radio Station which broadcasts on low and/or high frequencies simultaneously on fixed schedules. Medium-power short range coastal radio stations also broadcast MERCAST messages to ships estimated to be within range. The initial call on 500 kc/s will be followed by the operating signal directing a shift to the working frequency. After a brief interval the message will be broadcast. Messages will be broadcast immediately on receipt and will be repeated at the next single-operator period.

Details of special routines for United Kingdom 500 kc/s Coastal Stations will be found under Area IV.

4. Details of the numbered MERCAST areas and particulars of the participating areas and coastal stations are shown later in this Order. Fuller details of the radio organization will be contained in a publication which will be issued to Merchant Ships when necessary.

## LETTERED MESSAGES

5. General Messages issued by the Admiralty intended for Merchant Ships in all areas world-wide are identified by the word MERCAST followed by double letters in alphabetical sequence, e.g.

AA — AZ

BA — BZ

contained in the text.

In addition to these world-wide General Messages there are two other series of general messages. One is applicable to Merchant Ships in the Atlantic Ocean area only, and the other to Merchant Ships in the Pacific area only. These are known as the MERCATLANT and MERCASPAC Series respectively. These series are identified in the same manner as the world-wide series except that the letters will be prefixed by "MERCATLANT" and "MERCASPAC" as appropriate. Those messages which are not of an emergency or urgent nature will be disseminated to Naval Authorities who will deliver them to Masters upon arrival in port. Such general messages will contain the same identifying features as if they had been broadcast. When a MERCAST lettered message has been sent to the Naval Authorities for delivery the next MERCAST general message broadcast to ships at sea will contain information to this effect and indicate the identifying letters of such message. Merchant ships will thus be able to determine whether they have received all messages in each series.

## CALL SIGNS

6. Collective call signs to which general messages concerning British ships will be addressed, are as follows:

NUKO	.....	All ships guarding MERCAST.
NRMS	.....	All Allied Merchant Ships.
NRMS 1 to 13	.....	All Allied Merchant Ships in Area indicated.
GBMS	.....	All British Merchant Ships.
GBMS 1 to 13	.....	All British Merchant Ships in Area indicated.
Areas are those shown in the diagram attached; e.g.

(8) The charges authorized by this clause are subject to the modifications in respect of charges for bedrooms indicated in the Schedule to this Order.

(9) Where any item of accommodation referred to in subclause (2) hereof is not available to any guest no charge shall be made to the guest for that item and in any such case the daily rate referred to in subclause (1) hereof shall be reduced by the amount of the charge referred to in subclause (2) hereof in respect of each item not available as aforesaid.

ADDITIONAL CHARGES

7. (1) In addition to the charges hereinbefore authorized the charges specified in this clause may be made in accordance with the terms thereof.

(a) *Bathroom*.—(i) Where a bathroom is provided for the exclusive use of the occupant or occupants of one bedroom or for the exclusive use of the occupants of two bedrooms a charge not exceeding 5s. per day or part thereof (to be equally apportioned among the persons to whom the bathroom is available) may be made therefor:

The said charge shall be additional to the charges authorized by this Order to be made for a bedroom and a bathroom or a shower-room but shall not exceed the rate specified in this paragraph irrespective of the number of persons occupying the suite:

(d) *Teas and Suppers*.—Where, at the request of any person, morning tea (not including tea served before breakfast for which no charge may be made), afternoon tea, or supper consisting of tea, cocoa, coffee, or milk with toast and butter, or bread and butter or biscuits is supplied an additional charge not exceeding 2s. may be made for each such meal. Where any foodstuffs in addition to those mentioned are supplied, a further charge may be made for these at current rates or, where prices have been approved by the Tribunal, at those prices:

(e) *Meals Served in Bedroom or Suite*.—Where any meal, other than early morning tea is served in a bedroom or suite or in a private sitting-room, a charge not exceeding 1s. may be made for each such meal:

10. Notwithstanding anything in the foregoing provisions of this Order and subject to such conditions, if any, as it thinks fit, the Tribunal, on application by any licensee may authorize special maximum prices in respect of any services to which this Order applies where special circumstances exist or for any reason extraordinary charges are incurred by the licensee. Any authority given by the Tribunal under this clause may apply with respect to a particular service or may relate generally to all services to which this Order applies rendered by the licensee while the approval remains in force.
