Open Seasons for Game in Certain Acclimatization Districts

IMPORTANT—Although this is published under the Animals Protection and Game Act 1921-22, this Act will be repealed on 1 April 1954 and the provisions of the Wildlife Act 1953 will apply during this shooting season.

A number of general conditions previously published as part of the Minister's annual notification are now incorporated in the Wildlife Act. Consequently, General Conditions Nos. 2 (a), 2 (b), 2 (h), 3, 4, and 5 should be deleted from page 289 of the Supplement, dated 27 February 1952, to the *New Zealand Gazette* of 21 February 1952.

The Wildlife Act alters the title of "Excepted Areas" to "Closed Game Areas" and the list of the areas set out in previous notifications is further amended by deletions and additions shown under the respective acclimatization districts.

Furthermore, the Third Schedule, except for the following:
 "Disturbing Stock. Statutes Amendment Act, 1947, Section 66 (1).

"(1) Every person commits an offence and is liable to a fine of £50 who, without the authority of the occupier, goes upon any private land with dog or firearm and disturbs any stock depastured thereon"

should be deleted from pages 299 and 300 of the Supplement of 27 February 1952, as these conditions are incorporated in the provisions of the Wildlife Act. The Fourth Schedule on pages 300 and 301 of the Supplement should also be deleted as the Wildlife Act provides

"All wildlife is hereby declared to be subject to this Act and (except in the case of wildlife for the time being specified in the First Schedule, Second Schedule, Third Schedule, Fourth Schedule, or Fifth Schedule hereto) be absolutely protected throughout New Zealand."

PURSUANT to the Animals Protection and Game Act 1921-22 the Minister of Internal Affairs declares an open season for game as set forth herein in relation to each district, subject (in all districts) to the provisions of the Wildlife Act 1953, the General Conditions, Special Conditions, and Excepted Areas as published in the Supplement dated 27 February 1952 to the *New Zealand Gazette* of 21 February 1952 at page 289, the *New Zealand Gazette* of 26 February 1953, and as further amended herein.

NOTE.—At stations where departures from normal are in parentheses, the temperature record has been maintained for less than ten years, the rainfall record for less than twenty years. Rainfall normals have been revised and now refer to the standard period 1921-50. Where observations are not available for the whole period, or where the site of the rain-gauge has been changed, the normals are partly interpolated.

NOTES ON THE WEATHER FOR JANUARY 1954

General.—Pressures were unusually high over the whole country, and it was a month of dry settled weather. In some districts there was no rain at all after the 10th. By the end of the month the countryside was very parched. Dairy production fell off sharply, but conditions were much better for sheep farmers, though they, too, would have welcomed more rain.

On the 13th and 14th south-westerly gales caused considerable damage in parts of South Otago and Southland.

Rainfall.—Rainfall was mainly at least 50 per cent below normal, and the deficiency exceeded 75 per cent in Hawke's Bay and in the Auckland Province north of Hamilton and Whakatane. The driest area was around Castlepoint, where rainfall was negligible. Conditions were not generally quite so dry in the South Island, but Christchurch received the lowest January rainfall since 1897.

The only considerable area with rainfall about normal was part of the Gisborne district, and Tolaga Bay actually reported a small surplus.

Temperatures.—Temperatures were above normal over the Auckland Province, except for Gisborne, and also over most inland districts of the South Island. The greatest departures were over the Northland area and in central districts of the North Island, where temperatures were 2° F. warmer than usual. In most remaining districts temperatures were near normal, but they were appreciably cooler than usual about western and southern coasts of the South Island.

Sunshine.—Sunshine was above normal over the southern half of the North Island and over the whole of the South Island except for eastern and southern Southland and Banks Peninsula. Wellington Province and inland and western districts of the South Island were specially favoured with many stations recording a surplus of forty to sixty hours. From the Auckland city northward it was appreciably more cloudy than usual, with sunshine mainly twenty hours below average.

Weather Sequence.—On New Year's Day an anticyclone centred over the North Island brought fine weather to the whole country. During the next three days a weak trough of low pressure passed northward over New Zealand, accompanied by light or moderate rain in western and southern districts of the South Island and a few brief showers in most other districts. However, rain became general with the

passage of two depressions over the South Island on the 5th and 6th; there were some considerable falls on the West Coast.

The weather cleared rapidly as another anticyclone moved on to the country, but on the 7th and 8th there were still a few showers in Northland. On the two following days there was some rain in all districts except Central Otago as another depression moved across the country. With rising pressures conditions improved rapidly on the 11th in the North Island, but weak disturbances still affected the South Island for several days. By the 13th fine weather prevailed except on the West Coast. However, winds from a westerly quarter remained strong in the far south and on the 14th strong gales caused considerable damage in parts of Southland and South Otago.

A large anticyclone which had been approaching from the Tasman Sea moved on to the country on the 15th, and the spell of warm sunny weather which the North Island had been enjoying became general. There were, however, a few showers at first in some districts, chiefly about Gisborne and the Bay of Plenty.

On the 19th and 20th a shallow disturbance brought unsettled conditions in the far south. A tropical cyclone which had crossed Fiji on the 15th was off East Cape at midnight on the 20th moving steadily south-eastward. It brought welcome rain to the Gisborne district.

An anticyclone intensifying over the Tasman Sea began to extend on to the Dominion, but a weak trough, which became stationary for a time, brought light rains to central and eastern districts of the North Island on the 22nd and 23rd. The spell of warm dry weather which had been affecting the greater part of the country since the 11th continued as the anticyclone moved leisurely eastwards across the country. However, a few showers were reported on the Kaikoura coast on the 25th and in the Gisborne district on the 26th, while another weak trough brought light rain and drizzle to southern and eastern districts of the South Island on the 29th and 30th. At the end of the month a tropical disturbance over the Tasman Sea was moving slowly southward, and a moist northerly air-stream covered the country. Continuous rain broke the spell of dry weather in Northland and Westland. Many other districts were welcoming the prospect of rain to relieve water shortages and to restore dried-up pastures.

Computation of Distributors' and Wholesalers' Prices by Reference to Average Prices

15. In computing the maximum price that may be charged by any distributor or by any wholesaler for potatoes that have been acquired by him in different lots at different prices, the appropriate maximum price may, with the general or special approval of the Tribunal, and subject to any conditions that may be imposed by the Tribunal, be computed by reference to the average of the several prices paid for such potatoes.

Distributors and Other Wholesalers to Specify Weights and Grades of Potatoes on Relevant Invoices

16. (1) Every distributor or other wholesaler who sells any potatoes to which this Order applies shall specify in the relevant invoices, with respect to each item, the weight and the grade of the potatoes comprised in the item.

(2) For the purposes of this clause the term "grade" with respect to any lot of potatoes means, as the case may require, "good table" or "f.a.q." or "under-grade."

(3) Where no grade is specified in any invoice, the potatoes referred to in the invoice, shall, for the purpose of this order be deemed to be "under-grade."

Retailers' Prices

17. (1) Subject to the following provisions of this clause, the maximum price inclusive of the container that may be charged or received by any retailer for any potatoes to which this Order applies, shall not exceed the sum of the following amounts:—

- (a) The price actually paid or payable by the retailer for the potatoes, but not exceeding the appropriate price fixed by the foregoing provisions of this Order.
- (b) Any grading, transport, or other charges actually paid or payable by the retailer:
- (c) An amount equal to 33¼ per cent of the sum of the amounts specified in paragraphs (a) and (b) hereof.

(2) The retail price of any potatoes, computed in accordance with the last preceding subclause, shall be calculated by reference to the prices and weights disclosed in the appropriate invoices.

(3) Notwithstanding anything to the contrary in the foregoing provisions of this clause, but subject to the provisions of sub-clauses (4) and (5) hereof, the retail price of potatoes inclusive of the container to which this Order applies shall not in any case exceed the appropriate price set out in the Schedule hereto.

(4) Where any potatoes to which this Order applies are sold by retail in lots of 14 lb. or 28 lb. or 56 lb. or 112 lb., the maximum retail price inclusive of the container shall not in any case exceed:—

Where the Maximum Retail Price (as Fixed by the Last Preceding Subclause) is—	Maximum Retail Price per Lot of—			
	14 lb. s. d.	28 lb. s. d.	56 lb. s. d.	112 lb. s. d.
3d. per lb.	3 4	6 6	13 0	25 9
3½d. per lb.	3 8	7 1	14 2	28 0
3¾d. per lb.	4 0	7 7	15 2	30 0
3⅞d. per lb.	4 3	8 2	16 4	32 3
4d. per lb.	4 6	8 8	17 4	34 3

4¾d. per lb.	5 4	10 4	20 8	40 9
5d. per lb.	5 8	10 11	21 6	42 9

(5) For the purposes of this subclause, the term "specified weight" means 14 lb., 28 lb., 56 lb., or 112 lb. Where any potatoes to which this order applies are sold by retail in any lot exceeding 14 lb., a maximum price for the lot, inclusive of the container, shall be calculated at the rate fixed in respect of the nearest specified weight to the weight of the lot sold.

(6) If in respect of any lot of potatoes sold by a retailer the maximum price, calculated in accordance with the foregoing provisions of this clause, is not an exact number of pence or half-pence (in the case of a lot less than 5 lb.) or is not an exact number of pence (in the case of a lot of 5 lb. or more), the maximum price of the lot shall be the next highest halfpenny or the next highest penny, as the case may be. The provisions of this subclause shall apply notwithstanding that in any case the retailer purports to sell any potatoes otherwise than by weight.

(7) For the purposes of this clause the price paid or payable by a retailer for any lot of potatoes and the grading, transport, and other charges paid or payable by him in respect of the same lot, shall be apportioned evenly over the whole lot, and the price and charges paid or payable by the retailer for each 1 lb. of potatoes included in the lot shall be determined accordingly.

18. Notwithstanding anything in the foregoing provisions of this Order and subject to such conditions, if any, as it thinks fit, the Tribunal, on application by any retailer, may authorize special maximum retail prices in respect of any potatoes to which this Order applies where special circumstances exist or, for any reason extraordinary charges (freight or otherwise) are incurred by the retailer in obtaining delivery from the source of supply that is nearest or most convenient of access to him. Any authority given by the Tribunal under this clause may apply with respect to a specified lot or consignment of potatoes or may relate generally to all potatoes to which this Order applies sold by the retailer while the approval remains in force.

Retailers to Exhibit Prices

19. Every retailer who offers or exposes any potatoes to which this Order applies for sale in any shop shall keep in a prominent position in such proximity to the potatoes to which it relates as to be obviously descriptive thereof a ticket, placard, or label on which shall be stated in legible and prominent characters the retail price per pound of the potatoes.

BRANDING OF GOOD TABLE POTATOES

20. Every grower, distributor, or wholesaler who grades any potatoes as "good table" shall affix to every sack so graded a tag on which shall be written the words "Good Table Grade" and the name and address of the person so grading the potatoes: Provided, however, that where a grower so grading potatoes is a member of a growers' association approved by the Minister of Agriculture his registered number may be given in place of his name and address.
