* Observations for 23 days only.

NOTE.—At stations where departures from normal are in parentheses, the temperature record has been maintained for less than ten years, the rainfall record for less than twenty years. Rainfall normals have been revised and now refer to the standard period 1921–50. Where observations are not available for the whole period, or where the site of the rain-gauge has been changed, the normals are partly interpolated.

NOTES ON THE WEATHER FOR JANUARY 1955

General.—January was a warm, dry month. For many districts, especially between Hamilton and Nelson and Blenheim, rainfall was lower than in any January since 1928. Good rains which had fallen shortly before the Christmas period greatly benefited pastures and crops. Harvesting and haymaking suffered few interruptions during January. Fruit crops were good, and stock were reported to be in good condition. However, by the end of the month the countryside was looking very parched.

Gales caused some damage in Otago and Canterbury on the 3rd.

Rainfall.—Rainfall was less than half the normal value over most of the country north of Westport and Timaru. The deficiency was greatest in Waikato, South Taranaki, Wellington Province from Rangitikei southward, and the Waimea-Sounds-Wairau area of Nelson and Marlborough. In fact one station in the eastern part of the Sounds recorded no rain at all.

There was an appreciable surplus over most of Southland and in Central Otago.

A series of rather severe thunderstorms affected Hawke's Bay, Gisborne, and the Bay of Plenty on the night of the 17th and the early morning of the 18th.

Temperatures.—Temperatures were mainly one degree to two degrees above normal. The highest departures of over two degrees were recorded about the Bay of Islands, in Central Otago, and in the Ashburton-Christchurch-Banks Peninsula area. In many districts the 18th to the 21st was a particularly warm period.

Sunshine.—Sunshine was mainly about normal. The Wairarapa and most of Canterbury from Christchurch southward were favoured with a surplus of twenty to forty hours. In the Waikato and King Country, and in parts of the Gisborne district, it was appreciably cloudier than usual, with a deficit exceeding twenty hours.

Weather Sequence.—With an anticyclone extending on to New Zealand from the North Tasman Sea the weather on the 1st was generally fair. Conditions deteriorated with the approach of a very deep depression from the South Tasman Sea, and as it passed close to the Southland coast on the 3rd there were strong gales in southern and eastern districts of the South Island. Considerable rain was reported on the West Coast and in the far south, and lighter falls in western districts of the North Island. There was further rain in western and far southern districts on the 4th and 5th as a deep depression passed to the south.

A large anticyclone covered New Zealand on the 6th, and fine sunny weather again prevailed. During the next two days there was a deterioration in Fjordland with the passage of another deep depression far to the south. From the 9th to the 11th, as a trough of low pressure passed slowly eastward, there were moderate falls in western and southern districts of the South Island; but nearly all parts of the country received some beneficial rain, Hawke's Bay and the Wairarapa being the chief exceptions.

For the next five days pressures were comparatively high over New Zealand. With a depression near Norfolk Island, winds over the North Island were light easterly or southerly. The weather was mainly fair to cloudy, but there were scattered showers in Auckland Province and in Nelson and Marlborough. On the 17th and 18th pressures were still high, but severe thunderstorms were reported in Hawke's Bay, Gisborne, and Bay of Plenty, and there was some rain in western and southern districts of the South Island with the passage of a weak trough.

On the 19th conditions remained unsettled in Fjordland and Westland with the approach of a trough of low pressure, which passed slowly north-eastward over the country during the next three days. It was preceded by rather warm weather, but brought welcome rain which was, however, considered insufficient in many North Island districts. With an anticyclone over the North Tasman Sea, the weather on the 23rd was mainly fair, but during the next three days there was light rain again in western and far southern districts of the South Island as a deep depression passed to the south. Some more general and very welcome rain accompanied a cold front which crossed the country on the 27th.

On the 28th and 29th an anticyclone again extended on to the country from the North Tasman Sea, and the weather was fair or fine apart from showers on the coast in the southern half of the South Island. On the last two days of the month a north-westerly air-stream covered the country, while a trough of low pressure moved slowly over the South Island. There was heavy rain on the West Coast, and some light falls in eastern districts as far north as Timaru.

15. In computing the maximum price that may be charged by any distributor or by any wholesaler for potatoes that have been acquired by him in different lots at different prices, the appropriate maximum price may, with the general or special approval of the Tribunal, be computed by reference to the average of the several prices paid for such potatoes.

Distributors and Other Wholesalers to Specify Weights and Grades of Potatoes on Relevant Invoices

16. (1) Every distributor or other wholesaler who sells any potatoes to which this Order applies shall specify in the relevant invoices, with respect to each item, the weight and the grade of the potatoes comprised in the item.

(2) For the purposes of this clause the term "grade" with respect to any lot of potatoes means, as the case may require, "good table" or "f.a.q." or "under-grade."

(3) Where no grade is specified in any invoice, the potatoes referred to in the invoice, shall, for the purpose of this order be deemed to be "under-grade."

Retailers' Prices

17. (1) Subject to the following provisions of this clause, the maximum price inclusive of the container that may be charged or received by any retailer for any potatoes to which this Order applies, shall not exceed the sum of the following amounts:—

- The price actually paid or payable by the retailer for the potatoes, but not exceeding the appropriate price fixed by the foregoing provisions of this Order.
- Any grading, transport, or other charges actually paid or payable by the retailer:
- An amount equal to 33¼ per cent of the sum of the amounts specified in paragraphs (a) and (b) hereof.

(2) The retail price of any potatoes, computed in accordance with the last preceding subclause, shall be calculated by reference to the prices and weights disclosed in the appropriate invoices.

(3) Notwithstanding anything to the contrary in the foregoing provisions of this clause, but subject to the provisions of sub-clauses (4) and (5) hereof, the retail price of potatoes inclusive of the container to which this Order applies shall not in any case exceed the appropriate price set out in the Schedule hereto.

(4) Where any potatoes to which this Order applies are sold by retail in lots of 14 lb. or 28 lb. or 56 lb. or 112 lb., the maximum retail price inclusive of the container shall not in any case exceed:—

Where the Maximum Retail Price (as Fixed by the Last Preceding Subclause) is—	Maximum Retail Price per Lot of—			
	14 lb. s. d.	28 lb. s. d.	56 lb. s. d.	112 lb. s. d.

5d. per lb. . .	5 8	10 11	21 6	42 9

(5) For the purposes of this subclause, the term "specified weight" means 14 lb., 28 lb., 56 lb., or 112 lb. Where any potatoes to which this order applies are sold by retail in any lot exceeding 14 lb., a maximum price for the lot, inclusive of the container, shall be calculated at the rate fixed in respect of the nearest specified weight to the weight of the lot sold.

(6) If in respect of any lot of potatoes sold by a retailer the maximum price, calculated in accordance with the foregoing provisions of this clause, is not an exact number of pence or half-pence (in the case of a lot less than 5 lb.) or is not an exact number of pence (in the case of a lot of 5 lb. or more), the maximum price of the lot shall be the next highest halfpenny or the next highest penny, as the case may be. The provisions of this subclause shall apply notwithstanding that in any case the retailer purports to sell any potatoes otherwise than by weight.

(7) For the purposes of this clause the price paid or payable by a retailer for any lot of potatoes and the grading, transport, and other charges paid or payable by him in respect of the same lot,

shall be apportioned evenly over the whole lot, and the price and charges paid or payable by the retailer for each 1 lb. of potatoes included in the lot shall be determined accordingly.

18. Notwithstanding anything in the foregoing provisions of this Order and subject to such conditions, if any, as it thinks fit, the Tribunal, on application by any retailer, may authorize special maximum retail prices in respect of any potatoes to which this Order applies where special circumstances exist or, for any reason extraordinary charges (freight or otherwise) are incurred by the retailer in obtaining delivery from the source of supply that is nearest or most convenient of access to him. Any authority given by the Tribunal under this clause may apply with respect to a specified lot or consignment of potatoes or may relate generally to all potatoes to which this Order applies sold by the retailer while the approval remains in force.

Retailers to Exhibit Prices

19. Every retailer who offers or exposes any potatoes to which this Order applies for sale in any shop shall keep in a prominent position in such proximity to the potatoes to which it relates as to be obviously descriptive thereof a ticket, placard, or label on which shall be stated in legible and prominent characters the retail price per pound of the potatoes.

BRANDING OF GOOD TABLE POTATOES

20. Every grower, distributor, or wholesaler who grades any potatoes as "good table" shall affix to every sack so graded a tag on which shall be written the words "Good Table Grade" and the name and address of the person so grading the potatoes: Provided, however, that where a grower so grading potatoes is a member of a growers' association approved by the Minister of Agriculture his registered number may be given in place of his name and address.
