NOTES ON THE WEATHER FOR AUGUST 1959

General: August was comparatively dry and sunny over the greater part of the country, Northland and Gisborne being the chief exceptions. It was a good month for stock, and the absence of prolonged spells of cold wet weather made conditions particularly favourable for lambing. In some areas pastures were reported to be suffering from lack of rain.

The winter season as a whole has been unusually dry and sunny over most of the South Island and the southern half of the Wellington Province.

Rainfall: Rainfall was less than half the average value over the greater part of the South Island and in southern and western districts of the North Island. On the Kaikoura coast, the Canterbury Plains, and inland North Otago totals were mainly below half an inch and for some stations it was the driest August on record.

The only areas with rainfall somewhat above normal were Northland and Coromandel, Gisborne and northern Hawke's Bay, and parts of Southland.

For the winter season, June to August, Wellington received 6.17 in., the lowest rainfall ever recorded for this period. Dunedin received 3.25 in., the lowest since 1859.

Temperatures: Temperatures were about a degree above average in the North Island and in parts of Nelson and Marlborough. Elsewhere they were close to normal.

Sunshine: Over most northern and eastern districts of the South Island and in the southern half of the Wellington Province sunshine was 20-60 hours above average. In the same areas the total sunshine for the winter season was the highest for at least 27 years; for Masterton, Wellington, Christchurch, and Ashburton it was the highest on record.

Weather Sequence: On the 1st most of the country enjoyed fair weather under the influence of a large anticyclone centred to the east, but rain commenced in Northland with the approach of a complex depression across the North Tasman Sea. As the depression crossed the North Island during the next three days rain spread over the remainder of the North Island and parts of the South Island. Some considerable falls were reported in Northland and Nelson.

From the 5th to the 8th pressures were high over the north and very low to the south, and winds were mainly westerlies and north-westerlies. The weather was fair in most eastern districts, but elsewhere it was unsettled, with rain.

For the next four days an anticyclone was centred far to the east, with a ridge of high pressure over the South Island. Two depressions moved from the Tasman Sea past North Cape, and the first later reached the coast off Gisborne. Rain affected the greater part of the North Island, but especially northern and eastern districts.

On the 13th a deep depression passed to the south, with rain on the West Coast and in Taranaki and Northland. During the next three days light falls spread to most other districts as a small depression crossed the South Island.

The second half of the month was mainly notable for the persistence of a large anticyclone moving slowly eastward from Tasmania across the Tasman Sea, with a period of high pressure extending on to the South Island. It was a time of settled, sunny weather for most of the South Island and the greater part of the Wellington Province.

From the 17th to the 23rd a complex depression moved slowly from the North Tasman Sea across Northland and to the east.

Conditions were unsettled in the Auckland and Hawke's Bay Provinces, with frequent rain. Some heavy falls were reported in Northland on the 18th, in Coromandel on the 20th, and in part of Gisborne and Hawke's Bay on the 21st.

On the 24th winds turned to south-west with the advance of the anticyclone towards the North Island. For the last eight days of the month unsettled conditions with showers persisted in Fiordland and Foveaux Strait. At times the showers also extended to the West Coast and to western North Island districts from Egmont northward.

Order Prescribing Standard Terms and Conditions

PURSUANT to section 26A of the Air Services Licensing Act 1951, the Air Services Licensing Authority hereby orders that there be terms or conditions applicable in licences of the class and to the extent as are set out hereunder:

A. In Respect of Licences for Air Transport Services:

(1) Unless otherwise ordered by the Licensing Authority in respect of a particular licence, the following standard terms and the meaning thereof shall be applicable in all licences for air transport services in so far as they may apply to the type or types of such services as are authorised in the licence:

- (a) "Scheduled service" means an air transport service carried on between such fixed terminals or traffic areas and by such route or routes and with or without intermediate stopping places as are authorised and in accordance with a timetable and in respect of passenger services only or of combined passenger and freight services, for such fares for the carriage of passengers as are authorised and published.

(b) "Non-scheduled service" means an air transport service carried on between such fixed terminals or traffic areas and by such route or routes and with or without intermediate stopping places as are authorised and in respect of which the licensee may determine from time to time when or to what extent such service shall be carried on.

(c) "Air charter service" means an air transport service wherein the licensee hires out to a person or to a group of persons, having a common interest in the purposes of the hiring, the exclusive use of the aircraft for a particular flight or series of flights and one payment for such hire is made.

(d) "Air-taxi service" means an air transport service wherein an aircraft is used for a particular flight or series of flights and in respect of each such flight the licensee charges to each passenger a fare on a per seat basis or, as the case may be, to each consignor of freight a charge for each separate item of freight carried.

(e) "Scenic flights or joy-rides" means an air transport service involving a flight without intermediate stops from and to a designated aerodrome the primary purpose of which is for sightseeing.

(2) Unless otherwise ordered by the Licensing Authority in respect of a particular licence, the following conditions shall be deemed to apply to each type of air transport service as is specified hereunder:

(a) *Scheduled Service:*

(i) The licensee shall be under an obligation to operate the service in accordance with the authorised and published timetable unless for reasons of safety it is inexpedient to do so or unless he is prevented by circumstances beyond his control.

(ii) The licensee may at any time on any of the days specified in the authorised timetable increase the number of flights beyond what is stated in the authorised timetable but he may not reduce the number of such flights without the prior approval of the Licensing Authority or unless authorised by the terms of the licence to do so.

(b) *Non-scheduled Service:*

(i) Where a non-scheduled passenger service is carried on over the same or substantially the same route as operated by a scheduled service the minimum fare per passenger shall be 10 per cent in excess of the fare payable by a like passenger in the scheduled service or by the lowest fare if there are more than one such services, provided however that such excess shall not apply if there is no scheduled service operating during the same day or if the full capacity on the scheduled service has been taken or if in the course of such route the non-scheduled service involves intermediate stops at points or traffic areas not included in the scheduled service.

(ii) If the licensee publishes a timetable of his proposed services he shall indicate prominently therein that such services may not be adhered to for reasons of safety or unless sufficient business is offering and, subject to the foregoing, the licensee shall take all reasonable steps to ensure that the services prescribed in such timetable are maintained.

(c) *Air Charter Service:*

(i) All charges for charter services shall be based on an hourly rate either as authorised in the licence or otherwise as determined by the licensee.

(ii) Subject to the provisions of subpara. (iv) herein, all air charter services shall be deemed to originate from the aerodrome or traffic area or from any one of the aerodromes or traffic areas as are designated in the licence and if the actual flight as required by the hirer commences from some other aerodrome or traffic area the licensee shall charge and shall record separately a reasonable amount for the cost of positioning the aircraft from the place of origin.

(iii) Where the charter flight or flights is or are to terminate elsewhere than at the place of origin, as referred to in subpara. (ii) herein, the licensee may include in the hire charge a reasonable additional amount for the cost of flying the aircraft back to the place of origin but in such event the licensee may not enter into any agreement with any other person, except on the basis as set out in subpara. (ii) herein, unless he first refunds to the hirer the amount of such additional charge.

(iv) Where a charter flight has terminated elsewhere than at the place of origin, as referred to in subpara. (ii) herein, and no charge for the cost of flying the aircraft back to the place of origin has been made or, if made, has been refunded, the licensee may enter into a new agreement for an air charter service and for the purpose only of that agreement the place of origin of the charter service shall be deemed to be where the previous flight terminated; but if such new charter service is to terminate elsewhere than at any place or aerodrome designated in the licence, the licensee shall include in the hiring charge a reasonable amount for the cost of flying the aircraft back from where such flight terminates to the said place of origin designated in the licence.

(v) Any person authorised to operate an air charter service may also carry on scenic flights and joy-rides from the aerodrome or traffic area or from any one of the aerodromes or traffic areas designated in the licence.

(d) *Air-taxi Service:*

(i) Subject to the provisions of sub-para. (ii) herein, an air-taxi service may originate only from the aerodrome or traffic area or from any one of the aerodromes or traffic areas as are designated in the licence.

(ii) From the place where an air-taxi service has terminated the licensee may operate a like service but only back to the place or places of origin as referred to in subpara. (i) herein.

(iii) Where an air-taxi service operates over the same or substantially the same route as operated by a scheduled service the minimum fare per passenger shall be 10 per cent in excess of the fare payable by a like passenger in the scheduled service or by the lowest fare if there are more than one such services, provided however that such excess shall not apply if there is no scheduled service operating during the same day or if the full capacity on the scheduled service has been taken or if in the course of such route the air-taxi service involves intermediate stops at points or traffic areas not included in the scheduled service.

(iv) Any person authorised to operate an air-taxi service may also carry on scenic flights and joy-rides from the aerodrome or traffic area or from any one of the aerodromes or traffic areas designated in the licence.

B. In Respect of Licences for Air Topdressing Services:

(3) *Classification and Replacement of Aircraft:*

(a) In all licences authorising the carrying on of air topdressing services the aircraft authorised for such services shall be deemed to be any one of the following categories, namely, light aircraft or medium aircraft or heavy aircraft.

(b) *For the Purposes of Paragraph (a) herein—*

(i) "*Light aircraft*" means an aircraft in respect of which the maximum approved agricultural payload does not exceed one half ton.

(ii) "*Medium aircraft*" means an aircraft in respect of which the maximum approved agricultural payload is more than one half ton but does not exceed one ton.

(iii) "*Heavy aircraft*" means an aircraft in respect of which the maximum approved agricultural payload exceeds one ton.

(c) Subject always to there being no increase in the number of aircraft as are authorised in the licence, the licensee may at any time replace a light aircraft with another type of light aircraft or a medium aircraft with another type of medium aircraft. The licensee operating a heavy aircraft may replace that aircraft by another heavy aircraft without the prior approval of the Licensing Authority provided the maximum approved agricultural payload of the replacement aircraft is not greater or less than one half ton of such approved payload in respect of the aircraft being replaced. Every such replacement shall be notified promptly to the Authority.

(d) Nothing in this clause shall apply to helicopters.

(4) *Boundaries:*

(a) Where any boundary of the area authorised for an air topdressing service passes through any part of a farming property, the licensee may enter into an agreement with the owner of such property for the carrying out of air topdressing services on any part of that property.

(b) Where in any licence a boundary is defined *inter alia* as being a line running from the mouth of a river or other waterway such line shall be deemed to run from the northern side of the mouth of such river or other waterway unless the licence otherwise provides.

C. General for Air Services:

(5) *Insurance:*

(a) Except in respect of the New Zealand National Airways Corporation and of Straits Air Freight Express Ltd., it shall be a condition of all air service licences that the licence holder shall maintain during the currency of the licence:

(i) In respect of any aircraft in which one or more passengers may be carried, a minimum insurance cover of £5,000 per passenger against liability for the death of or bodily injury to such a passenger.

(ii) In respect of all aircraft a minimum insurance cover of £25,000 against all liability for third party personal injury or death or for property damage in respect of any one accident.

(b) Notwithstanding that the licence may authorise the carrying on of an air service as from a specific date, such service shall not be commenced until there has been deposited with the Licensing Authority a certificate endorsed by the insurers of due insurance in accordance with the requirements in paragraph (a) herein.

(c) Within one week from the due date of the renewal or on the replacement of any such insurance policy or within such extended time as the Licensing Authority may permit, there shall be deposited with the Licensing Authority a like certificate as is required under paragraph (b) herein. If the certificate as aforesaid is not deposited within the period as stated the licence shall be deemed to be suspended until such certificate is deposited.

(6) *Transfer of Interest in Licences:*

(i) *Where:*

(a) The holder of a licence is an individual and by any means whatever his controlling interest in the business in respect of which the licence applies passes to any other person or persons; or

(b) The holder of a licence is a company and by any means whatever the controlling interest in that company passes to any person or persons other than those named as shareholders or intending shareholders when the application for a licence was made; then in either such event the licence shall be deemed to be suspended as from the date of such passing unless the prior approval of the Authority has been obtained, or unless and until full details of the transaction or proposed transaction involving the passing of the controlling interest as aforesaid have been given to the Authority and its approval to such passing has been granted.

(ii) Where by reason of transmission on death the provisions of subpara. (i) herein would apply, the licence shall not be deemed to be suspended until after the expiration of three calendar months from the date of death.
