(4) All fresh meat killed elsewhere than in an abattoir district and sold or delivered to a purchaser during the currency of this order shall be sold at prices not in excess of the appropriate prices fixed in this order for first-grade, second-grade, or third-grade meat had it in fact been killed and graded in an abattoir district.

APPLICATION OF THIS ORDER

(3) Notwithstanding anything in the provisions of this order and subject to such conditions, if any, as it thinks fit, the Tribunal, on application by any retailer, may authorise special maximum retail prices in respect of any meat to which this order applies where for any reason extraordinary charges (freight or otherwise) are incurred by the retailer. Any authority given by the Tribunal under this subclause may apply with respect to a specified lot or consignment of meat or may relate generally to all meat to which this order applies sold by the retailer while the approval remains in force.

NOTICE OF COMPLETION OF CLASSIFICATION LIST

Classification Under Soil Conservation and Rivers Control Act 1941 of Land in the Southland Catchment District

NOTICE is hereby given that: (a) The land in the part of the Southland Catchment District, described in the Schedule hereto, has been classified under the Soil Conservation and Rivers Control Act 1941, and the classification is deemed a valid classification as from the date on which this notice is first published, namely, the 22nd day of February 1960.

(b) The proportions in which rates are to be imposed under that Act on the several classes of land are as follows:

Class A:	- 6
Class B:	- 5
Class C:	- 4
Class D:	- 3
Class E:	- 2
Class F:	- 1
Class G:	- Non-rateable.

(c) The classification list shows the division of properties into classes to be rated according to a graduated scale.

(d) The classification list may be inspected at the Board's offices, 143 Spey Street, Invercargill, during the period of 28 days hereafter.

(e) Any person who is dissatisfied in respect of any matter appearing in the classification list has the rights of appeal provided for by section 103 of the Soil Conservation and Rivers Control Act 1941, as substituted by section 18 of the Soil Conservation and Rivers Control Amendment Act 1959, which rights, and any other right to commence proceedings affecting the classification, must be exercised within 49 days hereafter. The grounds upon which an appeal may be lodged are:

- (i) That the classification does not fairly classify the land of the appellant;
- (ii) That any land liable to be classified is omitted from the classification or is not fairly classified;
- (iii) That any land is improperly included within or excluded from the area to which the classification relates;
- (iv) That the proportions in which the rates are proposed to be imposed on the several classes do not fairly represent the varying degrees of benefit to the land in the several classes, or that the proportion of the rate imposed on any particular class or classes is too great or too small;
- (v) That the area of any land included in a class is not correct;
- (vi) That any information in the classification list has been incorrectly transcribed from the valuation roll;
- (vii) That the Board or the classifier has not complied with the requirements of this Act for the making of a valid classification.

Appeals will normally be made to a Magistrate's Court, but appeals in respect of the method of making or of the form or validity of the classification as a whole may be made to the Land Valuation Court only.

One copy of any such appeal must, within the same period be lodged at the office of the Board and another copy at the office of the Valuer-General, care of the Valuation Department at Invercargill.

(f) The classification has been made by Thomas Patrick Clearwater.
