*Poisons Regulations 1964—Approval of Alternative Form of Record*

NOTICE is hereby given that pursuant to regulation 61 of the Poisons Regulations 1964\* the Registrar has approved a record, in the form of microfilm, of the dispensing or supply on prescription of any poison as medicine, such record being made and maintained in accordance with the system hereinafter described.

1. *The viewer:*

- The viewer shall have its own source of illumination, powered either by battery or mains supply;
- The viewer must be so placed and shielded from external light that the image is not appreciably diminished by such light;
- The image, as viewed on the screen of the viewer, shall not be less than two-thirds the size of the original prescription;
- A suitable mechanical device shall be incorporated in the viewer so that the film may be wound between two reels; this device shall be capable of being operated by hand;
- The viewer shall give a clear and well contrasting reproduction of the original prescription;
- The image shall not require refocusing when a line of print is read from one side across the centre to the opposite side, and optical aberration shall not detrimentally affect the legibility of the image;
- Means shall be provided to minimise abrasion on the image area during movement of the film;
- The viewer shall be maintained in a clean condition and good working order;
- The viewer shall be of a type which does not require to be held in the hand.

2. *General:*

- Prescriptions which may not be legible on film (e.g., by reason of lack of contrast between ink and paper, or by reason of the small size of the form or the writing thereon), shall have a legible copy of the original prescription attached to the original prescription in such a manner that the original and copy are both visible and that each copy on its own complies fully with these conditions; each such copy shall be clearly marked with the words, "True copy of Prescription No. (here insert consecutive number) of (date of dispensing)":
- Prescriptions shall be recorded on the film in such manner that they are viewed in consecutive order:

- Records made and maintained in terms of this approval should clearly show the particulars required by regulation 61 of the Poisons Regulations 1964:
- Where the details of a repeat or repeats of a prescription are not endorsed on the prescription before microfilming, such details shall be recorded in a separate bound volume maintained for the purpose and that record shall show clearly the particulars required by regulation 61 of the Poisons Regulations 1964.

All approvals of an alternative form of record on photographic film under regulation 61 of the Poisons Regulations 1964 which were in force immediately before the date of the approval hereby notified are withdrawn with effect from the 30th day of June 1968.

Dated at Wellington this 1st day of April 1968.

C. N. DEREK TAYLOR, Registrar of Poisons.

PURSUANT to regulation 39 of the Narcotics Regulations 1966\*, the Director-General of Health hereby approves the use of microfilm records, made and maintained in accordance with the system hereinafter described, as a prescription book, instead of the bound volume required by subclause (3) of regulation 37 of those regulations.

1. *The viewer:*

- The viewer shall have its own source of illumination, powered either by battery or mains supply;
- The viewer must be so placed and shielded from external light that the image is not appreciably diminished by such light;
- The image, as viewed on the screen of the viewer, shall not be less than two-thirds the size of the original prescription;
- A suitable mechanical device shall be incorporated in the viewer so that the film may be wound between two reels; this device shall be capable of being operated by hand;
- The viewer shall give a clear and well contrasting reproduction of the original prescription;
- The image shall not require refocusing when a line of print is read from one side across the centre to the opposite side, and optical aberration shall not detrimentally affect the legibility of the image;
- Means shall be provided to minimise abrasion on the image area during movement of the film;
- The viewer shall be maintained in a clean condition and good working order;
- The viewer shall be of a type which does not require to be held in the hand.

2. *General:*

- Prescriptions which may not be legible on film (e.g., by reason of lack of contrast between ink and paper or by reason of the small size of the form or the writing thereon), shall have a legible copy of the original prescription attached to the original prescription in such a manner that the original and the copy are both visible and that each copy on its own complies fully with these conditions; each such copy shall be clearly marked with the words, "True copy of Prescription No. (here insert consecutive number) of (date of dispensing)":
