FIXING MAXIMUM RETAIL PRICES OF CORNSACKS TO WHICH THIS ORDER APPLIES

4. (1) The maximum retail price that may be charged or received for any cornsacks to which this order applies shall be determined as follows:

(a) When sold "ex wharf" at Auckland, Napier, Wellington, Lyttelton, Timaru, Dunedin, or Bluff: For 46-in. by 23-in. cornsacks, \$4.93 per ten; for 48-in. by 26½-in. cornsacks, \$6.20 per ten.

(b) When sold "ex store" at Auckland, Napier, Wellington, Lyttelton, Timaru, Dunedin, or Bluff: For 46-in. by 23-in. cornsacks, \$5.01 per ten; for 48-in. by 26½-in. cornsacks, \$6.28 per ten.

(c) When sold by a retailer carrying on business elsewhere than at Auckland, Napier, Wellington, Lyttelton, Timaru, Dunedin, or Bluff, the maximum price shall be the appropriate price fixed by paragraph (b) hereof, increased by the appropriate proportion of the freight charges incurred by the retailer in obtaining delivery from such one of the said places as is most convenient of access to his store; provided that, where any cornsacks to which this paragraph applies are obtained by the retailer elsewhere than from such one of the said places that is most convenient of access to his store, the increase authorised by this paragraph shall not exceed the appropriate proportion of the freight charges that would have been incurred by the retailer if the cornsacks had been obtained from that place and if delivery had been effected by the holder of a goods-service licence under the Transport Act 1962 at authorised rates.

(2) The maximum prices fixed by the last preceding sub-clause are fixed as for delivery f.o.r. or f.o.b. as the case may require.

(3) Where any cornsacks are delivered by a retailer otherwise than f.o.r. or f.o.b., the price that may be charged by the retailer shall be the appropriate price in terms of the foregoing provisions of this clause, increased by the amount of the freight charges incurred by him in effecting delivery, and then reduced by the amount of those charges that would have been incurred by him if he had delivered the cornsacks f.o.r. or f.o.b., as aforesaid.

(4) Any freight charges imposed by a retailer pursuant to the foregoing provisions of this clause shall be shown separately on the appropriate invoice.

PROVISION FOR SPECIAL PRICES WHERE EXTRAORDINARY CHARGES INCURRED

5. Notwithstanding anything in the foregoing provisions of this order and subject to such conditions, if any, as it thinks fit, the Tribunal, on application by any retailer, may authorise special maximum prices for any cornsacks to which this order applies where special circumstances exist or, for any reason, extraordinary charges (freight or otherwise) are incurred by the retailer. Any authority given by the Tribunal under this clause may apply with respect to a specified lot or consignment of cornsacks, or may relate generally to all cornsacks to which this order applies sold by the retailer while the approval remains in force.

Dated at Wellington this 15th day of December 1972.

Tariff and Development Board Notice No. 327—Inquiry Concerning Protection for Certain Seeds and Cereals of Tariff Headings 07.05, 10.07, 12.01, and 12.03—Amendment to Schedule A of Notice No. 310

1. In Tariff and Development Board Notice No. 310 (*New Zealand Gazette* dated 9 November 1972) the Board gave notice of its intention to conduct a public hearing on Wednesday, 11 April 1973, into the question of the nature and extent of protection, if any, which it considers appropriate for New Zealand industry in respect of certain goods including certain seeds and cereals specified in Schedule A to the notice.

2. Interested parties are advised that the note to Schedule A of the notice is amended by substituting the word "goods" for "seeds" in referring to the content of Tariff headings 10.07 and 12.01. The note, in its amended form, will read:

"To facilitate proceedings the Board will hear evidence on these goods in two stages. Stage 1 will be confined to evidence relating to seeds, for sowing, of Tariff headings 07.05 and 12.03 and Stage 2, which will immediately follow Stage 1, will include the evidence on the goods of Tariff headings 10.07 and 12.01."

3. Parties intending to make representations at the public hearing on Wednesday, 11 April 1973, should have regard to the above amendment in preparing their submissions.

Dated at Wellington this 19th day of December 1972.

The "normal" refers to the present site of the instruments. The standard periods for normals are: for temperature 1931-60, for rainfall 1921-50, and for sunshine 1935-60. No normals are available for stations with only short records.

*The sunshine recorder is not located at the station but is in the near vicinity.

A rain day is a day with rainfall equal to or greater than 0.1 mm.

NOTES ON THE WEATHER FOR NOVEMBER 1972

General—November was a warm month but unusually cloudy in the North Island. It was also rather dry. The lack of rain was particularly noticeable in Gisborne and Hawke's Bay, where it had persisted for several months, and in Marlborough, where this month was very dry. In these areas stock and crops were seriously affected, though good rains at the end of the month gave some relief. Elsewhere conditions for farming were variable but generally satisfactory.

Rainfall—Rainfall was mainly only three-quarters of the normal value. In Central Marlborough it was less than a quarter of the normal.

Rainfall was above normal on the West Coast and in parts of Canterbury; also in parts of Northland and of the Coromandel-Waikato-Waitomo area. Some heavy downpours were reported in northern districts of the North Island during thunderstorms on the 20th and 30th.

Temperatures—Temperatures were above normal by 2°C. in the North Island and by 1½°C. in the South Island. Highest departures were recorded in Taurarunui, Bay of Plenty, Gisborne, and Hawke's Bay, where this was by far the warmest November for at least 40 years. For the North Island as a whole this was one of the warmest Novembers on record; other warm Novembers were in 1923 and 1934.

The first half of the month was warmer than the second half.

The spring season of September, October, and November has been a warm one generally and the warmest on record in eastern districts from Gisborne to Canterbury.

Sunshine—Sunshine was below normal over most of the North Island and in Nelson and Central Otago. The deficiency was greatest in western and northern districts, where it reached 80 hours in some areas. It was by far the cloudiest November on record for a number of stations, including Whakarewarewa, Ruakura, and New Plymouth.

Weather Sequence—At the beginning of November an anticyclone centred to the east covered New Zealand and the weather was settled. On the 2nd a small depression crossed the South Island, causing considerable rain to fall on the West Coast and in the Alps with lighter falls in Southland, the Canterbury high country, Nelson, and west of the ranges in the North Island. On the following day a depression was centred over the North Tasman Sea and light rain was reported in the North Island.

The depression remained almost stationary during the 4th and 5th, while a warm front associated with it moved southward over the South Island, with rain there in most places. Conditions remained rather similar on the following day as the depression lost intensity and moved southward. An anticyclone was still centred far to the east of the North Island while pressures were low to the south of the country, and on the 7th a weak trough brought some rain to western districts as far north as Manawatu, and also to parts of Southland and Otago.

During the 8th and 9th a small depression crossed the South Island with the associated trough later affecting the North Island, and some rain was reported in many districts. For the next 2 days a large anticyclone with centres over the North Island and to the north of the Chatham Islands covered the country; and the weather was fine except for some rain in Fiordland.

On the 12th and 13th a very deep depression near Macquarie Island moved slowly north-eastward and the associated trough of low pressure crossed the South Island. In the strong westerlies excessive rain was reported on the West Coast and in the Alps. For the next 3 days the front was stationary over the North Island, while a depression was centred off the coast of New South Wales and an anticyclone near Tasmania. Some light rain was reported in the North Island. However, from the 17th to the 19th the anticyclone moved eastward across New Zealand and the weather was fine.

During the next 3 days a small depression crossed Northland from the west. The weather was unsettled in the North Island with rain in most districts and some thunderstorms, especially on the 20th. Light rain also affected parts of the South Island. On the 23rd an anticyclone was centred over the Tasman Sea and a trough in the south-westerlies brought scattered rain to both Islands. During the 24th and 25th an anticyclone moved across the North Island to the east and the weather was settled.

From the 26th to the 28th a depression was stationary west of the North Island, with a frontal system over it, while pressures built up to the south. Rain was reported in many parts of both Islands. During the last 2 days of the month the depression crossed Northland. In the easterlies rain became general, with some considerable falls in Bay of Plenty and in eastern districts north of Christchurch.
