The Dental Technician Training Council Order 1973

DENIS BLUNDELL, Governor-General

ORDER IN COUNCIL

At the Government Buildings at Wellington this 19th day of March 1973

Present:

THE HON. H. WATT PRESIDING IN COUNCIL

PURSUANT to section 3 of the Technicians Training Act 1967, His Excellency the Governor-General, acting by and with the advice and consent of the Executive Council, hereby makes the following order.

ORDER

1. This order may be cited as the Dental Technician Training Council Order 1973.

2. In this order—

“the dental technician industry” means the industry of workers employed substantially in connection with the mechanical construction, renewal, alteration, and repair of artificial dentures, restorative dental appliances, or corrective dental appliances.

3. There is hereby established a technician training council in respect of the dental technician industry.

4. The Schedule to this order is a copy of the principal training scheme formulated in respect of dental technician cadets engaged in the dental technician industry.

5. (i) Every person other than a worker who commits a breach of any provision of the training scheme, a copy of which is annexed as the Schedule to this order, shall be liable to a penalty not exceeding \$200.

(ii) Every worker who commits a breach of any provision of the said training scheme shall be liable to a penalty not exceeding \$50.

P. G. MILLEN, Clerk of the Executive Council.

SCHEDULE

PRINCIPAL TRAINING SCHEME FOR DENTAL TECHNICIAN CADETS

1. Preamble

1.1 The object of the scheme is to enable dental technician trainees, who will be known as dental technician cadets, to be trained to a high level of technical competence in the field of dental technology, so that on registration they can carry out their true role as being fully qualified in the field of dental technology. In order to achieve this they must have sufficient knowledge of the basic sciences involved so that they can understand the techniques they employ and thus can adopt a scientific approach to their work.

1.2 The training scheme will supplement the knowledge gained by the cadet while working for his employer. It will provide an opportunity for classroom instruction and will offer adequate practical and theoretical training in all aspects of the industry.

1.3 The scheme will allow cadets to become acquainted with the organisation and legislation governing the dental technician industry and with the management of commercial dental laboratories. It will allow cadets to become more productive in the laboratory at an earlier stage of their training, without the need of so much supervision.

2. Entry to the Training Scheme

2.1 While the road to technician training under this Schedule must always remain open to apprentices who can meet the entry criteria, technician cadets will, for the most part, be direct entrants to the industry.

3. Industry to Which the Training Applies

3.1 Technician cadets shall be trained for the dental technician industry and employed in accordance with the terms of the Medical and Dental Auxiliaries Act 1966 and the Dental Technicians Regulations 1968 and amendments thereto.

4. Application of Training Scheme and Conditions of Employment

4.1 The provisions of the training scheme and conditions of employment shall apply to all employers of dental technician cadets throughout New Zealand (whether bound by an award or agreement relating to the industry or not), and to all dental technician cadets employed by such employers in any such industry, and to all contracts of dental technician cadetship (including those in force at the time of the establishment of the Dental Technician Training Council).

5. Interpretations

5.1 The interpretations as provided for in section 2 of the Technicians Training Act 1967 shall apply.

6. General

6.1 The applicants for the establishment of the Dental Technician Training Council are conscious that it is necessary for employers to be able to give the necessary practical training envisaged in the training scheme. It is therefore recommended that when the Council is considering any application to enter into a contract, matters such as the size of the employer's operations, the number of dental technicians employed, and the variety and scope of the practical training which can be given should be considered.

PRINCIPAL TRAINING SCHEME FOR DENTAL TECHNICIAN CADETS

A.1 Introduction

A.1.1 The dental technician cadet in his training should be given as broad a practical experience as possible in all aspects of the dental technician industry covered by his academic studies.

A.1.2 The academic studies and practical training to be undertaken by the dental technician cadet will lead to an examination prescribed and conducted to meet the requirements of the Dental Technician Training Council, and such studies, practical training, and examination shall at all times meet the requirements of the Dental Technician Training Council.

A.2 Training Programme

A.2.1 The training programme for dental technician cadets must include experience in the following:

Use and care of dental laboratory tools and equipment including the safety factors employed.

Dental anatomy and related dental physiology.

Physics and chemistry as associated sciences related to dental technology.

Dental materials.

Complete and partial denture construction.

Inlay, crown, and bridge construction, including elementary dental ceramics.

Elementary orthodontic laboratory technique.

A.3 Transfer to Supplement Training

A.3.1 Where the Council considers it necessary to enable a dental technician cadet to acquire proper practical training it may, on the application of any party to the contract, approve the transfer of the cadet for a limited period to another employer in order to supplement the training of the dental technician cadet.

A.4 Minimum Age

A.4.1 The minimum age at which a person may enter a dental technician cadetship shall be 16 years.

A.5 Prerequisite Education

A.5.1 It shall be necessary for a person desiring to become a dental technician cadet to produce satisfactory evidence that he has obtained a pass in at least two subjects of School Certificate, one of which shall be mathematics, general science, physics, or chemistry, or to produce evidence to the Dental Technician Training Council of his eligibility for enrolment as a student on alternative grounds of equal educational standard.

A.6 Contracts to be Registered

A.6.1 All contracts and any alterations or variations thereto entered into between an employer and a dental technician cadet shall be approved by the Council.

A.6.2 Copies of all contracts and any alterations or variations thereto approved by the Council shall be lodged with the Secretary of the Council.

A.6.3 Before registration the Council shall satisfy itself that the document submitted is in accordance with the Act, this scheme, and any determination of conditions of employment in the industry.

A.6.4 Contracts shall be in the form annexed hereto as Appendix I.

A.7 Term of Cadetship

A.7.1 The term of cadetship shall be for 4 years from the date of commencing employment as a dental technician cadet unless otherwise determined by the Council in the special circumstances of a particular case.

A.8 Period of Probation

A.8.1 The period of probation shall be 3 months from the date of commencing employment as a dental technician cadet.

A.8.2 The employer shall be responsible for notifying the Council if the contract of cadetship is terminated by either party during the probationary period.

A.9 Termination of Contract

A.9.1 Other than by mutual consent of the parties, upon completion of the probationary period, a contract of dental technician cadetship shall be terminated during its term only with the consent of the Council and providing the Council is satisfied that such termination is in the best interests of both parties to the contract.

A.9.2 Where the employer of any dental technician cadet for any reason ceases to be engaged in the industry and the dental technician cadet is thereby deprived of the employment he was otherwise entitled to under his contract of dental technician cadetship, the Council may order payment to the cadet of an amount up to but not exceeding 3 months' wages in respect of any period intervening between the time when the dental technician cadet was deprived of his employment and the time when he obtains other employment as a dental technician cadet.

A.9.3 A contract of dental technician cadetship may be terminated by mutual consent at any time during its currency. The employer is to notify the Council in such cases.

A.10 Suspension and Discharge

A.10.1 Where a dental technician cadet so misconducts himself or proves himself so incapable that if he were an employee other than a dental technician cadet it would be reasonable for his employer to discharge him, the employer may immediately suspend him and apply to the Council for leave to discharge him.

A.10.2 Every such application shall be made to the Council within 5 working days after the dental technician cadet is suspended, and, subject to the decision of council, the employer may withhold any wages accruing due to the dental technician cadet during the period of suspension.

A.10.3 The Council shall consider the application, after giving the employer, the dental technician cadet, and his parent or guardian (if any), an opportunity to be heard, and may grant or refuse leave to discharge the dental technician cadet.

A.10.4 Where leave is granted the employer to discharge the cadet, such discharge shall be as from the date of his suspension and the contract of dental technician cadetship shall be deemed to be cancelled.

A.10.5 Where leave to discharge the dental technician cadet is refused by the Council, the Council may make such order as it thinks fit with respect to payment of wages to the dental technician cadet during the period of his suspension and if no such order is made the employer shall pay to the dental technician cadet all wages that would have been payable to him had he not been suspended.

A.11 Certificate of Service

A.11.1 Upon the termination of the contract for any reason, including its due completion, the employer shall issue a certificate of service to the cadet. The certificate shall be in a form approved by the Council, and there may be different kinds of forms of certificate according to the circumstances under which the contract is terminated.

A.12 Definition of Dental Technician Cadet

A.12.1 A dental technician cadet is a full time student who, during the term of his contract, is employed full time by the employer subject to the release for a minimum period of 8 weeks in each year to attend technical classes as approved by the Dental Technician Training Council.

A.12.2 The time spent by dental technician cadets in technical education, as provided in subclause 12.1 of this clause, shall be counted as ordinary hours of work and as time served.
