1975

This revised edition of Mrs Stewart's Book, which was first published in 1964, is a handy colourful guide to the 50 or more plants in New Zealand known or suspected to be toxic to man. The botanical name, a general description of the plant, the toxin, and the symptoms of poisoning are also given. Plants that are toxic, if eaten, and touch irritants are dealt with in separate sections.

A general instruction on what to do if poisoning occurs or is suspected is featured prominently at the beginning of the book for ready access in emergency.

SUGGESTIONS FOR TEACHING READING IN INFANT CLASSES

DEPARTMENT OF EDUCATION
Reprinted 1975

Teachers have long been asking for first reading books that are closely associated with New Zealand children's own experiences. The "Ready to Read" books were written to satisfy this need and when the stories were written teachers in more than 30 schools tried out the texts and made detailed reports on them. The book in its final form owes something to these reports.

The "Suggestions for Teaching" book is the teacher's handbook that introduces the "Ready to Read" series. With its straight forward, uncomplicated approach this handbook may give teachers renewed pleasure in their work.
