NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 1977

Statement of Accounting Policies

1. *General accounting policies:* The general accounting principles recognised as appropriate for the measurement and reporting of results and financial position under the historic cost method of accounting have been adopted.

2. *Recognition of income:* Income earned is recorded on an accrual basis. Interest on personal loans is calculated according to "rule of 78."

3. *Valuation of investments:* Investments are valued at cost.

4. *Fixed assets and depreciation:* Fixed assets are valued at cost less accumulated depreciation. Depreciation has been charged using the straight-line method based on the economic life of the assets. In previous years Inland Revenue Department's standard rates of depreciation have been used.

5. *Taxation:* Taxation provisions are assessed on accounting profits. Where this income is taxable in a future tax period the provision is shown as deferred taxation.

6. *Change in the basis of accounting:* There have been no changes in accounting policies other than the adoption of depreciation on a straight line basis. This has not materially affected the accounts.

REPORT OF THE AUDITORS

We report that we have audited the books and accounts of the Westland Savings Bank of the year ended 31 March 1977 and have obtained all the information and explanations we have required.

In our opinion the accompanying profit and loss account, balance sheet, and notes, presents fairly the financial position of the bank at 31 March 1977 and the results for the year ended on that date, determined in accordance with the historical cost basis of accounting explained in note 1.

AUDITORS' REPORT

We have examined the balance sheet of the South Canterbury Savings Bank as at 31 March 1977, and the related profit and loss account for the year then ended. Our examination was made in accordance with the general principles of auditing and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In accordance with an accounting policy of the Bank depreciation on fixed assets has been calculated to reduce cash asset to its estimated residual value by the end of its probable useful life. The rates used are those approved by the Commissioner of Inland Revenue. It is considered that the amount charged in the profit and loss account does not differ materially from that which would result from calculation depreciation on the straight line method.

We have obtained all the information and explanations that we have required and in our opinion, the accompanying balance sheet and the profit and loss account together with the statement of accounting policy and notes attached thereto present fairly the financial position of the South Canterbury Savings Bank at 31 March 1977, and the results of its operations for the year then ended.

Timaru, 23 May 1977.

HUBBARD, CHURCHER & CO., Chartered Accountants.

STATEMENT OF ACCOUNTING POLICY

1. *Accounting principles*—The accounts have been prepared in accordance with general accounting principles, consistent with previous years, based on historical cost, and there have been no changes to accounting policy during the year.

2. *Revenue recognition*—Interest received includes interest accrued to 31 March, 1977.

3. *Personal loans*—Advances by way of personal loans have been adjusted for interest yet to mature as shown in the balance sheet. The policy is to add interest to the full advance at the commencement of the loan. This amount is brought into revenue during the appropriate financial years by applying the "Rule of 78".

4. *Depreciation*—The fixed assets have been depreciated at ordinary depreciation rates as allowed by the Inland Revenue Department. All assets still in use are included in the Bank's books and it is calculated that the depreciation rates being used will write off the items over the period of their useful lives. In accordance with the Bank's established policy, no additional depreciation as provided for by the Inland Revenue Department as special exemptions on the purchase of plant have been claimed for taxation purposes.

5. *Investments*—New Zealand Government stock and local authority securities are shown at face value and are generally held until maturity. The redemption due on maturity in regard to stock purchased under par is shown as a reserve to be brought into account upon either maturity or sale of the stock concerned.

6. *Mortgages*—Mortgage applications approved, but for which the funds have not been uplifted at 31 March 1977, amount to \$512,730.

7. *Property*—The Bank owns premises in Timaru, Temuka, and Waimate, and leases premises in Ashburton, Geraldine, Tinwald, and Timaru. The leases have been negotiated to provide long-term tenancy options. Provision has been made in the accounts for future development of head office building in Timaru.

8. *Taxation*—The amount provided for income tax is the amount of the calculated tax liability in respect of the accounting profit shown for the year by the profit and loss account.

PLANTS IN NEW ZEALAND POISONOUS TO MAN

By Jose Stewart. Revised by H. E. Connor

39 p. 1975. \$2.25

This revised edition of Mrs Stewart's book, which was first published in 1964, is a handy colourful guide to the 50 or more plants in New Zealand known or suspected to be toxic to man. The plants are listed in alphabetical order by their common names and each entry has a colour photograph identifying the poisonous part of the plant. The botanical name, a general description of the plant, the toxin, and the symptoms of poisoning are also given. Plants that are toxic if eaten, and touch irritants are dealt with in separate sections. A general instruction on what to do if poisoning occurs or is suspected is featured prominently at the beginning of the book for ready access in emergency. The material in the booklet is useful, succinct, and attractively presented. Although it has wide appeal generally, it is particularly valuable to parents of the young and curious.

PLANTS OF SAMOA

By B. E. V. Parhurn (Botany Division)

Details are given on the frequency of poisoning, the toxins and the clinical signs that result when these plants are eaten or touched.

Invaluable for veterinarians, hospital casualty officers, botanists, farm advisers, farmers, and parents. Well illustrated. Includes glossary, references, and index.

POLICIES FOR REGIONAL DEVELOPMENT IN NEW ZEALAND

Edited by G. A. Town

124 p. \$3.50

In this book, the authors discuss the criteria which they feel should determine any sound policies in the field of regional planning and development. Although many different points of view are presented, there is unanimity that economic considerations alone should not dictate future policy. Essentially, it is for New Zealanders to consider all the relevant factors and decide what pattern of development they wish to see emerge. This book is intended as a constructive contribution to the public debate currently underway. Series No. 17. (New Zealand Institute of Public Administration.)

POPULATION AND MIGRATION 1974-75, PART A—POPULATION

Department of Statistics 1977
