ENGINEERS REGISTRATION BOARD OF NEW ZEALAND

LIST OF REGISTERED ENGINEERS AS AT 31 AUGUST 1977 AND EXPIRING 31 MARCH 1978

Explanation

The list is in two parts as follows:

Part A—Giving those registered by examination or by “recognised certificate” under one of the following subsections of the 1924 Act:
 6. (1) (a)—Registration by virtue of holding a “recognised certificate” in the form of a Diploma of Corporate Membership of an Institution recognised by the Board, and of having had not less than three years’ experience in the practice of engineering.
 6. (1) (c)—Registration by virtue of a pass in examinations approved by the Board (being the full corporate membership examinations of a recognised Institution or equivalent exempting examinations) and also of having had not less than three years’ experience in the practice of engineering.

Part B—Giving those registered under one of the following subsections, now expired, of the 1924 Act or amendments:
 Section 6. (i) (b) of the 1924 Act, which provided for registration during the first period of operation of the 1924 Act of a person who had then attained the age of 25 years and had been engaged during a period of not less than six years before the commencement of the Act in the acquisition of professional knowledge, or in the practice of engineering in a manner satisfactory to the Board, and who made application for registration within 12 months after the commencement of the Act.

Section 7 of the 1944 amendment which provided for the registration of engineers who, within the 12 years prior to the passing of the amendment, had had six years’ responsible engineering practice, or substantially equivalent experience, in local authority work, and who applied within six months of the passing of the amendment. Provision is made for special consideration to discharged servicemen who apply within six months of their discharge: Indicated by . in Column 3.

Particulars in the lists as entered under each column are as follows:

Column I—This contains the name of each engineer who at the date of the list is the holder of an Annual Practising Certificate issued under section 3 of the 1944 Amendment Act. An engineer who has been registered is required to hold a current Annual Practising Certificate in order to retain the full rights of registration. The qualifications, involving university degrees and recognised certificates or approved examinations, are taken from the person’s application for Practising Certificate and have not been verified or checked against the person’s registered particulars.

Column Z—This gives the postal address, either business or residential, as on the application for Annual Practising Certificate.

Column 3—This shows the date of original registration.

It is also to be noted that corporate membership of one of the recognised British Engineering Institutions entitles the holder to be styled as a “Chartered Engineer”, but this information is omitted from the list.

D. H. INCH, Registrar.
