Alexander Thomas WILSON, of Hamilton, geochemist, 1974-75.

His Excellency the Governor-General has announced the award of The Queen's Commendation for Brave Conduct to:

Sapper Laurence Gerald SALMON (D759946), 1st Field Squadron, Royal New Zealand Engineers.

During the period 3 to 7 October 1977 Sapper Salmon's unit was engaged on a bridge demolition task at the Waitotukupuna Stream. His particular task involved the gas cutting of the blast exposed reinforcing steel rods. As Sapper Salmon was completing this task the bridge quite unexpectedly started to collapse. This caused a sudden escape of gas from the high pressure oxy-acetylene equipment. Recognising the immediate risk of an explosion, and the danger to others, and with complete disregard for his own safety, Sapper Salmon ran across the moving structure and freed the bottles from the collapsing bridge. He then fell with the bridge into the stream approximately 20 feet below. Sapper Salmon's prompt and courageous action greatly reduced the danger to 15 other soldiers working nearby.

Dated at Auckland this 20th day of April 1978.

INDUSTRIAL TRAINING SERVICE—DEPARTMENT OF LABOUR

This book does not include conversion tables but rather relates to metric units and their use, comparisons of size and includes a wide range of metric information. How big is a litre? What is a kilopascal? When will I use a centimetre? What will I buy in kilograms? Why is New Zealand going metric? If these and similar questions are causing you concern this book will provide the answers.

MOA-HUNTER PERIOD OF MAORI CULTURE

ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1

436 p. 3rd edition, 1977. \$17.50
This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.

A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the gravels of the Wairau boulder bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition.

Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.
