Poultry Entitlement Levy—Determination of Nature and Incidence (Notice No. 1979 Ag. 20210)

PURSUANT to Regulation 75B of the Egg Marketing Authority Regulations 1953, as inserted by Regulation 15 of the Egg Marketing Authority Regulations 1953, Amendment No. 11, the Egg Marketing Authority, with the approval of the Minister of Agriculture, gives notice of the nature and incidence of the entitlement levy which it has determined, as follows:

Assessment of Levy—

- (a) From 1 July 1978 every entitlement holder shall pay to the Authority a variable entitlement levy in respect of each laying bird authorised to be kept pursuant to his or its entitlement licence. Such levy shall be payable for each "statistical period" that licensed distributors are authorised by the Authority, pursuant to Regulation 65 (2) of the Egg Marketing Authority Regulations 1953, to deduct levies on eggs ("floor downpayments") from the proceeds of eggs consigned to them for sale, and shall be paid in the manner and at the times set out below. The rate of variable entitlement levy for each "statistical period" shall be 20 times the rate of "floor downpayment" per dozen eggs for that period divided by 12. For this purpose "statistical period" means any one of 12 periods, each of either 4 or 5 weeks, into which each year is divided by the Authority for statistical and accounting purposes.
- (b) The manner of assessing levies payable set out in (a) above shall have continuing effect until any variation thereof shall have been determined and approved in the manner prescribed by Regulation 75B (2) provided that the total amount of variable entitlement levy imposed shall not exceed \$2 in relation to each bird authorised to be kept under an entitlement licence.

Payment of Levy—

- (c) Levies assessed and payable as above shall be debited in the books of the Authority to the accounts of the entitlement holders concerned. In the case of entitlement holders who are egg floor suppliers, payment shall be made by deduction from each such entitlement holder's account sales by the licensed egg distributors to whom the eggs are consigned for sale. Such amounts deducted shall be forwarded by those distributors to the authority at the same time as payment is made to the entitlement holder for eggs received. Any levy which is not received by the Authority by way of deduction from the account sales is to be paid by the entitlement holder direct to the Authority by the 20th of the month following the month levied. Where the entitlement holders do not supply any eggs to a licensed distributor payment is to be made direct by each such entitlement holder to the Authority by the 20th of the month following the month levied.
- (d) An entitlement levy charged to an entitlement holder shall be in lieu of, and replace, any levies payable to the Authority and authorised (pursuant to Regulations 65 (2) of the Egg Marketing Authority Regulations 1953) to be deducted from the proceeds of eggs consigned to a licensed distributor for sale.

AUDITORS' REPORT

We have examined the balance sheet of the South Canterbury Savings Bank as at 31 March 1978, and the related profit and loss account for the year then ended. Our examination was made in accordance with the general principles of auditing and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In accordance with an accounting policy of the Bank depreciation on fixed assets has been calculated to reduce each asset to its

estimated residual value by the end of its probable useful life. The rates used are those approved by the Commissioner of Inland Revenue. It is considered that the amount charged in the profit and loss account does not differ materially from that which would result from calculating depreciation had the straight line method been adopted.

We have obtained all the information and explanations that we have required and in our opinion, the accompanying balance sheet and the profit and loss account together with the statement of accounting policy and notes attached thereto present fairly the financial position of the South Canterbury Savings Bank at 31 March 1978, and the results of its operations for the year then ended.

SOUTH CANTERBURY SAVINGS BANK

NOTES TO THE ANNUAL ACCOUNTS 31 MARCH, 1978

Statement of Accounting Policy

1. *Accounting principles*—The accounts have been prepared in accordance with general accounting principles, consistent with previous years based on historical cost, and there have been no changes to accounting policy during the year except that full advantage of first year depreciation rates as allowed by the Inland Revenue Department have been taken in respect of the computer equipment purchased during the year.

2. *Revenue recognition*—Interest received includes interest accrued to 31 March 1978.

3. *Personal loans*—Advances by way of personal loans have been adjusted for interest yet to mature as shown in the balance sheet. The policy is to add interest to the full advance at the commencement of the loan. This amount is brought into revenue during the appropriate financial years by applying the "Rule of 78".

4. *Depreciation*—The fixed assets, other than the computer equipment, have been depreciated at ordinary depreciation rates as allowed by the Inland Revenue Department. Computer equipment has been depreciated at the first year rate of 25 percent of cost price. All assets still in use are included in the Bank's books and it is calculated that the depreciation rates being used will write off the items over the period of their useful lives. In accordance with the Bank's established policy, no additional depreciation is provided for by the Inland Revenue Department as special exceptions on the purchase of plant have been claimed for taxation purposes except in respect of the computer equipment as mentioned above.

5. *Investments*—New Zealand Government stock and local authority securities are shown at face value and are generally held until maturity. The redemption due on maturity in regard to stock purchased under par is shown as a reserve to be brought into account upon either maturity or sale of the stock concerned.

6. *Mortgages*—Mortgage applications approved but for which the funds have not been uplifted at 31 March 1978, amount to \$859,680.

7. *Property*—The Bank owns property in Timaru, Temuka, Fairlie, and Waimate, and leases premises in Ashburton, Geraldine, Tinwald, Fairlie, and Timaru. The leases have been negotiated to provide long-term tenancy options.

8. *Taxation*—The amount provided for income tax is the amount of the calculated tax liability in respect of the accounting profit shown for the year by the profit and loss account.

The accounting policies which the Bank considers appropriate for the measurement of its results and financial position under the historical cost convention are as follows:

A. Recognition of income—

Income shown in the Profit and Loss Account is earned in the current year. In the case of personal loans the policy is to add interest to the advance at the commencement of the loan, and to bring this interest into revenue during the appropriate financial years in accordance with the "Rule of 78".

B. Expenditure—

1. *Interest Credited to Depositors*—Interest on open accounts at the 31st March represents the interest paid for the year. Accounts which are credited with interest during the year have had an appropriate adjustment made for the interest accrued to 31 March.

2. *Other Expenses*—Other expenses, including expenditure on computer programme development, are charged to the accounts in the year in which the expenditure is incurred.

3. *Depreciation*—Fixed assets, other than freehold land, are generally depreciated on a straight line basis at rates estimated to write off the cost less residual value over the useful life of each class of asset. The principal annual rates in use are:

Buildings	1% to 2½%
Office Furniture and Equipment ..	10% to 15%

4. *Taxation*—Taxation charged against profits for the year is the estimated expense for the year. Tax allocation accounting has been adopted by the Bank for significant timing differences in respect of accrued investment income, depreciation, and capital profits and losses on Government stock purchases and sales.

C. Valuation of Assets—

1. *Current Assets and Investments*—All current assets and investments are shown at cost with the exception of New Zealand Government stock. On the basis that Government stock will normally be held to maturity, the Bank considers it appropriate to record such stock at face value. Differences between cost and face value are transferred to the reserve fund at the date of purchase.

NOTE 2

The Taxation provision for the year ended 31 March 1977 included a tax benefit of \$105,700 arising from switches to higher yielding Government stock, and as a result profit after taxation transferred to the Profit and Loss Appropriation Account was increased by this amount.

The capital loss on these transactions was charged to the Reserve Fund.

AUDITORS' REPORT

We report that we have examined the books and accounts of the Otago Savings Bank for the year ended 31 March 1978, and have received all the information and explanations we have required.

In our opinion, the accompanying Balance Sheet and Profit and Loss Account, together with the notes thereon, present fairly the financial position of the Bank at 31 March 1978, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO THE ACCOUNTS

1. *Statement of Accounting Policies*—The general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of results and financial position on an historical cost basis have been followed in the preparation of these financial statements.

The following particular accounting policies which significantly affect the measurement of the Bank's profit and financial position have been applied on a basis consistent with the previous year.

Depreciation—Depreciable fixed assets are depreciated on a straight line basis at rates estimated to write off the cost, less residual value, over the useful life of each class of asset. The principle rates in use are:

- Buildings 1% and 2½%
- Office equipment, fixtures and fittings 10% and 20%.
- Computer equipment 12½%.

2. *Investment Accounts, Term Deposits, and Housing Bonds*—The following are the terms on which investment has been made as at 31 March

	1977	1978
	\$	\$
Under and including 1 year	4,591,323	6,682,563
1–2 years	4,017,426	3,797,093
2–3 years	4,520,426	7,348,866
5 years	331,200	421,090
	<u>\$13,460,375</u>	<u>\$18,249,612</u>

3. *New Zealand Government Stock and Transferable Certificates of Deposits*—New Zealand Government Stock and Transferable Certificates of Deposit are recorded at par value less discount which is amortised over the term of the investment on a straight line basis. The cost price as at 31 March was as follows:

	1977	1978
	\$	\$
Transferable Certificates of Deposit	506,901	293,127
New Zealand Government Stock	19,850,573	19,433,017

New Zealand Government stock is held pursuant to the ratio requirements of the Trustee Savings Bank Act 1948, and subsequent amendments.

4. *Personal Loans*—Interest on loans is added to the principal sum at the date of the advance. The interest revenue is recognised on the basis of the "Rule of 78" method.

5. *Northern Trustee Computerbank Ltd.*—The ordinary share investment has been shown using the equity accounting basis:

	31/3/77	31/3/78
	\$	\$
100,000 ordinary shares paid to 80c	80,000	80,000

As this is an extraordinary item it has not been reflected as an operating gain in the profit and loss account.

AUDIT REPORT

We have examined the Balance Sheet of Taranaki Savings Bank as of 31 March 1978, and the related Profit and Loss Account for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying Balance Sheet and Profit and Loss Account present fairly the financial position of Taranaki Savings Bank at 31 March 1978, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles which have been applied on a basis consistent with that of the preceding year.
