Hon. J. RAE, President.
D. F. STEPHENS, General-Manger.

Auckland, 28 April 1978.

AUDITORS REPORT

We, the undersigned, being the auditors of the Auckland Savings Bank, appointed in terms of section 29 (3) of the Trustee Savings Banks Act 1948, report:

- (1) We have examined the books, accounts, and vouchers of the Bank and have received all the information and explanations we have required.
- (2) We have verified the cash, investments, securities, and assets of the Bank as at 31 March 1978.
- (3) The general-manager has certified that, to the best of his knowledge and belief, all requirements of the Trustee Savings Banks Act 1948, and regulations thereunder have been complied with.

(4) In our opinion, the above balance sheet and profit and loss account are properly drawn up so as to give respectively a true and fair view of the state of the Auckland Savings Bank's affairs as at 31 March 1978, and of the results of its business for the year ended on that date.

STATEMENT OF ACCOUNTING POLICIES

The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of profits on an historical basis have been followed. Particular accounting policies used which significantly affect the measurement of the Bank's profit and its financial position, are set out below:

- Depreciation**—Fixed assets are being depreciated on a straight line basis at rates which will write off the cost over their estimated useful lives to estimated residual values. The principal write off periods are:

| | |
|--|---------------|
| Buildings .. | 40-100 years. |
| Computer and office calculating equipment .. | 10 years. |
| Furniture and fittings .. | 10-15 years. |
| Other fixed assets .. | 3-15 years. |
- Personal loan interest**—Interest on personal loans is apportioned over the term of the loan, using the "Rule of 78" method.
- Taxation**—Taxation charged against net profit includes both current and deferred tax. Deferred taxation arises from timing differences related to:
 - Interest accrued on investments, and
 - Depreciation charges.
- Valuation of investments**—Investments are recorded at cost. Both New Zealand Government and Local Authority Securities are normally held to maturity and their value on redemption approximates cost.

PROVIDENT AND WELFARE FUNDS

During the year ended 31 March 1977, Staff Funds were separated from Bank investments and externally invested. Accordingly, no interest is payable by the Bank.

Notes to the Accounts

STATEMENT OF ACCOUNTING POLICY

1. *Accounting Principles*—The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of results on an historical cost basis, consistent with previous years, have been used in the preparation of the financial accounts.

2. *Depreciation*—Straight-line depreciation has been applied to the Bank's E.D.P. equipment, to write it off over the period of its expected useful life. All other assets have been depreciated at the rates as allowed by the Inland Revenue Department as it is considered that the differences between these, and a straight-line method, are not material.

3. *Government Stock*—It has been the Bank's policy to amortise discounts and premiums on Government Stock Securities over the term of the investment on a straight-line basis, and to show the value of the stock in the Balance Sheet at a cost price plus amortised discount to date. In accordance with this policy, the sum of \$7,271 has been credited to the Profit and Loss Account for this financial year. This amount relates to stocks purchased prior to 31 March 1975.

The cost price of stocks purchased since 1 April 1975 at a discount or premium is, following an Inland Revenue Department ruling, the price paid for the stock, with no deduction from interest receivable allowed for the interest content of the purchase. The Bank's policy is to make provision over the term of the stock for losses or gains on maturity, and accordingly, has credited \$701 to the Profit and Loss Account for the financial year.

The nominal value of the Bank's Government Stock holding is \$21,522,140.

4. *Local Authority Securities*—Securities with a nominal value of \$802,831, sold on a temporary switch basis during the 1977 financial year, were re-purchased during the current year.

5. *Personal Loans*—The Bank's policy is to add interest to the loan when advanced, and interest is brought into revenue on the basis of the "Rule of 78".

6. *Shares—Northern Trustee Computerbank Ltd.*—These shares have been treated using the standard accounting practice adopted by the New Zealand Society of Accountants for an associate company:

| | | | |
|--|----|----|-----------------|
| Shares issued to the Bank (\$1) | .. | .. | \$100,000 |
| Shares paid up by the Bank (100,000 @ 80 cents) | .. | .. | 80,000 |
| Plus share of accumulated profit of Northern Trustee Computerbank Ltd. | .. | .. | 7,848 |
| | | | <u>\$87,848</u> |
| Book value 31 March 1978 | .. | .. | <u>\$87,848</u> |

The Bank has a contingent liability for uncalled capital of 100,000 shares at 20 cents—\$20,000.

COMMITMENTS

7. *Mortgages*—Mortgages approved but not advanced as at 31 March 1978—\$2,005,639.

8. *Capital*—Expenditure committed to property as at 31 March 1978—\$8,621.

TAXATION

9. *Taxation Provision*—(a) The provision for income tax charged in the Profit and Loss Account is the calculated amount of tax liability in respect of the accounting profit, after appropriate adjustments required by the Inland Revenue Department.

(b) The provision for deferred taxation represents the tax liability on accrued interest or investments, included in income, but not received as at 31 March 1978.

AUDITOR'S CERTIFICATE

I report that I have examined the balance sheet of the Bay of Plenty Savings Bank as at 31 March 1978, and the related revenue account for the year ended on that date and have received all the information and explanations I have required. In my opinion the accompanying balance sheet and revenue account presents fairly the financial position of the Bank as at 31 March 1978, and the results of the operations for the year ended on that date, and were in general conformity with generally accepted accounting principles applied on the basis consistent with that of the preceding year.

NATIONAL MUSEUM MONOGRAPHS

Elsdon Best (1856-1931), who was a member of the staff of the then Dominion Museum from 1911 to 1931, made a notable contribution to the study of Maori ethnology. After a lifetime of experience, including many years in close contact with the Maoris of the Urewera, he spent the last 20 years of his life writing particularly of the social customs and beliefs of the Maori people. There is still a demand for the many monographs written by Elsdon Best and the following titles have been reprinted without alteration to the original text (National Museum):

GENERAL PUBLICATIONS

MAORI AGRICULTURE

By *Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 9

315 p. 1976. \$13.50

The only comprehensive study of Maori agriculture available, this bulletin adds a further volume to the series of Elsdon Best's works which the Government Printer undertook to reprint preserving the original text and bulletin numbers. I recommend this book and the series as a whole; to collectors, archaeologists, and to those studying the prehistoric economy of the Maori people. (Government Printer.)

THE MAORI AS HE WAS

By *Elsdon Best*

295 p. 1974 reprint. \$6.50

Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

THE MAORI CANOE

By *Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 7

451 p. 1976. \$17.50

A reprinted edition without textual alterations and retaining the old Dominion Museum number. Another example of Elsdon Best's dedicated effort to preserve Maori culture. The material presented on canoes, their materials, types, methods of construction, and associated artifacts make interesting reading for the layman as well as for scholars of the Maori. (Government Printer.)

MAORI RELIGION AND MYTHOLOGY PART 1

By *Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 10

424 p. 1976. \$18

An account of the theory of the universe and its creation, study of the origin of man, religious beliefs, rites, magic, and folklore of the Maori people of New Zealand. First published in 1924, reprinted without textual alteration and retaining the original bulletin numbers. (Government Printer.)

MAORI STOREHOUSES AND KINDRED STRUCTURES

By *Elsdon Best*

116 p., illustrated. 1974 reprint. \$6.50

As an authority on Maori culture, the author has compiled in this publication a comprehensive record on the use of the different storage structures, etc., used by the Maori in former times. By studying items pertaining to Maori technology it is hoped this will throw light upon many phases of the social life and customs hitherto unknown. This bulletin is No. 5 in the Dominion Museum Series.

MATERIALS FOR THE NEW ZEALAND POTTER

by *J. C. Schofield* (N.Z. Geological Survey)

D.S.I.R. INFORMATION SERIES No. 118

1977. \$3.75

Describes the sources of clays in the local countryside and how to understand their suitability for ceramic purposes. Summarises the minimum geological knowledge necessary and the use of geological maps. Examines the main types of clay minerals and their properties, the types of clays available in New Zealand and the available natural glazes, frits, and oxides. Contains an index and references.

Well illustrated with photographs, maps, diagrams, and tables.

M.E.C. REPORT No. 33—INFLATION

70 p. December 1977. \$1

Report on the causes, effects, and the control of inflation in New Zealand. (Monetary and Economic Council.)

METRICS FOR JOHN AND JANE CITIZEN

By *James McGill Webb*

INDUSTRIAL TRAINING SERVICE—DEPARTMENT OF LABOUR

48 p. 50c

As the name implies this book is written for use by the layman rather than the technician, the engineer, or the scientist. This book does not include conversion tables but rather relates to metric units and their use, comparisons of size and includes a wide range of metric information. How big is a litre? What is a kilopascal? When will I use a centimetre? What will I buy in kilograms? Why is New Zealand going metric? If these and similar questions are causing you concern this book will provide the answers.

MICROZONING FOR EARTHQUAKES EFFECTS IN WELLINGTON, NEW ZEALAND

By *T. L. Grant-Taylor, R. D. Adams, T. Hatherton, J. D. G. Milne, R. D. Northey, and W. R. Stephenson* of the New Zealand Department of Scientific and Industrial Research

BULLETIN 213

61 p. \$8.50

This report on earthquake microzoning is aimed at dividing extensive areas of Wellington into smaller zones and is intended as a guide only to planning of future redevelopment. The detailed studies of local geology and soil investigations have resulted in an Earthquake Microzone Map of Wellington. This map accompanies this publication. This report is the first one of a series. Later it is the intention to microzone other areas in the same way.

MOA-HUNTER PERIOD OF MAORI CULTURE

ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1

436 p. 3rd edition, 1977. \$17.50

This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.

A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the gravels of the Wairau boulder bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition.

Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.

NATIONAL INCOME AND EXPENDITURE 1974—75

22 p. 1976. \$1

The national accounts record the value of goods and services produced by a community in a particular period and the way in which these are used. Within the accounts the flows of production and disposal of goods and incomes are analysed in ways to provide information on the inter-relationship between industrial and institutional sections of an economy and between an economy and the rest of the world.
