FIRST SCHEDULE

SOUTH AUCKLAND LAND DISTRICT

(Description of Easement)

THE full and free right, liberty, licence, and authority in perpetuity for Her Majesty the Queen (hereinafter called "the grantee") her engineers, officers, agents, and workmen to do and carry out the following on the land described in the Second Schedule hereto:

1. To enter on the said land, to go, pass, and repass, with or without machinery or vehicles over and along the said land.

2. To delegate to the Waikato Valley Authority or to the local council as defined by the Waikato Valley Authority Act 1956, the rights and powers conferred by this grant.

3. To construct a water course or water courses of such dimensions as the grantee shall determine, and from time to time alter or reconstruct the same, and to clean or otherwise maintain the same in a state of efficiency.

4. To construct a stopbank or stopbanks or other defence against water of such dimensions as the grantee shall determine, and from time to time to alter or reconstruct the same, and do all things which are necessary to maintain the same in a state of efficiency.

5. To plant, sow, and maintain trees, shrubs, plants, or grasses on the said land and to regulate or prohibit interference with or the destruction thereof.

6. To fence the boundaries of the said land to the extent the grantee shall determine, the cost of maintenance and repair of such fencing to be borne equally by the grantee and the owner.

7. To prevent or regulate the pumping or releasing of water into any water course on the said land or the overflow of artesian water.

8. To regulate the use of any constructed water course on the said land.

9. To prescribe conditions on which other constructed water courses may be connected or continue to be connected with any constructed water course on the said land.

10. To regulate the construction and maintenance of crossings over water courses on the said land.

11. To prohibit the passing over any water courses on the said land except at appointed crossings.

12. To prevent any water course on the said land from being made wider or deeper than it is at the time, whether by cleaning or otherwise; or to prevent the course thereof from being altered without the consent of the grantee.

13. To prohibit or regulate access to or the passing over or along any bank, dam, or other defence against water, or other work of any kind whatsoever constructed or maintained by, or under the control of, the grantee on the said land.

14. To prohibit the planting of willows or other trees on the said land.

15. To prohibit or regulate the erection of any structures or fences on the said land.

16. To prohibit or regulate the use of the said land by the owner and to require the owner to use the said land solely for the growing of grasses, and at all times to comply with the directions of the grantee in respect of the grazing of animals on the said land as if a notice to control such grazing had been given under section 35 of the Soil Conservation and Rivers Control Amendment Act 1959, so that the said land shall be maintained and kept in such manner that any stopbank or other defence against water or any water course is maintained in a state of efficiency.

17. To prohibit the cultivation of the said land by the owner, any renewal of pasture to be the responsibility of the grantee except that the cost of such renewal shall be borne by the owner where such renewal is a result of wilful damage or the failure of the owner to conform to prudent land use practice, being practice which has proper regard to timing and circumstances and is likely to prevent soil erosion, and likely to promote soil conservation, the avoidance of deposits in water courses, and the control of floods.

18. To prohibit the lighting of fires on the said land except under such circumstances and subject to such limitations, conditions, and restrictions as may be prescribed by the grantee.

19. Generally to require the doing on or in respect of the said land of any act or thing which may be likely to prevent or mitigate soil erosion or promote soil conservation or the control of floods, and to prohibit the doing on or in respect of the said land of any act or thing which may be likely to facilitate soil erosion or floods.

Trading Bank Reserve Asset Ratios

PURSUANT to section 33 of the Reserve Bank of New Zealand Act 1964, the Reserve Bank, acting with the approval of the Minister of Finance, hereby gives notice that as from the close of business on 1 September 1978, and until further notice, each trading bank shall maintain, during each calendar month, balances at the Reserve Bank plus holdings of Reserve Bank notes, and of New Zealand Government securities, such that the aggregate of the averages of those balances and holdings during that calendar month (determined in accordance with clauses 1, 2, 3, and 4 of this notice) equals or exceeds the aggregate of:

- 43 percent of that trading bank's average demand deposit liabilities in New Zealand in the immediately preceding calendar month (determined in accordance with the provisions of clause 5 of this notice); plus
- 15 percent of that trading bank's average time deposit liabilities in New Zealand in the immediately preceding calendar month (determined in accordance with the provisions of clause 5 of this notice);

Provided that a trading bank may make up its balances and holdings as aforesaid for a calendar month to the amount hereinbefore required for that calendar month by way of borrowings from the Reserve Bank made during that calendar month or during the first 10 business days of the next following calendar month, and on terms and conditions to be determined by the Reserve Bank, and the proceeds of all such borrowings shall be credited to the account of that trading bank with the Reserve Bank.

For the purposes of this notice:

- (1) Balances held by a trading bank at the Reserve Bank shall (subject to clause 6 of this notice) include both demand deposit balances and time deposit balances of that trading bank.
- (2) The average of a trading bank's holdings of Reserve Bank notes for a calendar month shall be the average of the figures shown in all weekly returns of Banking Statistics by that trading bank under the Statistics Act 1975 received during that calendar month.
- (3) The average of a trading bank's balances at the Reserve Bank and holdings of New Zealand Government securities for a calendar month shall in each case be the average of the figures for balances and such securities held by that trading bank on each day during that calendar month.
- (4) Government securities held by a trading bank shall consist of Government stock and Treasury bills (all at nominal value) held by that trading bank, and shall include advance subscriptions for stock lodged by that trading bank with the Reserve Bank.

(5) The average demand deposit liabilities and the average time deposit liabilities of a trading bank in a calendar month shall, in each case, be the average of the figures for days within that calendar month, as shown in that trading bank's weekly returns of Banking Statistics under the Statistics Act 1975.

(6) The proceeds of any borrowings made by a trading bank pursuant to the proviso to this notice shall:

(a) in the case of a borrowing made during a calendar month to make up balances and holdings for that calendar month, be included in the balances held by that trading bank at the Reserve Bank during the calendar month for which that borrowing is made; and

(b) that in the case of a borrowing made during the first 10 business days of a calendar month to make up balances and holdings for the preceding calendar month, be deemed to be a part of, and be included in the balance held by that trading bank at the Reserve Bank on the last day of the preceding calendar month;

AND the proceeds of any such borrowing shall not be included in the balances held by that trading bank at the Reserve Bank during any other calendar month.

R. W. R. WHITE, Governor.

GENERAL PUBLICATIONS

CROWN COLONY GOVERNMENT IN NEW ZEALAND

By A. H. McLintock

475 p., illustrated. 1958. \$4.50

This book, which deals with a little known and understood period of New Zealand history, comprises three distinct sections, first, the Coming of Sovereignty; secondly, Men and Government; and thirdly, the Evolution of a Constitution. While this book will be of special interest to New Zealanders it will command a wider audience since it contains much that is new with respect to British colonial policy in the first half of the nineteenth century.

A DICTIONARY OF THE MAORI LANGUAGE

By H. W. Williams

\$7.50

The seventh revised edition, augmented by the advisory committee on the teaching of the Maori language.

DISEASES OF TREE FRUITS IN NEW ZEALAND

By J. D. Atkinson (Plant Diseases Division)

INFORMATION SERIES No. 81

406 p., 183 illustrations. \$7.50

A summary of current knowledge, including a considerable amount of previously unrecorded information. It is written primarily for advisory officers, students, and growers, and no attempt has been made to give full descriptions of the bacteria, fungi, and viruses.

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975.

\$2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention.

Education is seen as a lifelong activity, and emphasis is therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, at for instance, school committee and district level.

DOMESTIC PURPOSES BENEFIT REVIEW COMMITTEE REPORT

Report E. 28

Chairman J. R. P. Horn, 1977

54 p.

70c

Contains six chapters and a summary of recommendations of the committee, presented to the House of Representatives. Reports on any changes in Social Security legislation, policy or procedure which appear to be desirable and any related matter which is considered relevant.

ECONOMICS OF THE NEW ZEALAND MAORI

By Raymond Firth

519 p. 1972.

\$8.75

The Maori people are honourably known far outside the confines of their New Zealand home. Acknowledged to be one of the finest of the native races within the British Commonwealth they have long been celebrated for their splendid physical appearance, their proud bearing, their aristocratic spirit, their fluent oratory, and above all for their prowess in war. This book contains an account of the social and economic organisation of the Maori people before the organisation was transformed by contact with Western civilisation. It is a major scientific contribution to economic anthropology and has now become a standard work.

EDUCATIONAL PLANNING IN NEW ZEALAND

432 p. 1974.

\$7.50

This book contains the papers presented at a seminar on educational planning held at Victoria University of Wellington from 14 to 19 May 1972. This seminar was intended to lay the foundation for later seminars which would probe education problems in depth. Three main themes were chosen for the seminar, "Educational planning in its relation to national economic planning", "Planning the structure and content of education", and "Information and techniques for educational planning". Edited by W. L. Renwick and L. J. Ingham, this book will interest a wide range of people.

THE EFFECTS OF RACE AND SOCIO-ECONOMIC STATUS ON JUVENILE OFFENDING STATISTICS

31 p. 1975.

\$1

This report examines the extent to which the difference in European and non-European offending rates reflects variations in the socio-economic distributions of the two populations. The results indicate that, while a substantial proportion of the difference in offending rates for the two racial groups can be attributed to socio-economic factors, the larger part of this difference cannot be accounted for in this way. Both the theoretical and the practical implications of this finding are discussed. (Research Unit, Joint Committee on Young Offenders.)

EFFECTIVE DISCUSSION

52 p.

60c

Although originally written for staff training purposes in the Public Service, this booklet became popular with outside organisations as a guide to the conduct of meetings. It describes planning and organising both large and small group discussions and contains many useful hints which will help the discussion leader to get the best out of his group, whether he is an old hand or a novice at leading discussion. Also included are lists of books for further reading and recommended films. (State Services Commission.)

EGMONT NATIONAL PARK

National Park Handbook

85 p. Illustrated, with maps. 1976, 3rd edition. \$2

This handbook seeks to heighten the enjoyment of visitors to the park by providing a greater knowledge and appreciation of the wealth of natural resources, scenic grandeur, and distinctive vegetation, found in this park.

New chapters include mountaineering, ski-ing, high climbing, ornithology, climatology and Maori history.

ELECTRICAL THEORY AND PRACTICENEW ZEALAND TECHNICAL CORRESPONDENCE INSTITUTE 1977.
260 p. 1977. Over 350 illustrations. \$14

Another first-class text produced by the Technical Correspondence Institute. This textbook covers trade science, materials, appliances, instruments, installation methods, and electrical wiring regulations which are concisely treated in a clear and simple manner.

Covers the syllabus for the electrical registration examinations, the International System of Units, S.I., has been used throughout.

Essential for students and will be popular with others working in the electrical trade or concerned with the technical education of electrical tradesmen.

ENGINEERING PUBLICATIONS

Now available through Government bookshops are the following engineering publications that will be of interest to all civil engineers and those associated with engineering. These publications, prepared by the Civil Engineering Division of the Ministry of Works and Development, supply such information as: stress, load bearing, design, and examples of the various equations.

ENERGY AND THE ENVIRONMENT*Edited by D. M. Adcock*

156 p. 1974. \$4.50

This book is intended as a valuable summary of energy technology and its associated problems. The authors discuss different aspects of the economic, social and environmental consequences of unrestrained growth in electricity and total energy consumption. Power construction schemes are likely to have considerable environmental impact at a time of increasing awareness of the need for environmental conservation. Series No. 19. (N.Z. Institute of Public Administration.)

EUTROPHICATION OF LAKE ROTORUA

By E. White, D.S.I.R. Information Series No. 123, 1977

16 p. 80c

Discusses the effects of different types of land and water use on the lake, and past and current research associated with the lake. Recommends methods of restoration and necessary future research. This bulletin from the Freshwater Section of the Ecology Section of the D.S.I.R. provides an overall picture of eutrophication in Lake Rotorua.

EVALUATION OF THE NEW ZEALAND COMPULSORY SEAT BELT LEGISLATION

TRANSPORT REPORT No. 17

1976. \$1

This is one in a series of reports which present the results of investigations conducted by, or for, the Ministry of Transport.

The reports are intended to provide information of interest both to others carrying out similar research and to those whose interest is the practical application of research findings. (Ministry of Transport.)

EX-NUPTIAL CHILDREN AND THEIR PARENTS

RESEARCH MONOGRAPH No. 2

473 p. 1976. \$9.75

This report was intended to provide basic data which up till now has been lacking. The survey gives fundamental demographic information on the characteristics of illegitimate children and their parents and examines in detail the placement of illegitimate children in New Zealand. The publication also aims to place information about the incidence of illegitimacy in New Zealand within an international context. Of particular interest to sociologists, economists, researchers and social workers. (Social Welfare Department.)

The first monograph of this series, entitled Child Abuse in New Zealand is also available from the Government Printer.

Price \$4.50

FISHING METHODS AND DEVICES OF THE MAORI*by Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 12

264 p. 1978. \$15.95

This bulletin is another in the series of the Best publications and has been reprinted without revision so that the basic studies may be accessible in the original style;

This particular bulletin still remains the only comprehensive account of most aspects of Maori fishing. The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made. The detailed fishing methods outlined in this bulletin are accompanied by descriptions of the artifacts used, together with associated chants, magic formulae, special observances and fishing lore.

NUCLEAR POWER GENERATION IN NEW ZEALAND

H. 4. 1978

*Report of the Royal Commission of Inquiry.
Sir Thaddeus McCarthy—Chairman*

Part I contains an explanatory introduction to the inquiry and an "overview" which is a general discussion of the whole energy scene and a summary about the case for nuclear power in New Zealand now and in the future.

Part II seeks to gather in much more detail the information gained on the whole energy question both in New Zealand and overseas about the present state of and probable development in nuclear physics and engineering, and their expected employment in the future.

Part III takes up the proposals of the New Zealand Electricity Department relating to the introduction of a nuclear power programme.

Part IV discusses at length the consequences for New Zealand of adopting a nuclear programme.
