GENERAL PUBLICATIONS

MOA-HUNTER PERIOD OF MAORI CULTURE

ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1

436 p. Third edition. 1977. \$17.50

This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.

A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the gravels of the Wairau boulder bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition.

Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.
