Poultry Entitlement Levy—Determination of Nature and Incidence (Notice No. 2163, Ag. 20210)

PURSUANT to regulation 75B of the Egg Marketing Authority Regulations 1953, as inserted by regulation 15 of the Egg Marketing Authority Regulations 1953, Amendment No. 15, the Egg Marketing Authority, with the approval of the Minister of Agriculture, gives notice of the nature and incidence of the entitlement levy which it has determined, as follows:

Assessment of Levy—

- (a) From 1 July 1978 every entitlement holder shall pay to the Authority a variable entitlement levy in respect of each laying bird authorised to be kept pursuant to his or its entitlement licence. Such levy shall be payable for each "statistical period" that licensed distributors are authorised by the Authority, pursuant to regulation 65 (2) of the Egg Marketing Authority Regulations 1953, to deduct levies on eggs ("floor downpayments") from the proceeds of eggs consigned to them for sale, and shall be paid in the manner and at the times set out below. The rate of variable entitlement levy for each "statistical period" shall be 20 times the rate of "floor downpayment" per dozen eggs for that period divided by 12. For this purpose "statistical period" means any one of 12 periods, each of either 4 or 5 weeks, into which each year is divided by the Authority for statistical and accounting purposes.
- (b) The manner of assessing levies payable set out in (a) above shall have continuing effect until any variation thereof shall have been determined and approved in the manner prescribed by regulation 75B (2) provided that the total amount of variable entitlement levy imposed shall not exceed \$3.50 in relation to each bird authorised to be kept under an entitlement licence.

Payment of Levy—

- (c) Levies assessed and payable as above shall be debited in the books of the Authority to the accounts of the entitlement holders concerned. In the case of entitlement holders who are egg floor suppliers, payment shall be made by deduction from each such entitlement holder's account sales by the licensed egg distributors to whom the eggs are consigned for sale. Such amounts deducted shall be forwarded by those distributors to the Authority at the same time as payment is made to the entitlement holder for eggs received. Any levy which is not received by the Authority by way of deduction from the account sales is to be paid by the entitlement holder direct to the Authority by the 20th of the month following the month levied. Where the entitlement holders do not supply any eggs to a licensed distributor payment is to be made direct by each such entitlement holder to the Authority by the 20th of the month following the month levied.
- (d) An entitlement levy charged to an entitlement holder shall be in lieu of, and replace, any levies payable to the Authority and authorised (pursuant to regulations 65 (2) of the Egg Marketing Authority Regulations 1953) to be deducted from the proceeds of eggs consigned to a licensed distributor for sale.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 1979

Statement of Accounting Policies:

1. *General Accounting Policies*—The general accounting principles recognised as appropriate for the measurement and reporting of results and financial position under the historic cost method of accounting have been adopted on a basis consistent with the previous year.

2. *Recognition of Income*—Income earned is recorded on an accrual basis. Interest on personal loans is calculated according to "rule of 78."

3. *Valuation of Investments*—Investments are valued at cost. Both New Zealand Government and Local Authority Securities are normally held to maturity and their value on redemption approximates cost.

4. *Fixed Assets and Depreciation*—Fixed assets are valued at cost less accumulated depreciation. Depreciation has been charged using the straight-line method based on the economic life of the assets.

5. *Taxation*—Taxation provisions are assessed on accounting profits. Where income is taxable in a future tax period the provision is shown as deferred taxation.

REPORT OF THE AUDITORS

GENERAL PUBLICATIONS

ART IN SCHOOLS—The New Zealand Experience

DEPARTMENT OF EDUCATION

Illustrated, coloured and black and white plates.

320 p. 1978 \$14.25

The books sets out to show that art is a useful part of education, that art can join in with other subjects, or can stand on its own, and that it can draw in all sorts of people—children, teachers with or without specialist training, and parents.

Outlines the programmes, projects and many different activities that have been carried out in various schools throughout New Zealand. Projects have been selected which best illustrate the topic under discussion; in no way do they represent the full range of art education, nor the finest work being done.

ADMINISTRATION IN NEW ZEALAND'S MULTI-RACIAL SOCIETY

Edited by R. H. Brookes and I. H. Kawharu

138 p. \$2
Race is a word which nowadays arouses strong feelings. In New Zealand there is little opposition in principle to the Government's policy of integration, but its success depends on the skill with which it is implemented.

Series No. 13. (New Zealand Institute of Public Administration.)

AGRICULTURAL STATISTICS 1975-76 (Incorporating 1973-74 and 1974-75)

DEPARTMENT OF STATISTICS

125 p. 1978
Summarises the results of three annual censuses of all farm holdings.

The report contains three main parts—

- The introductory providing historical comparisons and general comments;
- The tables derived from the annual censuses; and
- Related farm statistics, republished for the convenience of users. These are obtained from sources other than that of the farming questionnaire. Livestock statistics are derived from a separate survey conducted at 31 January, following the census.

BALLROOM DANCING—A guide book for teachers and pupils

DEPARTMENT OF EDUCATION

89 p. 1978 \$3
Almost all people as they move through their teens to adulthood are introduced to the undoubtedly pleasurable and universal activity, ballroom dancing.

As a new edition to the sports instruction series this book makes an effort to cover the basic steps in a variety of dances. It is intended mainly for beginners and therefore the more technical terms or finer amounts of turn and footwork are not included.

The book is well illustrated throughout with black and white photos and line drawings.

BETWEEN GOVERNMENTS AND BANKS

By Dr Hawke

244 p. \$7.50

The Reserve Bank of New Zealand was established in 1933-34 but today's institution bears little resemblance to the one that was originally constructed by the 1933 legislation. The author, with a combination of historical and economic skill, covers the story and makes an assessment of the Bank's performance to date. A valuable contribution to New Zealand's historical record.

NATIONAL MUSEUM MONOGRAPH No. 7

By Herbert W. Williams

222 p. 1975. \$4.25

A short review has been made of the Maori literature dealt with and an endeavour has been made to trace the history of the various mission and other private presses concerned. Any work, however small, printed wholly in Maori, or in Maori with a translation has been included; so also has any work dealing wholly with the Maori language—such as a dictionary.

CHILD ABUSE IN NEW ZEALAND

342 p. \$4.50

CHALLENGE FOR HEALTHBy *F. S. Maclean, B.A., M.D.(CAM.), D.P.H.(N.Z.)*

470 p. photo plates. \$2

In the interesting book the author described the history of public health in New Zealand. Included is an account of the 1900 world pandemic of bubonic plague and its effects in New Zealand. After this epidemic the Department of Public Health was set up, and took independence from local authorities in the matters of public health. This book tells also of the improvements in sanitary conditions throughout the country and the attempts to improve the health of the Maori people.

THE CHANGING VEGETATION OF MOLESWORTH STATION NEW ZEALAND 1944-1971

NEW ZEALAND DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH, BULLETIN 217

118 p. 1976. \$4.50

Totalling 700 square miles, the broad expanse of high altitude Crown land known as Molesworth Station is the largest single farm unit in New Zealand. In 1938, after 70 years of leasehold farming the Molesworth and Tairādale runs reverted to the Crown in a badly depleted state. This is an account of the recovering of the land at Molesworth for productive farming and should prove very interesting and informative to all high country farmers.

CONSERVING NEW ZEALAND'S HERITAGEBy *P. H. C. Lucas*

94 p. 1970. \$1.40

In 1969 Mr Lucas went on a study tour of national parks and allied areas in Canada and the United States. On his return to New Zealand he wrote this report as a suggested guideline for national parks and reserves administrators. Many of the problems experienced by older countries could be avoided by a careful study of their mistakes and with this in mind Mr Lucas has concluded each section with a summary of lessons for New Zealand. Not only of interest to the general public but also to park administrators and planners, tourist promoters, historians, and archaeologists.

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975. \$2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention.

Education is seen as a lifelong activity, and emphasis is therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, at for instance, school committee and district level.

ECONOMICS OF THE NEW ZEALAND MAORIBy *Raymond Firth*

519 p. 1972. \$8.75

This book contains an account of the social and economic organisation of the Maori people before the organisation was transformed by contact with Western civilisation. It is a major scientific contribution to economic anthropology and has now become a standard work.

THE EFFECTS OF RACE AND SOCIO-ECONOMIC STATUS ON JUVENILE OFFENDING STATISTICS

31 p. 1975. \$1
 This report examines the extent to which the difference in European and non-European offending rates reflects variations in the socio-economic distributions of the two populations. The results indicate that, while a substantial proportion of the difference in offending rates for the two racial groups can be attributed to socio-economic factors, the larger part of this difference cannot be accounted for in this way. Both the theoretical and the practical implications of this finding are discussed. (Research Unit, Joint Committee on Young Offenders.)
