telegraphic transfer. The following range of rates, for the main currencies used by New Zealand traders in settling foreign exchange transactions, will remain in force until replaced by a new schedule issued by the Reserve Bank. THE MAORI AS HE WAS*By Elsdon Best*

295 p. Reprint. 1974. \$6.50

Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

(Government Printer.)

MAORI RELIGION AND MYTHOLOGY PART 1*By Elsdon Best*

NATIONAL MUSEUM MONOGRAPHS

Eldson Best (1856-1931), who was a member of the staff of the then Dominion Museum from 1911 to 1931, made a notable contribution to the study of Maori ethnology. After a lifetime of experience, including many years in close contact with the Maoris of the Urewera, he spent the last 20 years of his life writing particularly of the social customs and beliefs of the Maori people. There is still a demand for the many monographs written by Eldson Best and the following titles have been reprinted without alteration to the original text (National Museum):

MOA-HUNTER PERIOD OF MAORI CULTURE

ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1

436 p. Third edition. 1977. \$17.50
This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.

A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the gravels of the Wairau boulder bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition.

Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.
