(b) To recommend lines of development considered desirable, and the nature and extent of assistance, if any, by way of protective devices or otherwise it considers appropriate for this industry, having regard to New Zealand's interest in developing her marine resources, especially fishing, within the 200-mile Exclusive Economic Zone, and any national strategic interest.

2. The reference covers the manufacture and repair of warships of all kinds, tankers of all kinds, other vessels for the transport of goods, including vessels for the transport of both passengers and goods; trawlers and other fishing vessels including factory and other ships used in activities directly connected with fishing operations; barges both dumb and powered; vessels designed for towing or pushing other vessels; light vessels, fire floats, dredges of all kinds, floating cranes and other vessels, the navigability of which is subsidiary to their main function; floating docks, floating or submersible drilling or production platforms and other floating structures such as coffer dams, landing stages, buoys and beacons.

Each chapter has a quotation from a Maori proverb, phrase, saying, or canoe chant and these concepts are presented in words and pictures.

Continues with the arrival of the pakeha and the pattern of events which followed, the Treaty of Waitangi and the Land Wars. Moves on to the Maori today, finishing with the theme, one country, two heritages in unity.

Well illustrated with 64 coloured photos, of interest to all New Zealanders and tourists. (Tourist and Publicity Department).

**THE MAORI AS HE WAS**

By Elsdon Best

295 p. Reprint. 1974. \$6.50

Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

**MAORI AGRICULTURE**

By Elsdon Best

NATIONAL MUSEUM BULLETIN No. 9

315 p. 1976. \$13.50

The only comprehensive study of Maori agriculture available, this bulletin adds a further volume to the series of Elsdon Best's works which the Government Printer undertook to reprint preserving the original text and bulletin numbers. I recommend this book and the series as a whole; to collectors, archaeologists, and to those studying the prehistoric economy of the Maori people. (Government Printer.)

**THE MAORI CANOE**

By Elsdon Best

NATIONAL MUSEUM BULLETIN No. 7

451 p. 1976. \$17.50

A reprinted edition without textual alterations and retaining the old Dominion Museum number. Another example of Elsdon Best's dedicated effort to preserve Maori culture. The material presented on canoes, their materials, types, methods of construction, and associated artifacts make interesting reading for the layman as well as for scholars of the Maori. (Government Printer.)
