*Kaipara Harbour, Waters, Foreshore and Harbour Bed Control Order 1980*

KEITH HOLYOAKE, Governor-General  
ORDER IN COUNCIL

At the Government House at Wellington this 30th day of June 1980

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL

PURSUANT to sections 8A and 165 of the Harbours Act 1950, His Excellency the Governor-General, acting by and with the advice and consent of the Executive Council, and on the joint request of the Helensville Borough Council, Rodney County Council, Dargaville Borough Council, Hobson County Council, and Otamatea County Council, hereby makes the following order.

ORDER

1. (a) This order may be cited as the Kaipara Harbour, Waters, Foreshore and Harbour Bed Control Order 1980.

(b) This order shall come into force on the date of its publication in the *Gazette*.

2. In this order:

"The Act" means the Harbours Act 1950; "The Councils" means the Helensville Borough Council, Rodney County Council, Dargaville Borough Council, Hobson County Council and Otamatea County Council either individually or collectively.

"Foreshore and harbour bed of Kaipara Harbour" means that area of foreshore and bed of Kaipara Harbour as described in the First Schedule to this order;

"Minister" means the Minister of Transport; and includes any officer, person or authority acting by or under the direction of the Minister;

"Kaipara Harbour" means all that area of water as defined in the Second Schedule to this order;

"Kaipara Harbour Authority" or "Authority" means the representatives of the councils as constituted by paragraph 1 of the Third Schedule to this order for the purposes of carrying out the powers and duties granted under this order.

3. There is hereby granted to the authority for a period of 21 years from the commencement of this order, subject to the provisions of sections 8A and 165 of the Act and to the conditions specified in the Third Schedule to this order—

(a) Control of the foreshore and harbour bed of Kaipara Harbour as described in the First Schedule to this order.

(b) Control of the waters as specified in the Second Schedule to this order.

4. The Order in Council dated 29 January 1968\* granting control of part of the foreshore and waters described in the First Schedule to that order to the Otamatea County Council, is hereby revoked, and also so much of the Order in Council dated 6 November 1975† granting control of part of the foreshore and waters included in the Kaipara Harbour, as described in the First Schedule to that order to the Rodney County Council is also hereby revoked.

FIRST SCHEDULE

ALL that area of foreshore and harbour bed of Kaipara Harbour enclosed by the seaward arc of a circle of 10 nautical miles radius from the Poutu Point lighthouse, as more particularly shown on plan M.D. 15989, and deposited in the office of the Secretary for Transport at Wellington.

SECOND SCHEDULE

ALL the tidal waters of Kaipara Harbour enclosed by the seaward arc of a circle of 10 nautical miles radius from Poutu Point lighthouse, as more particularly shown on plan M.D. 15989, and deposited in the office of the Secretary for Transport at Wellington.

THIRD SCHEDULE

CONDITIONS

1. The Councils shall be represented on the committee known as the Kaipara Harbour Authority as follows:

- Two to be appointed by the Dargaville Borough Council;
- Two to be appointed by the Hobson County Council;
- Two to be appointed by the Helensville Borough Council;
- Two to be appointed by the Rodney County Council;
- Two to be appointed by the Otamatea County Council.

2. The Councils shall contribute to the finances of the Kaipara Harbour Authority in a percentage manner as follows:

- 20 percent to be contributed by the Dargaville Borough Council;
- 20 percent to be contributed by the Hobson County Council;
- 20 percent to be contributed by the Helensville Borough Council;
- 20 percent to be contributed by the Rodney County Council;
- 20 percent to be contributed by the Otamatea County Council.

3. (a) All money received by the Authority in respect of the Kaipara Harbour or the foreshore or the harbour bed at Kaipara Harbour in the exercise or performance of the powers, functions, duties and authorities conferred by this order shall, subject to the deduction of any expenditure incurred by the Authority in the exercise or performance of these powers, functions, duties and authorities be applied to the construction, repair or improvement of the harbour works or in respect of the Kaipara Harbour or the foreshore or harbour bed of Kaipara Harbour and not otherwise.

(b) Subclause (a) of this clause shall apply with respect to money received by the Authority after the commencement of this order and any bylaw made pursuant to clause (9) of the Third Schedule to this order, levied either before or after the commencement of this order, in respect of the foreshore and harbour bed of Kaipara Harbour.

4. Her Majesty or the Governor-General and all officers in the Government Service acting in the execution of their duties shall at all times have free ingress, passage, and egress into, over, and out of the foreshore and harbour bed of Kaipara Harbour without payment.

5. Nothing in this order shall authorise the authority to do or cause to be done anything repugnant to or consistent with any law relating to the customs or any provision of the Harbours Act 1950 that is or may hereafter be in force.

6. The rights, powers, and privileges conferred by this order shall not apply to those portions of the foreshore and harbour bed of Kaipara Harbour required for securing the shore end of any telegraph cables that are at the commencement of this order or may at any time subsequently be laid down within that foreshore or harbour bed.

7. The authority may enclose any part or parts of the foreshore of Kaipara Harbour for the purpose of holding sports, meetings, or games and may, by bylaw fix a charge for the admission to any such enclosed part or parts; provided that the number of days for which any particular part of that foreshore is enclosed shall not exceed 6 days in any one calendar year.

8. Nothing in this order shall authorise the authority to remove or cause to be removed from the foreshore or harbour of Kaipara Harbour any stone, shingle, sand, boulders, silt, mud, shell or other material without the consent in writing of the Minister being first obtained.

9. Subject to the provisions of section 8A of the Act, the authority for and within the waters of Kaipara Harbour—

(a) May, by bylaw, made by the authority, do anything which a harbour board may do by bylaw under section 232 of the Act.

(b) May jointly appoint harbourmasters and other officers and define or limit their powers or duties.

10. The powers, functions, duties and authorities conferred on the authority by this order may at any time be resumed by the Governor-General, without payment of any compensation whatever, on giving the authority at least 6 calendar months' notice in writing. Any such notice shall be sufficient if given by the Minister and delivered at or posted to each council at the last known address of the council in New Zealand.

P. G. MILLEN, Clerk of the Executive Council.

\**Gazette* 1980, Vol. 1, p. 2980 (No. 2236, Ag. 12/12/1)

Notice Setting out the Requirements for the Importation of Seeds, Stock Food and Related Dried Preserved Products (Notice No. 2374, Ag. 12/2/21)

PURSUANT to the Introduction and Quarantine of Plants Regulations 1973, and the Stock Foods and Agricultural Seeds Importation Regulations 1958, the Director-General of Agriculture and Fisheries hereby gives the following notice.

#### NOTICE

1. **Title**—This notice may be cited as the Importation of Seeds Notice 1980.
2. The importation of fresh produce is covered by the Importation of Fresh Fruit and Vegetables Notice, 1980.
3. **Types of Seed**—(a) For quarantine purposes, seed is divided into the following groups: agricultural seed (including cereal, pulse, pasture, fodder, oil, vegetable, herb, and spice seed), tree and shrub seed, flower seed, and miscellaneous items including microbiological cultures and spawns.  
(b) For importing purposes seed is divided into the following categories based upon the proposed end use, viz:  
Seed for sowing—Schedule A.  
Seed for human consumption, stock food, bird seed, processing, manufacture, and other uses—Schedule B.  
(c) When seed has been imported for one purpose, and then found not suitable for that purpose, it must be not used for any other purpose without the prior approval of the Director-General of Agriculture and Fisheries.  
(d) Many tree and shrub seeds imported for sowing are excluded from this notice and may be imported provided they are accompanied by an International Health Certificate (Appendix I, Certificate No. III, basic form) and comply with the conditions of paragraph 5 below. Common exceptions are listed in the tree and shrub group of Schedule A.  
(e) Flower seeds (i.e., seed of herbaceous plants grown for their ornamental flowers) must comply with the conditions of paragraph 5 below. Common exceptions are listed in the flower seed group of Schedule A.
4. **Imports of Seed for Treatment and Re-export**—The Director-General of Agriculture and Fisheries, may authorise firms to import seed for the purpose of treatment (e.g., packing, dressing, and coating), and re-export. Application for authorisation should be made to the Officer in Charge, Plant Health and Diagnostic Station, Ministry of Agriculture and Fisheries, Private Bag, Levin.
5. **General Conditions**—All imports under this notice must be named, clearly identifiable, substantially free from injurious extraneous matter, apparently free from pests and disease, and packed in clean new sacks or packages, or in clean containers that are secured against loss or spillage in transit.
6. On arrival in New Zealand, imports will be inspected by a port agriculture officer. If the seed, stock food, or related dried products do not comply with the conditions of this notice, or with prior written conditions imposed by the Director-General, or are found to be infested with pest or disease, the import may be reshipped, destroyed, treated, or detained as directed by the Inspector at the importers risk and expense.  
The ministry reserves the right to inspect any crop grown from imported seed and to require treatment of that crop if necessary.
7. The Introduction and Quarantine of Plants Regulations 1973 provide that no agricultural seed may be introduced without a prior permit to import from the Director-General of Agriculture and Fisheries. This notice indicates the likely conditions for the issue of permits, and the items currently under general consent (see note 3 to Schedule A), but the Director-General may, for plant health reasons, withdraw his consent for the importation of any item specified or vary the conditions for entry without prior notice. Alterations, additions, and deletions to this notice will be notified by the issue of amendment notices. Persons wishing to be placed on the mailing list for any subsequent amendments to this notice should send their names and addresses to the Officer in Charge, Plant Health and Diagnostic Station, Ministry of Agriculture and Fisheries, Private Bag, Levin.  
Information on the conditions for the import of items not mentioned in this notice may be obtained from the above address.
8. **Revocation**—The Importation of Seeds Notice 1977 (Notice No. 1575, Ag. 31005, *New Zealand Gazette*, No. 14, 10 February 1977, pages 295 *et seq.*), and the amendment to that notice (No. 1761, Ag. 31005, *New Zealand Gazette*, No. 88, 18 August 1977, pages 2274 *et seq.*), issued pursuant to the Introduction and Quarantine of Plants Regulations 1973, and the Stock Foods and Agricultural Seeds Importation Regulations 1958, are hereby revoked.

#### NOTES TO SCHEDULE A—SEEDS FOR SOWING

This Schedule sets out the likely conditions for the import of seeds that are to be used for sowing purposes.

1. **Acceptable Cultivars**—Schedules of acceptable cultivars are contained in Appendix II to this notice. These are lists of New Zealand and overseas cultivars considered to be of value to New Zealand agriculture. Seed of overseas cultivars included on the lists may be imported for use in New Zealand. Each sack or container of imported seed of an acceptable cultivar must be tagged as being certified under the seed certification system in the state or country or origin.
2. **Permits Required**—(a) A prior permit from the Director-General of Agriculture and Fisheries to import any seed is required where the word "Permit" appears in column 4 in this Schedule beside the name of that seed. A permit may be issued subject to such conditions as the Director-General thinks fit. (Where the conditions are reasonably stable, these are indicated in this Schedule). A prior permit is also required for any agricultural seed not listed in this Schedule. A prior permit is not normally required for tree, shrub, or flower seeds not listed in this Schedule.  
(b) Import permits for seeds of cultivars additional to those listed on the acceptable cultivar Schedule may be granted:  
(i) For multiplication and re-export purposes. Quarantine conditions must be fulfilled. The Crop must be grown under the supervision of the ministry and no seed, either imported or taken from the resultant crop, is to be used or sold in New Zealand for seed without the prior approval of the Director-General.  
Imports of seed for multiplication and re-export are limited to cultivars certified under an official seed certification system in the country of origin.  
(ii) For the importation of small quantities of named cultivars/varieties/lines for evaluation, i.e., for trial purposes only, to assess performance in New Zealand. "Named" means that any imported cultivar/variety/line must be distinguishable either by a name or by a breeder's reference number. Most seeds for evaluation may be imported without the need to be accompanied by a storage, health, or purity analysis certificate provided the quantity of each named cultivar/variety/line does not exceed the maximum quantities listed below. Those seeds requiring a storage certificate under this notice will be fumigated by the Port Agriculture Service before release to the importer. The Director-General has approved the following maximum quantities of seed that may be imported for evaluation:

Cereals ( <i>Avena</i> , <i>Hordeum</i> , <i>Secale</i> , <i>Triticum</i> )	..	..	..	10 kg.
Large seeded grasses (e.g., <i>Dactylis</i> , <i>Festuca</i> , <i>Lolium</i> )	..	..	..	1 kg.
Small seeded grasses (e.g., <i>Agrostis</i> , <i>Cynosurus</i> , <i>Phleum</i> )	..	..	..	500 g.
<i>Trifolium repens</i> and <i>T. pratense</i>	..	..	..	50 g.
Other pasture legumes (e.g., <i>Lotus</i> , <i>Medicago</i> , other <i>Trifolium</i> spp.)	..	..	..	500 g.
<i>Brassica</i> , <i>Raphanus</i>	..	..	..	5 kg.

Additional import quantities required for further testing may be granted at the discretion of the Director-General. Two of the conditions on the permit to import for evaluation purposes will be that seed must be grown at a place approved by the Director-General, and that the seed, or seed subsequently produced, may not be sold as seed within New Zealand unless and until such time as any of the new introductions qualify for "acceptable listing". Maximum quantities for seed of species not included in the above list will be given on application.

(c) Application for permits to import any item shall be made to:

The Officer in Charge,  
Plant Health and Diagnostic Station,  
Ministry of Agriculture and Fisheries,  
Private Bag,  
Levin.

stating:

- (i) Name and address of the importer;
- (ii) Quantity of seed to be imported;
- (iii) Common name of the seed;
- (iv) Botanical name of the seed;
- (v) Cultivar name;
- (vi) Country of origin;
- (vii) Purpose of importation: (e.g., general sowing, sowing for evaluation, sowing for personal use).

3. **General Consent**—Where the word "Consent" appears in column 4 in this Schedule beside the name of any seed, the importation of that seed may be made without the need to apply for a prior permit to import, subject to compliance with the general conditions (para. 5 above) and the conditions listed in respect of that seed.

4. Consent has also been given to the importation of 100 g of those commercially packed vegetable, herb and spice seeds indicated by an asterisk (\*) in Schedule A and the Common Name Index, without the need to be accompanied by a storage, health or purity analysis certificate but subject to any treatment specified for the seed in Schedule A; provided that 100 g or less of tomato seed is accompanied by a certificate from the supplier stating that the seed has been extracted by the hydrochloric acid method.

5. Unless otherwise specified, seed may be imported from any country.

#### EXPLANATION OF COLUMNS AND TERMS USED IN SCHEDULE A

The plant species in this Schedule are grouped according to the type of plant, e.g., agricultural seed—cereals, then listed alphabetically by botanical name within each group. A common-botanical name index is provided.

**Column 1: Botanical Name**—Plants are listed by botanical name in alphabetical order within each plant group.

**Column 2: Common Name.**

**Column 3: End Use**—Specifies whether the seed may be used for sowing for any purpose or whether import is limited to evaluation purposes only. (See note 2 (b) above).

**Column 4: Permit/Consent**—Denotes whether a permit to import is necessary, or whether the Director-General has given consent to the importation. (See notes 2 and 3 above).

**Column 5: Quantity**—Indicates whether the quantity of seed that may be imported is limited. (See also note 2 (b) above). "Any" means that there is no restriction on quantity imposed by the Ministry of Agriculture and Fisheries.

**Column 6: Limited to Cultivar**—Specifies whether import is restricted to particular cultivars.

(a) "Acceptable" means that import is restricted to those cultivars listed on the Schedule of Acceptable Cultivars for that species (see note 1 and Appendix II). Unnamed cultivars will not be permitted entry. Other named cultivars may be imported for multiplication and re-export or for evaluation (see notes 2 (b) above), provided a permit is first obtained as specified in note (2b) above.

(b) "No" means that import is not restricted to any particular cultivars.

**Column 7-11: Certificates Required**—Specify the certificates that are required to accompany the seed or to be presented by the importer to the port agriculture officer on arrival in New Zealand. For an explanation of the certificates and abbreviations used in these columns see Appendix I to this notice.

**Column 12: Post Entry Control**—Indicates whether some form of control will be exercised over the seed after arrival in New Zealand (e.g., seed to be grown in post-entry quarantine).

SCHEDULE B

NOTES TO SCHEDULE B—SEEDS AND PLANT PRODUCTS FOR HUMAN CONSUMPTION, STOCK FOOD, BIRD SEED, PROCESSING OR MANUFACTURING AND OTHER USES EXCEPT SOWING

This Schedule sets out the conditions for the import of seeds and plant products that are to be used for human consumption, stock food, bird seed, processing or manufacturing, and other uses, except sowing.

1. **General Condition**—On arrival in New Zealand any seed or product imported under this Schedule may be inspected by the Port Agriculture Service and treated if necessary.

2. **Statement of End Use Required**—Due to the possible risk of the introduction of animal disease from seeds and plant products, importers are required to provide the port agriculture officer at the port of entry with a certificate stating the purpose for which the seed or product is to be used. Imports will only be permitted entry in accordance with the use shown in column 3 of this Schedule. In the event of the seed or product not being found suitable for the purpose for which it has been imported, the importer must refer any proposed alternative use to the regional veterinary officer in whose region the port of entry is situated. This statement will only be necessary for quantities in excess of 20 kg in any one shipment.

3. **Special conditions for the Importation of Stockfood**—(a) For animal health reasons, stockfood may only be imported from Australia, North America, and the Pacific Islands. Imports of stockfood from other countries will be considered, but these will be subject to a prior permit to import (see note 2 to Schedule A).  
(b) In addition to any other import conditions specified in this Schedule, all imports of stockfood must be accompanied by a declaration of origin as set out in Appendix 1.

4. Unless specified otherwise, either in this Schedule or in a permit to import, imports under this Schedule are not limited to any particular cultivars, nor are they subject to post-entry control.

5. The ministry reserves the right to inspect and treat, if necessary, any seed or product imported under this Schedule after it has been released by the Port Agriculture Service if required for plant or animal health reasons.

EXPLANATIONS OF COLUMNS AND TERMS USED IN SCHEDULE B

**Column 1: Common Name**—Lists the seed and products in alphabetical order under the name by which they are commonly known.

**Column 2: Botanical Name**—Gives the botanical name of the seed or product named in column 1.

**Column 3: End Use**—Specifies the end use for which the conditions for import are given.

“Any” means for any purpose other than sowing.

“BS” means for bird seed.

“HC” means for human consumption.

“P” means for processing or manufacturing.

“SF” means for stock food.

**Column 4: Permit/Consent**—Denotes whether a permit to import is necessary, or whether the Director-General has given his consent to the importation. (See notes 2 and 3 to Schedule A).

**Column 5: Quantity**—Indicates whether the quantity of seed that may be imported is limited. “Any” means there is no restriction on quantity imposed by the Ministry of Agriculture and Fisheries.

**Columns 6-10: Certificates Required**—Specify the certificates that are required to accompany the seed or product on arrival in New Zealand. For an explanation of the certificates and abbreviations used in these columns see Appendix I to this notice. No storage certificate is required for Schedule B material.

APPENDIX I

CERTIFICATES AND ENDORSEMENTS

For the purpose of certification, origin is defined as "the country in which the seed was grown", not where packaged, or re-exported from another source.

Certificate No. I—Certificate of Origin:

A certificate signed by an official employed full-time by the government of the exporting country, certifying that the seed was grown in the country of export, or that the product is derived from seed that was grown in the country of export. Applicable only to Schedule B material where specified.

Certificate No. II—Storage Certificate:

A declaration by the owner or consignor that the seed has been stored in a seed store for a period of 18 weeks in the country of export, after harvest or before shipment; or, in lieu of this declaration, importers may elect to have the seed fumigated with methyl bromide either before shipment or on arrival. Applicable only to Schedule A material where specified.

Certificate No. III—International Health Certificate:

B—Basic: An International Health Certificate issued in accordance with the Introduction and Quarantine of Plants Regulations 1973.

E—Endorsement: A basic health certificate endorsed that the crop(s) from which the seed was harvested has (have) been inspected during the growing season and found to be apparently free from... (fill in appropriate endorsement as specified in the list below); or that... (fill in appropriate endorsement as specified below) is not known to occur in... (country or state of origin).

Endorsement Numbers:

1. Barley stripe mosaic virus.
2. Dwarf bunt (*Tilletia contraversa/T. panicii*); or in lieu of this endorsement—"a sample of the seed was examined in a recognised plant pathology laboratory, and no spores of *Tilletia* spp. were found". (NOTE: The casual fungus is named *T. panicii* in Japan and East European countries, and *T. contraversa* elsewhere. Health certificates should be endorsed accordingly).
3. Halo blight (*Pseudomonas phaseolicola*); common blight (*Xanthomonas phaseoli* and *Xanthomonas phaseoli* var. *fuscans*); wilt (*Corynebacterium flaccumfaciens*); and anthracnose (*Colletotrichum lindemuthianum*).

4. Must have endorsement No. 3 above and in addition either:
  - (i) Not more than 1 percent common bean mosaic virus was present in the crop; or
  - (ii) The cultivar is resistant to common bean mosaic virus.
5. Anthracnose (*Colletotrichum lindemuthianum*); bacterial blight (*Xanthomonas phaseoli* and *Xanthomonas vignicola*) and bacterial pustule of soyabean (*Xanthomonas phaseoli* var. *sojense*).
6. Downy mildew (*Peronospora manshurica*).
7. Citrus canker (*Xanthomonas citri*). The required endorsement is that citrus canker is not known to occur in the country of origin. Growing season inspection is not acceptable.
8. Black patch (*Rhizoctonia leguminicola*).
9. *Cercospora loti*.
10. Downy mildew (*Sclerospora graminicola*).
11. Long smut (*Tolyposporium penicillariae*).
12. Bacterial blight (*Pseudomonas pisi*).
13. Pea seed-borne mosaic virus.
14. Elm mosaic virus.

**Certificate No. IV—Treatment and Other Certificates:**

General requirement for treatment certificates A–P listed below—“A certificate from an officer in charge of a fumigation station operated by a government agency or from an authorised officer of an appropriate government controlled quarantine service; or an endorsed International Health Certificate certifying that the seed or plant product has been... (insert appropriate wording as specified below).”

NOTE: + indicates that the treatment may be carried out on arrival under supervision of the Port Agriculture Service.

**Temperature Treatments:**

- +A. Heat-treated to destroy viability (recommended treatment is heat at 90–95°C at 40 percent relative humidity for at least 15 continuous hours). Retreatment will be required if germination has not been destroyed.
- B. Blanched in boiling water (100°C) for not less than 3 minutes.
- +C. Autoclaved at 103 kPa for 10 minutes.

**Fumigation Treatments:**

- +D. Fumigated with either:
  - (i) Methyl bromide at 48 g per cubic metre at 21°C for 24 hours at atmospheric pressure; or
  - (ii) Methyl bromide at 48 g per cubic metre for 2 hours at 21°C under a vacuum of 91 kPa; or
  - (iii) Carbon bisulphide at a strength of 160 g per cubic metre for not less than 24 hours at a minimum temperature of 18.5°C.
- +E. Fumigated with methyl bromide at the rate of 40 g per cubic metre at 20°C for 20 hours at atmospheric pressure. Only required for quantities exceeding 25 g of any species/cultivar/line.  
(NOTE: It is recommended that the moisture content of the seed is below 12 percent).
- +F. Fumigated with methyl bromide at either:
  - (i) Atmospheric pressure—16 g per cubic metre for 12 hours at 21°C; or 32 g per cubic metre for 12 hours at 15°C; or
  - (ii) Vacuum 91 kPa—48 g per cubic metre for 1 hour at 21°C; or 48 g per cubic metre for 1½ hours at 15°C.

**Extraction Treatments:**

- +G. Acid extracted by hydrochloric acid (or other method approved by the Director-General of Agriculture and Fisheries).
- H. Solvent extracted or expeller produced incorporating a heat application of at least 100°C for 15 minutes.

**Seed Dressing Treatments:**

- +I. Treated with captan (80 percent a.i.) or thiram (80 percent a.i.) at 2–2½ g/kg seed (treatment rate to be endorsed on health certificate).
- +J. Treated with either:
  - (i) A mixture of carboxin (75 percent a.i.) and thiram (80 percent a.i.), each product at 1–1½ g/kg seed (or “Vitaflo” at recommended rates); the treatment rate to be endorsed on the health certificate; or
  - (ii) A mixture of triadimenol (15 percent a.i.) and fuberidazole (2 percent a.i.) (“Baytan F17”) at recommended rates; the treatment rate is to be endorsed on the health certificate.
- +K. Treated with a mixture of benomyl (50 percent a.i.) and thiram (80 percent a.i.), each product at 5 g/kg seed; the treatment to be endorsed on the health certificate.

**Inoculum Treatment:**

- L. A certificate signed by the producer of such inoculum that the medium in which the bacterium is carried was sterilised by either:
  - (a) Steam under pressure (autoclaved) before inoculation; or
  - (b) Gamma irradiation, stating the dose and thickness of the medium exposed.

**End Use Certificate:**

- M. A certificate must be produced by the importer to the port agriculture officer stating that:
  - (a) For kale, swede, and turnip seed, the consignment contains only vegetable or ornamental cultivars (as appropriate) for horticultural use only.
  - (b) For rape seed, the consignment contains only cultivars to be grown for oil production.

**Conditions:**

- N. All seed must be extracted from fruit prior to import.
- O. Seed must have been packed dry.
- P. Only permitted entry for processing in the North Island.

**Certificate No. V—Analysis Certificate:**

An International Seed Testing Association (I.S.T.A.), Orange or Green International Analysis Certificate or a Certificate of Analysis issued by an official seed testing station showing that in an examination of an official sample drawn from an identified seed lot, no seeds were found of species listed in Appendix IA. The size of the sample to be examined is as prescribed for the determination of other seeds by number in the current international rules for seed testing issued by the International Seed Testing Association.

The following endorsement concerning the prohibited species listed in Appendix IA is to be shown on any certificate of analysis accompanying an importers seed lot:

“Sample free of weed species prohibited under the New Zealand seed importation regulations”.

A clear indication of weight of sample examined must also be shown on the certificate.

NOTE—Importers may elect at their own risk to import seed without an analysis certificate; the seed will then be held by the Port Agriculture Service and a sample taken for analysis. Depending upon the results of the analysis the seed may be released, treated to the satisfaction of the ministry, reshipped, or destroyed as necessary.
