AUDITORS' REPORT

We have examined the balance sheet of the South Canterbury Savings Bank as at 31 March 1980, and the related profit and loss account for the year then ended. Our examination was made in accordance with the general principles of auditing and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In accordance with an accounting policy of the bank depreciation on fixed assets has been calculated to reduce each asset to its estimated residual value by the end of its probably useful life. The rates used are those approved by the Commissioner of Inland Revenue. It is considered that the amount charged in the profit and loss account does not differ materially from that which would result from calculating depreciation had the straight line method been adopted.

We have obtained all the information and explanations that we have required and in our opinion, the accompanying balance sheet and the profit and loss account together with the statement of accounting policy and notes attached thereto present fairly the financial position of the South Canterbury Savings Bank as at 31 March 1980, and the results of its operations for the year then ended.

HUBBARD, CHURCHER AND CO., Chartered Accountants
Timaru, 26 May 1980.

SOUTH CANTERBURY SAVINGS BANK

NOTES TO THE ANNUAL ACCOUNTS 31 MARCH 1980

Statement of Accounting Policy

1. *Accounting principles*—The accounts have been prepared in accordance with general accounting principles, consistent with previous years based on historical cost, and there have been no changes to accounting policy during the year except that full advantage of first year depreciation rates as allowed by the Inland Revenue Department have been taken in respect of the computer equipment purchased during the year.

2. *Revenue recognition*—Interest received includes interest accrued to 31 March 1980.

3. *Personal loans*—Advances by way of personal loans have been adjusted for interest yet to mature as shown in the balance sheet. The policy is to add interest to the full advance at the commencement of the loan. This amount is brought into revenue during the appropriate financial years by applying the "Rule of 78".

4. *Depreciation*—The fixed assets, other than the computer equipment, have been depreciated at ordinary depreciation rates as allowed by the Inland Revenue Department. Computer equipment is depreciated at the first year rate of 25 percent of cost price, thereafter at 20 percent D.V. All assets still in use are included in the bank's books and it is calculated that the depreciation rates being used will write off the items over the period of their useful lives. In accordance with the bank's established policy, no additional depreciation as provided for by the Inland Revenue Department as special exemptions on the purchase of plant have been claimed for taxation purposes except in respect of the computer equipment as mentioned above.

5. *Investment*—New Zealand Government stock and local authority securities are shown at face value and are generally held until maturity. The redemption due on maturity in regard to stock purchased under par is shown as a reserve to be brought into account upon either maturity or sale of the stock concerned.

6. *Mortgages*—Mortgage applications approved but for which the funds have not been uplifted at 31 March 1980, amount to \$778,950.

7. *Property*—The bank owns property in Timaru, Temuka, Fairlie, and Waimate, and leases premises in Ashburton, Geraldine, Tinwald, Fairlie, Pleasant Point, and Timaru. The leases have been negotiated to provide long-term tenancy options.

8. *Taxation*—The amount provided for income tax is the amount of the calculated tax liability in respect of the accounting profit shown for the year by the profit and loss account.

AUDITORS' REPORT

We the undersigned, being the auditors of the Canterbury Savings Bank, appointed in terms of section 29 (3) of the Trustee Savings Banks' Act 1948, report that:

We have examined the accompanying balance sheet, profit statement, and notes, and have obtained all the information and explanations we have required. We are of the opinion that proper books of account have been kept by the bank, that the balance

et, profit statement, and notes comply with the Trustee Savings Banks' Act 1948, and that they give a true and fair view of the state of affairs of the bank as at 31 March 1980, and of the results of its business for the year ended on that date. We have also examined the statement of changes in the financial position which, in our opinion, gives a true and fair view of the changes in financial position of the bank for the year ended 31 March 1980.

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975. \$2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention.

Education is seen as a lifelong activity, and emphasis is therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, as for instance, school committee and district level.

CONSERVING NEW ZEALAND'S HERITAGE

By P. H. C. Lucas

94 p. 1970. \$1.40

In 1969 Mr Lucas went on a study tour of national parks and allied areas in Canada and the United States. On his return to New Zealand he wrote this report as a suggested guideline for national parks and reserves administrators. Many of the problems experienced by older countries could be avoided by a careful study of their mistakes and with this in mind Mr Lucas has concluded each section with a summary of lessons for New Zealand. Not only of interest to the general public but also to park administrators and planners, tourist promoters, historians, and archaeologists.
