In the matter of the Charitable Trusts Act 1957, and in the matter of THE SOUTH BRITISH GUARDIAN TRUST CO. LTD., as trustee of the Maxwell Walker Memorial Scholarship Fund:

NOTICE is hereby given that the above trustee has filed in the High Court at Auckland, a motion for orders approving a scheme under both Parts III and IV of the Charitable Trusts Act 1957, for altering certain regulations affecting the trust's administration, or varying the trustee's powers, or prescribing or varying the mode of administering the Trust. The scheme relates to the assets of the Memorial Scholarship Fund of the late Maxwell Walker amounting to approximately \$10,700 as at 15 January 1980, also to income accrued since 15 January 1980 and to future income. Maxwell Walker was Professor of Modern Languages at Auckland University up to his death in 1941. Between 1942-44 voluntary contributions were gathered from friends, former students, colleagues, and organisations with which the deceased was associated, to set up a Memorial Scholarship in French. Some of the fund's prime movers prepared and executed a memorandum specifying the rules under which the fund was to be administered and the scholarship awarded. In 1945 the fund was transferred to the trustee to hold and administer. In 1979 Miss Dora L. Miller, a principal fund organiser, died. Pursuant to her will, \$8,272.39 was paid over from her estate in augmentation of the fund. Since the memorandum above-mentioned was not signed by all the original contributors and as it is now outmoded in various respects, the trustee proposes in terms of the scheme:

1. That the scholarship be awarded to eligible French students at the University of Auckland as successor to the former Auckland University College.
2. That instead of a committee drawn from representatives of various organisations with which Professor Walker was associated, scholarship winners be recommended by a selection committee from within the University including the Dean of the Faculty of Arts or one of his deputies and the Professor or Professors of French.

We report that we have examined the balance sheet of the Bay of Plenty Savings Bank as at 31 March 1980 and the profit and loss accounts for the year ended on that date, and have received all the information and explanations we have required. In our opinion, the above balance sheet and profit and loss accounts present fairly the financial position of the bank as at 31 March 1980 and the results of the operations for the year ended on that date, and were in general conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

GRANGER CRAIG TUNNICLIFFE AND CO.,
Chartered Accountants, Tauranga.

Tauranga, 15 May 1980.

The notes following form part of, and should be read in conjunction with, the above financial statements.

NOTES TO THE ACCOUNTS

A. Statement of Accounting Policies—The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of results on an historical cost basis, consistent with previous years, have been used in the preparation of the financial accounts.

The following particular principles have been applied:

1. **Depreciation**—Straight-line depreciation has been applied to the bank's E.D.P. equipment to write it off over the period of its expected useful life. All other assets have been depreciated at the rates allowable by the Inland Revenue Department. The difference between these rates, and the straight-line method, is not considered to be material.

2. **Government Stock**—It is the bank's policy to amortise discounts and premiums on Government stock securities over the term of the investment on a straight-line basis and to show the value of the stock in the balance sheet at its cost price adjusted by the amortised discount to date.

3. **Personal Loans**—The bank's policy is to add total interest due to the loan when advanced and interest is brought into revenue on the basis of the "Rule of 78".

4. **Taxation**—

(a) The provision for income tax charged in the profit and loss account is the calculated tax liability in respect of the accounting profit after adjusting for permanent differences.

(b) The provision for deferred taxation arises from timing differences relating to income accrued into the accounts but not received as at balance date.

B. Shares—Northern Trustee Computerbank Limited—These shares have been shown in the accounts according to the standard accounting practice adopted by the New Zealand Society of Accountants for an associate company.

Shares issued to the bank (100 000 shares at \$1 per share)	\$100,000
Shares paid-up by the bank (100 000 shares paid up to 80 cents per share)	\$80,000
Plus share of accumulated profit of Northern Trustee Computerbank Ltd.	81,662
Less dividend received	6,400
	<u>75,262</u>
	\$155,262

The bank has a contingent liability for uncalled capital of 100 000 shares at 20 cents per share .. \$20,000

C. Commitments—

Mortgages—Mortgages approved but not advanced as at 31 March 1980 .. \$1,649,963

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 1980

Statement of Accounting Policies

1. *General Accounting Policies*—The general accounting principles recognised as appropriate for the measurement and reporting of results and financial position under the historic cost method of accounting have been adopted on a basis consistent with the previous year.

2. *Recognition of Income*—Income earned is recorded on an accrual basis. Interest on personal loans is calculated according to "rule of 78".

3. *Valuation of Investments*—Investments are valued at cost. Both New Zealand Government and local authority securities are normally held to maturity and their value on redemption approximates cost.

4. *Fixed Assets and Depreciation*—Fixed assets are valued at cost less accumulated depreciation. Depreciation has been charged using the straight-line method based on the economic life of the assets.

5. *Taxation*—Taxation provisions are assessed on accounting profits. Where income is taxable in a future tax period the provision is shown as deferred taxation.

ECONOMICS OF THE NEW ZEALAND MAORI

By Raymond Firth

519 p. 1972. \$8.75

The Maori people are honourably known far outside the confines of their New Zealand home. Acknowledged to be one of the finest of the native races within the British Commonwealth they have long been celebrated for their splendid physical appearance, their proud bearing, their aristocratic spirit, their fluent oratory and above all for their prowess in war. This book contains an account of the social and economic organisation of the Maori people before the organisation was transformed by contact with Western civilisation. It is a major scientific contribution to economic anthropology and has now become a standard work.

EFFECTIVE DISCUSSION

52 p. \$1.15

Although originally written for staff training purposes in the Public Service, this booklet became popular with outside organisations as a guide to the conduct of meetings. It describes planning and organising both large and small group discussions and contains many useful hints which will help the discussion leader to get the best out of his group, whether he is an old hand or a novice at leading discussions. Also included are lists of books for further reading and recommended films. (State Services Commission.)

ENERGY AND THE ENVIRONMENT

Edited by D. M. Adcock

156 p. 1974. \$4.50

This book is intended as a valuable summary of energy technology and its associated problems. Institute of Public Administration.)

The publication also aims to place information about the incidence of illegitimacy in New Zealand within an international context. Of particular interest to sociologists, economists, researchers and social workers. (Social Welfare Department.)

FOREST LORE OF THE MAORIBy *Elsdon Best*

DOMINION MUSEUM BULLETIN No. 14

421 p. 1977. \$17.95

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.

MOA-HUNTER PERIOD OF MAORI CULTURE

ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1

436 p. 3rd edition, 1977. \$17.50

This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.

A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the gravels of the Wairau boulder bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition.

Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.
