AUDITORS' REPORT

We report that we have examined the books and accounts of the Wellington Savings Bank for the year ended 31 March 1980 and have received all the information and explanations we have required.

In our opinion, the accompanying balance sheet and profit and loss account present fairly the financial position of the bank as at 31 March 1980 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

HUTCHISON HULL AND CO.
Chartered Accountants.

Wellington, N.Z., 19 May 1980.

NOTES TO THE ACCOUNTS

1. *Statement of accounting policies*—The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of profits and losses under the historical cost method have been adopted in the preparation of these financial statements.

The following particular accounting policies which materially affect the measurement of profit and the financial position have been consistently applied.

Taxation—The charge for income tax is the amount of the tax liability in respect of the accounting profit for the year and includes both current and deferred tax.

The liability for deferred taxation arises from items of income and expenditure being included in taxation calculations in periods different from those in which they are dealt with in the financial accounts. The significant timing differences relate to accrued interest income, discounts earned and premiums paid on Government Stock and depreciation. Commencing in 1975, the Bank has been providing for deferred taxation on accrued income over six years, however this procedure is now being accelerated according to available profits.

Valuation of Government Stock—Government Stock is valued at cost plus the net of discounts earned and premiums paid amortised on a straight-line basis from date of purchase to date of maturity.

Depreciation—Fixed assets are being depreciated on the straight-line method at rates which will write off the cost over their estimated useful lives. The principal rates are:

Buildings	3 percent to 5 percent
Furniture and fittings	10 percent to 20 percent
Computer equipment	20 percent to 25 percent

2. Administration expenses—

	1980 \$	1979 \$
Included in the above are:		
Audit fee	16,750	12,024
Mortgage interest	16,599	17,959
Trustees' honoraria	8,915	4,645
Equipment leasing	125,628	87,064
Depreciation	89,001	86,518

3. Investment income—

	1980 \$	1979 \$
Includes interest on:		
Government stock	2,122,305	1,286,344
Local authority stock	78,398	45,184
Mortgages	3,100,254	2,264,309

4. Investments—

	1980 \$	1979 \$
New Zealand Government stock values at 31 March:		
Nominal value	21,619,890	21,159,890
Cost price plus amortisation	21,451,813	19,256,027
Market value	17,639,400	16,455,520
Local authority stock values at 31 March:		
Nominal value	780,091	582,952
Cost price	780,091	582,952
Market value	694,993	544,208

Since the above stocks are generally held until dates of maturity, differences in the above bases of valuation have little financial effect on the Bank.

GENERAL PUBLICATIONS

SHADOW OF THE LAND

By Ian Wards

422 p. 1968. \$9

The title for this book was provided by Nopera Panakarero, a Kaitiāia chief of much influence, who, in May 1840, believed that only the "shadow of the land" had gone to Queen Victoria whilst the substance remained with the Maoris. Less than a year later he revised this opinion convinced that only the "shadow" would be the Maori portion.

The author examines the British acquisition of New Zealand, the Maoris, trust in the Treaty of Waitangi, and their confidence that its terms would be honoured and explains it was only by accident that the Maoris were guaranteed the possession of their lands and ancient privileges.

It is under these circumstances that the book considers the use of military force in New Zealand, analyses the arguments surrounding the provision of troops and concludes that, beyond any reasonable doubt that there was never an attempt to govern by "moral suasion".

New Zealand followed the normal nineteenth century British pattern of territorial acquisition.

The book is an essential introduction to the Maori wars of a later date.

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975. \$2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention. Education is seen as a lifelong activity, and emphasis is therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, as for instance, school committee and district level.

ECONOMICS OF THE NEW ZEALAND MAORI

This book contains an account of the social and economic organisation of the Maori people before the organisation was transformed by contact with Western civilisation. It is a major scientific contribution to economic anthropology and has now become a standard work.

FOREST LORE OF THE MAORIBy *Elsdon Best*

DOMINION MUSEUM BULLETIN NO. 14

421 p. 1977.

\$17.95

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment.
