*Industries Development Commission Notice No. 1981/4—
Study of the New Zealand Rubber Industry*

(1) In a letter of 20 March 1981, the Minister of Trade and Industry requested the Commission to undertake an inquiry into the general rubber industry. This study was announced in the 1979 Budget Statement and commenced by an interdepartmental team of officials but referred to the Commission to enable greater public participation through the Commission's procedures.

(2) The Commission is asked to prepare a development plan for the general rubber industry. The Minister's letter reads:

"I therefore request the Commission—

To inquire into the present situation of the New Zealand rubber industry, excluding that industry engaged in the manufacture of tyre of Tariff Item 40.08.021 and tyres and tubes of Tariff Heading 40.11 which is subject to separate reference, and its potential to contribute to New Zealand's economic growth, taking into account the interests of the manufacturers, and employees, commercial and other users, and the distributive trade.

In the context of this inquiry, to also consider policy which may relate to floor coverings be they rubber of Tariff Chapter 40, plastic of Tariff Chapter 39 or linoleum of Tariff Heading 59.10.

To recommend a development plan covering future development of the industry and action by the industry itself, other associated sectors and the Government.

To report by 31 December 1981.

For the purposes of this reference, the Industries Development Commission should regard the rubber industry as not only that industry which produces goods classified within Chapter 40 of the Customs Tariff but also that:

- (a) which is engaged in the production of rubber goods classified elsewhere in the Tariff.
- (b) which produces rubber components or converts rubber intermediary goods for incorporation into products classified elsewhere in the Tariff.

The Commission, in undertaking this inquiry, should be mindful of the considerable production of fully-manufactured rubber goods or components classified other than in Chapter 40 of the Customs Tariff and, to the extent that it considers appropriate, should offer recommendations as to the policies that could reasonably be applied in relation to such production consistent with a strategy for the future development of the industry.

Also, the Commission may take evidence on, and otherwise have regard to, any material or product it considers relevant to the inquiry or exclude from its considerations any material or product it might consider not relevant to such an inquiry."

(3) The only exclusions from this study are:

(i) Pneumatic tyres and tubes of Tariff Headings 40.11 and tyre of Tariff Item 40.08.021 which are the subject of a separate study (see Commission's Notice No. 1981/5).

(ii) Automotive parts and accessories are excluded and will be considered within the announced study of the motor vehicle industry.

(iii) Rubber footwear and parts of footwear are also excluded as they come within the scope of the inter-departmental study into the footwear industry.

(4) The Commission is also requested to consider the policy which may relate to floor coverings be they rubber of Tariff Chapter 40, plastic of Tariff Chapter 39 or linoleum of Tariff Heading 59.10. The Commission, under its terms of reference, has added to this area of the industry that which manufactures floor coverings prepared on a base of paper or of paper-board and classified within Tariff Heading 48.12 to ensure a complete coverage of all these similar types of floor coverings.

(5) The Commission, in its studies of the textile industry and the plastics industry, excluded from its consideration textile gloves, mitts, etc., of Tariff Headings 60.02, 60.06 and 61.10 and plastic gloves, etc., classified within Tariff Heading 39.07. It has been decided that these should be included within this study together with the rubber gloves of Tariff Heading 40.13 and the leather gloves of Tariff Headings 42.03, 43.03 and 43.04.

(6) The Commission also excluded from its study of the plastic industry the teats of Tariff Item 39.07.201 which will be considered in this study in conjunction with those teats classified within Chapter 40 of the Customs Tariff.

(7) The Commission invites parties who have an interest in any of the areas covered by the above to register that interest in writing with the Commission not later than 30 April 1981. Registration should include the following:

- (a) Name and address of party registering interest;
- (b) The goods to which the interest relates;
- (c) Status of interest under one or more of the following classes:

New Zealand manufacturer of goods under reference;
New Zealand manufacturer using goods under reference;
Overseas manufacturer;
Importer;
Distributor;
Raw material supplier;
Trade union;
Trade organisation;
Other (specify).

(8) The Commission will, as soon as possible after 30 April, distribute detailed guidelines for submissions and advise the timetable and procedures it intends to follow in undertaking this study.

(9) It is anticipated that these procedures will involve the preparation and public distribution of a draft report based on the submissions received in response to the guideline questionnaires and the detailed information already provided to the Commission arising from the work on this study already carried out by an inter-departmental study team. This draft report will then be the subject of a public hearing following which the Commission will prepare its final report.

Dated at Wellington this 7th day of April 1981.

Secretary, Industries Development Commission.

P.O. Box 27-046, Wellington.

*Industries Development Commission Notice No. 1981/5—
Study of the New Zealand Industries Engaged in Manufacturing Pneumatic Tyres and Tubes and Retreading*

(1) In a letter of 20 March 1981, the Minister of Trade and Industry requested the Commission to undertake a study of the above industry and recommend a plan for its future development. The Minister's letter reads:

"At a meeting on 18 November 1980 the Cabinet Economic Committee approved the referral to the Industries Development Commission for inquiry of the tyre industry.

I therefore request the Commission:

To inquire into and report on the present situation of the New Zealand industry engaged in the manufacturing of tyre of Tariff Item 40.08.021 and of tyres and tubes (including the retreading of tyres) of Tariff Heading 40.11; the potential for its development; and its potential to contribute to New Zealand's economic growth, taking into account the interests of the manufacturers, and employees, commercial and other users, and the distributive trade.

To recommend a development plan covering future development of the industry and action by the industry itself, other associated sectors and the Government.

To report on the above inquiry by 31 December 1981.

When making its inquiry and report the Commission may take evidence on and otherwise have regard to any other matter or product it considers relevant to the inquiry under reference, or exclude from its consideration any matter or product it considers not relevant."

(2) The Commission has decided that, as the manufacture of the non-pneumatic tyres of Tariff Heading 40.11 is carried out in conjunction with the manufacture of general rubber goods, those tyres should be considered during the study of the New Zealand Rubber Industry (the Commission's Notice No. 1981/4 refers) rather than as part of this study of the tyre manufacturing and retreading industry. The retreading of non-pneumatic tyres will, however, be covered by this study.

(3) The Commission invites parties who have an interest in any of the areas covered by the above reference to register that interest in writing with the Commission not later than 30 April 1981.

(4) Registration should include the following:

- (a) Name and address of party registering interest;
- (b) Status of interest under one or more of the following classes:

New Zealand manufacturer of goods under reference;
New Zealand manufacturer using goods under reference;
Overseas manufacturer;
Importer;
Distributor;
Raw material supplier;
Trade union;
Trade organisation;
Other (specify).

(5) The Commission will, as soon as possible after 30 April, distribute to registered parties copies of detailed guidelines for submissions and advise the timetable and procedures it intends to follow in undertaking this study.

(6) It is anticipated that these procedures will involve the preparation and public distribution of a draft report based on the submissions received in response to the guideline questionnaires and the detailed information already provided to the Commission arising from the work already carried out by an inter-departmental study team. This draft report will then be the subject of a public hearing following which the Commission will prepare its final report.

Dated at Wellington this 7th day of April 1981.

Secretary, Industries Development Commission.

P.O. Box 27-046, Wellington.

*Industries Development Commission Notice No. 1981/6—
Industry Study—Gloves*

(1) During the course of its study of the New Zealand rubber industry (see the Commission's Notice No. 1981/4), the Commission will inquire into that section of the industry engaged in the production of rubber gloves.

(2) The Commission considers it appropriate to consider the production of all gloves, regardless of Tariff classification. It will, therefore, include the production of textile gloves (Tariff headings 60.02, 60.06 and 61.10), plastic gloves (Tariff heading 39.07), and leather gloves (Tariff headings 42.03, 43.03 and 43.04), as well as rubber gloves (Tariff heading 40.13) in this rubber industry study.

Parties who have an interest in any of the above products are referred to Industries Development Commission Notice No. 1981/4 for further details of this inquiry.

SHADOW OF THE LAND

By Ian Wards

422 p. 1968. \$9

The title for this book was provided by Nopera Panakarero, a Kaitia chief of much influence, who, in May 1840, believed that only the "shadow of the land" had gone to Queen Victoria whilst the substance remained with the Maoris. Less than a year later he revised this opinion convinced that only the "shadow" would be the Maori portion.

The author examines the British acquisition of New Zealand, the Maoris, trust in the Treaty of Waitangi, and their confidence that its terms would be honoured and explains it was only by accident that the Maoris were guaranteed the possession of their lands and ancient privileges.

It is under these circumstances that the book considers the use of military force in New Zealand, analyses the arguments surrounding the provision of troops and concludes that, beyond any reasonable doubt that there was never an attempt to govern by "moral suasion".

New Zealand followed the normal nineteenth century British pattern of territorial acquisition.

The book is an essential introduction to the Maori wars of a later date.

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975. \$2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention. Education is seen as a lifelong activity, and emphasis is therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, as for instance, school committee and district level.
