Decision of Films Censorship Board of Review

Mr A. B. Beatson, D.J. (chairman), Mrs M. Cole, Mrs U. Ewert, Mrs V. A. Forbes, Mr B. S. G. Lambert, Dr J. M. Priestley, and Mrs J. A. Walker.

PURSUANT to section 82 of the Cinematograph Films Act 1976, Twentieth Century Fox Film Corporation Ltd. applied for a review of the feature film *Let's Get Laid!* which had been rejected for exhibition by the Chief Censor of Films.

The film, which is in the tradition of farce, deals with the escapades of Gordon Laid, a young corporal who becomes inadvertently involved in the dealings of an international broker.

In general the Board found the film, in particular the music and dialogue, entertaining. It was considered excisions could be made without harming the flow of the narrative. The Board requested 3 excisions for indecent behaviour which the applicant accepted.

The film was therefore approved for exhibition only to persons 18 years of age and over.

The Board agreed the trailer for *Let's Get Laid!* did not represent the film as a whole, as it placed undue emphasis on the sexual episodes of the film. They therefore rejected the trailer for exhibition.

Date of Review: 22 August 1980.

(1980/5)

A. B. BEATSON, Chairman.

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975.

\$2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention. Education is seen as a lifelong activity, and emphasis is therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, as for instance, school committee and district level.

421 p. 1977. \$17.95 plus \$1.25 p & p
Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.
