Exchange Rates

IN terms of section 25 (2) of the Reserve Bank of New Zealand Act 1964, the Reserve Bank today released outer limits for rates of exchange to be used in transactions involving the conversion of New Zealand currency into foreign currencies and foreign currencies into New Zealand currency when delivery of the foreign currency dealt in will be effected by telegraphic transfer. The following range of rates, for the main currencies used by New Zealand traders in settling foreign exchange transactions, will remain in force until replaced by a new Schedule issued by the Reserve Bank. These rates do not apply to transactions for settlement after the expiration of 2 business days (forward transactions) or

to transactions in which instruments are purchased which do not entitle the buyer to foreign currency balances in the foreign centre until the instruments have been delivered at the foreign centre. In the latter case interest at foreign centre rates may be deducted from the telegraphic transfer rate to compensate the purchaser for his loss during the transit period.

1. *Statement of Accounting Policies*—The general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of profit and financial position on an historical cost basis have been followed by the Bank.

The following particular accounting principles which materially affect the measurement and reporting of profit and financial position have been applied.

Waikato Savings Bank—continued—

(A) REVENUE AND EXPENSE RECOGNITION—

- (a) Personal loan interest has been recognised on the sum of digits basis.
- (b) Losses associated with dealings in securities have been deferred on a pro rata basis to the years during which the revenue from the corresponding deals will be recognised during the normal course of business.
- (c) The charge for income tax is the amount of tax liability in respect of the accounting profit for the current year. Timing differences between accounting and taxation records are included under the heading "provision for deferred taxation", with the exception of timing differences which, on the basis of reasonable probability, are expected to continue in the future.

(B) INVESTMENTS—

- (a) The Bank's one-third shareholding in the Northern Trustee Computerbank Ltd., as at the company's 31 May 1980 balance date has been treated on an equity accounting basis.
- (b) New Zealand Government securities have been valued on a purchase yield basis.
- (c) Other investments have been recorded at cost plus interest accrued to balance date.

(C) FIXED ASSETS AND DEPRECIATION—

Land is recorded at the higher of original cost or the 1976 Government valuation. All other assets are recorded at cost less depreciation to date. The cost of lease goodwill has been spread evenly over the terms of the leases. Straight-line depreciation as recommended by the New Zealand Society of Accountants Statement of Standard Accounting Practice No. 3, has not otherwise been applied and maximum rates of depreciation as approved by the Commissioner of Inland Revenue have been used. This is not considered to have a significant effect on the financial statements for the year ended 31 March 1981.

(D) CHANGES—

There have been no changes in accounting principles used that would significantly affect profit or financial position.

Amortization of loss on trading Govern- ment stock	(75)	(59)
Other trading profits	20	26
	<u>(55)</u>	<u>(33)</u>

5. There is no charge for taxation in the profit statement because the accounting profit is wholly covered by timing differences in respect of accrued interest on securities which have arisen during the year and which are expected to continue in the foreseeable future and which are therefore treated as permanent differences. The cumulative taxation effect of such differences for which deferred taxation has not been provided amounted to \$771,567 to 31 March 1981.

AUDITORS REPORT

To the Trustees of the Waikato Savings Bank.

We have obtained all the information and explanations that we have required. In our opinion proper accounting records have been kept by the Bank so far as appears from our examination of these records.

In our opinion the accompanying Funds Statement, Profit Statement and Balance Sheet give, using the historical cost method, a true and fair view of the changes in the financial position and the results of the business of the bank for the year ended 31 March 1981, and the financial position as at that date.

GENERAL PUBLICATIONS

CROWN COLONY GOVERNMENT IN NEW ZEALAND

By *A. H. McLintock*

475 p., illustrated. 1958. \$4.50

This book, which deals with a little known and understood period of New Zealand history, comprises three distinct sections, first, the Coming of Sovereignty; secondly, Men and Government; and thirdly, the Evolution of a Constitution. While this book will be of special interest to New Zealanders it will command a wider audience since it contains much that is new with respect to British colonial policy in the first half of the nineteenth century.

A DICTIONARY OF THE MAORI LANGUAGE

507 p. 1975

\$7.50 plus 70c p & p

By *H. W. Williams*

The seventh revised edition, augmented by the advisory committee on the teaching of Maori language.

DIRECTIONS FOR EDUCATIONAL DEVELOPMENT

A REPORT PREPARED BY THE ADVISORY COUNCIL ON EDUCATIONAL PLANNING

141 p. 1975.

\$2.50

This report marks the culmination of the activities of the Educational Development Conference. The Advisory Council has recommended the directions it considers New Zealand education should go in the next 5 or 10 years.

Five principal areas are identified as requiring attention. Education is seen as a lifelong activity, and emphasis is

therefore placed on the "foundations"—early childhood education, the school curriculum and special provisions for special needs, and parent education.

Special attention is given also to the relationship between the school and the community, the need for close mutual support and co-operation, including understanding and respect for minority cultures.

A key to the quality of education is the people involved in it. Teacher education, the availability of advisory and ancillary staff, as well as resources for materials and research, have a chapter devoted to them.

Since education is seen as a lifelong activity, this is considered at some length. Facets such as accessibility, transfer of credits, and the role of existing institutions are discussed, together with ways in which continuing education could be provided for the whole community.

In discussing the administration and organisation of education the principle followed is the maximum devolution of authority and responsibility to the agencies and the community, as for instance, school committee and district level.

EFFECTIVE DISCUSSION

52 p.

\$1.15 plus 35c p & p

Although originally written for staff training purposes in the Public Service, this booklet became popular with outside organisations as a guide to the conduct of meetings. It describes planning and organising both large and small group discussions and contains many useful hints which will help the discussion leader to get the best out of his group, whether he is an old hand or a novice at leading discussions. Also included are lists of books for further reading and recommended films. (State Services Commission.)

EGMONT NATIONAL PARK

National Park Handbook

85 p. Illustrated with maps. 1976, 3rd edition. \$2 plus 45c p & p

This handbook seeks to heighten the enjoyment of visitors to the park by providing a greater knowledge and appreciation of the wealth of natural resources, scenic grandeur, and distinctive vegetation, found in this park.

New chapters include mountaineering, ski-ing, high climbing, ornithology, climatology and Maori history.

FETTERED FREEDOM—A SYMBIOTIC SOCIETY OF ANARCHY

By *B. L. Dallard*

DEPARTMENT OF JUSTICE

162 p. 1980

\$8.95 plus 70c p & p

In this book on penal sanctions Mr Dallard sets out the conclusions of a life time experience and a vast fund of knowledge. His historical survey of prisons and imprisonment of earlier times reveals the penal philosophy and the administrative practices which we now find appalling and intolerable. Mr Dallard's comments on the controversial topics of homosexual behaviour and of capital and corporal punishment, both now abolished, are revealing and provocative.

FISHING METHODS AND DEVICES OF THE MAORI

By *Elsdon Best*

National Museum Bulletin No. 12

264 p.

\$15.95 plus \$1.25 p & p

Another in the series of the Best publications, it has been reprinted without revision so that the basic studies may be accessible in the original style.

This particular bulletin still remains the only comprehensive account of most aspects of Maori fishing. The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made. The detailed fishing methods outlined are accompanied by descriptions of the artifacts used, together with associated chants, magic formulae, special observances, and fishing lore.

421 p. 1977. \$17.95 plus \$1.25 p & p
Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.
