PURSUANT to section 33 of the Reserve Bank of New Zealand Act 1964, the Reserve Bank, acting with the approval of the Minister of Finance, hereby gives notice that as from and including 1 October 1981 and until further notice, each trading bank shall maintain during each calendar month balances at the Reserve Bank plus holdings of Reserve Bank notes and of New Zealand Government securities, such that the aggregate of the averages of those balances and holdings during that calendar month (determined in accordance with clauses 1, 2, 3 and 4 of this notice) equals or exceeds the aggregate of:

17.0 percent of that trading bank's average demand and time deposit liabilities in New Zealand in the immediately preceding calendar month (determined in accordance with the provisions of clause 5 of this notice);

Provided that a trading bank may make up its balances and holdings as aforesaid for a calendar month to the amount hereinbefore required for that calendar month by way of borrowings from the Reserve Bank made during the next following calendar month and on terms and conditions to be determined by the Reserve Bank; and the proceeds of all such borrowings shall be credited to the account of that trading bank with the Reserve Bank termed "Contra Deposit Account" and on terms and conditions to be determined by the Reserve Bank.

For the purposes of this notice:

- (1) Balances held by a trading bank at the Reserve Bank shall (subject to clause 6 of this notice) include both demand deposit balances and time deposit balances of that trading bank.
- (2) The average of a trading bank's holdings of Reserve Bank notes for a calendar month shall be the average of the figures shown in all weekly returns of Banking Statistics by that trading bank under the Statistics Act 1975 received during that calendar month.
- (3) The average of a trading bank's balances at the Reserve Bank and holdings of New Zealand Government securities for a calendar month shall in each case be the average of the figures for balances and such securities held by that trading bank on each day during that calendar month.
- (4) Government securities held by a trading bank shall consist of Government stock and Treasury bills (all at nominal value) held by that trading bank.
- (5) The average demand and time deposit liabilities of a trading bank in a calendar month shall be the average of the figures for days within that calendar month, as shown in that trading bank's weekly returns of Banking Statistics under the Statistics Act 1975.
- (6) The proceeds of any borrowing made by a trading bank pursuant to the proviso to this notice shall be deemed to be a part of and be included in the balances held by that trading bank at the Reserve Bank on the last day of the preceding calendar month;

and the proceeds of any such borrowing shall not be included in the balances held by that trading bank at the Reserve Bank during any other calendar month.

Exchange Rates

IN terms of section 25 (2) of the Reserve Bank of New Zealand Act 1964, the Reserve Bank today released outer limits for rates of exchange to be used in transactions involving the conversion of New Zealand currency into foreign currencies and foreign currencies into New Zealand currency when delivery of the foreign currency dealt in will be effected by telegraphic transfer. The following range of rates, for the main currencies used by New Zealand traders in settling foreign exchange transactions, will remain in force until replaced by a new Schedule issued by the Reserve Bank. These rates do not apply to transactions for settlement after the expiration of two business days (forward transactions) or to transactions in which instruments are purchased which do not entitle the buyer to foreign currency balances in the foreign centre until the instruments have been delivered at the foreign centre. In the latter case interest at foreign centre rates may be deducted from the telegraphic transfer rate to compensate the purchaser for his loss during the transit period.

The Standards Act 1965—Draft New Zealand Standard Specification Available for Comment

PURSUANT to subsection (3) of section 23 of the Standards Act 1965, notice is hereby given that the following draft New Zealand standard specification is being circulated.

Number and Title of Specification

DZ 623 General conditions for construction contracts. \$8.

This draft revision of NZS 623:1964 has been prepared by a special committee representing the Association of Consulting Engineers New Zealand, the Municipal Division of the New Zealand Institution of Engineers, and the Contractors' Federation and agreed to in principle by them.

The revision proposed in 1978, drafted as DZ 3903, was found unacceptable. This new draft is little different to the existing NZS 623 but has been put into more logical order and the legalistic style replaced by plain English.

All persons who may be affected by this publication and who desire to comment thereon, may obtain copies at the price shown, from the Standards Association of New Zealand, Wellington Trade Centre, 15-23 Sturdee Street (or Private Bag), Wellington.

NOTE—Payment must accompany all requests for drafts.

The closing date for receipt of comment is 8 January 1982.

Dated at Wellington this 24th day of September 1981.

DENYS R. M. PINFOLD,
Director, Standards Association of New Zealand.

AUDITORS' REPORT

We report that we have examined the balance sheet of the Bay of Plenty Savings Bank as at 31 March 1981, and the profit and loss account for the year ended on that date, and have received all the information and explanations we have required.

In our opinion, the above balance sheet and profit and loss account present fairly the financial position of the bank as at 31 March 1981 and the results of the operations for the year ended on that date, and were in general conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

GILFILLAN MORRIS AND CO.,
Chartered Accountants.

Tauranga, May 1981.

The notes following form part of, and should be read in conjunction with the above financial statements.

NOTES TO THE ACCOUNTS

A. Statement of accounting policies—The general accounting principles recommended by the New Zealand Society of Accountants for the measurement and reporting of results on an historical cost basis, consistent with previous years, have been used in the preparation of the financial accounts.

The following particular principles have been applied:

Note 1: Depreciation—Straight-line depreciation has been applied to the Bank's E.D.P. equipment to write it off over the period of its expected useful life. All other assets have been depreciated at the rates allowable by the Inland Revenue Department. The difference between these rates, and the straight-line method, is not considered to be material.

Note 2: Government stock—It has been the bank's policy to amortise total discounts and premiums on Government stock securities over the term of the investment on a straight-line basis and to show the value of the stock in the balance sheet at its cost price adjusted by amortised discount or premium to date. From 1 April 1980 there has been an additional adjustment to recognise the accrued interest content as revenue in the purchase or disposal of stocks.

Note 3: Personal loans—The bank's policy is to add total interest due to the loan when advanced, and interest is brought into revenue on the basis of the "Rule of 78".

Note 4: Taxation—

(a) The provision for income tax charged in the profit and loss account is the calculated tax liability in respect of the accounting profit after adjusting for permanent differences;

(b) The provision for deferred taxation arises from timing differences relating to income accrued into the accounts but not received as at balance date.

B. Associate company—The bank's investment in Northern Trustee Computerbank Ltd. has been shown in the accounts according to the standard accounting practice adopted by the New Zealand Society of Accountants for an associate company.

The investment is made up as follows:

Debentures	33,000
Paid-up shares	80,000
Share of accumulated profit, less dividends received, to year ended 31 March 1980	75,262
	<u>188,262</u>
Plus share of profit for the year ended 31 May 1980	55,671
Less share of provision for taxation	33,689
	<u>21,982</u>
Less dividend received	8,000
	<u>13,982</u>
Investment as per balance sheet	<u>\$202,244</u>

C. Fixed assets—
