**Notice Under Manapouri - Te Anau Development Act 1963—  
Operating Guidelines for Levels of Lakes Manapouri - Te Anau**

It has been agreed between the Crown and the Guardians of Lakes Manapouri and Te Anau that the following guidelines shall apply to the operation for hydro-electric purposes of Lakes Manapouri and Te Anau and the associated power station.

1. The parties recognise 3 operating ranges for each lake namely: Main, high and low as set out in the tables below.

In the main operating range the Crown may operate within the levels set out but will endeavour to maintain continuous variations within that range.

In the high and low operating ranges the Crown will use its best endeavours to stay within the durations and intervals shown in the relevant table at the levels set out.

<b>(a) Main Operating Range</b>		
<i>Lake Manapouri</i>	<i>Lake Te Anau</i>	
From 176.8 to 178.6 m (580 to 586 ft)	From 201.5 to 202.7 m (661 to 665 ft)	

**(b) High Operating Range**  
*Lake Manapouri*  
Above 178.6 metres

<i>Elevation (Metres)</i>	Max. Duration (Continuous Days)	Min. Interval Between Floods to this level (Continuous Days)	Interval/Duration* Ratio
At 180.5	1	100	100.0
Above 180.4 and below 180.5	3	100	33.0

Above 178.6 and below 178.9	119	20	0.2

\*Periods less than specified in table

1. If the ratio between "interval" and "previous duration" for any particular event equals or exceeds the ration in the table, the requirements of the guidelines are complied with.

2. If the ratio so calculated is less than the ratio in the table, then for the purpose of compliance, the duration is considered to include the subsequent interval.

3. Periods of duration, including subsequent intervals if appropriate, are accumulated until the required ratio is achieved.

4. Accumulated periods of duration, as defined in paragraph 3 should not exceed the permissible maximum.

*Lake Te Anau*  
Above 202.7 metres

<i>Elevation (Metres)</i>	Max. Duration (Continuous Days)	Min. Interval Between Floods to this level (Continuous Days)	Interval/Duration* Ratio
At 204.3	1	100	100.0
Above 204.2 and below 204.3	3	100	33.0

To be treated as for Lake Manapouri.

**(c) Low Operating Range**  
*Lake Manapouri*  
175.86 metres to 176.8 metres

<i>Elevation (Metres)</i>	Max. Duration (Continuous Days)	Annual Frequency
Below 176.8 and above 176.5	105	4
Below 176.5 and above 176.2	65	2
Below 176.2 and above 175.9	52	2
At 175.86	25	<1*

\*Exceptional circumstances only with best endeavours to avoid equinoxial periods (March, April, October and November).

*Lake Te Anau*  
From 200.86 to 201.5 metres

<i>Elevation (Metres)</i>	Max. Duration (Continuous Days)	Annual Frequency

Below 201.2 and above 200.9	55	2
At 200.86	1	<1*

\*Exceptional circumstances only with best endeavours to avoid equinoxial periods (March, April, October and November).

In the main operating range the aim will be to achieve as far as practicable a long term mean value within the range 178.1 m (584.3 ft) to 177.7 m (583 ft) for Manapouri and 202.2 m (663.4 ft) to 201.8 m (662.1 ft) for Te Anau as five year running means and on an annual basis not less than 177.2 m (581.4 ft) for Manapouri and 201.6 m (661.7 ft) for Te Anau. Operation in the low ranges should not exceed natural rates of draw down, namely 0.05 m (0.2 ft) per day for Lake Manapouri and 0.03 m (0.1 ft) per day for Lake Te Anau, both being averaged over four days.

2. (a) The gate opening and closing procedures adopted for the Te Anau Control structures are designed amongst other things to reduce or eliminate scour action on the upper Waiau river banks and to facilitate repair following periods of extremely high flow, and these may be modified from time to time based on experience.

(b) The gate opening and closing procedures adopted for the Manapouri Lake Control structure are designed amongst other things to reduce potentially dangerous increases in river flow downstream of the gates and to bypass flood flows from the Mararoa River in such a manner as to prevent the dirty debris-laden water from entering Lake Manapouri.

3. For the purposes of the Manapouri-Te Anau Development Amendment Act 1981.

(a) The level of Lake Te Anau at any time shall be determined by reference to the Lands and Survey Benchmark Z58, National grid co-ordinates (176 284) yards east (319 170) yards north, which is adjacent to the lake water level recorder and staff gauge. The benchmark shall be deemed to represent a height 205.127 metres above sea level.

(b) The level of Lake Manapouri at any time shall be determined by reference to the Lands and Survey Benchmark Z47, National grid co-ordinates (170 051) yards east (305 873) yards north. The benchmark shall be deemed to represent a height of 208.910 metres above sea level.

Dated at Wellington this 16th day of November, 1981.

W. F. BIRCH, Minister of Energy.

*Decision of the Films Censorship Board of Review*

PURSUANT to section 82 of the Cinematograph Films Act 1976, Twentieth Century Fox Ltd. applied for a review of the feature film *Endless Love*. The review was held in Wellington on 13 November.

*Endless Love*, as the title suggests, is concerned with the universal theme of adolescent love which knows no bounds in the eyes of the lovers, but about which parents are more sceptical. Despite the liberal approach of Jade's parents in the bringing up of their children, Jade's father resents the intrusion into family life represented by her boyfriend, David. He considers the affair to be getting out of hand when it becomes apparent that the young couple are sleeping together in his home, and imposes a 30-day separation.

This separation precipitates a crisis which not only separates the young lovers, but also both sets of parents. A fire is lit by David in front of Jade's house in a desperate bid to gain attention, but this, symbolically enough, gets out of control, and destroys the house. After two years in a mental institution David sets out to seek Jade, and in the process is the innocent cause of the death of Jade's father. Amidst the confusion and trauma the film salvages the hope of a happy ending for the young lovers.

None of the Board members considered the film to be offensive or objectionable, but were concerned with establishing the age at which sexually explicit scenes could become injurious to the public good for a young audience. Most members felt that an R13 classification without excisions would be too low and favoured the higher classification of R14 if no excisions were to be made. One member was of the opinion that because sexual development in individual children varies so greatly, a determination between R13 and R14 would be a most arbitrary decision for the Board to make. After further consideration the Board determined that one scene of sexual intercourse in Jade's bedroom was sufficiently sexually explicit to be considered injurious to the public good of a young audience and should be excised if the film were to receive an R13 classification.

The distributor agreed to the suggested excision in terms of section 29 (3) of the Act, and the Board agreed unanimously that the film should be classified R13 with one excision.

J. M. PRIESTLEY, Chairman.

- (5) The average demand and time deposit liabilities of a trading bank in a calendar month shall be the average of the figures for days within that calendar month, as shown in that trading bank's weekly returns of Banking Statistics under the Statistics Act 1975.

*Limitation of Harmonic Levels Notice 1981*

PURSUANT to regulation 49 of the Electrical Supply Regulations 1976, the Secretary of Energy hereby prescribes the following limits in the level of harmonics from any apparatus or appliance.

1. (a) This notice may be cited as the Limitation of Harmonic Levels Notice 1981 and shall come into force 12 months from the date of its notification in the *Gazette*.

(b) This notice shall not apply to electrical signals introduced by any Electrical Supply Authority for the purposes of load control.

(c) The limits specified in clauses 8 and 9 hereof shall not apply to any Electrical Supply Authority.

2. For the purposes of this notice:

"Current" means root mean square current.

"Harmonic" means a sinusoidal component of an alternating current or voltage, with a frequency which is an integral multiple of the actual system frequency.

"Harmonic order (n)" means the number of times the harmonic frequency is an integral multiple of the actual system frequency.

"Point of common coupling" means that busbar electrically closest to any consumer through which any current must flow to that consumer and one or more other consumers.

"Voltage" means root mean square voltage.

3. (a) The phase to earth harmonic voltage at any point of common coupling with a nominal system voltage of less than 66 kV shall not exceed 4 percent for any odd numbered harmonic order or 2 percent for any even numbered harmonic order where these limits are expressed as a percentage of the nominal phase to earth system voltage.

(b) Any measurement of harmonic voltages to ascertain if they are within the limits set out in paragraph (a) hereof shall be made under the conditions and in the manner set out in the Schedule hereto.

4. (a) The total harmonic voltage distortion at any point of common coupling with a nominal system voltage of less than 66 kV shall not exceed 5 percent. The total harmonic voltage distortion ( $U_T$ ) shall be calculated according to the following formula:

$$U_T = \sqrt{\sum_{n=2}^{50} U_n^2}$$

where  $U_n$  is the measured phase to earth harmonic voltage of harmonic order n expressed as a percentage of the nominal phase to earth system voltage.

(b) All harmonic voltages referred to in the formula set out in paragraph (a) hereof shall be measured within a thirty minute period under the conditions and in the manner set out in the Schedule hereto.

5. (a) The harmonic voltage corresponding to any of the odd numbered harmonic orders listed in the table below shall not at any point of common coupling at a nominal system voltage of 66 kV or above exceed the limit specified in the said table for that harmonic order.

Harmonic Order (n)	Voltage Limit (Phase to earth harmonic voltage expressed as a percentage of the nominal phase to earth system voltage)
2	1.2
4	0.6
6	0.4
8 and 10	0.3
12 to 50	0.2

(c) Any measurement of harmonic voltages to ascertain if they are within the limits set out in paragraphs (a) and (b) hereof shall be made under the conditions and in the manner specified in the Schedule hereto.

6. (a) The equivalent disturbing voltage shall not exceed one percent on any phase at any point of common coupling with a nominal system voltage of 66 kV or above.

(b) The equivalent disturbing voltage (E.D.V.) shall be calculated according to the following formula:

$$E.D.V. = 6.25 \times 10^{-5} \sqrt{\sum_{n=2}^{50} (n^2 P_n U_n)^2}$$

Where  $P_n$  is the weighting given to frequency 50n in the psophometric weighting table.

$U_n$  is the measured phase to earth harmonic voltage of harmonic order n expressed as a percentage of the nominal phase to earth system voltage.

(c) The psophometric weighting table referred to in paragraph (b) hereof is that which is labelled Table 1 and set out in paragraph 1.3.1 of Chapter XV of the International Telegraph and Telephone Consultative Committee (CCITT) Directives concerning the protection of communication lines against harmful effects from electricity lines.

(d) All harmonic voltages referred to in the formula set out in paragraph (b) hereof shall be measured within a thirty minute period under conditions and in the manner set out in the Schedule hereto.

7. The Secretary may determine equitable harmonic limits for each consumer at any point of common coupling so that the limits specified in Clauses 3, 4, 5 and 6 hereof are not exceeded.

8. (a) The harmonic current, flowing between any consumer and that consumer's point of common coupling, which corresponds to any of the odd numbered harmonic orders listed in the table below shall not exceed the limits specified in the said table for that harmonic order.

Harmonic Order	Harmonic Current Limit (Amperes at nominal system voltage)		
	220 kV	110 kV	66 kV
3	5.7	2.9	1.7
5	3.4	1.7	1.1
7	2.5	1.3	0.8

17	1.0	0.5	0.3
19 and 21	0.9	0.5	0.3
23	0.8	0.4	0.3
25 to 49	0.7	0.4	0.3

(b) The harmonic current, flowing between a consumer and that consumer's point of common coupling, which corresponds to any of the even numbered harmonic orders listed in the table below shall not exceed the limits specified in the said table for that harmonic order.

Harmonic Order	Harmonic Current Limit (Amperes at nominal system voltage)		
	220 kV	110 kV	66 kV
2	2.9	1.5	0.9
4	1.5	0.8	0.5

12 and 14	0.5	0.3	0.2
16 and 18	0.4	0.2	0.2
20 to 50	0.3	0.2	0.2

(c) Any measurement of harmonic currents to ascertain if they are within the limits set out in paragraphs (a) and (b) hereof shall be made under the conditions and in the manner specified in the Schedule hereto.

9. (a) The equivalent disturbing current for any of the nominal system voltages listed in the table below shall not at any point of common coupling exceed the value set out in the said table for that nominal system voltage.

Nominal System Voltage	Equivalent Disturbing Current (E.D.I.)
66 kV	0.8 amperes
110 kV	1.3 amperes
220 kV	2.6 amperes

The equivalent disturbing current (E.D.I.) shall be calculated according to the following formula:

$$\text{E.D.I.} = 6.25 \times 10^{-5} \sqrt{\sum_{n=2}^{50} (nP_n I_n)^2}$$

Where  $P_n$  is the weighting of frequency  $50n$  in the psophometric weighting table.  
 $I_n$  is the measured harmonic current of harmonic order  $n$  expressed in amperes.

CNG cylinders are approved subject to the following conditions—

- That they be permanently and clearly marked, either on a thickened portion of the cylinder or on a suitably attached metal plate, with characters not less than 6 mm high if space permits but in any case not less than 3 mm high, displaying the following information:
  - The specification to which the cylinder was manufactured.
  - The manufacturer's name or mark, and the serial number of the cylinder.
  - The date of the original cylinder inspection and the identification mark of the inspection authority who made the inspection.
  - The date of any periodic cylinder test and the identification mark of the cylinder testing station who made each test.
  - The cylinder test pressure.
  - The charging pressure of the cylinder at 15°C.
  - The nominal water capacity of the cylinder.
  - The tare weight of the cylinder.
  - An identification that the cylinder is suitable for use with CNG.
- That the cylinders be provided with valve threads of the form specified in British Standard BS 341 "Valve Fittings for Compressed Gas Cylinders".
- That the cylinders be tested at periods not exceeding five years in accordance with the periodic test requirements laid down in the specification to which the cylinder was manufactured.
- That the cylinder be provided with a cylinder shut-off valve designed for a working pressure of 16.5 MPa and capable of withstanding the test pressure of the cylinder. Cylinder shut-off valves shall be fitted with a hand wheel to facilitate ease of opening and closing of the valve and shall be fitted with a pressure relief device comprising of a burst disc backed by fusible alloy. The fusible alloy is to have a nominal yield temperature of 100° Centigrade and the burst disc shall yield at a pressure of not less than 24.75 MPa and not more than the test pressure of the cylinder. Cylinder valves shall be provided with an outlet thread of  $\frac{1}{4}$  inch NPT (female) and a stem thread compatible with the cylinder neck thread.

**BEEKEEPING IN NEW ZEALAND**

By T. S. Winter

Ministry of Agriculture and Fisheries Bulletin 267

155 p. 1980 reprint. \$8.95 plus 70c p &amp; p

Though fundamental successful beekeeping is the same the world over, the varying seasonal conditions and the variety of nectar sources in different areas mean that the beekeeper must study local conditions and adjust his methods accordingly. Three factors govern success in beekeeping—locality, management, and the right strain of bees. This excellent book covers all aspects of beekeeping in text, photographs, and illustrations.

**BALLROOM DANCING—A guide book for teachers and pupils**

DEPARTMENT OF EDUCATION

89 p. 1978. \$3 plus 45c p &amp; p

Almost all people as they move through their teens to adulthood are introduced to the undoubtedly pleasurable and universal activity, ballroom dancing.

As a new edition to the sports instruction series this book makes an effort to cover the basic steps in a variety of dances. It is intended mainly for beginners and therefore the more technical terms or finer amounts of turn and footwork are not included.

The book is well illustrated throughout with black and white photos and line drawings.

**FISHING METHODS AND DEVICES OF THE MAORI**By *Elsdon Best*

National Museum Bulletin No. 12

264 p. \$15.95 plus \$1.25 p &amp; p

Another in the series of the Best publications, it has been reprinted without revision so that the basic studies may be accessible in the original style.

This particular bulletin still remains the only comprehensive account of most aspects of Maori fishing. The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made. The detailed fishing methods outlined are accompanied by descriptions of the artifacts used, together with associated chants, magic formulae, special observances, and fishing lore.

**FOREST LORE OF THE MAORI**By *Elsdon Best*

DOMINION MUSEUM BULLETIN No. 14

421 p. 1977. \$17.95 plus \$1.25 p &amp; p

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.

Includes an account of musical instruments and Maori song together with games and pastimes of a relaxing nature as well as those involved in ritual and training.

**GLASSHOUSE TOMATOES—Agriculture Bulletin 3370**

DEPARTMENT OF AGRICULTURE

Department of Education.

**LIVING LETTERS**

STATE SERVICES COMMISSION

36 p. 1980 reprint. \$1.75 plus 45c p &amp; p

One of the aims in letter writing is to get ideas across to the reader clearly and briefly. But do letters always say what is meant? Even if they are clear to the writer, will the reader understand them easily? If you are still using the old clichés of "acknowledging receipt of", "according to our records", and "enclosed please find" it is almost certainly time to change your attitude to writing living letters.

**MAORI RELIGION AND MYTHOLOGY PART 1***By Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 10

424 p. 1976. \$18 plus \$1.25 p &amp; p

An account of the theory of the universe and its creation, study of the origin of man, religious beliefs, rites, magic and folklore of the Maori people of New Zealand. First published in 1924, reprinted without textual alterations and retaining the original bulletin numbers. (Government Printer.)

**MAORI***By Witi Ihimaera*

45 p. 1975. \$1.20 plus 35c p &amp; p

A colourful booklet describing the coming of the Maori to New Zealand, his history, heritage, folklore, beliefs, and cultural unity.

Each chapter has a quotation from a Maori proverb, phrase, saying, or canoe chant and these concepts are presented in words and pictures.

Continues with the arrival of the pakeha and the pattern of events which followed, the Treaty of Waitangi and the Land Wars. Moves on to the Maori today, finishing with the theme, one country, two heritages in unity.

Well illustrated with 64 coloured photos, of interest to all New Zealanders and tourists. (Tourist and Publicity Department.)

**MAORI AGRICULTURE***By Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 9

315 p. 1976. \$13.50 plus \$1.25 p &amp; p

The only comprehensive study of Maori agriculture available, this bulletin adds a further volume to the series of Elsdon Best's works which the Government Printer undertook to reprint preserving the original text and bulletin numbers. I recommend this book and the series as a whole; to collectors, archaeologists, and to those studying the prehistoric economy of the Maori people. (Government Printer.)

**THE MAORI AS HE WAS***By Elsdon Best*

295 p. 1974 reprint. \$6.50 plus 70c p &amp; p

Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

**THE MAORI CANOE***By Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 7

451 p. 1976. \$17.50 plus \$1.25 p &amp; p

A recent edition without textual alterations and retaining the old Dominion Museum number. Another example of Elsdon Best's dedicated effort to preserve Maori culture. The material presented on canoes, their materials, types, methods of construction, and associated artifacts make interesting reading for the layman as well as for scholars of the Maori. (Government Printer.)

**MOA-HUNTER PERIOD OF MAORI CULTURE**

ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1

436 p. 3rd edition, 1977. \$17.50 plus \$1.25 p &amp; p

This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.

A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the gravels of the Wairau boulder bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition.

Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.

**NETBALL Revised—A Guide Book for Teachers, Coaches and Players**

DEPARTMENT OF EDUCATION

58 p. 1978. \$2 plus 45c p &amp; p

Netball is a spectacular exciting game which is played and enjoyed in many countries both by the very young and the more experienced and mature international players.

To obtain the utmost enjoyment it is essential that each player becomes skilful in the techniques and tactics of the game and to know and understand the rules.

While the publication is specially designed to assist teachers, coaches and players in schools, people interested in netball at all levels should find the material contained in this booklet of great assistance.

**NATIONAL PARKS OF NEW ZEALAND**

178 p. Revised third edition, 1974. \$10.50 plus \$1.25 p &amp; p

The revision of this popular publication has included numerous new colour plates and additional information on some of our parks. Because of the popularity of this book it is expected this edition will be in great demand. In addition to the book being an ideal souvenir for the overseas visitor it makes an ideal gift and also a valuable asset to anyone's home library.

**THE PA MAORI***By Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 6

459 p., illustrated. Reprinted 1975. \$15 plus \$1.25 p &amp; p

The bulletin contains a wealth of information and descriptions of many Pa sites and structures. Although great advances in archaeology have modified some of the details listed by Best and some of the PAs included in the book no longer exist, the information contained in this bulletin is still an important contribution in this field and is not readily available elsewhere.

**ORIENTEERING**

DEPARTMENT OF EDUCATION

86 p. 1980. \$6.75 plus 70c p. and p.

This book introduces navigation skills and techniques and gives rules for course setters. Fully illustrated with maps, diagrams and photographs.

**SHADOW OF THE LAND***By Ian Wards*

422 p. 1968. \$9 plus 70c p &amp; p

The title for this book was provided by Nopera Panakarero, a Kaitiā chief of much influence, who, in May 1840, believed that only the "shadow of the land" had gone to Queen Victoria whilst the substance remained with the Maoris. Less than a year later he revised this opinion convinced that only the "shadow" would be the Maori portion.

The author examines the British acquisition of New Zealand, the Maoris, trust in the Treaty of Waitangi, and their confidence that its terms would be honoured and explains it was only by accident that the Maoris were guaranteed the possession of their lands and ancient privileges.

It is under these circumstances that the book considers the use of military force in New Zealand, analyses the arguments surrounding the provision of troops and concludes that, beyond any reasonable doubt that there was never an attempt to govern by "moral suasion".

New Zealand followed the normal nineteenth century British pattern of territorial acquisition.

The book is an essential introduction to the Maori wars of a later date.

**TE REO RANGATIRA**

*By S. T. Karety*

197 p. illustrated 1974. \$4.50 plus 45c p & p  
A textbook for students of the Maori language written in the "Tuhoē" dialect. Its subject is contemporary Maori life with those aspects of the Maori heritage which prevail in it. This book is intended for advanced fifth formers and the sixth and seventh forms.

**TREES AND SHRUBS OF NEW ZEALAND**

*By A. L. Poole and Nancy M. Adams*

257 p. 1979 fourth impression with amendments. \$15.95 plus \$1.25 p. and p.

This book has been designed especially to assist many people who lack a formal botanical training yet are deeply interested in New Zealand's tree and shrubs and want to be able to identify them and name them correctly. There is a complete coverage of the native trees and shrubs and over 400 species have been illustrated.

**VIRUS AND VIRUS-LIFE DISEASES OF POME FRUITS AND STONE FRUITS IN NEW ZEALAND**

DSIR BULLETIN No. 226

*By C. A. Wood*

87 p. 1979. \$13.50 plus \$1.25 p. and p.  
Illustrated descriptions are given of the 11 apple, 5 pear, 5 peach, 4 plum, 3 apricot, and 6 cherry diseases which have been found up to the present time.

**WEED CONTROL BY CHEMICAL METHODS**

*By L. J. Mathews*

AGRICULTURE AND FISHERIES BULLETIN 329

710 p. Hard cover, 1975. \$35 plus \$3 p & p  
Possibly no subject in the whole field of agricultural technology has advanced as rapidly in recent years as that of chemical methods of weed control. This publication summarises and makes specific recommendations based on the experimental work conducted largely by the New Zealand Department of Agriculture. The book is divided into five sections:

- Section 1—Principles of weed control and the uses of chemical weed killers.
- Section 2—Supplies information on the control of many of New Zealand's worst weeds.

**THE WHARE KOHANGA AND ITS LORE**

*By Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 13

93 p. Reprint 1975. \$5.75 plus 70c p & p  
In this study of Whare Kohanga (the "Nest House") is contained data of baptism rites performed over infants of superior families only, together with other cultural ceremonies applied to infants of high birth. The information obtained was contributed by members of the Ngati-Kahungunu tribe of the North Island. The text has been retained in its original style in the belief that these basic studies should still be readily available without textual alteration.

- Section 3—Gives recommendations for the control of weeds in crops, pastures, and other specific areas.
- Section 4—Describes the chemicals and summarises their uses.
- Section 5—Deals with application of herbicides.
