#### Industries Development Commission Notice No. 1982/1—Closer Economic Relationship with Australia—Industries Development Commission Guidelines

(1) In a letter of 4 February 1982 the Minister of Trade and Industry advised the Commission of the guidelines which should be taken into account by the Commission in considering recommendations relating to the deferral of products from CER or the terms under which deferred products should become subject to the normal CER formulae.

## (2) The Minister's letter reads:

"As part of the negotiations on the proposed Closer Economic Relationship with Australia, it has been decided to set down guidelines within which we would wish the Commission to consider general questions relating to deferral from CER, and the terms under which products initially deferred from CER will become subject to the normal CER formulae.

Therefore, I advise the Commission that in regard to the possible deferral from CER of industries or products with respect to which the Government has requested or will be requesting the Commission to report, the guidelines within which we would wish the Commission to consider general questions relating to deferral from CER, and the terms under which products initially deferred from CER will become subject to normal CER formulae, are as follows:

- (a) Deferral may be recommended by the IDC for up to two years, or up to three years where an extra year is needed for assessing results from import testing; or, in the most exceptional circumstances, deferral may be recommended for periods longer than three years;
  - (b) Deferral shall not be recommended to the Government without substantive reason;
  - (c) There shall be no recommendations for interim deferral periods (which would involve subsequent reviews to examine when deferral might end);
  - (d) Deferral shall not be recommended in the case of industries referred to the IDC after agreement on the terms of any CER has been reached between the two governments;
  - (e) In the case of goods for which the IDC wishes to recommend deferral, it may recommend interim movement in access for Australia goods less than, or different from, that provided for in the CER formulae."
- (3) Parties to current and future inquiries undertaken by the Commission should have regard to these guidelines when making submissions to the Commission on the question of CER.

Dated at Wellington this 16th day of March 1982.

J. R. JENNER,

Secretary, Industries Development Commission.

*Industries Development Commission Notice No. 1982/2—  
Study of the New Zealand Canned Fruit Industry*

(1) In a letter of 4 February 1982, the Minister of Trade and Industry requested the Commission to undertake an inquiry into the canned fruit industry in New Zealand.

(2) The Commission is asked to prepare a development plan for the canned fruit industry. The Minister's letter reads:

"As part of the negotiations on the proposed Closer Economic Relationship with Australia, I have received a request from J. Wattie Canneries Ltd. that the Industries Development Commission inquire into and report on the canned fruit industry in New Zealand. When the company made its request it was in the context of having its request for deferral of canned fruit from CER examined by the IDC.

In view of the dominant position Watties holds within the canned fruit industry and the importance of fruit growing and processing to certain regions in New Zealand, it has been decided to accede to the company's request.

Therefore, I request the Commission:

- (a) To inquire into and report on the present situation of the canned fruit industry in New Zealand, and its potential for development, also taking into account the interests of fruit growers, consumers, and the distributive trade;
- (b) To recommend lines of development considered desirable and the nature and extent of assistance, if any, by way of protective devices or otherwise it considers appropriate for this industry;
- (c) In particular the Commission should also consider and report on the place of such products in the proposed CER with Australia, and to recommend conditions under which they should be included in CER at the end of any period of deferral agreed by the Government after receipt of your report;
- (d) For the purposes of this inquiry and report the term canned fruit may be taken to include those products covered by Item Code 20.035 of the 1981/82 Import Licensing Schedule, namely, apricots, apples, berryfruit, fruit salad, peaches, pears, and plums. These products fall within Tariff Items 20.06.061 (apricots) and 20.06.071 (the other canned fruits specified above) in the New Zealand Customs

Tariff. Any other fruit canned in New Zealand such as may fall within Tariff Item 20.06.089, being part of Item Code 20.010, may also be included should the Commission deem this appropriate.

I request that the Commission report to the Government on this matter no later than 30 September 1982.

In undertaking this inquiry the Commission may take evidence on and otherwise have regard to any other material or product it considers relevant to the inquiry, or exclude from its considerations any material or product it might consider not relevant to its inquiry.

I have written separately to you to advise you of the guidelines within which we would wish the Commission to consider general questions relating to deferral from CER, and the terms under which products initially deferred from CER will become subject to normal CER formulae. These guidelines will, therefore, apply to the reference on canned fruit in relation to CER."

(3) The Commission invites parties who have an interest in any of the areas covered by the above to register that interest in writing with the Commission not later than 31 March 1982.

Registration should include the following:

- (a) Name and address of party registering interest;
- (b) The goods to which the interest relates;
- (c) Status of interest under one or more of the following classes:
  - New Zealand processor of goods under reference;
  - Importers;
  - Distributors;
  - Fruit Growers;
  - Trade Unions;
  - Trade Organisations;
  - Other (specify).

(4) The Commission will, as soon as possible, distribute detailed guidelines for submissions and advise the timetable and procedures it intends to follow in undertaking this study.

(5) These procedures will involve the preparation and public distribution of a draft report based on the submissions received in response to the guideline questionnaires. This draft report will then be the subject of a public hearing following which the Commission will prepare its final report.

(6) Attention is also drawn to Industries Development Commission Notice No. 1982/1 which contains guidelines given by the Minister of Trade and Industry for the deferral of products from any Closer Economic Relationship with Australia.

Dated at Wellington this 16th day of March 1982.

J. R. JENNER,

Secretary, Industries Development Commission.

P.O. Box 27-046, Wellington.

**BEEKEEPING IN NEW ZEALAND**

*By T. S. Winter*

Ministry of Agriculture and Fisheries Bulletin 267

155 p. 1980 reprint. \$8.95 plus 70c p & p

Though fundamental successful beekeeping is the same the world over, the varying seasonal conditions and the variety of nectar sources in different areas mean that the beekeeper must study local conditions and adjust his methods accordingly. Three factors govern success in beekeeping—locality, management, and the right strain of bees. This excellent book covers all aspects of beekeeping in text, photographs, and illustrations.

Another in the series of the Best publications, it has been reprinted without revision so that the basic studies may be accessible in the original style.

This particular bulletin still remains the only comprehensive account of most aspects of Maori fishing. The descriptions of methods employed in fishing given here are still quite basic for any future studies in this field since no first-hand observations can now be made. **FOREST LORE OF THE MAORI**

*By Elsdon Best*

DOMINION MUSEUM BULLETIN No. 14

421 p. 1977. \$17.95 plus \$1.25 p & p

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.
