EXPLANATORY NOTE

This note is not part of this notice, but is intended to indicate its general effect.

The effect of this notice is to allow the continued use of LPG fuel cylinders which are known to have been imported into New Zealand prior to the introduction of the Dangerous Goods (Class 2-Gases) Regulations 1980 and which were acceptable under the previous dangerous goods requirements BUT whose working pressure rating would disqualify them for approval for general use under the Traffic Regulations 1976. They are approved subject to the additional proviso that they must not be exposed to direct sunlight (to reduce the possibility that solar radiation would raise the temperature of the contents of cylinder such that the developed pressure of the contents exceeded their working pressure rating.)

The terms of this approval does not allow the continued importation of such LPG fuel cylinders.

LPG Fuel System Approvals

PURSUANT to regulation 90B of the Traffic Regulations 1976* (as inserted by the Traffic Regulations 1976 Amendment No.7) and pursuant to the powers delegated to me by the Secretary for Transport, I, Trevor Alan Lister, Senior Automotive Engineer, hereby approve the components listed in the Schedule hereto for inclusion in any LPG automotive fuel system installed and operated in accordance with the requirements of New Zealand Standard NZS 5422 Part 1, 1980 (and any standard made in amendment thereto or in substitution therefor) subject to the conditions (if any) set out in respect of any component in the said Schedule.

LIVING LETTERS

STATE SERVICES COMMISSION

36 p. 1980 reprint. \$1.75 plus 55c p & p
 One of the aims in letter writing is to get ideas across to the reader clearly and briefly. But do letters always say what is meant? Even if they are clear to the writer, will the reader understand them easily? If you are still using the old clichés of "acknowledging receipt of", "according to our records", and "enclosed please find" it is almost certainly time to change your attitude to writing living letters.

(Government Printer.)

THE MAORI AS HE WAS

By Elsdon Best

295 p. 1974 reprint. \$6.50 plus 85c p & p
 Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

MAORI RELIGION AND MYTHOLOGY PART 1*By Elsdon Best*

NATIONAL MUSEUM BULLETIN No. 10

424 p. 1976.

\$18 plus \$1.50 p & p

MOA-HUNTER PERIOD OF MAORI CULTURE

ROGER DUFF—CANTERBURY MUSEUM BULLETIN No. 1

436 p. 3rd edition, 1977.

\$17.50 plus \$1.50 p & p

This book deals with the most important site yet investigated and in its discussions it traverses most of the New Zealand archaeological field.

A chance discovery in 1939 by a 13-year-old boy revealed the grave of a chief in the gravels of the Wairau boulder bank. The grave, goods, and bones of the ancient chief, prone in his gravel grave, with skull directed towards the setting sun, spoke with more authority regarding his race than the distorted memories of Maori tradition.

Although scholarly and technical, the book sustains throughout the drama of this archaeological discovery, and recreates from the evidence of bone and stone the life of our first Polynesians in the Moa-hunter period of Maori culture.

FOREST LORE OF THE MAORI*By Elsdon Best*

DOMINION MUSEUM BULLETIN No. 14

421 p. 1977.

\$17.95 plus \$1.50 p & p

Printed without textual alteration, the work provides an important basis for any study of old-time Maori economics and perhaps more important of his attitude to what was a major part of his environment. It will be more of general interest today than when first written, since it stresses so fully the uses made by the Maori people of their natural resources, and supplies basic materials for further studies in ethnobotany and ethnozoology. The reverence which the old time Maori showed towards natural resources mirrors the modern concern for ecological principles.

NATIONAL PARKS OF NEW ZEALAND

178 p. Revised third edition. 1974. \$10.50 plus \$1.50 p & p

The revision of this popular publication has included numerous new colour plates and additional information on some of our parks. Because of the popularity of this book it is expected this edition will be in great demand. In addition to the book being an ideal souvenir for the overseas visitor it makes an ideal gift and also a valuable asset to anyone's home library.
