#### NOTES TO THE ACCOUNTS

**Statement of Accounting Policies:** The general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of results and financial position on an historical cost basis have been followed in the preparation of these financial statements.

The following particular accounting policies which significantly affect the measurement of the Bank's profit and financial position have been applied on a basis consistent with the previous years.

**Depreciation:** Depreciable fixed assets are depreciated on a straight line basis at rates estimated to write off the cost, less residual value, over the useful life of each class of asset. The principal rates in use are:-

- Buildings 1% and 2½%
- Office Equipment, fixtures and fittings 10% and 20%
- Computer Equipment 12½%

**NOTE 1—Loss on Sale of Securities:** Low coupon Government Stock has been sold during the year to allow the Bank to purchase higher yielding Government Securities.

#### NOTE 2—Investment Accounts and Term Deposits:

**NOTE 3—Taxation:** The charge for income tax is the amount of tax liability in respect of the accounting profit for the year.

The liability for deferred taxation arises from items of income and expenditure being included in taxation calculations in periods different from those in which they are dealt with in the financial accounts. The significant timing differences relate to depreciation and accrued income.

### AUDITORS' REPORT TO THE BOARD OF TRUSTEES

WE, the undersigned, being the auditors of the South Canterbury Savings Bank appointed in terms of section 29 (3) of the Trustee Savings Banks Act 1948, report that: We have examined the balance sheet and accompanying financial statements and notes to the accounts for the year ended 31 March 1982. Our examination was made in accordance with the general principles of auditing and included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In accordance with an accounting policy of the Bank depreciation on fixed assets has been calculated to reduce each asset to its estimated residual value by the end of its probable useful life. The rates used are those approved by the Commissioner of Inland Revenue. It is considered that the amount charged in the profit and loss account does not differ materially from that which would result from calculating depreciation had the straight line method been adopted.

We have obtained all the information and explanations that we have required and in our opinion proper books of account have been kept by the Bank and the accompanying balance sheet together with the profit and loss account and the notes attached thereto give true and fair view of the financial position of the Bank as at 31 March 1982 and the results of its operations for the year then ended.

## SOUTH CANTERBURY SAVINGS BANK

NOTES FORMING PART OF THE ANNUAL ACCOUNTS FOR YEAR ENDED 31 MARCH 1982

## Statement of Accounting Policies

THE general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of profit on an historical cost basis have been followed by the Bank. Depreciation is not calculated on the straight line basis and a separate note regarding this item is set out in paragraph 2 (a) below.

The following particular accounting policies which materially affect the measurement and reporting of profit and the Bank's financial position have with the exception noted in 1 (b) been consistently applied—

## 1. Revenue Recognition—

(a) Interest received from investments includes interest accrued to 31 March 1982.

(b) Personal loans have been adjusted for interest yet to mature as shown in the balance sheet. The Bank's policy is to add interest to the advance at the commencement of the loan. This amount is brought into revenue during the appropriate financial years by applying the "Rule of 78". During the year just ended the personal loan records have been computerised and on the conversion some minor changes in accounting policies have been necessary in respect of the apportionment of interest between account periods. This has resulted in the deferment of interest amounting to \$6,951 from the current year to be brought into revenue over the remaining term of these particular loans. It is not considered that this amount would materially affect the results for the year.

(c) Interest paid and accrued on depositors' investment accounts has been calculated at the full rate payable on the assumption that all deposits will reach maturity.

## 2. Fixed Assets and Depreciation—

(a) The Fixed Assets, other than the computer equipment, have been depreciated at ordinary depreciation rates as approved by the Inland Revenue Department. Computer equipment has been depreciated at the first year rate of 25 percent of cost price and thereafter at 20 percent of the diminishing value each year. All assets still in use are included in the books and it is calculated that the depreciation rates being used will write off the items over the period of their useful lives. In accordance with the Bank's established policy no additional depreciation is provided for in the rates set by the Inland Revenue Department on the purchase of assets (other than the computer equipment) have been claimed for taxation purposes.

WANGANUI SAVINGS BANK

NOTES TO THE ACCOUNTS

1. *Statement of Accounting Policies*—The general accounting principles as recommended by the New Zealand Society of Accountants for the measurement and reporting of profits on an historical basis have been followed. Particular accounting policies used which significantly effect the measurement of the Bank's profit and its financial position are set out below:

2. *Government Stock*—

(a) Government Stock is recorded at face value, adjusted by any premium paid or discount received, which is amortised or credited to Revenue over the term of the investment.

(b) Values of Government Stock:

	1982	1981
	\$	\$
Face value .. ..	18,581,660	15,922,870
Less: Unexpired discounts .. ..	354,851	2,941
Add: Premiums paid not yet written off .. ..	122,377	155,752
Book value .. ..	18,349,186	16,075,681
Market value .. ..	16,480,761	13,431,155

3. *Other Investments*—All investments, other than Government Stock are shown at cost price, and all are expected to realise the reported amounts at maturity.

4. *Interest*—

(a) *Interest on Investments*—Interest on Investments and Mortgages is brought into revenue during the period in which it is earned, rather than the period during which it is received.

(b) *Personal Loans*—The policy is to add interest to the full advance at the commencement of the loan, and this amount is brought into revenue during the appropriate financial year by applying the "Rule of 78".

(c) *Investment Accounts*—Interest accrued on depositors' investment accounts has been calculated at the full rate payable on the assumption that all deposits go through to maturity.

5. *Depreciation*—

(a) Depreciation is calculated on a straight line basis. The principal write off periods in use for fixed assets are:

Buildings .. ..	10 to 50 years
Office equipment .. ..	10 years
Furniture .. ..	10 years
Vehicles .. ..	5 years

(b) Land and buildings were revalued in 1982 by \$193,913 and depreciation is written off the buildings on the basis of that valuation. All other fixed assets are included at cost.

6. *Taxation*—Taxation charged against net profit recognises the effect of both current and deferred taxation as follows:

	1982	1981
Tax expense in Profit and Loss Account .. ..	303,943	186,136
Less: Deferred Tax for year .. ..	58,260	130,156

We have audited the books and accounts of the Wanganui Savings Bank for the year ended 31 March 1982 in accordance with generally accepted auditing standards, and have carried out such procedures as we considered necessary. In our opinion, the accompanying Balance Sheet, Revenue Account, Appropriation Account and Statement of Changes in Financial Position together with the notes thereon, are properly drawn up so as to give under the historical cost convention, as modified by the revaluation of land and buildings, a true and fair view of the financial position of the Wanganui Savings Bank as at 31 March 1982 and the financial result of its transactions and the changes in financial position, for the year ended on that date, in accordance with Section 29 (2) of the Trustee Savings Bank Act 1948.
