Decision No. 14/82

BRO 13/82, 14/82, 15/82, 16/82

Before the Broadcasting Tribunal

IN the matter of the Broadcasting Act 1976, and in the matter of applications for amendments to sound radio warrants in respect of networking by Radio Pacific Ltd., Foveaux Radio Ltd., Radio Otago Ltd. and the Manawatu Radio Co. Ltd.:
B. H. Slane, Chairman.
Lionel R. Sceats, Member.

Appearances: B. G. Impey for applicants. B. Hudson for Broadcasting Corporation of New Zealand.

DECISION

EACH of the applicants seeks to bring its warrant in line with the warrants issued to Hauraki Enterprises Ltd., Radio Bay of Plenty Ltd., Radio I Ltd., Radio Otago Ltd. (in respect of 4XO), Independent Broadcasting Co. Ltd. and Capital City Radio Ltd. Those warrant holders made a previous application which after interim decisions of the Tribunal (Decisions 5/80 and 16/80) were superseded by a final decision of the Tribunal to permit networking. (Decision 2/82).

We shall shortly refer to the slightly different position of Radio Pacific.

The general position is that each of the applicants seeks to have the existing prohibition on networking deleted and to amend the warrant in terms of the networking clause as

determined by the Tribunal. This is intended to result in a uniformity of clause in respect of each of all the private commercial radio stations.

We received evidence in support of the application from Mr J. K. Iles, secretary of the Independent Broadcasters Association, and in respect of the Radio Pacific application from Mr Michael Jack, managing director of the applicant company.

The amendment approved will follow that of other warrants with a general prohibition in terms of the Act and exceptions as applied for. Therefore a general prohibition should remain in each warrant.

The warrants with the exception of Radio Pacific will be amended as follows:

"The warrant holder shall not—

- (a) Form or join in forming, or enter or be or become a member of, any network of broadcasting stations, or any other association or organisation of broadcasting stations formed for the purpose of making arrangements for the provision of programmes or the broadcasting of advertisements; or
- (b) Subscribe for or acquire, by itself or any person or company or body corporate on its behalf, any shares or interest in any such network, association, or organisation.

"The warrant holder may, notwithstanding any prohibition contained or implied in the warrant, form or join in forming or enter into or be or become a member of any network of broadcasting stations for the following purposes:

- (i) to broadcast news and current affairs programmes.
- (ii) to broadcast sports news and to broadcast sports commentaries of events of special interest.
- (iii) to broadcast musical and entertainment programmes of special interest.
- (iv) with the prior consent of the Chairman of the Tribunal or of any 2 members thereof to broadcast any other programme.
- (v) with the prior consent of the Tribunal to broadcast any other class or type of programmes.

Provided however that nothing in this condition shall permit network advertising without the prior consent of the Chairman or any 2 members of the Tribunal.

"The warrant holder will report all broadcasts made pursuant to clauses (2) and (3) to the Registrar of the Broadcasting Tribunal before or not later than 14 days after the date of broadcast. It will be sufficient compliance of this provision if in the case of a series of broadcasts notification is given of the intention to make the broadcasts setting out the frequency and duration. The warrant holder shall supply any further information required by the Tribunal about any such broadcasts."

All existing prohibitions on networking are revoked and the above clauses substituted.

Radio Pacific Ltd.

This applicant seeks the same amendments except that, under the paragraph (ii) above, the words "race commentaries" would be included so that the clause will read:

- to broadcast sports news and race commentaries and to broadcast other sports commentaries of events of special interest.

Mr Jack said that the company had made arrangements for the broadcasting of some racing commentaries.

A written objection from Hauraki Enterprises was received. The objector did not want the amendment to go further than the networking conditions imposed by the Tribunal in its decision of 5/80 on the occasion of applications by other private broadcasters.

The objector did not object to the company joining in network broadcasting of horse racing commentaries but in respect of other sports commentaries, events of special interest, musical entertainment programmes, news and current affairs programmes, Radio Pacific's warrant should stipulate networking conditions the same as for other stations.

The third point objected to was that the amendment would appear to be at variance with one of the conditions imposed in the warrant limiting the broadcast of recorded music.

The Tribunal decided to grant the application by Radio Pacific Ltd.

The first objection seems to be founded on the basis that the applicant wants a different form of amendment than that applying to other stations. This does not appear to be the case. Secondly the proposed amendment appears only to treat race commentaries (and not the broadcast of musical entertainment programmes) any differently than for other applicants.

Thirdly, the Tribunal does not see the provision to permit networking as in conflict with any restriction on the playing of recorded music. The fact that a station is permitted to broadcast means of networking does not negative any other condition imposed in the warrant. It merely permits the method of broadcast to be changed from actual origination by the station itself to the use of networking. The station will still have to comply with any condition relating to the amount of recorded music which may be broadcast.

In the case of Radio Pacific Ltd. there was no objection to the broadcasting of race commentaries and there is justification in the public interest for the grant of this application.

The warrant will be amended in the same terms as in the decision for other applicants with the exception of the paragraph (ii) which will read:

- "(ii) to broadcast sports news and race commentaries and to broadcast sports commentaries of events of special interest."

In the case of all the applications the Tribunal has carefully taken into account the reasons given in respect of the previous applications and they all apply equally to these applications.

Dated the 29th day of July 1982.

B. H. SLANE, Chairman.

Decision No. 1031

Reference No. Ind. 9/82

Before the Indecent Publications Tribunal

In the matter of the Indecent Publications Act 1963, and in the matter of an application by the Comptroller of Customs for a decision in respect of the following publication:

Sexual Secrets, by Nik Douglas and Penny Slinger, published by Destiny Books, New York, 1979.

Judge W. M. Willis (Chairman), Mesdames H. B. Dick, L. P. Nikera; Messrs J. V. B. McLinden, I. W. Malcolm.

Hearing: 25 May 1982.

Decision: 19 August 1982.

Appearances: Mr J. M. McNiece for Comptroller of Customs. Written submission from Importer, Waverley Publishing Co. Ltd.

DECISION

THIS publication was imported commercially and seized at Auckland by the Customs Department in December 1981. As the importer has disputed forfeiture the Customs Department has referred the publication to the Tribunal for classification, prior to the commencement of condemnation proceedings, pursuant to the Customs Act 1966, with the recommendation that "because of the sexual content an age restriction in this case would be appropriate".

Sexual Secrets published in New York by Destiny Books, is an outsize soft covered publication of 383 pages. The book is a serious study of Oriental sex, with over 600 illustrations included to support the text. There is no doubt that the publication is an authoritative, authentic presentation, giving a complete portrayal of Eastern sexual practices.

The Tribunal is in agreement with the submission made by Mr McNiece on behalf of the Customs Department, that "this book is considered to be a definitive study of sex and mysticism . . . and is considered to be a serious research work". The Tribunal also is in agreement with the written submission made on behalf of the Waverley Publishing Co. that "this book is a definitive and all-encompassing study of sex and Eastern mysticism . . ."

The Tribunal accepts that *Sexual Secrets* is a serious work, and on this point there is no doubt whatsoever. The inclusion of explicit sexual illustrations, especially those depicting sexual postures, raised the only real problem for the Tribunal, and it would appear that an age restriction would be appropriate to meet this concern.

The publication is therefore classified as indecent in the hands of persons under the age of 18.

District Judge W. M. WILLIS, Chairman.

BAY OF ISLANDS ELECTRIC POWER BOARD

TAKE notice that the Bay of Islands Electric Power Board proposes to take under the Public Works Act 1981, 804 square metres, being parts of Te Puia A1, Te Puia A2 and Te Puia A3, part Omanaia 36, Block II, Waoku Survey District, which is situated at Omanaia on State Highway 12, opposite and to the south-west of the Duddy's Road intersection.

The land is required for a site for a 33,000 to 11,000 volt substation to supply power to the South Hokianga area.

The taking of the land is considered essential as electricity supply to the South Hokianga at the present time is only just being maintained within the statutory voltage limits. Any future increase in load would have a detrimental effect on this voltage and the present growth rate is 6 percent per annum.

Objections by persons having any estate or interest in the land may be made to the Bay of Islands Electric Power Board, or their solicitors, Messrs Wallace, Spencer and Co., P.O. Box 8, Kaikohe, within 2 weeks of publication of this notice.

AUDITORS' REPORT TO THE TRUSTEES OF THE OTAGO SAVINGS BANK

We have obtained all the information and explanations that we have required. In our opinion proper accounting records have been kept by the Bank so far as appears from our examination of those records.

In our opinion, the financial statements give, using the historical cost method, a true and fair view of the financial position of the Bank at 31 March 1982, and the results of its operations and the source and application of funds for the year ending on that date.

Accounting Policies—The accounting policies which the Bank considers appropriate for the measurement of its results and financial position under the historical cost method are as follows:

Recognition of income—Income shown in the profit and loss account is earned in the current year and includes the amortisation of premiums and discounts on the purchase of Government and local authority stock. In the case of personal loans, the policy is to add interest to the advance at the commencement of the loan, and to bring this interest into revenue during the appropriate financial years in accordance with the "Rule of 78".

Expenditure—Interest credited to depositors: Interest on savings and current accounts represents interest credited at 31 March and the interest paid on closed accounts during the year. Investment Accounts which are credited with interest during the year have had an appropriate adjustment made for the interest accrued to 31 March.

Other Expenses—Other expenses, including expenditure on computer programme development are charged to the accounts in the year in which the expenditure is incurred.

Depreciation—Fixed assets, other than freehold land, are depreciated on a straight line basis at rates estimated to write off the cost less residual value over the useful life of each class of asset.

The principal annual rates in use are:

| | |
|--------------------------------|---------------------------|
| Buildings | 1 percent to 2.5 percent. |
| Office Furniture and Equipment | 10 percent to 15 percent. |

Taxation—Taxation charged against profits for the year is the estimated expense for the year. Tax allocation accounting has been adopted by the Bank for significant timing differences in respect of accrued investment income, depreciation, capital profits and losses, and amortisations of Government and local authority stock purchases and sales.

Valuation of assets—current assets and investments: All current assets and investments are shown at cost with the exception of Government and Local Authority Stock. On the basis that this stock will normally be held to maturity, from 1 April 1980 it has been valued at cost adjusted by the amortisation of the discount or premium on purchase, calculated on a yield basis, over the term of the stock. The discount or premium is calculated after adjusting for interest accrued in the purchase price. Prior to 1 April 1980, Government and Local Authority Stock was recorded at face value.

In certain instances, low yielding Government stock has been realised for tax purposes in switch arrangements and the stock so purchased is shown at the cost of the original holding.

Changes in Accounting Policies—There is no change in the accounting policy in comparison with the previous year.

Government and Local Authority Stock—

| | Government | Local Authority |
|---|--------------|-----------------|
| Face value at 31 March 1982 | 58,108,488 | 7,152,472 |

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
31 MARCH 1982

1. *Statement of Accounting Policies—*

(a) *General accounting policies—*The general accounting policies recognised as appropriate for the measurement and reporting of results and financial position under the historic cost method of accounting have been adopted on a basis consistent with the previous year.

(b) *Recognition of income—*The income earned is recorded on an accrual basis. Interest on personal loans is calculated according to the rule of 78.

(c) *Valuation of investments—*All investments are shown at cost with the exception of New Zealand Government stock.

On the basis that Government stock will normally be held to maturity the bank considers it appropriate to record such stock at nominal value. Differences between cost and nominal value are immaterial and have been transferred to interest received or interest paid at the date of purchase.

(d) *Fixed Assets and Depreciation—*Fixed assets are valued at cost less accumulated depreciation. Depreciation has been charged using the straight line method based on the economic life of the assets.

(e) *Taxation—*Taxation charged against net profit includes both current and deferred tax. The income tax effect of all timing differences between accounting and taxation records is included under the heading "deferred taxation" in the balance sheet with the exception of those timing differences, the reversal of which are not expected to give rise to a liability for some considerable period ahead.

2. *Commitments—*Mortgages approved but not yet uplifted \$268,000.

REPORT OF THE AUDITORS

We report that we have audited the books and accounts of the Westland Savings Bank for the year ended 31 March 1982 and have obtained all the information and explanations we have required.

In our opinion the accompanying profit and loss account, balance sheet and notes represents fairly the financial position of the bank at 31 March 1982 and the results of the year ended on that date, determined in accordance with the historical cost basis of accounting and in accordance with section 29 (2) of the Trustees Savings Bank Act 1948.

THE MAORI AS HE WAS

By Elsdon Best

295 p. 1974 reprint. \$6.50 plus 85c p & p
Fifty years of public demand since this book was first published resulted in the need for reprints in 1934 and 1952. The text has been reproduced unchanged but the originals of some of the figures could not be traced and these have been replaced with similar illustrations. There have been many advances in our knowledge of Maori life since this book first appeared. The work of numerous ethnologists, and more recently archaeologists, has critically examined many of the earlier concepts, confirming some, disproving others, and altering others to varying degrees. No one has yet produced a synthesis of the results of all this scholarship and there is still nothing as comprehensive as this book of Best's to give a general account of the Maori. This book was first published when Best was 68 and thus represents the accumulated knowledge of a lifetime. It has now become a classic introduction to Maori life. Its continued availability should help the reader to obtain a basic background to old time Maori life which can be extended by further reading.

THE PA MAORI

By Elsdon Best

NATIONAL MUSEUM BULLETIN No. 6

459 p., illustrated. Reprinted 1975 \$15 plus \$1.50 p & p
The bulletin contains a wealth of information and descriptions of many Pa sites and structures. Although great advances in archaeology have modified some of the details listed by Best and some of the PAs included in the book no longer exist, the information contained in this bulletin is still an important contribution in this field and is not readily available elsewhere.

STYLE BOOK

GOVERNMENT PRINTING OFFICE

248 p. 1981 \$12.50 plus \$1.50 p. and p.
The Style Book is a guide which is addressed to all writers, editors, and public servants who prepare manuscripts for publication by the Government Printing Office. Since 1958 the Style Book has found wide acceptance, both inside and outside the Public Service which is reflected in the number of reprints made since that date. This new edition incorporates the latest amendments based on experience gained since first published. Chapters dealing with the preparation of copy, abbreviations, and compound words have been revised; new material has been added to the chapters dealing with common names of animals and plants, errors in the use of English in official writing, and terms used in printing. The introduction of metrication has required a new chapter as well as amendments throughout the book.

THE WHARE KOHANGA AND ITS LORE

By Elsdon Best

In this study of Whare Kohanga (the "Nest House") is contained data of baptism rites performed over infants of superior families only, together with other cultural ceremonies applied to infants of high birth. The information obtained was contributed by members of the Ngati-Kahungunu tribe of the North Island. The text has been retained in its original style in the belief that these basic studies should still be readily available without textual alteration.
